COMMUNICATIONS.

A communication was received from the Board of Education in relation to the action of the Synod concerning the beneficiaries from the Classis of Holland, the state of their funds, and other matters in reference to the best means of promoting the cause of education, which was read and referred to the Committee on Education.

The following report was received from the Board of Superintendents of the Theological Seminary, which was read and referred to the Committee on the Professorate.

TO THE GENERAL SYNOD OF THE REFORMED DUTCH CHURCH:

The Board of Superintendents of the Theological Seminary of the Reformed Dutch Church report:

That they met in the Theological Hall, at New-Brunswick, on Tues-

day, July 17, 1855, at 11 o'clock A.M.

The session was opened with prayer by Rev. Cornelius Van Cleef, after which Rev. John C. F. Hoes, D.D., was elected President, and Rev. Paul D. Van Cleef, Clerk, pro tem.

The following members were present:

Rev. Malcolm N. McLaren, D.D., Rev. John C. F. Hoes, D.D., Frederick F. Cornell, Richard H. Steele, " Jacob C. Sears, D.D., Samuel Y. Searle, 44 Paul D. Van Cleef, Cornelius S. Mead, Aaron B. Winfield, Edwin Vedder, Anthony Elmendorf, ~ Abraham J. Swits, Thomas C. Strong, J. Romeyn Berry, Cornelius Van Cleef, Philip Peltz, John A. Staats, Oscar H. Gregory, D.D., Cornelius E. Crispell, Jacob R. Van Arsdale, 44 Philip Phelps, 44 Alexander C. Millspaugh. John A. Lansing,

The Classis of New-York was not represented.

The students who have been in attendance on the lectures of the professors during the year are:

Of the Senior Class.

John A. De Baun, J. Sansom Jerolamon, Edward P. Livingston, Franz R. Schwedes, Franz M. Schneaweiss, Ezekiel Scudder,

T. F. Schnellen Dreussler.

Jared W. Scudder, John Van Vleck, Cornelius L. Wells, Francis N. Zabriskie.

Of the Middle Class.

E. Tanjore Corwin, James Demarest, P. M. Doolittle, J. Ferguson Harris, Josiah Markle, Anson F. Munn, John Henry Oerter, T. Dewitt Talmage,

Giles Van Derwall, John Martin Wagner, Jacob S. Wyckoff.

Of the Junior Class.

Henry E. Decker, John McC. Holmes,

James Le Fevre, J. Howard Suydam, Henry P. Thompson.

It appears that three of the members of the Senior Class are native Germans who expect to preach the Gospel to their countrymen among us in their own tongue. And three are destined to the foreign missionary field, the Messrs. Scudder, hoping to unite with the Classis of Arcot in India, and Mr. Jerolamon designing to join Messrs. Doty and Talmage in China. The above facts are as gratifying as the consideration is painful that but five remain to supply all the ordinary and numerous vacancies in our Church and the urgent demands of the Board of Domestic Missions. Surely the harvest is plenteous and the labor-

The professors furnished us with the testimony that the attention of the young gentlemen had generally been commendable. One case of delinquency, however, was noticed by them which the Board felt constrained to make the subject of serious and earnest rebuke.

The several classes were examined in the different departments of study, and the Seniors in addition on their personal piety, their views in entering the ministry and manner of preaching. On which it was resolved that the examinations be sustained, and that the members of the Senior Class be recommended to the professors for the usual certificates.

The Annual Sermon before the Board was delivered by Rev. Philip Peltz, on the evening of the first day of the session from Col. 2:19, and the address to the Students at the close of the examination by Rev. Gabriel Ludlow, D.D.

The following young men having been duly recommended by the classes for aid from the funds of the Church, on examination were accepted as beneficiaries: Josephus D. Krum, Miner Swick, Benjamin A. Bartholf, Samuel J. Rodgers, and Frederick F. Wilson. Augustus Blauvelt, having at the session of the previous year been examined, was in like manner received.

The cases of Messrs. Van Doren and Hageman, and of Mr. Peek were referred back, the two former to the Classis of New-Brunswick and the latter to the Classis of Schenectady. In view of which and the frequent recurrence of this difficulty, the Board would remind the General Synod of the importance of calling the attention of the classes to the rule which requires that a young man shall have been a member of the church for one year before he applies for aid from our educational funds, and they would respectfully suggest to the above-named classes to endeavor to make provision for sustaining the young gentlemen referred to until they shall be eligible as beneficiaries and that they pay the expenses incurred by them in attending the meeting of the Board.

The terms of the following members will expire at the next meeting of the Synod:

Rev. Talbot W. Chambers, D.D., of the Classis of New-York.

" Jacob C. Sears, D.D., " " New Brunswick.

" Aaron B. Winfield, " " Paramus.

"Thomas C. Strong, "North Long Island.
"Cornelius Van Cleef. "Poughkeensie.

" Cornelius Van Cleef, " Poughkeepsie.

" John C. F. Hoes, D.D., " Ulster.

" Richard H. Steele, " Rensselaer.

" J. Romeyn Berry, " Cayuga.

" Philip Peltz, " Greene.

On the suggestion of the Professor in the Biblical department, in order to afford an additional stimulant to continued application to this all-important branch of study, the Board recommend hereafter an examination of all the classes in the Seminary, in Hebrew, at the close of

each year.

The Synod at its last session having submitted to the Board the consideration of a change in the sessions of the Seminary, making only a single session and a single vacation in each year instead of three as hitherto, in order that the meetings of the Board may precede those of the Synod, and the incongruity of having the report of the Board lie over for nearly a year before presentation to the Synod, may be avoided; the report of the faculty states their hearty approbation of the measure, and adds that all the instructions which they now afford to the College, can, by a proper arrangement of the studies, be as easily rendered under the proposed as under the present plan. They further specify the following advantages which will accrue to the students: "Their travelling expenses to and from home will be diminished at least one half and in many cases two thirds; the time of their absence from the Institution being all brought within a single space, opportunity will be afforded to such of them as may need it to enter upon some employment which may yield them a handsome remuneration. Nor will it be deemed altogether unimportant that the graduates should be at liberty to present themselves to the churches at an earlier period of the year than at present, and before the graduates of other institutions have had an opportunity of visiting our congregations. The Board discerning the

weight of these considerations, give the proposed change their approval

and report the above to the Synod.

We learn that the Committee appointed at our last annual meeting to collect funds sufficient for the erection of a Theological Hall have thus far failed of success, and with painful emotions we learn further that the benefaction of \$25,000, generously and magnanimously made at first by the Collegiate Church for this object, and afterwards changed to its interest of \$1500 annually, for the benefit of the Theological students, has, since the late decisive and well-nigh unanimous action of the Synod, been entirely revoked. A bright prospect is thus unhappily blighted, and the sad consequences will fall heavily we fear on those now in course of preparation for the ministry, in our institutions; while it must for the present diminish the number of those who would otherwise have sought admission to them. The views of the Board in reference to the necessity of such a building, have by no means been modified; and our dependence for still achieving this object is on the living God whose are the silver and the gold, and who has said: "Lo! I am with you alway even to the end of the world." Our appeal is to the liberality of those whom Jesus the Saviour has bought with his blood, and who prefer Jerusalem above their chief joy.

In reference to the above, the following resolutions were adopted:

1. That our convictions of the need of a Theological Hall are

deepening, as its need and the expediency of its erection are discussed.

2. That we heartily approve of, and commend the plan of making earnest and immediate application to all our churches for the funds needed for its erection.

3. That we will use our influence in our respective classes in aiding the Committee of Synod in procuring said funds.

Respectfully submitted.

JOHN C. F. HOES, President. P. D. VAN CLEEF, Stated Clerk.

Jersey City, Oct. 22d, 1855.

A copy of a report of the Committee on Synodical Minutes adopted by the Classis of New-York in relation to various subjects acted upon by the Synod at its last session, was received, read, and referred to a special committee, consisting of Rev. John C. F. Hoes, Oscar H. Gregory, and William Reiley, and the Elders Teunis A. Waldron and Garrit G. Bergen.

A remonstrance against the reception of the North-Carolina Classis, signed by certain individuals of the church at Hastings upon Hudson, was received.

A communication was received from the Professors of the Theological Seminary, recommending certain individuals as suitable persons to be placed on the Van Benschoten Fund, which was referred to the Committee on the Professorate.

The following report was received from the Committee appointed

to procure the erection of a Theological Hall, which, having been read, was referred to the Committee on Education.

The Committee appointed "to procure the erection of a Theologi-

cal Hall" respectfully submit the following report:

The Committee, in compliance with instructions, took the earliest opportunity to present, in the name of the Synod, a respectful and earnest request to the Consistory of New-York "to restore their most liberal grant of \$25,000 to its original form." To this request the Committee have received no official answer.

The failure to obtain funds from this source has, however, been more than made up by the magnificent donation of \$30,000 by Mrs. Anna Hertzog, of Philadelphia, for the erection of a hall, to be called

the Peter Hertzog Theological Hall.

This act of noble Christian benevolence has been followed by another, worthy to be associated with it. Col. James Neilson, of New-Brunswick, has given and deeded to the Synod a lot of ground, valued at \$14,000, delightfully situated, and measuring some 300 feet by more than 700. This lot extends from George street to within 166 feet of College avenue. The desirableness of having it reach to the avenue led to other instances of benevolence which it is our pleasure to report.

Mr. David Bishop generously offered to give a lot, valued at \$1200. Col. Neilson cheerfully added another to his former munificent grant, and Mr. Charles P. Dayton kindly gave so much of his property as lay between the original lot given by Col. Neilson, and the street. Nothing remained to give completeness to the Seminary grounds but one lot, which the Committee have procured by purchase.

The whole amounts to about six acres.

Along the whole front of these grounds, extending from College avenue to George street, the Common Council of the city have laid a street of 80 feet in width. This, while it greatly enhances the value of the adjacent property, will, of course, involve the owners in some expenditure for grading, etc. The Committee are quite confident that Synod will be prompt to make provision for this incident to the possession of a very valuable property.

A plan has been adopted, contracts, within the prescribed limits, have been made; and the work is now in progress, under heavy bonds, to be completed on or before the 1st of September, 1856.

With Divine permission the corner-stone will be laid on Thursday, the 8th of November.

All which is respectfully submitted.

S. A. VAN VRANKEN, Chairman.

New-Brunswick, October 22, 1855.

A communication was received from the Rev. Burr Baldwin, General Missionary of the Presbytery of Montrose, in relation to a bequest made to the Synod, by the late Miss Arabella M. Bosworth, of Poughkeepsie, for the purpose of sustaining missionary labors in the county

of Susquehanna, in Pennsylvania, which, having been read, was referred to the Committee on Domestic Missions.

An extract from the Minutes of the Classis of Schoharie was received in relation to the application of the North-Carolina Classis to be received into connection with the Reformed Protestant Dutch Church, which was read.

A communication was received from the Rev. T. W. Chambers, D. D., declining his appointment as Chairman of the Committee to raise a Church Building Fund, made at the last meeting of the Synod, which was referred to the Committee on Domestic Missions.

A request was presented by the delegate from the Classis of Cayuga, on behalf of the Consistory of the Church of Utica, that the Synod would unite with the corporation of that Church in a proper conveyance of the church property, if at any time hereafter it should be deemed expedient to dispose of the same, for the purpose of effecting a new location; the request together with the documents accompanying it, was referred to the Committee on the Professorate.

A communication was received from the delegates of the Classis of Wisconsin, appointed to attend the present meeting of the General Synod, expressing the views of said Classis upon subjects claiming the attention of Synod.

A communication was received from the Classis of Albany, asking a dispensation for Rev. Mr. De Roie, from examination in the Ancient Languages, which was laid upon the table.

ARTICLE V.

CORRESPONDENCE.

A letter was received from the Synod of the Reformed Dutch Church in Africa, in answer to the one sent to them by order of the General Synod, which convened in June, 1854, which was read and referred to the Committee on Correspondence.

A communication was received from the Rev. John Leyburn, D.D., Stated Clerk of the General Assembly of the Presbyterian Church in the United States, in relation to the action of the Assembly, on the subject of the complaint against the Presbytery of North River, in reference to the Church at Kingston, etc., and expressing the regret of the Assembly, that there should have been any cause for complaint or recrimination between the two churches, which was read and referred to the Committee on Correspondence.

The Rev. G. William Welker, of the German Reformed Classis of

North-Carolina, appeared in Synod, and having produced testimonials of his appointment, was recognized as a Commissioner from said Classis for the purpose of effecting an ecclesiastical relation with the General Synod of the Reformed Protestant Dutch Church.

Whereas, A communication was received from the Rev. Dr. Bonner, Convener of the Committee of Correspondence of the Free Church of Scotland, suggesting the desirableness of a correspondence of the Assembly of that Church with the Synod of the Reformed Protestant Dutch Church of North America; and whereas, the Rev. M. Van Doren, who had attended the session of the Assembly of said Church, was invited to state what he knew on the subject, and stated that he had some very interesting documents in relation to the subject; therefore, Resolved, That the aforesaid communication and documents be referred to the Committee on Correspondence, to report to the next meeting of the General Synod.

Synod took up the consideration of the subject of the application of the North-Carolina Classis, to be received in connection with the Reformed Protestant Dutch Church. The documents in the case, together with the action of the last meeting of the Synod, were read.

The remonstrance from certain individuals belonging to the Church of Hastings on the Hudson, and extracts from the Minutes of the Classes of Philadelphia, Schoharie, and Montgomery, in relation to the application, were read.

The commissioner from the North-Carolina Classis was heard.

That part of the report of the Committee on Correspondence in relation to this subject, and which was accepted at the last meeting of the Synod, was taken up. It was moved and seconded, that the resolution recommended in the report of the Committee on Correspondence be adopted. It was resolved as an amendment to the resolution that the words "German Reformed," be stricken out from the name, by which it is proposed the Classis when received shall be known, so that the name shall be the "North-Carolina Classis of the Reformed Protestant Dutch Church of North America."

Several other amendments were proposed and discussed. The subject having been debated at considerable length, it was moved and seconded that the whole matter be laid on the table. The question having been taken it was decided in the *affirmative*. The ayes and nays having been called for, were taken and are as follows:

The following preamble and resolutions were then presented and adopted:

desire to treat the Classis of North-Carolina with the courtesy and kindness due to respected Christian brethren, therefore

- 1. Resolved, That the Commissioner from the Classis of North-Carolina be requested to withdraw his papers.

The Committee on Correspondence reported, and their report was accepted, adopted, and is as follows:

The Committee of Correspondence beg leave respectfully to report:

That they have received a communication from Rev. John Leyburn, Stated Clerk of the General Assembly of the Presbyterian Church, in which, by direction of the Assembly, he expresses to the General Synod, in relation to their complaint of the violation of the terms of correspondence by the Presbytery of North River, in the case of the church recently organized at Kingston, N. Y., "the deep regret felt by them that there should have been any cause for complaint or recrimination; their profound respect and strong fraternal affection for their brethren of the Dutch Church, and their desire that nothing should be allowed to weaken the ties which bind the two churches together. Your Committee recommend the adoption of the following resolution:

Resolved, 1. That Synod cordially reciprocate the above expressions of fraternal affection and esteem and their earnest desire for the strengthening and perpetuating of those ties that now bind the

two churches in Christian communion.

2. That the Stated Clerk of Synod furnish a certified copy of the

above to the General Assembly of the Presbyterian Church.

They have received an affectionate letter from the Synod of the Dutch Reformed Church of South-Africa, expressing their gratification at receiving a letter from this Synod, informing us of the flourishing state and the good prospects of their church, and their desire of the continuance of our correspondence with them. They complain of the want of teachers for their youth, at a distance from their towns and villages. They also state that there is an increasing desire of having their youth instructed in the English language, and intimate that men of good moral character and of moderate education who might be disposed to emigrate from our church to their country, as teachers among their agricultural population, would find ready employment.

A letter has been received from Rev. Dr. Bonner, Chairman of the Committee of Correspondence of the Free Church of Scotland, expressing a wish that a correspondence may be opened between that church

and ours. Your Committee offer the following resolution:

Resolved, That this Synod are gratified to receive the intimation that the opening of a correspondence will be acceptable to the Free Church of Scotland, and cordially accede to such an arrangement.

SAMUEL B. HOW, Chairman.

Resolved, That Rev. Messrs. How, Vanderveer, Crispell, and the Elders, Van Arsdale and Shutts, be a Committee to open a correspondence with the Synod of the Reformed Dutch Church in South-Africa, and also with the Free Church of Scotland.

ARTICLE XI.

CUSTOMS AND USAGES.

Synod took up the subject of the Revised Liturgy, the consideration of which had been postponed to this session.

The Stated Clerk announced that, in conformity with the order of the last Synod, 250 copies of the Revised Liturgy had been printed for the use of the Synod, and that he had sent a copy by mail to every member of the Synod. Those now present who had not received a copy of the same, were furnished therewith.

The form for the administration of the Lord's Supper, as submitted by the original committee, and that reported by the special committee, were considered. Several amendments were proposed, discussed, and adopted. When the following resolutions were adopted:

Resolved, That the two reports upon the subject of the Liturgy of the Reformed Protestant Dutch Church, be referred back to the original committee upon that subject, and that they be required to report the result of their deliberations to the next meeting of General Synod, and that the consideration of the whole matter be deferred until that report comes in.

Resolved, That Rev. Harvey D. Ganse be substituted on the Original Committee on the Liturgy in the place of the Rev. Duncan Kennedy, D.D.

Resolved, That if the Committee on the Liturgy deem it necessary to print a new edition of the Liturgy, they be allowed to print 500 copies, and that 250 copies be left at the Board of Publication Rooms for sale.

ARTICLE XII.

SCHOOLS AND CHRISTIAN EDUCATION.

Resolved, That it be referred to the Committee on Education to report upon the propriety of having a sermon preached upon the subject of education for the ministry, at the regular meetings of this Synod.

The Committee on Education reported, and their report was accepted, adopted, and is as follows:

The Committee on Education beg leave to report, that several papers referred to them have received their consideration.

In reference to a communication from the Board of Education, they

present the following.

At the late session of Synod, an act was passed, allowing certain young men who are studying, with a view to the Gospel ministry, in the Holland Academy, under the care of the Classis of Holland, to pursue a portion of their studies in that institution, instead of entering at once into Rutgers College.

Since the adjournment of the Synod in June, a request has been presented from a member of the Classis of Holland, that the examination required by the Synod before the Board of Superintendents, may, in the case of these Holland youth, be conducted by some of the

brethren who compose the Classis of Michigan.

From the consideration of the distance, and the expense of the journey to New-Jersey, to appear before the Board of Superintendents, your committee recommend the adoption of the following resolution:

Resolved, That the Rev. Messrs. Schultz and Kershow, members of the Classis of Michigan, and Rev. Mr. Van Raalte, of the Classis of Holland, be a committee to conduct the examination of the above-mentioned young men, and of such other students for the ministry as are

under the care of the Classis of Holland.

The communication from the Board contains a statement of the following facts, namely: That they have now twenty young men receiving aid from their funds; that seven new beneficiaries are recommended by the professors and Board of Superintendents, which number will perhaps be raised to nine; and that if the five mentioned in the letter received from a member of the Classis of Holland be added, it will make an increased demand upon the funds of more than \$2000. That the support of the Missionary Teacher in the Holland Academy draws, annually, from the treasury an additional sum of \$400.

But though the Board have used all the means at their command to increase the amount of their funds, but thirty-one churches out of our three hundred and thirty-five, have sent in their contributions; and

that the whole amount received is only \$1679.97.

In view of this state of things, the Board ask permission of the General Synod, to appoint a Corresponding Secretary, to whom this whole subject may be committed. Your Committee, for the purpose of bringing this subject before the Synod, but without expressing an opinion as to the propriety of the measure, present the following resolution:

Resolved, That the Board of Education be empowered to appoint a Corresponding Secretary, at a salary not exceeding one thousand dollars per annum, to whom the subject of increasing the education funds

shall be committed.

A resolution has been placed in the hands of your Committe, relating to the subject of an annual sermon to be preached before this body upon the subject of education for the Gospel ministry. They would present for consideration the following resolution:

Resolved, That this Synod direct that a sermon, in behalf of the Board of Education, be preached before them at each annual meeting.

In reference to the Theological Hall, and the communication of the Committee on the Hall, the following resolutions are recommended for adoption:

Resolved unanimously, That the Synod have heard with joy the good news, that in the providence of God, sufficient funds, with a sufficient site for the erection of a Theological Hall, have been obtained.

Resolved unanimously, That the Synod offer devout thanks to Almighty God, for this signal proof of his kindness toward his Church,

and our school of the prophets.

Resolved unanimously, That the Synod tender to Mrs. Anna Hertzog, of Philadelphia, their most respectful and grateful acknowledgments of her prompt and munificent gift of thirty thousand dollars, for the erection of a Theological Hall, (to be used by the Theological Seminary of the Reformed Dutch Church;) and that while they cheerfully respond to her desire that it shall bear the honored name of her deceased husband, they pray most earnestly that the great Head of the Church will render it a source of the largest satisfaction to the founder, and of unbounded usefulness to the Church which rises up to call her blessed.

Resolved unanimously, That the Synod also gratefully acknowledge the liberality of Col. James Neilson, of New-Brunswick, in giving a large, eligible, and valuable site, on which to erect the "Peter Hertzog Theological Hall," and that they highly appreciate this generous act to benefit the institutions and rising ministry of a Church with which he is not immediately connected, and which will ever cherish the memory of his great and timely kindness.

Resolved unanimously, That the sincere thanks of the Synod be given to David Bishop, Esq., of New-Brunswick, for his handsome donation of four valuable lots of ground; and to Charles P. Dayton, also of New-Brunswick, for his kind contribution of sufficient land to

extend the site of the Hall to its present ample dimensions.

Resolved, That certified copies of these resolutions be sent to Mrs. Hertzog, Col. Nielson, Mr. Bishop, and Mr. Dayton.

All which is respectfully submitted.

GEO. W. BETHUNE, Chairman.

Rev. Mancius S. Hutton, D.D., was appointed to preach the annual sermon on education, before the next Synod; and Rev. John B. Alliger was appointed his secundus.

ARTICLE XIV.

PROFESSORATE.

Certain resolutions were presented in relation to increasing the salaries of the Professors in the Theological Seminaries, which were referred to the Committee on the Professorate.

The Committee on the Professorate reported, and their report was accepted, adopted, and is as follows:

The Committee on the Professorate beg leave to submit the following as their report. There has been placed in their hands a communication from the Theological Faculty, presenting the names of four individuals as suitable persons to receive aid from the Van Benschoten fund. Your Committee recommend the adoption of the following action. Resolved, That Messrs. Henry H. Loring, and Frederick W. Anthony Riedel of the Theological Seminary, and Uriah D. Gulick, of Rutgers College, and Andrew Hegeman, of the Grammar School, be placed upon the Van Benschoten fund.

There has also been placed in their hands the annual report of the Board of Superintendents, for the present year. This report represents the affairs of the Seminary in a happy and prosperous condition, the Professors attesting that "the attention of the young men had been generally commendable," reporting but a single case of delin-

quency, which was brought to the attention of the Board,

Regret is expressed that while the harvest is plenty, the laborers are few. Let the churches heed the command of the Master, to pray the Lord of the harvest that laborers be sent forth. The total number of students as given by the report is 27. The graduating class numbered 11, 3 of whom are now on their way to the missionary fields, the Messrs Scudder hoping to join the Classis of Arcot in India, and Mr. Joralamon designing to join Messrs Doty and Talmage in China.

Three of the persons recommended by the classes for aid from the funds of the churches could not be received on account of informality in the recommendation; and in view of the frequent recurrence of this difficulty, the Board desire the attention of the classes to be called to the rule of Synod, which requires that a young man shall have been a member of the church for one year before he applies for aid from the educational funds.

The Board at the request of the Professor of Biblical Literature, recommend an examination of all the classes in the Seminary, in Hebrew, at the close of each year. Your Committee recommend the adoption of the following resolution: Resolved, that the yearly examination in He-

brew be extended to all the classes of the Seminary.

In reply to the question whether it is expedient to change the time of the annual meeting of the Board of Superintendents, and the term of the theological year, the Board report, that having consulted with the members of the Faculty, they are prepared to recommend that the

theological year shall consist of a single session.

Their report says: "The Faculty state their hearty approbation of the measure, and add that all the instructions which they now afford to the College, can by a proper arrangement of the studies, be as easily rendered under the proposed as under the present plan." They further specify the following advantages which will accrue to the students. "Their travelling expenses will be diminished at least one half, in many cases two thirds. The time of their absence from the Institution being all brought within a single space, opportunity will be afforded to such as

may need it to enter upon some employment which may yield them a handsome remuneration." Other considerations of weight also are presented. In connection with this expression of the Theological Faculty, there has been placed in the hands of your Committee the action of the Board of Trustees of Rutgers College authorizing their Committee appointed for the purpose of altering the time of the annual commencement, to confer with the Synod's Committee, and so arrange it that the commencement be held on the Thursday immediately preceding the fourth of July, requiring the fall session to commence on the 20th day of September. Having conferred with this Committee of the Trustees, your Committee recommend the adoption of the following resolutions:

Resolved, That the term of the Theological Seminary commence on the Twentieth day of September, to continue until the third Tuesday of May, with an interval of eight or ten days at the Christmas

Holidays.

Resolved, That the annual meeting of the Board of Superintendents

be held on the third Tuesday of May.

By this arrangement the report of the Board will no longer have to lie over nearly a year, before presentation to the Synod. And as the senior class of the College, to which the instruction of our Theological Professors is chiefly or wholly confined, leave a month prior to the day of commencement, but a few days will elapse between the closing examination of the Seminary and that of the graduating class of

the College.

The subject of a Theological Hall is brought again to the notice of the Synod, with a request that earnest and immediate application be made to all the churches for funds for its erection. This all, under the kind Providence of God, has been settled by the timely and abundant liberality of those whose names will be held in pleasant and honored remembrance. Let that Hall rise a noble monument of the pious heart that endowed it, provoking many to like deeds of generosity, and proving in all its history that God honors the act of the cheerful giver.

Your Committee have had under consideration the resolutions of the Synod, relative to the increase of the salaries of the Professors in the Theological Seminary. They would most cordially recommend the

adoption of the following resolutions:

Resolved, That the salaries of the Professors of the Theological Seminary be \$1800 per annum, payable quarterly, commencing 1st December next, together with the free use of the dwellings those residing in the College now occupy.

Resolved, That the sum of \$300 per annum, payable quarterly, commencing December 1st, be allowed the Professor of Biblical Litera-

ture until provision be made for his residence.

An application from the Consistory of the Reformed Dutch Church of Utica, in reference to a deed of their church property, has been submitted to the attention of the Committee. They recommend the adoption of the following preamble and resolution:

Whereas, in the deed by which the church of Utica hold their church

property, there is a provision that they can not dispose of the same without consent of Synod, and whereas a request has been presented by the Consistory, that in their present circumstances it is important

that they obtain such permission; therefore,

Resolved, That when the Consistory of the Reformed Protestant Dutch Church of Utica are prepared to erect a new church edifice, this Synod will unite in a transfer of the present property, on condition of the church's allowing to be incorporated in the new conveyance a provision to the same effect as that contained in the deed by which their present title is held, and that the Board of Corporation be authorized to act in behalf of Synod, whenever their action shall be required.

A. POLHEMUS, Chairman.

ARTICLE XVIII.

MISSIONS.

Synod took up the subject of establishing a Sustentation Fund, the consideration of which was referred to the present meeting, (vol. 8, p. 609.) The plan for the same, which was presented at the late meeting of Synod, was amended, adopted, and is as follows:

1. Resolved, That this Synod shall direct the raising of a fund, to be called a Sustentation Fund, the interest of which shall be applied for the relief of clergymen, and the families of deceased clergymen, when such need aid, unless donors shall direct that their entire donations shall be distributed.

2. Resolved, That the officers of the Board of Direction of the Cor-

poration shall be the officers of the trust.

3. Resolved, That each Classis under the jurisdiction of this Synod, be requested to appoint one Minister and two Elders, whose duty it shall be to solicit benefactions from individuals, and annual collections from all the churches within their bounds.

4. Resolved, That in order to receive aid from this fund, an application must be accompanied with a recommendation from the Classis

within whose bounds the applicant resides.

5. Resolved, That the committee to be appointed by Synod, shall determine the amount of appropriations, and make such rules with regard to the fund as they may deem best, subject to the revision of Synod.

6. Resolved, That a circular be addressed to each Church under the care of Synod, requesting it to make an annual collection for this

fund.

7. Resolved, "That each Classis shall add a lemma on this subject."

The following rules for the distribution of the fund were adopted:

PLAN OF THE SUSTENTATION FUND OF THE REFORMED PROTESTANT DUTCH CHURCH.

1. The Fund shall be called "The Sustentation Fund of the Reformed Protestant Dutch Church;" and shall be administered by the Board of Corporation of the General Synod of said Church, during the

pleasure and under the control of General Synod.

2. The said fund shall be used for the support of, or to aid in the support of, disabled ministers, and the families of deceased ministers, when such may be in need. Should there be any surplus, after supplying the above, to aid in the support of those ministers whose congregations can not give them proper support, or who may be without a charge.

3. Should there be at any time more money belonging to the fund than may be immediately required, the same shall be deposited on interest in the New-York Life Insurance & Trust Company, or in the United States Trust Company, in the city of New-York; or it may be loaned on the Stocks of the City or State of New-York, or of the United States.

4. The officers of the Board of Corporation shall be the officers of The Treasurer's duty shall be to collect the income and

make all payments.

5. The classes under the care of the General Synod are requested to make a Committee on Sustentation, and the churches are requested

to take up a yearly collection for the fund.

- 6. The maximum amount to be paid to any out of the fund shall be: To a minister disabled by sickness or age, two hundred dollars per annum, and an additional sum of one hundred dollars per annum, if he has a wife living; and likewise an additional sum of fifty dollars per annum for every child under sixteen years of age. the widow of a deceased minister, as long as she continues unmarried, two hundred dollars per annum; and an additional sum of fifty dollars per annum for every child under sixteen years of age. children of elergymen, both of whose parents have deceased, seventyfive dollars per annum each, until they attain the age of sixteen years. To ministers not receiving sufficient support from their congregations, or otherwise, a sum, which, with what they may receive otherwise, will not exceed the sums allotted to disabled ministers and their families, as before mentioned.
- 7. Should the income of the fund not be sufficient for the above, the officers of the Board shall distribute the fund, dividing it amongst the applicants as they may deem best, commencing, however, in the order of distribution as prescribed in section second. Should the fund admit of larger appropriations, the maximum may hereafter be increased.
- 8. Applications for aid must be accompanied by a satisfactory recommendation from the classis to which the applicant belongs.

9. A full report of the receipts, disbursements, and proceedings of

the Board shall be made each year to the General Synod.

The above plan has been prepared for a Sustentation Fund, not to interfere with the Widows' Fund; leaving the latter to accumulate for the benefit of those able to contribute to it, and placing both funds under the same officers.

The Committee on Domestic Missions reported, and their report was accepted, amended, adopted, and is as follows:

Your committee to whom was referred the petition of Rev. Mr. Baldwin, of Montrose Presbytery, respectfully report that they have examined the documents placed in their hands, and collected the following facts. These facts refer to the bequest of Miss Arabella M. Bosworth, in its cause and intention, the way in which the design of the benevolent donor has been executed by the legatees, and the petition of the Montrose Presbytery to this Synod, in reference to the legacy.

As it regards the bequest of the donor in its cause and intention, we are thus informed: Miss Arabella M. Bosworth, while on a visit to her relatives residing in the town of Rush, Susquehanna Co., Penn., was deeply affected with the entire destitution of Gospel privileges in that section of country. The people were not only living without God and without hope in the world, but were without those means of grace by which men are made acquainted with God, and cheered with the hope of a blessed immortality. They were without a sanctuary in which the Divine Name might be recorded, and without an accredited ambassador from the King of Zion. To meet in part this destitution, she bequeathed a sum of money, which, with the interest, is now a little more than a thousand dollars. That part of the will which relates to this bequest, is thus expressed: "I give whatever sum of money is left, to the Home Missionary Society of the Dutch Reformed Church to support a missionary in Susquehanna county, in Pennsylvania, as long as the means given by me of support shall last." It is clear from this phraseology that Miss Bosworth intended the sum bequeathed to be used for the support of the Gospel in the destitute portion of Susquehanna county. She expressly says, for the support of a missionary in the above-named county. It is equally clear that she makes this Synod her agent in fulfilling this intention. She makes your reverend body responsible for the preaching of the Gospel in this destitute region, as far as the amount bequeathed by her will extend. So much for the cause and intention of Miss Bosworth's bequest.

The next point your committee would respectfully submit for consideration is, the way in which the design of the benevolent donor has been executed by the legatees. There is nothing on the face of her will which warrants the supposition that she intended the sum bequeathed to be placed at interest until it should increase to thousands, while in the interim, the souls, over which she yearned, should die and go up to the judgment, uncared for and unwarned. Her language is as if she had said: As soon as I am gone, and the amount bequeathed

for the purpose is placed at your discretion, send the man of God to this destitute people; and continue him there at least to the extent of my bequest. Your committee can not give any other interpretation to the donor's language. Now, how have the legatees fulfilled the intention of Miss Bosworth? The sum secured has been placed at interest. Nine years have passed on with their fearful record to eternity, carrying with them, beyond the reach of the Gospel, some of the very souls for whose salvation this money in its principal was appropriated. Doubtless, in this arrangement our Board of Missions considered that there was no nucleus for a Reformed Prot. Dutch Church in that part of Susquehanna county covered by the intention of the donor. there is not now, if your committee are credibly informed, any prospect that for years to come, there will be a nucleus for a church of our persuasion under the present arrangement. The sum bequeathed by Miss Bosworth may remain at interest and accumulate until the present generation have all passed away from Susquehanna county without the Gospel, but every dollar of it will be unrighteous gain, and at the expense of souls. For the benevolent intention of the donor is not fulfilled by the accumulation of the sum bequeathed.

The next point suggested for consideration by the documents in the hands of your committee, is the petition of the Montrose Presbytery addressed to this Synod. From this petition it appears that the section of Susquehanna county referred to in the will of Miss Bosworth, is in the town of Rush, twelve miles south-west of Montrose. In this town, through the exertion of Rev. Mr. Baldwin, an enterprise, under the care of the Montrose Presbytery, has been commenced. When the church edifice now in progress shall be completed, the Presbytery propose settling a pastor over the congregation. And to aid them in sustaining the stated means of grace, they ask of this Synod the in-

terest of the Bosworth legacy. (See petition, last paragraph.)

Your Committee feel that this petition embraces some points of no easy solution. Can this Synod, in making such an appropriation, fulfill the wishes of the testatrix? She has made this Synod the trustee of her bequest, and to carry out her intention literally, there must be secured to the inhabitants of Susquehanna county the services of a missionary, under the care of our own Domestic Board, so long as the means of support given by her shall last. If she had no denominational preferences, the sum bequeathed might have been intrusted to the Methodist or Presbyterian Board of Missions. But she had her preferences, and they were that the means of grace should be sustained in this destitute region, according to the policy, the catechisms, and the customs of her own Church.

With these considerations, your committee beg leave to submit the

following resolution:

Resolved, That this whole subject be referred to the Board of Domestic Missions, with instructions to make immediate use of this fund in the interests of the Reformed Dutch Church, in Susquehanna county, Penn.

The committee to whom was referred the communication of Rev. Dr. Chambers, offering his resignation as chairman of the Committee

of the Church Building Fund, report that they consider the experience of Dr. Chambers, in carrying out the design of the Building Fund, as too valuable to be lost. Your committee therefore respectfully present the following resolution:

Resolved, That the request of Dr. Chambers be granted; that Dr. Abeel be chairman, and Dr. Chambers be continued as one of the

Committee.

J. S. LORD, Chairman.

Whereas, the Synod have been informed, that Rev. Mr. Jerolamon and his wife take their departure for Amoy on Thursday morning,

Resolved, That a Committee of Five be appointed to wait on them at the time of their departure, and bid them farewell in the name of the Synod.

The following were appointed as said Committee: Rev. Samuel B. How, James Scott, Edward P. Stimpson; and the *Elders* Edward C. Cook, Charles Wurts.

The Committee reported, and their Report was accepted, adopted, and is as follows:

The Committee appointed by the General Synod to wait on the missionaries, Rev. John Jerolamon and wife, at the time of their departure on the 25th, and bid them farewell in the name of the Synod, respectfully report that they discharged the duty assigned to them.

JAMES SCOTT, Chairman.

ARTICLE XXI.

PARTICULARIA.

One hundred copies of a pamphlet, entitled "A Memorial of the Rev. Jacob Brodhead, D.D.," were presented to the Synod by J. Romeyn Brodhead, Esq., and distributed among the members.

Resolved, That the thanks of the Synod be given to J. Romeyn Brodhead, Esq., for the copies of this Memorial presented to the members.

An invitation was received from the American Institute to visit the Exhibition of American Manufactures, now being held in the Crystal Palace. Whereupon it was

Resolved, That their invitation be accepted; and that the Synod will visit the Exhibition of the American Institute on Thursday evening, at seven o'clock P.M.; and that the thanks of the Synod be returned to them for their politeness.

An invitation was received from the Corresponding Secretary of the American Bible Society to visit the Bible House, and examine its presses, machinery, bindery, etc., whereupon it was

Resolved, That the invitation be accepted.

The Committee, to whom was referred the communication from the Classis of New-York, (Art. III,) reported, and their report was accepted, amended, adopted, and is as follows:

The Special Committee, to which was referred a communication from the Classis of New-York, would respectfully report, that the only matters claiming their attention are found on pages 608, 609, 613, and

616 of the Minutes of the last General Synod.

The subject referred to on p. 609 is that of raising a "Sustentation Fund," the interest of which shall be applied for the relief of disabled clergymen and the families of deceased clergymen, when such need aid. The consideration of this whole subject was in June last postponed to the present time; and, having been regularly brought before

this body, still awaits its final action.

The raising of \$25,000, as a Church Building Fund, is the subject referred to on pp. 607, '8, '9. The General Synod of 1854 appointed a committee, consisting of Rev. T. W. Chambers, Gustavus Abeel, O. H. Gregory, and the Elders Abraham Van Nest and Albert Chrystie, to prepare a circular, setting forth the details of the plan and its claims, and generally to aid in the accomplishment of the enterprise. This Committee made their report to the General Synod in June last. The Synod having adopted their report, approved of the plan submitted, and intrusted the whole matter to the same Committee for another year.

On pp. 613 and 616 is found the action of Synod, at its last meeting, touching the Board of Publication. The General Synod of 1853 appointed a Committee to inquire into the practicability of establishing a permanent Board, to be called the "Board of Publication of the Reformed Protestant Dutch Church;" and, if expedient, to submit a plan for the same, and report to General Synod in 1854. At that time the Committee reported, and the Synod unanimously resolved, that it is both expedient and practicable to organize a permanent Board of Publication, and the necessary steps were taken to bring said Board into existence. Their first Annual Report was submitted to this body in June last, and received its unanimous approbation.

These two latter objects are the creatures of the General Synod; and it is for her to say what she shall do with them. If by their creation, in connection with the objects of general and domestic charity, the claims upon the liberality of the churches are unduly multiplied, and "the Synod is transgressing the bounds of a wise calculation," the most that can be done at the present time is, not to destroy the children she has already brought into existence, but extend to them her parental care, and suffer these considerations to exert a con-

trolling influence for the future.

Respectfully submitted.

JOHN C. F. HOES, Chairman.

New-York, Oct. 24, 1855.

So much of the above report as refers to the Sustentation Fund was referred to the Committee on that subject.

Resolved, That the Treasurer of General Synod be directed to invest any moneys found in his hands, belonging to the Church Building Fund, for the benefit of said fund.

The students of the several classes were examined on the various studies pursued in the Seminary. The senior class, in addition to their ordinary subjects of examination, gave specimens of sermons as to composition, analysis, and delivery. They were also examined on experimental religion, and the evidences of a call to labor in the duties of the Gospel ministry. Their examination being well sustained, they were unanimously recommended for their professoral certificates,

with the exception of Mr. Josiah Markle, in reference to whom the following resolution was passed:

Whereas, Josiah Markle has been absent from the exercises of the Seminary for a large proportion of the regular term of three years, during which he has been a member of the Seminary, and, whereas, the sermons which he has laid before the Board, do not give sufficient evidence of his ability to preach the Gospel unto edification, therefore,

Resolved, That the said Josiah Markle be advised to continue the prosecution of his studies in the Seminary during another year.

The sermon before the Board was preached on the evening of the first day of the session, by the Rev. M. N. McLaren, D.D., from Rom., chap. 1, v. 16.

The address to the students, at the close of the examination, was

delivered by the Rev. C. E. Crispell.

The following persons were examined and recommended to the Educational Funds of the Church, with a view to prosecute their studies for the Gospel ministry:

Isaac Bailey, Holloway W. Pierce,	from the	Classis of	New-Brunswick.
Philip Furbeck,	, ,,	66	Schenectady.
Edward W. Bogardus,	46	46	Schoharie.
John R. Rhinehart,	"	"	Orange.

Isaac Bailey and Holloway W. Pierce are recommended to the Van Benschoten fund.

The seats of the following members are vacant, by the expiration of their terms of service, namely:

There appear to have been no appointments for the Classis of Illi-

nois, Michigan, Wisconsin, Holland, and Arcot.

Your Committee feel that they have great reason to give thanks to the great Head of the Church, for the many blessings which have rested on our Theological Seminary during the past year. Our professors have been favored with health to continue with diligence at their posts. The attendance of the students has been punctual, and their studies prosecuted with faithfulness, and have given to their teachers pleasing evidences of piety, and of prospective usefulness in the Christian ministry.

In conclusion, we feel that our school of the prophets has increasing claim upon the sympathy, prayers, and cooperation of the churches. Our young men are yearly sent out to occupy the places made vacant by those who have long blown the Gospel trumpet, not only, but to occupy places in the Master's vineyard, hitherto but partially cultivated, while some have felt themselves constrained to preach Christ and him crucified, in heathen lands. The prospects of the Seminary are in every way encouraging. New students are presenting themselves with a view to the Gospel ministry, for the advantages of our Literary and Theological Seminary. Already the "Peter Hertzog Hall" greets our eyes. Its foundation has been laid, as we believe, with much prayer, faith, and remarkable benevolence, and will be finished during the present season. This will be an important event in the history of our Theological Seminary, and of the Reformed Dutch Church. While, then, we contemplate the history of the past, and the prospects of the future, and are ready to inquire, "Watchman, what of the night?" with gratitude and reason we can say, "The morning cometh."

Your Committee recommend the following resolution:

Resolved, That our Theological Seminary is worthy of, and ought to possess, the entire confidence, the earnest prayers, and faithful cooperation of the churches.

OSCAR H. GREGORY, Chairman.

A true copy from the Minutes.

P. D. VAN CLEEF, Stated Clerk.

A communication was received from a Committee of the Classis of New-York, requesting a dispensation in behalf of Mr. Francis Zastera, a Bohemian priest, who has applied to the Classis to be received under their care, which was referred to the Committee on the Professorate.

A communication was received from the Classis of New-York, in relation to collections recommended to be taken up by the churches for the new Boards of the Synod, which was read.

The subject contained in the same having been discussed at length, the following preamble and resolutions were adopted:

Whereas, The communication of the Classis of New-York indicates the existence of a misunderstanding upon the part of that Classis which the Synod feels it desirable to remove,

Resolved, That this Synod, in the formation of its Boards, and its recommendation of various charities to the several churches under its care, never has claimed to impose upon these churches, and the Classes in which they are embraced, an imperative obligation to contribute to such causes.

Resolved, That the Synod recognizes the unquestionable right of every Classis to express to the Synod its views of the feasibility and

desirableness of every plan of Church action which the Synod may have adopted.

Resolved, That the Synod recognizes with pleasure the constant and generous contributions of the Classis of New-York to the charities of our Church, and expresses its cordial hope that that Classis will, in time to come, hold the same place in its hearty cooperation with this Synod which it has in time past.

Communications were received from the Classes of Greene and Geneva, recommending certain individuals as suitable persons to receive aid from the Funds of the Synod, which were referred to the Committee on the Professorate.

A communication was received from Rev. William R. Gordon, tendering the resignation of his seat as a member of the Board of Sabbath-School Union. It was

Resolved, That his resignation be accepted.

Reports in relation to amending the Constitution, by adding the following to the question, in chapter ii., art. iii., sec. 8: "Are the forms for administering the sacraments read in full, before the congregation on sacramental occasions?" (vol. 8, p. 576) were received from the South Classis of New-York, North Classis of Long Island, and the Classes of Bergen, Geneva, Greene, and Washington, which were read. Whereupon it was

Resolved, That the whole subject be indefinitely postponed.

A communication was received from the Recording Secretary of the "American Systematic Beneficence Society," together with the constitution of the same, which were referred to the Committee on the State of Religion.

ARTICLE IV.

BOARD OF CORPORATION.

The following Report of the Board of Direction of the Corporation was received, accompanied with the Treasurer's Report, the Annual Digest, a list of the securities held by the Board, a list of the endowed scholarships, a list of the clerical subscribers to the Widows' Fund, and accounts-current of said Board with the Widows' Fund and the Board of Education, together with the Report of John C. Elmendorf, Esq., Treasurer of Rutgers College, in relation to the Van Benschoten and Knox Funds.

To the General Synod of the Reformed Protestant Dutch Church:

The Board of Direction of General Synod respectfully report, that

since the last meeting of the Synod, articles of agreement have been executed between the General Synod and William G. Mentz, Esq., of Philadelphia, by which the exclusive right and privilege of printing, from stereotype plates, procured by him at his own cost and expense, the Books of Psalms and Hymns, as in present use, is accorded to said William G. Mentz for five years, from 15th April, 1854—he agreeing to supply the books from time to time, as they shall be needed, in style and at prices specified in said agreement—the Synod agreeing, that upon the expiration of this contract, should Mr. Mentz no longer be continued as the publisher of the books, it will purchase the plates, if found in good condition and fit for further use, at an equitable price, to be ascertained by impartial appraisers.

According to authority given them by Synod, the Board have sold the church edifice at Brunswick, Illinois, with the bell and fixtures, for two hundred dollars, less ten dollars, which had been advanced for insurance—part payable in cash, and the remainder in six months.

As directed by Synod, the Board have paid to the Board of Education, for their current expenses, two thousand dollars, heretofore

invested by Synod for said Board.

The Rev. Isaac S. Demund, who has been transferred to a German Reformed Church in Lancaster, Pennsylvania, has requested the privilege of being continued as a subscriber to the Widows' Fund. His application is herewith presented to Synod for its action thereon.

The Synod, at its session in October last, adopted a plan of a "Sustentation Fund," and appointed the Board of Corporation, as the officers of the trust, (see Minutes, pp. 22,23.) Only two hundred and fifty dollars have been received into the treasury on behalf of this fund. The plan of the fund, and its relations to other interests and agencies, seemed to your Board to be so complex, that they have not yet been able to take any action thereon. They are apprehensive that its bearing upon the Widows' Fund, so long and anxiously cherished, and of such benign practical influence, may be injurious—perhaps It is probable that most of the subscribers to the latter will withdraw their subscriptions, and the payments already made, that they may avail themselves of the purely gratuitous advantages of the former. Other considerations of an embarrassing kind on the subjeet have also presented themselves to your Board, and they venture respectfully to suggest to Synod a revision of the plan of October last.

The Treasurer's report, herewith submitted, will show in detail and with precision, the state of the funds of Synods. These, in continuance, have been administered with care, fidelity, and success; no losses, either of principal or interest, have occurred, nevertheless the income

of Synod is not equal to the claims laid upon it.

Some years since, and for a succession of years, your Board were perplexed, and often humiliated, by a deficiency of means to meet the engagements of Synod; at length, after earnest entreaty and effort, relief was afforded, and, by constant care, they were enabled, from the income of Synod, promptly to pay its expenses, as they

occurred, stated and occasional; no surplus revenue, however, remained.

The Board, therefore, admonished by past experience, have felt themselves constrained to inform Synod in almost every subsequent Annual Report, that any increase in its expenditures would involve

the necessity of providing funds to meet them.

In October last, Synod (see Minutes, p. 20) added to their permanent expenses, eight hundred dollars per annum, and omitted to make any provision for payment of the same. The result has been that your Board have been obliged to borrow from a Bank, to enable them to meet the claims upon them. A debt already exists; and the present revenues of the Church fail, by about the above named annual amount, to satisfy its existing obligations.

It is respectfully but earnestly urged on Synod, to take immediate

measures to provide for this deficiency in some permanent way.

The investments of Synod are believed to be safe. Nine hundred dollars have during the year been added to the Widows' Fund, making the entire fund fourteen thousand six hundred and fifty dollars.

On account of the Church Building Fund, one thousand three hundred and sixty-two dollars and twenty-two cents have been received.

Abraham Van Nest, Esq., the President of the Board, and Rev. Dr. Knox, one of the Directors, are charged to give the Synod any further information that may be desired.

ARTICLE V.

CORRESPONDENCE.

The following Report was received from the Rev. Abraham Polhemus, the Delegate appointed to attend the late meeting of the General Assembly of the Presbyterian Church in the United States, which was accepted:

To the General Synod of the Reformed Protestant Dutch Church:

The undersigned, Delegate to the General Assembly of the Presbyterian Church, respectfully reports, that he attended the meetings

of that body, held in the City of New-York during the last month, and that he was received with the greatest kindness and cordiality.

An opportunity was afforded him to present to the Assembly your Christian salutations, and reciprocate those expressions of fraternal affection and esteem conveyed to us, at our last synodical meeting, through their stated clerk, Rev. Dr. Leyburn. The remarks of your Delegate were responded to by Rev. Dr. McFarland, their moderator, in words, the genuine kindness and affection of which would have touched the heart of any member of the Dutch Church. Nothing could have been more cordial; and the entire body evidently sympathized in the warm-hearted and generous sentiments uttered by their speaker. The proceedings of the reverend body were conducted not only with great dignity, but also with great harmony. They are doing a great work, and it is our duty and privilege to rejoice in their prosperity.

ABRAHAM POLHEMUS.

HOPEWELL, June 2, 1856.

Certain documents, in reference to the state of religion in Holland, and the propriety of sending a deputation to the Church in Holland, were received, which were referred to the Committee on Correspondence.

An Extract from the Minutes of the Classis of North-Carolina, in relation to the action of the last General Synod in their case, was received and referred to the Committee on Correspondence.

The Rev. A. G. Vermilye, of the Presbyterian Church, appeared in Synod, and having produced testimonials of his appointment, took his seat as a Corresponding Delegate from the General Assembly of the Presbyterian Church in the United States.

The Committee on Correspondence reported, and their report was adopted, and is as follows:

The Committee on Correspondence respectfully report, that the resolutions of the Classis of North-Carolina referred to them, do not appear to call for any action of the Synod, inasmuch as its previous action in relation to said Classis, was in its tenor final, and intended to be respectful and courteous, and has been by the Stated Clerk transmitted to the Classis, as directed by Synod.

The documents in relation to Professor De Liefde, of Amsterdam, Holland, forwarded by the Rev. Dr. De Witt, and referred to your Committee, are painfully interesting, and well calculated to awaken the sympathy of our churches. They afford testimony going to prove that the national Church of Holland, and the universities of the kingdom, have departed far from the orthodoxy of former times, and that vital godliness is generally and greatly depressed. To counteract, as far as may be, this lamentable state of things, Mr. De Liefde is instructing pious young men with a view to the propagation of the

Gospel in its purity, by their missionary labors. In this endeavor, wisely directed, he is entitled to the countenance and prayers of all good men. To obtain pecuniary aid he has recently visited Great

Britain, and written to this country.

Your Committee recommend that the subject be referred to the Rev. Dr. De Witt, to correspond with Mr. De Liefde, and express the sympathics of this Synod in his efforts to restore to the Churches of Holland a pure Gospel and a spiritual religion; and also, from other sources, to collect all attainable information respecting his enterprise, and report the same to the Synod at its next stated meeting.

They also recommend, that, should any of the ministers of our Church visit Europe during the ensuing year, they be respectfully requested previously to confer with Dr. De Witt, and to lend him their aid in obtaining the information which he is charged to procure for

the future use of Synod.

By order of the Committee.

JOHN KNOX, Ch'n.

The Committee on Correspondence, having reported a double number of persons from whom to elect delegates to the General Assembly of the Presbyterian Church, Synod proceeded to the election, when the following were chosen: Rev. Gustavus Abeel, D. D., *Primarius*; Rev. OscarII. Gregory, D. D., *Secundus*.

ARTICLE VI.

SYNODICAL REPORTS ON THE STATE OF THE CHURCHES.

In conformity with the standing regulation, the Synod spend a part of the afternoon of the first day of the session in religious exercises, conducted agreeably to a plan previously reported by a committee for that purpose, consisting of Rev. Ransford Wells and Charles D. Buck, and the Elder, John Q. Wilson.

Resolved, That the subject of making arrangements for the observance of the Sacrament of the Lord's Supper, be referred to the committee appointed on the devotional exercises of the Synod. The committee reported, and their report was adopted, and the Sacrament of the Lord's Supper was observed accordingly.

The Committee on the State of Religion reported, and their report was accepted, adopted, and is as follows:

The Committee on the State of Religion respectfully report that a careful examination of the Minutes of the Particular Synods, while it may awaken a sense of ill-desert, nevertheless calls us to the sweet experience of mercy. It is not with gloom or despondency, we survey the past year. Though a cloud may have hung over some parts of the Church, yet the smiles of the Saviour's presence have shed

their brightness upon other portions. Some surprising and cheering facts are presented, which inspire us with gratitude for the past, and trust for the future. Several of these facts the Committee single out.

1. There has been a gratifying increase in the contributions of the The Particular Synod of New-York reports: "The pecuniary contributions of the churches belonging to the Synod, furnish pleasing evidence that the Church is becoming increasingly alive to the responsibility that is upon her to give the Gospel to all the world." The Particular Synod of Albany says: "All that can be gathered, by inspection of minutes and tabular statements, shows an advance in benevolent contributions." We add, that, though, one hundred and thirty-one churches do not report one single cent, yet the remainder have collected \$86,000. Never before has such an amount been recorded. It is \$8,000 more than last year's report; \$12,000 more than that of 1854; and about \$26,000 more than that of 1853. It is encouraging to know the grace of benevolence is thus developed—that the obligations of stewardship are more and more realized. And, we believe, little springs are thus set in motion, that act not only on immortal destinies now, but that shall be perpetuated in time, and in eternity issue in wonderful and glorious results.

But the state of the treasuries of our Boards, leads us to conclude (while no doubt much has gone to the Tract, Bible and kindred institutions, to which we bid God-speed,) that payments of debts, repairs, The Synod of New-York etc., are often included in the record. name the column, "Religious and Benevolent purposes." In the Synod of Albany, it reads, "Benevolent Institutions." Now the term, "Religious," is very indefinite-it may embrace almost any contribution; while "Benevolent" belongs exclusively to outside operations; for no more than what an individual does, is what a Church does for itself, benevolence. But while it is desirable that the caption be uniform, and embrace only purely benevolent contributions, it is also desirable that sums for congregational purposes be reported. Should this require the omission of some column now in use, the art of multiplying by 5, renders the column, "Total of the Congregation," unnecessary. Or, it may be known how many were in communion, "per last report," by adding the dismissions, suspensions and deaths; and subtracting the accessions from the present number of commu-The Committee would recommend the following resolution:

Resolved, That the present column for contributions embrace only those that are strictly benevolent; and that a column for congregational purposes be added, which shall include all moneys raised for salaries, debts, church expenses, etc., and that, if necessary, the column headed, "Total of the Congregation," be dropped.

It is believed this arrangement would relieve many conscientious consistories from unjust comparisons, remove a great disadvantage, and indicate more completely the condition of all the churches, which is the first object of our Church Reports.

Whereas there has been referred to us a copy of the circular letter and Constitution of the "American Systematic Beneficence Society," the Committee would also propose the following resolutions:

Resolved, That this Synod recommend, to the individual members and ecclesiastical bodies of our Church, the practical adoption of the great scriptural principle of "giving according as the Lord hath prospered" each one.

Resolved, That it be enjoined on the Consistories to render full re-

ports of membership and contributions.

2. A second fact the Committee notice, is the cheering accessions to the Church from the world. The Synod of Albany, mourning last year the withholding of the Spirit, have had their sorrow turned into They say: "The statements of the various Classes, in regard to the progress of the Saviour's kingdom, are full of interest. We thank God, they are often grateful acknowledgments of his converting and reviving grace." The Synod of New-York say: "The evidence comes up from all the Classes, that God has not left them." And we remark that one Classis, in our bounds, report an addition of over 250 members on confession alone; two report like additions of between 200 and 250 each; and twelve between 90 and 200 each. The additions on confession are 2562, on certificate, 1483; in all, 4045. three churches do not report. Last year, the additions were, 3083, fifty-one churches not reporting. It is a question of profound significance, what relation has this increase to the enlarged benevolence of the Church? Is it not a practical comment upon God's true and faithful saying, "He that watereth, shall be also watered himself?"

3. A third cheering fact is the increase of the number of churches in our connection. Not to speak of the Classis of Arcot, and several new unreported organizations at the West, we have three hundred and seventy-four churches—an increase of at least ten. Should not the Divine blessing encourage us to lengthen the cords and strengthen the stakes of our spiritual inclosure? It can not be truly said, that the increase of our churches, the past year, has been without a cor-

responding increase of members. .

But, brethren, it is not our increase, in which we most rejoice, or for which we chiefly labor, as His, of whom it was said: "He must increase." It is for Christ, and with Christ we labor, and in Him we rejoice. He must increase. We may be clogs upon the triumphal chariot of the Redeemer, but we can not retard its blessed progress. And, whether we share in its extension or not, the glory of the cross shall tip the summits of the distant hills, and pour its splendor into the lowest vales, and the earth shall roll along its orbit a redeemed and sanctified creation.

There is danger lest our blessings should make us feel secure—lest we value increase of numbers more than increase of faith, hope, and all the fruit of the Spirit. While we have great cause for rejoicing, we have also cause for humiliation, and for redoubled exertion. The cloud has not all dispersed. Souls are perishing; and the standard of piety needs elevating. Besides, eighty-three churches are reported vacant this year, against fifty-five last year, and eighty-one ministers without charge, against seventy last year. We beg the Consistories and the churches, to receive the legacy bequeathed by the dying Seudder: "My last request to the Dutch Church is, that they may live,

and labor, and pray for the salvation of a lost world, and that they may bring up their children for this great object." Then our succeeding reports will be the records of the Divine Power, and a glory will rest upon the Church, unspeakably surpassing that of wealth or crowds.

4. One more mereiful dealing of our God we notice. The number removed by death, has not been as large, by fifty, as it was the year before. But our ministry has suffered the same diminution. Six have departed to the assembly on high—Rev. J. D. Fonda, of the Classis of Washington; Rev. J. A. Lansing, of the Classis of Watervliet; Rev. S. V. E. Westfall, of the Classis of Illinois; Rev. H. Eckel, of the Classis of Greene; Rev. B. Hoff, of the Classis of Hudson; and Rev. Mr. Gardinier, of the Classis of Holland. We shall meet them no more, till we stand with them before the great white throne. But their funeral knells are solemn strokes upon our hearts. We are admonished we soon must follow them. We are called to work while the day lasts, for the night cometh in which no man can work. But when the night-shadow has fallen, our work is not lost. Our influence projects its penumbra into eternity; and our sermons have echoes that shall reverberate through the Judgment Hall.

The Lord grant that, when the silver cord, that has run through all the web of our mortal life, is broken, and the freed soul goes upward, there may kindle before us the glories of a celestial reward, and a Saviour's welcome break, in unutterable sweetness, upon our ear.

Respectfully submitted.

CHARLES D. BUCK, Chairman of Committee.

SUMMARY VIEW OF THE REFORMED PROTESTANT DUTCH CHURCH, FOR THE YEAR 1856.

ARTICLE VII.

SYNODICAL REFERENCES.

The Committee on Synodical Minutes reported, and their Report was accepted, adopted, and is as follows:

The Committee on Synodical Minutes respectfully present the fol-

lowing report:

The Minutes of the last General Synod, at both its regular and adjourned sessions, and the Minutes of the Particular Synods of New-York and Albany, were placed in their hands, and they have carefully examined the same.

They find nothing in the Minutes of General Synod, and the Minutes of the Particular Synod of New-York, to which they deem it

necessary to call the attention of Synod.

In the Minutes of the Particular Synod of Albany, p. 9, in connection with the resolution authorizing the organization of the Classis of Kingston, is the following resolution:

"Resolved, That it be referred to General Synod, to decide to which of the two Particular Synods the Classis of Kingston shall belong."

On page 30 is the following:

"Resolved, That this Synod approve of the plan of forming a Particular Synod, to embrace the churches of our denomination in the West, and would invite the General Synod to take action upon this subject."

Respectfully submitted. N. F. CHAPMAN, Chairman.

Resolved, That so much of the above report as refers to the subjects of the Classis of Kingston, and the formation of a new Particular Synod, to embrace the churches in our denomination in the West, be referred to the Committee on Overtures and Judicial Business.

The Committee on Overtures and Judicial Business reported, and their report was adopted, and is as follows:

The Committee on Overtures and Judicial Business respectfully re-

port:

That but two subjects have been referred to your Committee. On page 9 of the Minutes of the Particular Synod of Albany, for 1856, a resolution asking of this Synod to designate to which of the two Particular Synods the Classis of Kingston, recently organized, shall belong: recommend the following resolution:

Resolved, That the Classis of Kingston be and hereby is connected with the Particular Synod of Albany.

On page 30 of the Minutes of the Particular Synod of Albany, for 1856, a resolution as to the expediency of constituting a new Particu-

lar Synod, to be composed of the Western churches. Your Committee feel gratified, that the extension of our Church west, calls for the organization of a new Synod. There are under the care of this Synod four Classes, lying west of the State of New-York, numbering, in all, about forty churches, and about twenty-five ministers, with the prospects of rapid increase of numbers. Your Committee recommend the following resolutions:

1. Resolved, That this Synod approve of the plan for the organization

of a Particular Synod in the West.

2. Resolved, That the Classes of Illinois, Michigan, Holland, and Wisconsin, be, and hereby are set off or dismissed from their respect-

ive Synods, to be organized as a new Particular Synod.

3. Resolved, That the Classes of Illinois, Michigan, Holland, and Wisconsin, severally meet, at an early day, and choose Delegates, in conformity to the Constitution, and appoint Delegates to meet on the First Tuesday of September next, at such place as they shall deem expedient, and proceed to organize a new Particular Synod, to be known as the Particular Synod of Chicago.

4. Resolved, That Rev. Isaac Ferris, D.D., and Rev. D. Van Olinda, be the committee on behalf of this Synod, to aid and assist in the organization of the contemplated Synod, and that their expenses be defrayed

by the Treasurer of the Synod.

All which is respectfully submitted.

D. VAN OLINDA, Chairman.

CUSTOMS AND USAGES.

The Committee to revise the Liturgy of the Church, submitted their report, which was accepted, and is as follows:

To the General Synod of the Reformed Protestant Dutch Church:

The Committee appointed by the General Synod of 1853, to revise the Liturgy of the Church, beg leave to submit a final report of the results of their labors. This Committee has now been in existence during a period of three years. They have held in all fourteen meetings, and have bestowed upon their work all that care and diligence which its importance demanded. Having submitted to two preceding Synods partial reports of the progress of their labors, and deriving, so far as they were able, both from Synodical action and from private conference with individuals, a knowledge of what seemed most necessary to be done towards perfecting the Liturgy of the Church, and adapting it to our present denominational necessities, the Committee have assiduously aimed to incorporate into the revision the understood wishes of the Church, thereby hoping to make it ac-

ceptable, if possible, to the great majority in our communion.

In entering upon the duties assigned them, your Committee did not understand that their appointment would change, in the least, the long established and well understood position of our Church respecting the use of a Liturgy. With her origin is identified the existence of the Liturgy. She has received it with her symbols of belief and formularies of worship. Parts of it are practically incorporated into her Constitution, and their use rendered obligatory upon all her pas-The creation of your Committee did not, therefore, intimate on the part of the Synod any intention, either to increase or diminish the just regard in which the Liturgy has been and now is held by the Neither were the Committee authorized to alter one jot or tittle of the doctrines contained in any of the offices of the old Liturgy, and accordingly they have preserved with care every statement of doctrinal truth as found therein. It will be seen by an examination of the printed copies of the Revised Liturgy, herewith presented to your reverend body, that the Committee have endeavored simply to amend the phraseology of the old forms, where they were manifestly in need of correction, to expunge in some instances, and especially from a few of the prayers, sentences which had become inappropriate or obsolete, to re-cast into a more readable form passages which, by their great length, severely tasked the vocal organs, and to abridge where abridgment was necessary, in order to avoid tedious repetitions.

Entertaining, as all the members of the Committee did, a just veneration for the Sacramental Forms for the administration of the Lord's Supper and the Rite of Baptism, they did not feel at liberty to make abridgments, such as would have been acceptable to many brethren, or equal to the unauthorized abridgments which are often made on the personal responsibility of the officiating minister. A few elisions of some sentences, and slight transpositions of some others, together with corrections in grammar and punctuation, comprise well nigh all the changes which we deemed it proper to make in these most cherished forms. In order to render the Liturgy, as revised, more complete and symmetrical, and to make it more adequate to the demands which may be made upon it, for assistance in various public duties, the Com-

mittee have inserted the Litany of Bucer, translated from his "Reformation of Doctrine and Worship," also an order for the reading of Scripture in public worship, as contained in the Holland Ritual and Bibles, and a few prayers for the more common occasions of importunate want. In addition to these insertions, they have also added a marriage service, and an installation service, compiled, in part, from the old forms for marriage and ordination, together with a burial service, composed chiefly of passages of Scripture, arranged to suit the

various occasions on which it may be required.

The Committee, desiring to meet the supposed wish of the Synod, have caused the Revised Liturgy to be printed complete, with a copious index, from which its contents may be seen at a glance. In striving to perfect this Liturgy to the utmost in their power, the Committee have shunned no labor which might further their purpose. They have examined other Liturgies—they have weighed words and phrases—they have touched and retouched, again and again, passages, both in the old and new forms, in order to secure a full Liturgical style, free from rhetorical pretension, but severely simple in the utterance of evangelical truth. The various parts of the Liturgy were assigned to sub-committees, who, after executing their tasks, returned them to the Committee of the whole, where they were subjected to repeated scrutiny and criticism.

By this severe analysis of words and phrases, repeated at each meeting, the Committee hoped to remove, as far as possible, every blemish or infelicity which the most fastidious taste would be likely to discover, for they were conscientiously desirous of executing their work in a manner that would be acceptable to all who wish our Liturgy to be, in style and completeness, adequate to the conceded wants of the Church. We have deemed it just to ourselves, and respectful to the Synod, thus to state, in detail, the results of our labors, and the method in which they were prosecuted. We do not suppose that the Liturgy, as revised, is free from possible criticism. As tastes vary, judgments will vary. As the acknowledged deficiencies of the old Liturgy had introduced almost as many changes, improvements, or substitutions, great or small, as there are ministers in our denomination, so that well-nigh every pulpit had its separate Liturgy, made up of fragments of the old, it is almost beyond our hope that the Revised Liturgy, as now presented, should at once terminate individual attachments to such improvements or substitutions as our pastors have hitherto been constrained to make. It is, however, our hope that whatever may be the strength of such personal attachments to individual and different Liturgies, they will so far yield to considerations of public utility as to allow the Church to possess a Liturgy, which, when needed, may be used, and when used, may not be regarded as unworthy of one of the eldest daughters of the Reformation.

Your Committee yield to none, in their respect for the ancestral and traditional associations which cluster around our ancient Liturgy, but we can not believe that wisdom will justify an unyielding adherence to things old, simply because they are old, when they have ceased to possess any practical value, and when they can no longer be used without putting modesty to the blush, or taste at defiance.

Being, as we are, constitutionally a Liturgical Church, yet making forms only subservient to a beautiful and consistent order, auxiliary to the promulgation of spiritual truth, the Committee have entertained the belief, that through care and diligence, they could revise and enlarge our Liturgy, so that it might soon become a welcome assistant to every pastor, and thereby secure something like general uniformity in the pub-

lic execution of pastoral duties.

Whether such uniformity is desirable—whether it shall be thought well for the Church to provide offices for religious services, which shall correspond with her standard of order and propriety, are questions which the Committee supposed to be settled by the fact of their appointment. The almost universal disuse into which parts of our Liturgy had fallen, and the very general mutilations of other parts, appeared to be the chief reasons that induced the General Synod of 1853 to constitute this Committee, and the continuation of the work in their hands, by the action of subsequent Synods, have seemed to us proofs of a settled determination on the part of our highest legislative body to obtain, if possible, a Liturgy that might promote uniformity in our religious services, and supply pastors with various offices, which are now frequently borrowed, either from the Liturgies of other denominations or from books published by individual authority, without sanction from any ecclesiastical organization whatever.

Thus appointed and encouraged by the action of successive Synods, your Committee have given their best attention to the work assigned them. They submit it now, with full confidence that the Synod will examine and decide upon its merits, not in the expectation of finding it absolutely free from fault, but as embodying as near as may be what the Committee believe to be the most careful results of a protracted endeavor to provide a Liturgy adequate to meet a long ex-

pressed want of our beloved Church.

By order of Committee.

E. S. PORTER, Secretary.

Copies of the Revised Liturgy, as reported by the Committee, were received and distributed among the members of the Synod.

Extracts from the Classes of Paramus and New-York, on the subject of a revision of the Liturgy, were received and read.

Synod took up the consideration of the report of the Committee on the Revised Liturgy. The subject was discussed at considerable length. Certain amendments to the forms for the administration of the Sacraments of the Lord's Supper and Baptism were adopted, when the following resolutions were moved and seconded, and the question being taken upon them, they were adopted:

Whereas, The labors of the Synod, and of its Committee on the subject of the revision of the Liturgy of the Church, has shown that it is a work as difficult as it is important, to attain a satisfactory result, and,

Whereas, The Synod are anxious that the revision should receive the most mature and thorough consideration previously to its being submitted to the decision of the several Classes, and which can not now be afforded, therefore,

Resolved, That the forms for the administration of the Lord's Supper and Baptism, as adopted by this Synod, be sent down to the several Classes for their approval or disapproval.

Resolved, That the further consideration of the Liturgy be referred to the Synod at its stated meeting in June, 1857.

Resolved, That the Stated Clerk be instructed to furnish the Classes with copies of the forms now adopted, in such manner as he may deem proper.

In the course of the discussion, a motion was made and seconded, that in printing the Creed the phrase "he descended into hell," be enclosed in brackets. The question being taken, the motion was decided The ayes and nays, being called for, were in the affirmative. taken, and are as follows:

SCHOOLS AND CHRISTIAN EDUCATION.

Resolved, That the sermon in behalf of Education, for this year, be preached on the evening of the seventh day of the session.

The twenty-fourth Annual Report of the Board of Education was received, read, and referred to the Committee on Education.

The report of the Treasurer of the Board of Education was received and referred to the Committee on Education.

The seventeenth Annual Report of the Board of Sabbath-School Union of the General Synod, was received, read, and referred to the Committee on Education.

The sermon in behalf of Education was preached on the evening of the seventh day of the session, by Rev. Mancius S. Hutton, D.D., from 2 Corinthians 1:11, "Ye also helping together by prayer for us, that for the gift bestowed upon us by the means of many persons, thanks may be given by many on our behalf."

The Committee on Education reported, and their report was adopted, with the exception of so much as related to the subject of the Board of Sabbath-School Union, which was recommitted with instructions to report upon the same at the next General Synod. The report of the Committee, as adopted, is as follows:

The Committee on Education, having perused the documents placed in their hands, and considered the various matters before them, re-

spectfully present the following report:

The twenty-fourth Annual Report of the Board of Education informs us that thirty-eight young men, during the last year, have received aid in the prosecution of their studies, six of whom are connected with the Holland Academy, and thirty-two with our institutions at New-Brunswick. Five of these have recently finished their pre-

paratory course to enter upon the duties of the ministry.

To meet their expenses, in the advancement of an interest acknowledged of vital importance to our Church, the Board have received and appropriated the avails of nineteen scholarships, amounting to \$2891.62, together with collections from eighty of our three hundred and sixty-four churches, amounting to \$2589.53, the sum of which is \$5481.16. Of this sum the students at New-Brunswick have needed \$4800; those at the aforesaid Academy, about \$360; the teacher's salary amounts to \$400, making in all the sum of \$5560, absorbed by the necessary expenses of the current year.

By the provision made for that purpose, the balance of the debt to Mr. Taylor has been discharged. The usual financial papers of Isaac Young, Esq., namely, list of endowed scholarships and Education

Fund account, were in the hands of your Committee, and appear to be correct.

The account of the Treasurer, accompanying the report, has been compared with the vouchers, and is certified as correct, leaving a balance in his hands of \$25.74, belonging to General Synod, and also a balance of \$490 due the special fund.

Hopes and fears have attended the performance of the duties devolving upon the Board during the last year. They have met with encouragements and discouragements. Their appeals for increased funds have been, in most cases, kindly regarded, but, as they say, they

"have not many instances of available sympathy to record."

The duties, many, onerous and difficult, connected with its operations, induced an application to General Synod for the permission to appoint a Corresponding Secretary, whose faithful discharge of them is quite enough to fill up the time, and employ all the energies, of an efficient man. This request was granted, and the Board is happy to be able to state that they have succeeded in obtaining the services of the Rev. James A. H. Cornell, whom they consider eminently fitted for the station, and who, they are persuaded, will prove acceptable to the churches. This brother will soon enter upon the active duties of his office.

The Board records its approbation of the character and conduct of the young men of the College and Seminary under its care, with two exceptions, where they have been compelled to withdraw their appropriations; and also expresses its obligation to the Theological Faculty

for their paternal supervision exercised over them.

Your Committee regard it as a matter of encouragement, that eight students more than the number reported last year have been under the care of the Board, some of these having come from the Holland Academy, an institution your Committee think Synod ought to commend to the fostering care of our churches, because it is likely to become, at no distant day, an important auxiliary to our institutions at New-Brunswick.

Your Committee beg leave to bring to the notice of Synod a matter of great importance to the spiritual welfare of the Hollanders, whose number is constantly augmenting in our country by immigration from the fatherland. In the Classes of Holland and Wisconsin there are some twenty churches. There are three more soon to be organized, and they have at present but eight ministers to supply the whole. Large numbers of the Hollanders are concentrating at various points all over the West and North-west, and many churches might be formed instantly among them, had we the men. It seems impossible to supply the growing demand but in one way, and that is, by sending over to Holland for competent young men who are in various stages of preparation for the Gospel ministry, and who should come recommended by those in the fatherland in whom we have confidence, that they may pursue and complete their studies at the Academy aforesaid, and at New-Brunswick. Your Committee understand such arrangements can be satisfactorily made. The only difficulty in the way is the procurement of means to defray their passage to this country. The necessities of the case seem to require that some arrangement of this kind be adopted, to preserve those already among us from being lost to us in other communions, and to provide for the spiritual benefit of those that are yet to come. God, in his providence, is furnishing us a people whose predilections are for our Church—a deserving people, to whom we owe a debt of gratitude, and a people desirous of being Americanized, whose descendants shall return our kindness by sustaining and advancing our branch of the Church in her distinctive forms of doctrine and polity, and in the accumulation of an extending influence for good. It is, therefore alike our duty and our interest to devise and to execute plans for the attainment of enlarged influence and efficiency. The immediate necessity is the procurement of ministers in the way above specified. If our churches, and those of our members whom God has blessed with abundant means, could be induced to appropriate enough to enable the right kind of men to reach their brethren on our shores, it would be an expenditure well laid out, because the speediest way to supply the lack of ministers qualified to conduct the work which God has thus given us to do. Your Committee recommend the following resolutions:

1. Resolved, That the subject of obtaining pious young men from Holland, to be educated at our institutions for the Gospel ministry, with a view especially to supply the great want of ministers existing in our churches, composed of Hollanders in this country, be earnestly commended to the favorable regard of our people.

2. Resolved, That this Synod has learned, with pleasure, that there are at this time several well approved young men, ready to come to this country to put themselves under the care of our churches to be educated for the ministry, as aforesaid, but who, they regret to say, are without the means necessary to defray the expenses of their pas-

sage hither ...

3. Resolved, That Synod deem it of great importance, that the Corresponding Secretary of the Board of Education make efforts, as soon as practicable, to secure the funds needed for this purpose, it being understood that such funds are not to be drawn from those designed for educational purposes, but to be obtained by solicitation for this specific object.

4. Resolved, That this subject be referred to the Board of Education, to adopt whatever measures may seem to them most practicable to ac-

complish the end herein had in view.

The Board speaks with confidence of the good which has resulted from the system of parochial schools, and with pleasure of the increasing favor with which it is met. They have now under their care seven schools, the reports of which are of the most encouraging character. In their opinion, they "clearly prove that these schools are among the most important and effectual instrumentalities for building up the churches with which they are connected. They not only impart valuable religious instruction to youth, but actually serve to bind congregations in their attachment to the churches," where they have been established.

In the report of the parochial school, attached to the German Reformed Church of Houston street, N. Y. City, the pastor enumerates several advantages which are conceived of great importance to the children belonging to his congregation, and adds the opinion common among them, that the contribution they receive in behalf of their school, "is working out the best interest of the Redeemer's kingdom." Another report records the pleasing fact, that one of the pupils of the school of Linlithgow has made a public profession of faith in Christ, to whom she was instrumentally led, in part, by the instructions received from the teacher, and closes with this language: "We feel the blessed effects of the privilege, and are confirmed in the opinion that no Church can wield her full influence without bringing to bear on the minds and hearts of her children the truths of Scripture, by daily instruction, and that Christian parents cannot enjoy the full benefit of their church relations, without a church-school—a school in which divine truth forms a prominent part of daily instruction."

In the report of the school attached to the church of North-Brooklyn, among other items, the hopeful conversion and public profession of two of the older children are mentioned. Other reports furnish many interesting extracts, which the Board simply refers to, as "calculated to make General Synod feel the importance of this work;" but they say, "they do not deem it necessary, since God has so remarkably

fixed the seal of his approbation upon these schools."

In view of these facts, and opinions confirmatory of other experiences gathered from the history of these institutions, your Committee think the subject of the parochial school system eminently entitled to the consideration of Synod, and recommend the adoption of the following resolution:

Resolved, That the parochial school system is worthy of every effort to popularize it within our bounds, and wherever it can be put into operation, its superior claims commend it to the preferences of our people.

The account of the treasurer of the fund belonging to this part of our system of education has been examined by S. B. Schieffelin, Esq., and is endorsed by him as correct. The balance on hand is \$622.90.

It will be seen that collections in behalf of the funds of this Board, have been received from eighty of our churches during the past year, leaving two hundred and eighty-four that have not done what they could. This certainly is much to be regretted. Your Committee believe that all these churches consider our educational interest of necessary importance to our collective welfare, and to the capabilities and progress of our Church. With such a persuasion, it would seem that the omission was more a matter of neglect than of design. Surely it can not have resulted from sheer indifference; and yet there is not much to choose between them in the estimation of a man who is willing to do, and who rests not satisfied without doing, what he can, in obedience to the Gospel.

This state of things has so long continued, the Board sees no other

way of effecting a remedy but by the employment of an agent who shall give his whole time and attention to this business. At the close of their report, they request General Synod to place them in the same condition with other Boards, by enlarging their number.

Your Committee recommend the following resolutions:

Resolved, That the request of the Board of Education be granted—that their number be increased to that of twenty-four, and that their quorum for the transaction of business be correspondingly enlarged.

Resolved, That the Committee on Nominations be instructed to report a double number, from which Synod shall choose, in conformity with the foregoing resolution.

Respectfully submitted.

W. R. GORDON.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Managers of the General Synod's Sabbath-School Union, whose term of service has expired. On counting the ballots it appeared that the following were elected, namely: Rev. Thomas E. Vermilye, D.D., John Knox, D.D., Benjamin C. Taylor, D.D., A. B. Van Zandt, D.D., and Messrs. Thomas Jeremiah, John S. Bussing, John M. Keese, Jacob Brouwer, Charles S. Little, Daniel R. Suydam, Abraham Van Nest, and John Delamater. Rev. Joseph McKee was elected in the place of Rev. William R. Gordon, who has resigned his seat.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Education whose term of service has expired. On counting the ballots, it appeared that the following were chosen, namely: Rev. Thomas E. Vermilye, D.D., Samuel A. Van Vranken, D. D., and Mr. Abraham Van Nest.

The Committee on Nominations having reported, Synod proceeded to elect additional members of the Board of Education, so as to make the number of the Board twenty-four. On counting the ballots it appeared that the following were chosen, namely: John Knox, D.D., John Proudfit, D.D., Mancius S. Hutton, D.D., William R. Gordon, D.D., Nicholas E. Smith, R. Ormiston Currie, D.D., James A. H. Cornell, Benjamin C. Taylor, D.D., and Messrs. Frederick I. Hosford, Peter R. Warner, Jacob Brouwer, Theodore Frelinghuysen, Henry A. Bower, James Anderson, and George S. Stitt.

PROFESSORATE.

Synod proceeded to fill the places of those in the Board of Superintendents of the Theological Seminary, whose term of service had expired. Nominations were received from the Classes of New-York, Paramus, Greene, Ulster, and North Classis of Long Island, and Kingston, which were confirmed. It was referred to the Committee on Nominations to report double the number of persons from whom to choose members for those Classes who have not nominated. The Committee reported, and the election took place accordingly.

The following are the persons chosen to fill the vacancies in the Board of Superintendents: Rev. Nicholas I. Marselus, D.D.; Ferdinand H. Vanderveer; John Minor; Nathan F. Chapman; John B. Alliger; John De Witt; James R. Talmage; Abraham Polhemus; George H. Fisher, D.D.; Charles S. Stitt.

The Committee on the Professorate reported, and their report was adopted, and is as follows:

The Committee on the Professorate respectfully report:

1. That they have carefully examined the report of the Board of Direction of the Corporation, which is accompanied by the Treasurer's account, the Annual Digest, and the list of securities belonging to the Synod. From these documents we gather that the Board has fulfilled its important trust with accustomed wisdom and fidelity. Nine hundred dollars have during the year been added to the Widows' Fund. One thousand three hundred and sixty-two dollars and twenty-two cents have been received for the Church Building Fund, and two hundred and fifty dollars for the Sustentation Fund. Two thousand dollars have, by the direction of the Synod, been paid to the Board of Education, for their current expenses, which sum had been invested for said Board.

The church edifice at Brunswick, Illinois, with bell and fixtures, has, according to authority given by the Synod, been sold for two hundred dollars, less ten dollars which had been advanced for insurance.

An agreement has been made with William G. Mentz, Esq., of Philadelphia, whereby the exclusive right of printing the Psalm and Hymn book, is granted to him for five years from April, 1854; and he obligates himself to furnish the books in the style and for the prices specified in the agreement. The Synod engages, on the expiration of the contract, if it should not be renewed, to take the stereotype plates at an equitable price, to be ascertained by impartial appraisers.

The attention of the Synod is called to the fact, that there is now an annual deficit of revenue of eight hundred dollars. This has resulted from the addition by the last General Synod, of that amount to the permanent annual expenses, without, at the same time, making

provision for it. Concerning the propriety of making such additional expenditure, there will be no question when it is remembered that the chief item was the increase of the salaries of our Theological Professors. The Church, we are persuaded, is willing and anxious liberally to support those who are engaged in the important work of educating her ministry. Two plans have been suggested for meeting the difficulty. One is, that the annual deficiency should be supplied by stated collections from the churches; the other, that the permanent funds of the Synod should be increased to such amount as is necessary. Against the former plan lie the objections of uncertainty, irregularity, and repetition; the latter has commended itself to the unanimous judgment of the Committee, and we feel sure that the heart of the Church can be so reached for such an object as that the necessary funds will easily be secured. The present generation will do this little when reminded of the sacrifices of the fathers for the endowment of the Theological Seminary. The men who have come upon the stage, and the churches which have been formed since the last professorship was endowed, will surely not hesitate to come with voluntary offerings, and supply that which is lacking. Nay; may we not even regard this as a most favorable opportunity to make known through the Church the history of our Seminary, and secure from old and young, and rich and poor, the interest that arises from the investment of funds The adoption of the following resolutions is recommended:

Resolved, That the Rev. John Knox, D.D., Wm. B. Crosby, James Suydam, C. E. Spangler, and Robert H. Pruyn, be a Committee to take measures to secure funds for investment, the interest of which shall be sufficient to meet the present annual deficiency of the Synod's revenue.

Resolved, That the churches be requested to make collections on or about the first Lord's day in November, to meet the deficiency of the past and present year.

The Board also calls the attention of the Synod to the plan for a Sustentation Fund, adopted by the General Synod in October last, and suggests a revision of that plan on account of its alleged complex character, of their apprehension of disastrous influence on the Widows' Fund, and "other considerations of an embarrassing kind," which they do not specify. Your Committee is of one mind that the great principle, that they who preach the Gospel should live of the Gospel, ought, in all arrangements that may be made for the relief of ministers, never be lost sight of. For the manner of doing a temporary good, may result in great permanent evil. Salaries should be so liberal, that, with economy, something may be laid up for the time of sickness, old age, or for a bereaved, helpless family. This, Classes should well consider when they are asked to approve calls, to organize new churches, or to separate two or more churches into distinct pastoral charges. In some cases it might, perhaps, be well to inquire, whether there are not sufficient reasons for uniting churches that now stand separate. Classes should also remember the constitutional provision, that, when a minister is declared emeritus, it should be inquired whether the church which he has served is not able to provide for his support. It is believed that, if Consistories and Classes were to do their duty in this matter, the cases of ministers or their

families needing charity, would be few.

Yet under the most favorable state of things, occasional cases of need, and in the present state of the Church, frequent ones, will occur. To meet such, the Widows' Fund was established, combining the two elements of mutual insurance and charity, and we see the working of its beneficent provisions. But, as is well known, its benefits are confined to those who, by the payment of certain sums of money, have secured an interest in it. The Sustentation Fund was established to meet the cases of those who, from straitened circumstances, might not be able to make such payment. The object, all will confess to be most worthy. It may seem unfortunate, that we should have two institutions with the same great object in view-and yet your Committee can not see how the Sustentation Fund could be engrafted on the Widows' Fund, the constitution of which can not be touched by the Synod. Some of the defects of the plan adopted in October, 1855, are obvious. It makes no specification of the amount of capital to be raised before disbursements shall be made. A very large amount of vested funds will be needed to secure benefit to a small number. Moreover, the provision that settled ministers may, if needing it, and there be a surplus of funds, share its benefits, is, in the view of many, objectionable. There seems to be good reason for the request of the Board, that a revision of that plan should be made, and the Committee, therefore, recommend the adoption of the following resolution:

Resolved, That a Committee, consisting of Rev. Thomas E. Vermilye, D.D., Jeremiah S. Lord, and the Elder, Thomas Jeremiah, be appointed, to revise the plan for a Sustentation Fund, adopted in-October, 1855, and report to the next General Synod.

2. Report of the Board of Superintendents of the Theological Seminary. From this we learn that the Professors have been enabled to perform their duties during the year, and that thirty students have been in attendance, of whom ten have been recommended for Professoral certificates. Among the persons examined and recommended for aid in prosecuting their studies for the ministry, Isaac Bailey and Holloway W. Pierce were recommended to receive aid from the Van Benschoten Fund—which action the Committee recommend the Synod to confirm. The following resolution, passed by the Board, is commended to the Synod for endorsement:

Resolved, That our Theological Seminary is worthy of and ought to possess the entire confidence, the earnest prayers, and faithful cooperation of the churches.

The Board also brings before the Synod a request from the Professors, that foreigners shall be required to spend at least one year in our Seminary previous to their enrollment among our ministers. The reason alleged is the striking change which the Faculty have ob-

served to take place in the views, sentiments, and habits of persons of foreign birth and education, as the result of attendance on the exercises of the Seminary. The force of this consideration we must all feel, and if nothing else were to be taken into the account, none would object to the adoption of the suggestion. But the cases of foreigners desiring to come among us, are so diverse, that the adoption of the general rule proposed does not seem, to your Committee, to be expedient. In some cases it may be desirable that they should at once commence labors among those of their own tongue; in some cases it may be impossible from want of means to spend a year in the Seminary; and in some cases the minister may be a man of standing and experience, and qualified at once to labor among us. It is the opinion of the Committee, that the Synod pass no rule upon the subject, but leave it with the Classes to recommend the course suggested in such cases as they may think proper.

In consequence of the inconvenience sometimes arising from the circumstance that the Classes frequently hold sessions for the examination of students for licensure on the same week with the meeting of the Board, the Committee, by request of the Board, recommend the

following resolution for adoption by the Synod:

Resolved, That the Synod request the various Classes not to hold their special sessions for the examination of students for licensure during the week on which the Board of Superintendents holds its annual session.

- 3. Statements of the Van Benschoten and Knox Funds. From these it appears that there was a balance in hand of the former, of \$2491.53, on the 1st day of April last, and of the latter, of \$313.11, at the same date.
- 4. An application is made by the Classis of New-York, for a dispensation in behalf of Francis Zastera, authorizing the Classis to examine him with a view to ordination to the Gospel ministry. Mr. Zastera is a Bohemian convert from Popery, who has suffered much for the sake of the Gospel—has been regularly educated for the Roman Catholic priesthood, to which he has been ordained—has been under the care of the Classis for a year, has labored successfully in the service of the American and Foreign Christian Union, and has deported himself to the satisfaction of the Classis. The Classis, believing him to be eminently qualified to become a laborer in the Lord's vineyard, and especially among the Roman Catholics, ask this dispensation. It is recommended that the request be granted.

The Classis of Greene recommends Isaac H. Collier, to receive aid

from the Van Benschoten Fund.

The Classis of Geneva recommend James Huyssoon, to receive aid from the Knox Fund, or "any of the other vacant funds of the Church."

Resolved, That these recommendations be approved, provided that the young men pass the examination required before the Board of Superintendents, or their Committee.

The Committee also recommend Philip Furbeck, Edward W. Bogardus, and John R. Rhinehart, who have already been examined by the Board of Superintendents, to receive aid from the Van Benschoten or Knox Funds.

Resolved, That they be recommended.

All which is respectfully submitted.

MISSIONS.

The twenty-fourth Annual Report of the Board of Foreign Missions was received, accompanied with a report of a committee of the said Board on the subject of the relations of the Church to the A. B. C. F. M., and recommending that the General Synod conduct their Foreign Missions in an independent manner, which were read and referred to the Committee on Foreign Missions.

The report of the Treasurer of the Board of Foreign Missions was received and referred to the Committee on Foreign Missions. A letter was received from the Classis of Arcot, (India,) which was read and referred to the Committee on Foreign Missions.

The annual sermon in behalf of Domestic Missions, was preached on the evening of the second day of the session, by the Rev. Harvey D. Ganse, from Mark 14:8, "She hath done what she could."

The following report was received from the Committee appointed on the subject of raising a church building fund, which was accepted and referred to a special committee, consisting of the Rev. Elbert S. Porter, Cornelius Van Santvoord, and William E. Turner; and the Elders, Abraham J. Beekman and Dennis Wortman.

The Committee on the Church Building Fund report that their action has been much embarrassed by two causes; one was the resignation of Dr. Chambers, as chairman of the Committee, and the other, the publication, by the Classis of New-York, of their views in reference to some of the benevolent operations of the Synod, at their session in October. Dr. Chambers, as one of the Committee, has urgently desired to express his views on this subject to the Synod, and without assuming any responsibility for them, the Committee have consented to present them in his own language, (see paper A;) whether they shall be embodied as part of the report or not, we leave to the judgment of the Synod.

As the Synod, at their last meeting, thought proper to continue this Committee, we have again appealed to the churches in behalf of the object. The result has been contributions amounting to \$44.19, leav-

ing now in the hands of the treasurer, \$362.22.

The Committee suggest that there are two objects of consideration now before the Synod in connection with this matter. The first is, whether the church building fund is of sufficient importance to be sustained by the churches. The second is, whether the Church has the ability to raise the required amount. As to the first, we think that while much may be done by occasional efforts in the building of churches, more good could be accomplished by a regular system of aid, founded upon well secured funds drawn from the whole Church. Without such a system the contributions are liable to be uncertain and partial; many enterprises do and will languish for want of good agents to appeal to individuals, or to bring their case before the public. Besides this, such a fund would relieve ministers and laymen from that personal solicitation which is commonly called "begging for churches," and which tends greatly to secularize and depreciate the ministry. It is not necessary to say here how valuable would be the aid of such a fund to all our missionary operations, especially where the sparseness of the population or the poverty of the people prevents the erection of a place of worship. These remarks need not be extended. We can not doubt the advantages of such a fund, but it seems to be doubted by some whether the Church is able to add this to her other objects of benevolence without injury to those of longer standing.

We might reply to this objection, that this fund was proposed as a necessary auxiliary to the Missionary Society, and is intended as a part of its appropriate means of usefulness. Next to obtaining a minister, it is important to have a place where he can efficiently labor. But without dwelling upon that point, let us look at the benevolent resources of our Church. Last year, all our churches together contributed about \$80,000 to benevolent objects, an increase of \$5000 over the preceding year, and of \$20,000 over the year 1853, so that there

has been a very encouraging improvement in the benevolent means of What it is this year remains to be seen; our Church up to this time. according to this ratio of increase, we ought to have \$85,000 as the amount now reported. At all events the Church has not grown poorer, nor exhausted its resources, and it will not be denied that if it gave \$80,000 last year, it would raise without great inconvenience \$90,000 next year; now, for the sake of round numbers, let us make \$100,000 the extent of the benevolent means of the whole Church for next year. Suppose you give to the Board of Foreign Missions, Domestic Missions, and Education, \$20,000 each, and which is a great deal more than has yet been done, and this leaves \$40,000 to be distributed to the Bible Society, the Tract Society, Publication Board, and Sunday-School, sustentation fund, and church building fund, to each upwards of \$6000, for our share of which, we, of this last named fund, would be very thankful as a beginning. Of course these reported amounts do not include all the private donations of individuals, so that besides the regular supply, there would be a large margin left for other objects.

It may well be a question with this Synod whether the resources of our Church are economically used, that is, whether a just proportion of our means is given to home purposes. We believe that out of \$80,000 reported last year, the Boards of our Church did not receive over. if as much as, \$30,000. How the remainder was distributed—to what other agencies and other benevolent schemes—we have not the means of ascertaining. Have we provided as we should have done for our own household of faith? Your Committee are not prepared to recommend any specific action in reference to this object. The money already obtained had been lying idle last year; we presume it is now invested. If some plan could be adopted by the Synod which should result in a more equal distribution of the benevolent contributions of the Church, it would certainly add to the extension and efficiency of our denomi-

nation.

Does it not, most of all, become us, as a church of Christ, to elicit and cherish in every way the spirit of an enlarged Christian liberality. The tendencies to pride and covetousness can be met and resisted only by constantly reminding the followers of Christ that their gold and silver are the Lord's, and that using it freely in extending his cause and kingdom is the best and noblest method of making friends of the mammon of unrighteousness. Among all the contributors to the cause of Christ during the last ten years, we do not believe that one has become poorer for his gifts. The truest martyr of the age is the Christian of this country, who has suffered in body, mind or estate, by offering his gift of faith and love upon the altar of Christ.

We are admonished by the death of a member of this Committee, that the uncertainties and shortness of life require us to do quickly

what we have to do.

Mr. Albert Christie was a useful, liberal, and cautious Christian. His declining health prevented him from active labor, but his zeal was constant in doing good, and his memory is most precious to those who best knew him.

Although your Committee have no plan to propose to the Synod, they desire and request to be released from any further responsibility in this matter, and would suggest that this fund be put under the care of the Domestic Missionary Society, subject to the conditions and provisions of its institution.

The Committee to whom the above report was referred reported, and their report was adopted, and is as follows:

The Committee to whom was referred the report of the Standing Committee on "the Church Building Fund," would respectfully report:

In the original constitution of the Board of Domestic Missions, provision was made for the creation of a building fund, which provision was not attempted to be carried out until the year 1854, when the Board submitted to General Synod a definite plan for the formation and distribution of a building fund. This plan was unanimously adopted by the Synod, and the Classes requested to take a simultaneous collection in its behalf. As, however, several other objects of benevolence were brought before the Church at the date of the adoption of this plan, its claims were necessarily for a time thrown into abeyance. Your Committee believe that there is still a high necessity resting upon the Dutch Church to make a provision for her more rapid extension; that a church building fund will prove very serviceable to our domestic missionary operations, and, therefore, ought to be made complete. In the judgment of this Committee, the plan, as adopted, seems judicious and wise, and in need of no amendment or alteration. It remains for the Synod to adopt now such measures as will eventually secure for this fund the sum of twenty-five thousand dollars. Committee would recommend the following resolutions:

- 1. Resolved, That the Board of Corporation be directed to invest the money contributed for this fund, now in their hands, at 7 per cent., to be added yearly to the principal.
- 2. Resolved, That the Board of Domestic Missions be directed to take such measures as they may deem best to secure as soon as may be the amount necessary to complete the fund.

June 10, 1856.

E. S. PORTER, Chairman.

The twenty-fourth Annual Report of the Board of Domestic Missions was received, read, and referred to the Committee on Domestic Missions.

The Report of the Treasurer of the Board of Domestic Missions was received, and referred to the Committee on Domestic Missions.

The sermon in behalf of Foreign Missions was preached on the evening of the sixth day of the session, by the Rev. D.D. Demarest, from Isaiah 54:2,3: "Enlarge the place of thy tent, and let them stretch forth the curtains of thy habitation: spare not, lengthen thy cords and strengthen thy stakes: for thou shalt break forth on the right hand

and on the left, and thy seed shall inherit the Gentiles, and make the desolate cities to be inhabited.

The Committee on Domestic Missions reported, and their report was adopted, and is as follows:

The Committee on Domestic Missions beg leave to report as follows:

They have read with much interest the Annual Report of our Domestic Missionary Board, and consider it both full and satisfactory. The facts and arguments which it embodies, are lucidly arranged and cogently expressed. Its views of truth and of duty appear eminently scriptural. The considerations which it presents as motives and encouragements for increased effort, are drawn from the very highest and best source. The document ought to be published in a separate form by the Board, and to be extensively read and pondered. Your Committee have little to do but reïterate its recommendations, and to

reduce them to a practical form for the action of Synod.

The only point on which your Committee are left to speak without assistance, relates to the individual who is charged with the most difficult and responsible agency in this department of our evangelical labors. The evidence before us is entirely convincing that our Secretary has discharged the duties of his place with fidelity and wisdom; and that his office is indispensable to the successful prosecution of this work. In devising and concerting measures, in developing our resources, in exploring the whole field before us, in selecting new stations, in judiciously distributing aid, in awakening the churches, in inspiring them with confidence, in warming their hearts with the spirit of their Master, and in securing the coöperation of all in the same great enterprise, there must be a central and controlling power—a mainspring of action; and your Committee feel constrained to congratulate the Church on having at present the services of one who appears eminently qualified for his responsible place.

Among other things, we are indebted to our Secretary for systematizing our missionary operations in such a manner as must conduce greatly to their efficiency. He has already accomplished much in this direction, and is aiming at still more. One or more of his recommendations will at this time be submitted to the consideration of

the Synod.

Although we can not with propriety give all the details of his report, it may not be superfluous to repeat the gratifying facts, that the total amount of contributions from the churches, for the year ending June 1, 1856, is \$13,911.73; receipts from all sources, \$19,168.43; being an increase over the year preceding, of \$5256.78.

One hundred and twenty-eight churches have contributed nothing, against 144 which were thus delinquent during the year previous.

Twelve churches, aided by the Board, have enjoyed seasons of refreshing, and the number of members received on confession of their faith, is 587. This is an increase over the previous year of 151, while the number of mission churches is 13 less.

New fields of labor are continually opening and enlarging before us, especially in the mighty West; and they can not fail of awakening the deepest anxieties of all who bestow any serious reflection upon the religious prospects of our country. It is truly appalling to see how rapidly our population is swarming and spreading over regions so vast and so fertile, without any thing like an adequate increase of those influences which are essential to its permanent harmony and wellbeing. The best interests of our great Republic are inseparably connected with its religious institutions; and as certainly as we outgrow these, we shall dry up every well-spring of our national prosperity. It will be a deep stain of both guilt and reproach on the character of our communion, if we do not bear our part in planting ministers and churches all over those growing empires which are so loudly calling upon us to come over and help them. The question is one in which is involved not only our own honor, but, what is of vastly greater concern, the glory of our Saviour, and the extension of his kingdom among unborn millions.

As it is already the settled policy of our Church to occupy the West, your Committee feel constrained to reurge special attention to some central points, which are not only important in themselves, but must prove efficient auxiliaries in successfully prosecuting our labors around them. It needs no argument to prove that such posts as Buffalo, Chicago, and some others, should be well manned and well sus-

tained, in order to secure ulterior benefits.

No part of the papers which have been referred to your Committee, has afforded them greater pleasure, or stronger hope, than the solemn and impressive manner in which they lead us to the cross, as that great central altar whose live coals can touch, and purify, and inflame all our powers and all our desires. At that cross, and from that infinitude of love which it exhibits, we can learn both to humble ourselves for our past delinquencies, and feel strengthened for the great work before us. The cross furnishes lessons and motives unspeakably superior to all others; and it is our wisdom to keep these fully in view, as is here done, and never allow them to be either obscured or weakened by unduly magnifying such as at their best are of less value, and yet may be so used as to injure ourselves and disgust our We need to be more like him who said: "God forbid that I should glory save in the cross of our Lord Jesus Christ, by which the world is crucified unto me and I unto the world." are too prone to magnify the importance and excellence of things which appertain to themselves, and in the same proportion they often detract from the praises of another. Yet we are taught that in the day of the Gospel's triumph, "the Lord alone shall be exalted." "No flesh should glory in his presence; but let him that glorieth, glory in the Lord." This is the point on which true Christians of every name must unite; and in proportion as they do so, they will be "strong in the Lord, and in the power of his might." Our seminaries are not filled, our churches are not supplied, our missionary fields are not harvested, our country is not saved from irreligion, and the heathen are not gathered in, because Christians do not come more fully into the spirit of their Saviour.

There must be some great hindrance in the Church itself; and this will not be removed until they are again, as they were at first, "of one heart and one mind." Our divisions weaken us. The want of union and concert among Christians gives their great adversary every advantage. Our prayers are not heard, because of our selfish and carnal preferences. Things of an earthly origin are not duly subordinated to those of God. When our Missionary Board bring us to the cross, they bring us to him that was slain upon it. They intend that we should look upon things as Christ does, and that we should drink into his self-sacrificing spirit; that the same mind should be in us which was in him; that we should pray as he prayed, and then not act inconsistently with our prayers. There must be much more of the power of Christ's teaching in the Church at large, including ourselves, before we can hope to see our land become Emmanuel's, and heathen nations to the uttermost parts of the earth, the actual inheritance and possession of him that has bought them with his blood. The teeming millions around us on every side, are perishing, because Christians will not unite to save them; because Christians will not fully yield either to the authority or to the love of him who prayed, "that they all may be one, as thou, Father, art in me and I in thee, that they all may be one in us, that the world may believe that thou hast sent me."

The Committee beg leave to present the following resolutions for

the action of Synod:

1. Resolved, That every Classis have a Standing Committee on Domestic Missions, or if they choose on Benevolence.

2. Resolved, That the business of this Committee be to see, that every church within its bounds, with or without a pastor, does something for this object.

3. Resolved, That it report in full to the Classis at each stated

meeting.

4. Resolved, That their report be embodied in the annual report of the Classis on the state of the churches, and be thus sent up to the General Synod.

5. Resolved, That there is abundant reason for thanksgiving to God, in the measure of success which has attended our Domestic Missions.

6. Resolved, That an enlarged liberality be recommended to the churches within our bounds, not only in reference to the existing and highly interesting engagements of the Board, but in view of the Western fields which have been opened, and the extensive occupation of which is so important to our denominational prosperity, and the advance of the Redeemer's kingdom on earth.

7. Resolved, That, in order to prevent an unprofitable use of the moneys contributed to the Domestic Missionary Board, the Classes be urged to exercise a rigid discrimination in recommending churches for aid, and that the Board of Domestic Missions be authorized to take such steps as they may deem necessary, to terminate a protracted

dependence on the part of some churches.

All which is respectfully submitted.

The Committee on Foreign Missions reported, and their report was adopted, as far as to the discussion of the question of the connection of the Synod with the A. B. C. F. M.

Synod took up the consideration of the resolutions appended to the report. The subject having been discussed at length, it was

Resolved, That the matter contained in these resolutions in relation to the connection with the A. B. C. F. M., be referred to the next General Synod.

The part of the report which was adopted is as follows:

The following papers have been referred to this Committee:

I. The Report of the Board of Foreign Missions.

II. Treasurer's Report.

III. The Report of the Committee on our relations to the A. B. C. F. M.

IV. Letter from Dr. Anderson.

V. Bundle of Letters from several ministers, on dissolving our connection with the A. B. C. F. M.

VI. Report of the Classis of Arcot.

The Committee have carefully examined these papers, and beg leave

respectfully to report.

I. The Board of Foreign Missions.—The annual survey of our missionary field, and the record of our missionary work, has not always been either gratifying to our feelings or encouraging to our hopes.

The time was, when we mourned over the discontinuance of our Mission on the Island of Borneo, and looked in vain for the ways and means to revive and carry it forward; and when our feeble band were transferred to other nations, and the whitening fields promised a rich harvest, the cry for more laborers fell upon unwilling ears, and year after year our numbers were not increased. It seemed as if a blight had fallen upon the awakened energies of the Church, and that our hopeful beginning would end in disastrous failure. But now the prospeet brightens. God has taught us that a temporary embarrassment may sometimes give a new impulse to waning zeal, and lead to such a change of policy and effort, that defeat in one direction may be victory in another. The withdrawment of our missionaries from the scattered Chinamen of Borneo, and sending them to Amoy, in the midst of millions far more accessible, was evidently the providence of God, working out his gracious purpose by our instrumentality, and appointing our sphere of labor where he had a blessing in store for us. And who can not see the overruling hand of the Great Head of the Church, in the establishment of the Arcot Mission? By a series of remarkable providences, God has gathered into one ecclesiastical family that band of brothers—united by the double tie of fraternal love and entire consecration to the missionary work. We now have the Classis of Arcot, composed of the five sons of Dr. Scudder, with elders from the churches they have organized among their heathen converts. They are in the midst of a large and populous district of country-a

vast field whitening for the harvest and crying for richer supplies and more laborers—and where the measure of blessing already enjoyed, encourages the hope of far greater things in store, to increase our faith and gladden our hearts. The Rev. Wm. Scudder, in behalf of the Mission, thus describes their field and prospects of usefulness: "The Madras Presidency," etc., (see report of Dr. De Witt.)

Thus it appears that there is nothing to limit the enlargement of

their Mission, but the want of means and the want of men.

They say: "We have organized three churches in accordance with the rules of our body; one at Vellore, one at Chittoor, the other at Arnee. We have thirty-four church-members, three catechists, and four Christian schools. We have also a class of twelve promising youths, selected for the purpose of being more thoroughly prepared to aid us in our labors. The Gospel Propagation Society is now negotiating with us in regard to transferring their congregations at Vellore and Chittoor to our care."

Since this report of the state of the Mission was written, their number has been increased by the arrival of Ezekiel and Jared Seudder, who manifest the same entire consecration to the missionary work, as seems to characterize their older brothers. These missionaries express the most devoted attachment to the Church with which they are connected, and desire to carry with them its doctrines, forms of government, and worship, and all its distinctive attributes, as far as they can be retained on heathen ground, and become adapted to a primitive state. They look to us to sympathize with them, to pray for them, to send them the necessary supplies. They say: "We want more men; we have a great field; we can do but little of the immense labor that crowds upon us even into our very doors. Let the Dutch Church feel her responsibilities; let her gird herself for the work; let her mark out her path; let her send forth her forces."

It can hardly be that the Church will turn a deaf ear to such an earnest, importunate appeal, or in any way prove unfaithful to the trust her sons repose in her.

THE AMOY MISSION.

The Amoy Mission, where the brethren Doty and Talmage have labored long and arduously, and with the most encouraging results, is now strengthened by the accession of the Rev. John S. Jerolamon and his wife, who have safely reached their destined field, and who now, no doubt, are actively engaged in their missionary work. This Mission is awakening a deep and wide-spread interest, and holding out the brightest promise of efficiency and success. The missionaries seem to be men full of faith and of the Holy Ghost, and God has crowned their labors with the richest blessings.

Mr. Talmage, in a letter dated Jan. 9, 1856, writes: "During the year 1855, we baptized and received into the Church between seventy-five and eighty persons, at Amoy and at the two stations in the country; during the previous year we baptized over fifty converts. Thus our labor in this place has been wonderfully blessed, and yet,

comparing the number of the inhabitants with the whole number of converts, how very small the number appears! The harvest, indeed, is plenteous, but the laborers are very few; who will come over and help us?" In another letter, dated February 5, 1856, it is added: "Five persons received baptism at Chiohbe, and the same number at

Amoy, on the preceding Sabbath.

Oh, how these brethren long to see in the midst of the teeming millions of China, such an array of men, and other instrumentalities, as will correspond with the vastness of the field, and the promise of a rich and abundant harvest. They look to the Church, in whose bosom they were nurtured, by whose fostering care they were prepared for their work, and in obedience to whose request they have gone to preach the Gospel to the perishing heathen. They must not look in vain.

The appropriation to the Arcot Mission for 1855, was \$5121.58; to Amoy, \$4886.88—amounting to \$10,000. Total receipts for the last year, \$12,164.95, an increase over the preceding year of \$623.63. The addition of three missionary families which has just been made, will demand an enlarged liberality, if we would sustain our own missions, and advance in the work as the providence of God points out

the way.

The formation of the Classis of Arcot, and the prospect of another at Amoy, bringing these two promising missions into distinct ecclesiastical relations with us, has already suggested the inquiry: Ought not the Church to assume the entire management and control of its missionary operations, in the Foreign as well as in the Domestic field? and this brings us to the consideration of that most important subject, which has been referred to this Committee. The expediency of dissolving the relations we sustain to the American Board, and conducting our Foreign Mission by the agency of our own Board.

[The Synod having ordered that the discussion of this subject, together with the resolutions proposed by the Committee, should not be printed, and the whole subject having been referred to the next

General Synod, that part of the report is omitted.]

The Committee can not close their report without commending anew this cause to the sympathies, prayers, and efforts of all the

churches.

The Master has evidently endowed his kingdom upon earth with all the necessary means of its own extension and triumph. Thus, as we survey the craving wants of heathendom, and then turn from them to a view of our own resources, we find every needed adaptation of the means to the end. The Church's victory is clearly before us, and the means of securing it are within our reach. Wealth, talents, opportunities, are placed at our command, and more than all, the pledged Spirit of grace is ready to cooperate with them, and clothe them with resistless efficacy. Such being the case, why is not our victory achieved? Should not the apparent distance of that goal, and the Church's slow progress towards it, lead us to, at least, question our faithfulness in duty, and to ask in what respect we are remiss.

1. Perhaps one important failure in duty may be found in a too

prevalent want of faith in the Church's destiny. We all profess to believe the inspired predictions upon this subject; but is it not rather with a cold, sluggish expectation of what God will do, than with a warm, living, active faith in what the Church shall be permitted to accomplish through him? We need better to apprehend the reality of the coming universal kingdom, the plain fact of the Redeemer's triumph over all nations. This sublime certainty should take a deep hold on our minds, and deeply move our hearts, and thoroughly possess our whole beings, until it has impelled us to those efforts which it is so well calculated to inspire.

2. Is there not also wanting a more thorough conviction of man's lost estate, as well as of the power of the Gospel to save them? While we all believe in the sad doom of the ungodly, yet do we enough picture to ourselves this fact in its relation to the millions who are yet out of Christ? Do we suffer ourselves to dwell upon the deplorable certainty, that "he that believeth not shall be damned;" and then view in imagination the vast procession of immortal spirits, who, moment by moment, go down to eternal burnings? No new truths are requisite to arouse us to our duty. When those we are familiar with, so familiar indeed that they have lost, with many, their awful import, shall have become matters of deep abiding conviction in our hearts, as well as of assent in our minds, we shall hardly need another motive to devotedness in this work

The same may be said of that other, and corresponding kind of faith, a strong confidence in the efficacy of salvation for all the perishina.

He takes a low view of Christ's redemption, who considers it only in its application to himself. The true Gospel idea, while beginning with individuals, stops not until it has embraced the globe. The remedy is adapted to all, and freely offered to all, and there should always be interwoven with our views of it, this one of its vast and general efficacy.

What we need, then, is, that every Christian possess a thorough conviction, not only of his own sin, but of that of the world; not only of his own misery apart from Christ, but that of a Christless world; not only of his own salvation through grace, but of that salvation as possible, and at some day certain to all mankind. We need to identify ourselves with our race, to shake off that selfishness which can be happy without making others happy, and which can make that which God designs for all men, a matter of exclusive enjoyment.

Here is a great barrier to the progress of God's kingdom, which must be broken down before that kingdom will triumph in the world. No such narrow-minded policy can usher in the Redeemer's triumph, no such contracted views can be made consistent with our own or others' welfare.

Let us then appeal to all lovers of Zion, no longer to cherish these low, selfish views of duty, no longer to thus dishonor God and cripple their own labors in his cause.

If certain perdition awaits all who die out of Christ; if the millions of heathen are ignorant of the Saviour; if salvation is held out to

them through the Gospel that is in our possession; if God has given us the means of extending to them that Gospel, and has opened the way for its promulgation; and if, especially, the omnipotent Spirit is pledged in our behalf; then who can sit still, or forbear to act upon these solemn and mighty truths? Who that has faith in the most familiar doctrines of our holy religion, can fail to see them in this their application to "a world that lieth in wickedness?"

We present no other plea. Let this simple one have its weight, and impel us to our immediate duty. The cries of those that are ready to perish, the promptings of an enlarged charity and compassion, the voice of conscience, the glowing prophecies of success, and the Master's plain command, plead with us all to say, "Go, preach the Gospel to every creature."

R. WELLS, Chairman.

Resolved, That the part of the report of the Committee on Foreign Missions, which refers to our relations to the A. B. C. F. M. be not printed in the minutes, but transmitted to the next Synod, with the documents accompanying it, namely: the report signed by Rev. Dr. Ferris, and the papers transmitted with it.

Resolved, That the Board of Foreign Missions be directed to send up to the next Synod a full statement of the expenses that would probably be incurred by an independent missionary establishment.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Foreign Missions of the Reformed Protestant Dutch Church, whose term of service has expired. On counting the ballots, it appeared that the following were elected, namely: Rev. Isaae Ferris, D.D., Thomas E. Vermilye, D.D., William W. Halloway, and Messrs. William B. Crosby and John T. Moore.

The Committee on Nominations having reported double the number of persons from whom to elect individuals to preach the Annual Mis sionary Sermons, the Synod proceeded to the election, when the Rev. Isaae Ferris, D.D., was chosen *primarius*, to preach the sermon on the subject of Foreign Missions, and the Rev. William J. R. Taylor, secundus. The Rev. William R. Gordon, D.D., was chosen primarius, to preach the sermon on behalf of Domestic Missions, and Rev. Talbot W. Chambers, D.D., secundus.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Domestic Missions, whose term of service has expired. On counting the ballots, it appeared that the following were chosen, namely: Rev. George H. Fisher, D.D., Isaac N. Wyckoff, D.D., John Garretson, D.D., John Knox, D.D., and Harvey D. Ganse, and Messrs. Leonard W. Kip, Benjamin C. Miller, and Stephen Garretson.

ARTICLE XIX.

WIDOWS' FUND.

The Committee on the Widows' Fund reported, and their report was amended, adopted, and is as follows:

The Committee on the Widows' Fund would report, that from the papers referred to them, it appears, that the income of this fund for the past year, was \$2255.64. Of this sum \$1081.10 has been paid by clerical subscribers, the remainder has accrued from interest on funds invested. There has been added to the principal \$357.52, collected in eleven churches, and \$500 paid by a minister to constitute himself a member for life, amounting to \$857.52.

Annuities have been paid to nine persons, to the amount of \$1378.12. The balance of income in the hands of the Treasurer is \$346.54.

The list of clerical subscribers to this fund, shows that 84 have made each one or more annual payments. Of whom or their widows, nine have become annuitants. Six of the subscribers have each paid \$500, the sum necessary to constitute them members for life.

A letter from the Rev. Isaac S. Demund, was referred to your Committee. In this he states, that he has, for many years, been a minister in the Reformed Protestant Dutch Church, but has now entered the German Reformed Church. He has made three annual payments to the Widows' Fund, and requests the privilege of continuing his payments, and retaining his interest in the fund. There seems to be an insuperable constitutional objection to the granting his request; the Committee would therefore recommend that his request be not granted.

Respectfully submitted.

A. H. MYERS, Chairman.

ARTICLE XX.

BOARD OF PUBLICATION.

The Second Annual Report of the Board of Publication was received, read, and referred to the Committee on Publication.

The report of the Treasurer of the Board of Publication was received, and referred to the Committee on Publication.

The Committee on Publication reported, and their report was accepted, adopted, and is as follows:

The Committee on Publication have examined carefully the report of the Board of Publication, which was referred to them, and they express their hearty gratification in discovering the unexpected financial stability to which that Board has already attained. They regard the practicability of the scheme as demonstrated; so that the Synod can

have no motive to withdraw from the work, unless it has come to question its importance. But upon this point, your Committee are persuaded, no considerable doubts are entertained. The fear in many honest minds has been, that that Board would hang helplessly about the neck of the Church, and demand a measure of support entirely disproportioned to any results that might fairly be expected from it. That fear, your Committee think, must be dissipated by the lucid business statement embodied in the report of the Board. It can only be necessary to spread this statement before the churches, and to add the hearty endorsement of this body to secure such cooperation of our churches as shall rapidly advance the Board from a condition of mere stability to one of complete efficiency. In view, however, of the many coördinate efforts which our Church is now making in the cause of Christ, your Committee are not sure that it would be advisable to attempt to raise by any immediate effort, the capital of \$10,000, which the Board regards as necessary to its most successful action. Your Committee have reason to believe that the Board will be pleased with the postponement of such an attempt to some future day, and with the present adoption of a resolution like the following:

Resolved, That the Board of Publication be commended to the confidence of all our churches, and that each church be requested to make a contribution to the funds of that Board during the following ecclesiastical year.

In accordance with the suggestion of the Board of Publication, your Committee recommend that that Board and the Sabbath-School Board be directed to allow each other a discount of 20 per cent, on all sales of their respective publications.

Your Committee farther approve the suggestion of the Board in regard to the monthly paper, and recommend the adoption of the fol-

lowing resolution:

Resolved, That the several Boards of our Church be recommended to employ the columns of "The Sower," in communicating to the churches knowledge of their respective operations, and that it be farther recommended that each Board bear so great a proportion of the expenses of that paper as may seem to it to be just.

It is believed that the outlay thus demanded from each Board will be more than compensated in the facilities which the "Sower" offers

for urging their several claims before the churches.

The Board requests that Section 1st, Article 4th, of its constitution, be so amended as to increase the number of its Executive Committee from seven to nine. The design of the proposed change is to secure more of the judgment and tact of business men in the conduct of the affairs of the Board. Your Committee recommend that the proposed change be made in the terms suggested in the report of the Board.

In accordance with the further request of the Board, your Commit-

tee recommend the following resolutions:

Resolved, That the Stated Clerk of each Classis be directed to send

to the Corresponding Secretary of the Board official information of the names of the Committee on Colportage, appointed by the Classis.

Resolved, That such Committees on Colportage be requested to search out persons qualified to labor as colporteurs, and to notify the Board of such, and farther to use their utmost endeavors that, when a colporteur labors within the bounds of a Classis, his salary and expenses be raised within that Classis.

Your Committee have examined the copy of the letters of Rev. Dr-Scudder, under the title, "A Voice from the East," and consider it in its mechanical execution, but especially in its matter, worthy of the most extended circulation throughout our churches and Sabbath-schools. The relation which the volume sustains to the memory of a faithful and beloved servant of Christ and of the Church, the fact that the Synod has ordered its publication, and, more than all, its admirable adaptation to nourish a missionary spirit in the minds of the young, make it proper, in the opinion of your Committee, to do in this instance what could not well be done in regard to every particular issue of the Board, namely, to give that volume the hearty commendation of the Synod. The Committee accordingly suggest the following resolution:

Resolved, That the volume of Dr. Scudder's letters to children, entitled "A Voice from the East," should, in the opinion of this Synod, have a place in every Sabbath-school and family in our Church.

Respectfully submitted.

H. D. GANSE, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Publication, whose term of service has expired. On counting the ballots, it appeared that the following were chosen, namely: Rev. Thomas De Witt, D.D., Elbert S. Porter, Abraham Polhemus, Thomas C. Strong, and Messrs. James Myers, Jonathan S. Burr, Maurice E. Viele, and Mortimer De Motte.

ARTICLE XXI.

PARTICULARIA.

The communication containing the bequest of the Rev. Elias Van Benschoten was read.

A letter was received from Dr. John P. Gray, inviting the Synod to visit the State Lunatic Asylum. It was

Resolved, That the invitation be accepted.

The Rev. John A. Todd and John A. Lansing, and the Elder David Sarvan, were appointed a Committee of Canvass to whom the ballots cast for filling vacancies in the several Boards of the Synod, for

Delegate to the General Assembly, and for persons to preach the annual missionary sermons, and the sermon on education, before the Synod, were committed, who reported the result of the election.

A statement was presented by the Elder A. Watson, in relation to certain typographical mistakes in the Psalm and Hymn Book, when it was

Resolved, That the same be referred to the Board of Corporation. Resolved, That the travelling expenses of the Stated Clerk be allowed to him in addition to his salary.

Resolved, That the Treasurer be authorized to pay the bill for printing the Revised Liturgy.

ARTICLE XXII.

BENEVOLENT AND RELIGIOUS INSTITUTIONS.

Fifty copies of the Seventh Annual Report of the American and Foreign Christian Union, were received and distributed among the members.

Copies of the 46th Annual Report of the A. B. C. F. M., and of the Report of the Deputation to India, together with other tracts and pamphlets published by the Board, were received and distributed among the members.

Resolved, That this Synod reposes undiminished confidence in the wisdom and integrity which have characterized the past administration of the American Tract Society, and cordially recommend that institution to the favor of the Church.

ARTICLE XXIII.

PASTORAL LETTER.

Nothing occurred.

ARTICLE XXIV.

SYNODICAL ARCHIVES.

Nothing occurred.

ARTICLE XXV.

ACCOUNTS.

The Committee on Accounts reported, and the report was adopted, and is as follows:

The Committee on Accounts respectfully report that the following bills have been presented to them, namely:

A bill from Tiffany and Arnott, for stationery, "from Ellis H. Roberts, for printing,	\$4.00 5.00
For Postage Stamps taken from the Clerks' table,	30

Amounting in all to	\$22.55

All which they recommend to be paid.

Respectfully submitted.

W. T. VAN DOREN, Chairman.

ARTICLE XXVI.

RESUMPTION AND CLOSE.

Resolved, That the Stated Clerk publish 1300 copies of the Minutes of this Synod, duly authenticated, and that he distribute among the Classes the number of copies directed by them.

Resolved, That the thanks of the Synod be offered to the Consistory of this church for the use of their church edifice during the session of the body.

Resolved, That our particular acknowledgments are due to the Rev. Dr. Fisher, and to Messrs. Brayton, Clark, Bagg, and Willard, deacons of the church, for their most kind attention in receiving and locating the members of the Synod.

Resolved, That the members of this body will retain the most pleasant and grateful recollections of the graceful and attentive hospitality which they have received from the families of this congregation and of the city of Utica, during the session now closed.

Resolved, That the thanks of this Synod be presented to the congregation of the Reformed Dutch Church of Utica, for their unexpected generosity and kindness in favoring the members of this Synod with a free excursion to Trenton Falls.

Resolved, That the thanks of the Synod be tendered to the Managers of the New-York State Lunatic Asylum, for the privilege afforded to the members of the Synod of visiting this institution and witnessing its internal arrangements.

Resolved, That the thanks of the Synod be tendered to Mr. Charles A. Mann, for his courtesy in inviting the Synod to visit the Utica Steam Cotton Mills, and for his kind attention in receiving the members, and exhibiting to them the different parts of this most flourishing manufactory.

Agreeably to the standing rule of the Synod, the roll was called at the close of the session, when it appeared that the Rev. John T. M. Davie, A. A. Willets, and the Elders, John Remsen, Joseph Thompson, John Markle, and Cornelius Groot, were absent without permission.

The Minutes were read and approved.

ARTICLE XXVII.

ACTS AND PROCEEDINGS

Of the General Synod of the Reformed Protestant Dutch Church in North America, convened in the Village of Ithaca, on Wednesday, the third day of June, in the year of our Lord, one thousand eight hundred and fifty-seven. The Session continued from the third to the eleventh day of June, inclusive.

COMMUNICATIONS.

The following report was received from the Board of Superintendents of the Theological Seminary, which was read and referred to the Committee on the Professorate:

REPORT OF THE COMMITTEE ON SYNODICAL REPORTS, ADOPTED BY THE BOARD OF SUPERINTENDENTS, MAY 21ST, 1857.

To the General Synod:

The Board of Superintendents of the Theological Seminary met in Peter Hertzog Hall, in New Brunswick, on Tuesday, May 19th, 1857, at 11 o'clock, A.M. In the absence of the President, Rev. G. Ludlow, D.D., the Rev. N. J. Marcelus, D.D., was called to the chair, and opened the meeting with prayer.

The following members were present:

N. J. Marcelus, D.D., C. E. Crispell, John De Witt, Philip Phelps, A. C. Millspaugh, P. D. Van Cleef, F. H. Vanderveer, J. A. Lansing, N. F. Chapman, A. Elmendorf, J. R. Talmage, J. B. Alliger, S. T. Scarle, A. Polhemus, D.D., Edwin Vedder. C. S. Mead, G. H. Fisher, D.D., A. J. Swits, M. N. McLaren, D.D., J. R. Van Arsdale.

Some difference of opinion prevailed upon the question, whether A. Polhemus, D.D., was a member of the Board. When a member of the Classis of Poughkeepsie, he was appointed a member of the Board; since his appointment he has left the Classis of Poughkeepsie, and connected himself with the Classis of Bergen. The Board, after some discussion, decided that he was a member, and he accordingly took his seat. This decision is submitted to Synod for its consideration.

There were no members present from the following Classes: South Classis of New York, Philadelphia, Passaic, Illinois, Wisconsin, Greene,

Watervliet, Michigan, Holland, and Arcot.

The Rev. M. N. McLaren, D.D., was chosen President, and the

Rev. J. A. Lansing, Clerk pro tem.

The following extracts from the report of the Professors give us the number and names of the young men who have been in attendance during the year, and the testimony respecting their progress and general demeanor.

The following persons have been in attendance upon the exercises

of the Seminary during the past year:

Junior Class.

Henry Schiebe,
William A. Shaw,
C. G. Van Derveer,
Ed. M. Wiess.—14.—Total 35.

Mr. William E. New withdrew from the Seminary after a connection of four months. Doctrinal difficulties caused him to ask for a dismission. It was regretted by the Faculty that he should have withdrawn before he had received any instruction in Systematic Theology.

From the interest which the students take in Sabbath schools, prayer meetings, tract distribution and other efforts, and also from the direct religious influence which they have exerted upon the students of the College, it is thought that the young men now in a course of training give more than ordinary promise of usefulness in the Christian Ministry.

The Senior Class was examined in all the departments of study, as also on their personal piety, their views of entering the Ministry, and their manner of preaching. The Middle and Junior Classes were examined in the departments of oriental languages and biblical literature, and the former also in Didactic Theology. Their examination in the department of Ecclesiastical History and Church Government was omitted, in consequence of the illness of the Professor of this department. Upon the conclusion of the examinations it was resolved that the examinations of the several classes be sustained, and that the members of the senior class be recommended to the Theological Faculty for the usual Professoral certificate.

The annual sermon before the Board was preached by the Rev. A. Elmendorf, on the evening of the first day of the session, from Matthew, 13: 31, 32; and the address to the students by the Rev. Philip Phelps, Jr., on the evening of the second day.

The following young men, recommended by Classes for aid to pursue their studies, were, after an examination, recommended to the Board of Education, viz:

Francis M. Bogardus, from the Classis of Schoharie.

Henry W. F. Jones,
J. Walter Beardslee,
Nath. F. Van Arsdale,
John Justin,
Joseph H. Doremus,
Henry H. Hutchinson,
George Seibert,
Thornton Van Vliet,
Julius W. Geyer,

" New Brunswick.
" Passaic.
" Bergen.
" South Classis of L. I.
" Classis of Cayuga.

Of the above, Thornton Van Vliet requests to be recommended to the Van Benschoten Fund. The Board learn with deep regret the illness of our Professor of Ecclesiastical History and Church Government. The report of the Professors thus speaks of it: "The sickness of Dr. Ludlow has been to us all a subject of much anxiety, but we are glad to be assured that his symptoms give promise of recovery to health, and a prolonged usefulness." In a communication to the Board, the Doctor says, "Having enjoyed for many years uninterrupted health, it has pleased my Lord, through sickness, to suspend my labors for a little season in the Theological Hall. I have, however, every encouragement to look for the restoration of my health, and resume in due season my official labors."

The Board, upon the reception of this communication, adopted the

following minute:

"That this Board sympathise with the Professor in his sickness, and lament the loss of his valuable instruction to the students in the Theological Hall; but that they cannot withhold their gratitude to *Him* who gives us richly all things to enjoy, that his sickness has been only for a little season, after many years of uninterrupted health, and that he has every encouragement to look for the restoration of his health, and the resumption of his official duties.

"May the Lord Jesus Christ, the Great Head of the Church, fulfil the expectations of his recovery, and spare him to us for long continued

usefulness."

The term of the following members will expire at the next meeting of the General Synod:

Rev. John A. Lansing,
"F. F. Cornell,
"A. J. Swits,
"C. S. Mead,
"Rev. O. H. Gregory, D.D.,
"John A. Staats,
"Gabriel Ludlow, D.D.

Upon the subject of the Theological Hall and its Library, the Professors in their report remark, "A beginning has been made in procuring a library to be placed in the new Hall; the number of volumes already exceeds five hundred. The principal donors are Mrs. Ann Miller, widow of the late Rev. John E. Miller; Frederick Schols, Esq., Brooklyn, L. I.; Henry Onderdonk, Jr., Jamaica, L. I.; Rev. James A. H. Cornell, Samuel B. Schieffelin, Esq., Rev. Francis Zabriskie, N. Y.; Rev. Elbert S. Porter, Williamsburg, L. I.; Miss Elizabeth Bennet, New Brunswick, N. J.; A. O. Zabriskie, Esq., Jersey City; Maurice E. Viele, Esq., Albany; John G. Gebhard, M. D., Hudson, N. Y. The bookcases for the library have been furnished by liberal donations, as follows:

Samuel B. Schieffelin, N. Y., \$	150	00
Jacob H. Ten Eyck, Esq., Albany		
Maurice E. Viele, Esq., "		
Reformed Dutch Church, Holmdel, N. J	9	00
" " Readington, N. J	54	77

"The experience of the past year has satisfied the Faculty that the erection of the Peter Hertzog Hall has been a wise and salutary measure, and it is confidently believed that its effects will be to augment the number and increase the efficiency of our ministers."

The Board have instructed its Stated Clerk to address to the donors of books and money as referred to above, letters expressive of the feelings of this body for the abounding liberality towards this institution, and that he request the Librarian to have published in the Christian Intelligencer a list of those who have already made or who may hereafter make presents of books or money to the Library.

The Board have also authorized the Faculty to appoint a Librarian,

fix his salary, and report to this Board.

The Rev. J. B. Alliger, on behalf of Rev. William L. Johnson, D.D., of Jamaica, L. I., presented to the Board two manuscript volumes of autograph sermons and analyses of the Rev. D. Livingston, which were accepted, and the following was adopted:

"Resolved, That the thanks of this Board be presented to the Rev. William L. Johnson, D.D., for his valuable donation, and that the volumes be accepted and placed in the Library of the Hertzog Theological Hall."

We cannot conclude our report without expressing our gratitude to God for having been permitted to see our Hall, with its convenient arrangements completed, with such prospects of usefulness.

Respectfully submitted,

C. E. CRISPELL, Chairman.

JERSEY CITY, May 27th, 1857.

The following report was received from the Commission appointed by the last General Synod, to organize the Particular Synod of Chicago, which was accepted and adopted:

Reverend Fathers and Brethren:

At the meeting of the General Synod in June, 1856, the undersigned was appointed one of a Commission to aid in the organization of a new Particular Synod in the West. He takes this opportunity to report to your Reverend Body, that at the proper time he set out for Chicago to perform the duty assigned him; owing to various detentions, the meeting for organization took place on the 3d day of September, in the 3d Presbyterian Church. This Church, in which your Missionary had been preaching during the preceding winter, was kindly offered for our use on the occasion. Examination having been made of the credentials of the Brethren convened, it was found that a quorum of Ministers and Elders was present, duly appointed from

the Classes of Michigan, Wisconsin, Holland, and Illinois, and so declared by your Commissioner; whereupon these Brethren, having taken their seats, proceeded to organize the Particular Synod by choosing their proper officers, to be known as the Particular Synod of Chicago. Rev. A. D. Wilson was chosen President, and Rev. William Anderson, Stated Clerk. By request of the Synod, a synodical sermon was preached by the undersigned, on the evening of the same day.

The organization of this Synod marks an era in the Western expansion of our Church; securing as it does a union of strength and combination of effort, its results will be most happy. It was most gratifying to witness the warm interest taken by the Brethren present, and the cheerful interchange of happy anticipations for the future of the

Western Churches.

Respectfully submitted,

ISAAC FERRIS, Commissioner.

ARTICLE IV.

BOARD OF CORPORATION.

The following report of the Board of Direction of the Corporation was received, accompanied with the Treasurer's Report, the Annual Digest, a list of the securities held by the Board, a list of the endowed scholarships, a list of the clerical subscribers to the Widows' Fund, and accounts current of said Board with the Widows' Fund and the Board of Education, together with the Report of John C. Elmendorf, Esq., Treasurer of Rutgers College, in relation to the Van Benschoten and Knox Funds:

To the General Synod of the Reformed Protestant Dutch Church:

The Board of Direction respectfully report, that a deed of quit claim and release to the Rev. George G. Sill, for the Church and

ground at Brunswick, Illinois, has been executed and delivered to him, the balance of the purchase money having been received.

Upon the request of Samuel B. Schieffelin, Esq., who had contributed three hundred dollars to the Sustentation Fund, the Treasurer was directed to pay one hundred dollars each, in quarterly instalments, to Rev. Messrs. Murphy and Blair, they having been recommended by their respective Classes.

The only contributions ever made to this fund are three hundred dollars, as above by Mr. Schieffelin, and one hundred and eighty-four dollars and fifty-four cents collected in the Collegiate Church of New York.

Since the increased obligations assumed in October, 1855, there is an annual deficiency in the regular income of the Synod to defray its existing standing expenses, of about eight hundred dollars: to meet this deficiency for the then current and previous years, the Synod at its meeting in June, 1856, recommended to the Churches to make collections on or about the first Lord's day in November; and your Board previously to that date addressed a Circular to the Churches, calling their attention to the subject. The aggregate receipts into the treasury from these collections have, nevertheless, amounted only to five hundred and fifty-two dollars and nine cents—a sum far too small to meet the deficiency of a single year; and thus a debt is growing up, which, unless speedily cancelled, and hereafter avoided, will become embarrassing and vexatious. It is so already, and the Board earnestly entreat the Synod to provide adequate relief in the premises.

The widow of the Rev. S. V. E. Westfall, upon the certificate of the Classis of Illinois, was placed on the list of annuitants on the Widows' Fund, from the 1st day of November last.

The Rev. A. B. Winfield, having been declared emeritus by the Classis of Paramus, has also been placed on the list of annuitants, to date from the first day of November last. The Rev. Edward H. May, in like manner declared emeritus, by the Classis of New York, is placed on the same list, his annuity to date from the 1st May, 1857. Measures for a more rapid increase of this important fund have a just claim on the special attention of the Synod.

Its increase during the past year has been only seventeen hundred and twenty-three dollars, of which twelve hundred and fifty dollars have been invested on Bond and Mortgage. Its sum total now invested is fifteen thousand nine hundred dollars.

The Board ask for power to sell, upon equitable terms, and convey the Moses Cowan Property, in Saratoga County, for the benefit of the Board of Education, to which it was bequeathed.

The funds of the Synod, it is believed, are safely invested, the interest accruing thereon is regularly received, and its fiscal affairs generally receive due attention.

The Treasurer's Report, herewith submitted, exhibits in detail, and with clearness, the state of the funds of Synod.

Respectfully submitted,

ARTICLE V.

CORRESPONDENCE.

The following documents were received from the Rev. Dr. How, Chairman of the Committee to conduct the correspondence with Foreign Churches:

- 1. Copies of letters of the Committee of General Synod to the General Assembly of the Free Church of Scotland, to the Synod of the Reformed Dutch Church of South Africa, and to the Synod of the Waldensian Churches.
- 2. A reply, acknowledging the receipt of the letter to the Assembly of the Free Church of Scotland, by Rev. John Bonar.
- 3. Proceedings of the General Assembly of the Free Church of Scotland, held at Edinburgh, May, 1856.
- 4. A communication in French, from Rev. J. P. Revel, Moderator of the Synod of the "Eglise Vaudoise," with a translation of the same.
- 5. A letter, dated Edinburgh, June 5, 1855, from Rev. John Bonar, to the Stated Clerk of the General Synod, in relation to correspondence with the Free Church.
- 6. Another letter in French, from Rev. Mr. Revel, Moderator of the Vaudoise Churches, to the Rev. Dr. De Witt, with a translation of the same.

The above documents were referred to the Committee on Correspondence.

The Committee on Correspondence reported, and their report was adopted, and is as follows:

The Committee on Correspondence having had the matters placed in their hands under advisement, would respectfully report, that the committee appointed by the General Synod of 1855, (of which the Rev. Dr. How was chairman,) to open a friendly correspondence with the Synod of the Reformed Dutch Church of South Africa, have discharged their duty. A copy of their letter has been placed in the hands of your committee; but since no reply to it has been received, any further action on the subject, at present, is deemed unnecessary.

The same committee was also, at the same time, directed to address to the "Ancient Church of the Waldenses a letter assuring them of the cordial affection with which this Synod regards them, and conveying to them such information concerning our own Churches as they may judge it expedient to communicate." An interesting reply from

the Rev. J. P. Revel, Moderator of their Synod, has been received, giving an account of the present condition and operations of that body, and expressing their grateful acknowledgment for your Christian sympathy and liberality. Your committee would recommend that a copy of the Minutes of this Synod be sent to their Rev. Moderator, and that the same committee be continued, for the purpose of still further prosecuting this friendly correspondence.

A letter having been received from the Rev. John Bonar, "Convener of the Continental and Colonial Committee of the Free Church of Scotland," the General Synod at its meeting, held in the City of New York, in October, 1855, appointed the same committee to reply to said communication, and conduct the correspondence. This has been done, and a reply has been received from the Rev. Mr. Bonar, expressing their "very great pleasure in receiving a communication from the esteemed brethren of the Reformed Dutch Church, so full of sound views, fraternal feelings, and encouraging information." A copy also of the "Proceedings of the Free Church of Scotland," held at Edinburgh in May, 1856, accompanying the foregoing letter, has been received, which is an interesting document, and contains many valuable suggestions, especially on the question of education; presenting numerous important points, throwing light on the advantages and disadvantages of denominational schools; and also a report on the Eldership, a subject demanding the attention of our Consistories. Your committee would recommend that the same committee, (of which the Rev. Dr. How is chairman,) be continued for the purpose of prosecuting this correspondence; that a copy of the Minutes of this Synod be sent to the Rev. "Convener, &c.," and that said committee also be directed to publish in the Christian Intelligencer such parts of the "Proceedings of the Free Church of Scotland" as shall be considered useful and interesting to our Churches.

Another communication from the Rev. Mr. Bonar has been received, dated June 5th, 1855, in which he states that the Scotch Free Church "was led a few years ago to establish, in connection with her Mission to the Jews in Amsterdam, a Collegiate Iustitution for training young men for the Evangelistic work on the Continent." This Institution stauds in friendly relation to the Dutch National Church. It has already trained several young men of promise, and it is a serious question with them how their services may best be made available to the cause of Christ. For more particular information on this subject, he refers to certain printed documents, which were to have been forwarded by the next mail, but which have not yet come to hand, and therefore your committee are not prepared to recommend any specific action on this subject.

Respectfully submitted,

The following report was received from the Rev. Dr. Abeel, the Corresponding Delegate from this Synod to the General Assembly of the Presbyterian Church, which was accepted:

NEWARK, N. J., June 6, 1857.

To the President of the General Synod:

I have the honor to report to the reverend body over which you preside, that I have fulfilled my appointment as delegate to attend the last meeting of the General Assembly of the Presbyterian Church in the United States.

My reception was highly respectful to the body I represented, and cordial to your representative personally.

Assurances of fraternal affection, esteem, and sympathy from us to them, were reciprocated publicly by their Moderator, and privately by many of the members of that body.

I left them deeply impressed with the value of a continued and hearty correspondence between these two branches of the Church, ours and theirs.

In this day of anarchy and division in State and Church, these two bodies are presenting a rebuke and a model, by illustrating the wisdom and mercy of the injunction, to keep the unity of the spirit in the bonds of peace.

GUSTAVUS ABEEL.

The Rev. John Woodbridge, of the Presbyterian Church, appeared in Synod, and having produced testimonials of his appointment, took his seat as a Corresponding Delegate from the General Assembly of the Presbyterian Church in the United States.

The Committee on Correspondence having reported double the number of persons from whom to elect delegates to the General Assembly of the Presbyterian Church, Synod proceeded to the election, when the following were chosen: Rev. Talbot W. Chambers, D. D., *Primarius*; and Rev. George H. Fisher, D. D., *Secundus*.

ARTICLE VI.

SYNODICAL REPORTS ON THE STATE OF THE CHURCHES.

In conformity to the standing regulation, the Synod spent a part of the afternoon of the first day of the Session in religious exercises, conducted agreeably to a plan previously reported by a Committee for that purpose, consisting of Rev. John L. McNair, Charles Parker, and *Elder* Peter S. Danforth.

Resolved, That the subject of making arrangements for the observance of the Sacrament of the Lord's Supper be referred to the Committee appointed on devotional exercises of the Synod. The Committee reported, and their report was adopted, and the Sacrament of the Lord's Supper was observed accordingly.

The Committee on the State of Religion reported, and their report was accepted, adopted, and is as follows:

The Committee on the State of Religion do not find it easy to combine the reports of the Particular Synods into a distinct picture of the spiritual condition of our Churches; and the difficulty arises chiefly from the general terms in which the reports of the Synods are almost necessarily drawn. For this reason, they think, a great advantage attaches to the course which the Synod of New York has this year adopted, of transmitting to this body, not only a statement of the general conclusions which the Classical reports have suggested, but the Classical reports themselves. If the same principle could be carried a step farther, and the Classical reports be made to incorporate just so much of the language of each Consistorial report as should be necessary to indicate its spirit, and if the whole should then find its way to this body in the reports of the Particular Synods, you would have before you a map of the Spiritual condition of the whole Church, that should be most interesting and suggestive. Such a course would not much extend the customary limits of the Classical reports, since the extracts referred to might, in most instances, be very brief; and thus they would only displace those commonplaces which the most careful writers of Classical reports find it hardly possible to escape. And even if the reports of the Classes and Synods should by this means be extended to twice or thrice their present proportions, their increased interest and value to the General Synod, and their permanent value as compact annuals of all our congregations, would more than compensate the expense of labor and space. Your Committee recommend the adoption of the following resolution:

Resolved, That the several Classes and Particular Synods be requested to make their reports upon the State of Religion include, as far as possible, a synopsis of the statements of the individual Consistories.

The experience of this Committee also induces them to propose the following resolutions:

Resolved, That the Stated Clerks of the several Classes be requested to add up the statistical tables of their Classes, before they transmit

them to the Particular Synod.

Resolved, That the Particular Synods be enjoined to furnish to the respective Classes blank forms for their statistical reports, and the Classes to furnish similar forms to the Consistories for their reports.

The number of members added to the Churches during the past year upon Confession of their Faith is, according to the statistical tables, 2,570. The aggregate of last year was 2,551; the increase of this year exceeding that of the last only by 19. A view of the tables shows, that of this gross number of 2,570, 1,507 have been received to the Communion of 59 Churches, making an average of more than 25 new members to each Church, and leaving the smaller half of the total—namely, 1,063—to be distributed among the remaining 330 Churches, the average increase of which has been but little more than 3 members each. While we assume no right either to praise those pastors who have been most successful, or to condemn those who have seemed to accomplish least, is it not safe to say, that the Church of our Lord Jesus Christ is intended by her Divine Master to accomplish results more extensive and uniform than these?

Is it not plain that, since there can be upon God's part no lack of power or willingness to bless our labors, we must be wanting in the faithfulness that claims the blessing? Surely our 400 Churches, with their yearly increase of less than 3,000 members, must, in some particular, differ widely from that early Church which gathered in a greater increase in a single city, and in a single day. Our many deserted prayer meetings—our many households barren of religious instruction and family prayer, and filled with the evidences of the "love of the world," may explain our deficiency. It becomes those who are charged with the instruction of our Churches, to be distinct and faithful in their warnings against this prevailing worldliness; and for the sake of calling the attention of our Churches to a truth so well known, but so little regarded, your Committee recommend the adoption of the following resolution:

Resolved, That this Synod, while it returns thanks to God for every evidence of his blessing upon our Churches, acknowledges with contrition how the blessing is impeded by our general unfaithfulness, and warns the Ministers and Churches under its care of the pressing need of a more devoted and self-denying piety.

There are, however, two encouraging signs, which the Committee find in nearly all the Classical and Synodical reports that have been submitted to them. One is the increased attention that seems to be given to the religious training of the young, both in Catechetical and Sabbath school instruction. If the more powerful influence of family piety should be added to these, we might fairly hope to see an early and large increase of the Church from the number of her children. Without discussing at all a point so plain and important, your Committee recommend the adoption of the following resolution:

Resolved, That the Ministers of all our Churches be requested to preach to their congregations, on the 4th Lord's day of February, upon the importance and means of the religious training of the young, especially within the family; and that the same Sabbath be observed as a day of special prayer for the conversion of the children of the Church.

Another sign of good is the increase in the benevolent gifts of the churches. Allusions to this increase are made in nearly all the reports which have come before us, and they are warranted in the statistics with which the reports are accompanied. The total of the contributions reported last year was \$75,898 89; the total of this year's contributions reaches to \$110,010 44, showing an increase of \$34,111 35. This increase is the more surprising, since this year a separate column has been prepared for ordinary religious expenses, some of which expenses, it is fair to believe, have been previously included in the statement of benevolent contributions. The advance surely is great—so great that, though your committee have taken great pains to guard against mistake, they can hardly believe that the figures have not misled them. The footings are still more mysterious, from the fact that the income of our several Boards has by no means indicated such an But it is still possible that the charity has flowincrease of liberality. ed in the other channels that are open all around us. We venture, therefore, to accept the figures as we find them, and to thank God and take courage. The church that scatters is sure to increase. Your committee, however, and this Synod, cannot doubt that we have yet room for great advances in the duty of systematic beneficence. Since the Synod of last year formally commended this duty to the churches, your committee think it enough to call attention to that subject by the adoption of the following resolution:

Resolved, That each Consistory be requested to incorporate in its next yearly report a statement of its system of benevolent contributions, and that these statements be included by the Classes in their reports to the Particular Synods.

The following notices are included in the Synodical Reports:

The Classis of Illinois reports "the death of their beloved and highly esteemed brother, S. V. E. Westfall."

Rev. A. B. Winfield, of the Classis of Paramus, Rev. James Murphy, of the Classis of Montgomery, and Rev. A. Hoffman, of the Classis of Geneva, have been removed by death.

The Classis of New York notices the death of Rev. Dr. Van Arsdale.

Respectfully submitted,

H. D. GANSE, Chairman.

ARTICLE VII.

SYNODICAL REFERENCES.

The Committee on Synodical Minutes reported, and their report was accepted, and is as follows:

The Committee on Synodical Minutes would respectfully present the

following report:

The Minutes of the last General Synod, and of the Particular Synods of New York, Albany, and of Chicago, were placed in our hands, and were carefully examined.

They find nothing in the Minutes of the Particular Synod of Alba-

ny to which to direct the attention of this General Synod.

In the Minutes of the Particular Synod of New York they find, upon page 35, the following recommendations:

The South Classis of Long Island recommend that General Synod be requested to adopt more efficient measures to prevent the preaching of students in the Churches, before they are licensed.

The Classis of Westchester recommend Alex. Watson to the General Synod for a dispensation from the study of Greek and Hebrew, in order that they may license him for the Gospel ministry.

In the Minutes of the Particular Synod of Chicago are the following resolutions, found on page 10:

Resolved, That the Particular Synod of Chicago overtures the General Synod to appoint an itinerant Missionary Agent, to labor within the bounds of the Particular Synod of Chicago, in order to foster feeble Churches to their establishment, and to gather new congregations; said Missionary to be under the joint direction of the Particular Synod of Chicago and the Board of Domestic Missions; and to be paid a sufficient salary and his travelling expenses, by the Board of Domestic Missions.

Resolved, That Mr. W. H. Van Vleet, from the Classis of Illinois, and Mr. J. Baay, from the Classis of Wisconsin, be recommended to the next General Synod as suitable persons to receive aid from the educational funds.

On page 17:

Resolved, That inasmuch as there is not a quorum of Elders present, this Particular Synod proceed to act, and ask of the General Synod a dispensation, provided no quorum of Elders be present previous to adjournment.

In the Minutes of the General Synod may be found the following particulars, as claiming the attention of this Synod. On pages 94 and 95:

Whereas, The labors of the Synod, and of its Committee on the subject of the revision of the Liturgy of the Church, has shown that it is a work as difficult as it is important, to attain a satisfactory result; and,

Whereas, The Synod are anxious that the revision should receive the most mature and thorough consideration previously to its being submitted to the decision of the several Classes, and which cannot now be afforded; therefore,

Resolved, That the forms for the administration of the Lord's Supper and Baptism, as adopted by this Synod, be sent down to the several Classes for their approval or disapproval.

Resolved, That the further consideration of the Liturgy be referred to the Synod at its stated meeting in June, 1857.

On page 103:

Resolved, That a Committee, consisting of Rev. Thomas E. Vermilye, D.D., Jeremiah S. Lord, and the Elder, Thomas Jeremiah, be appointed, to revise the plan for a Sustentation Fund, adopted in October, 1855, and report to the next General Synod.

On page 96:

The Committee on Education reported, and their report was adopted, with the exception of so much as related to the subject of the Board of Sabbath School Union, which was recommitted, with instructions to report upon the same at the next General Synod.

On page 116:

Resolved, That the part of the report of the Committee on Foreign Missions, which refers to our relations to the A. B. C. F. M., be not printed in the Minutes, but transmitted to the next Synod, with the documents accompanying it, namely, the report signed by Rev. Dr. Ferris, and the papers transmitted with it.

Resolved, That the Board of Foreign Missions be directed to send up to the next Synod a full statement of the expenses that would probably be incurred by an independent missionary establishment.

All of which is very respectfully submitted,

P. H. BURGHART, Chairman.

Resolved, That so much of the above report as refers to the subject of dispensations or applications for aid from the funds of the Synod, be referred to the Committee on the Professorate.

Resolved, That so much of the above report as relates to the subject of the preaching by students in the Theological Seminary, be referred to the Committee on the Professorate.

Resolved, That so much of the above report as relates to the overture from the Synod of Chicago, in relation to an itinerant missionary, be referred to the Committee on Domestic Missions.

Resolved, That so much as relates to the Synod of Chicago holding a session without a quorum of Elders, be referred to the Committee on Overtures and Judicial Business.

Resolved, That so much of the report as relates to the subject of the Litnry, be taken up when the General Synod shall reach that subject.

Resolved, That the subject of a report on the Sustentation Fund be referred to the Committee on the Widows' Fund.

Resolved, That the subject referred to on p. 96, be referred to the Committee on Education.

Resolved, That the subject referred to on p. 116, on the present connection of the Synod with the A. B. C. F. M. in conducting foreign missions, be referred to the Committee on Foreign Missions.

The Committee on Overtures and Judicial Business reported, and their report was accepted, adopted, and is as follows:

The Committee on Overtures and Judicial Business beg leave to present the following report on the various matters referred to them:

1. With regard to the Particular Synod of Chicago, asking a dispensation with reference to their late session, at which there was not a quorum of Elders present.

The Constitution of our Church requires the presence of seven Ministers and seven Elders, to constitute a quorum, at the meeting of each Particular Synod, and in no case should this constitutional requirement be departed from, except under very peculiar circumstances. Such peculiar circumstances your committee believe existed in the present case. Many of those delegated to the Synod of Chicago had to travel a great distance, and at considerable expense both of time and of money—doubtless one or other of these was the cause why some of those delegated to said Synod were not present at the session referred to. Though your committee do not think the expense of either time or money a justifiable excuse for non-attendance on the part of those delegated, yet, in view of the circumstances in which the Synod was placed, recommend the adoption of the following resolution, viz:

Resolved, That the dispensation asked for by the Particular Synod of Chicago be and hereby is granted.

2. With regard to the application of the Elders and Deacons of a Church at Rochester, designated as the Reformed Dutch Church at Rochester, which appears to be an independent organization, under the pastoral care of Rev. C. W. Van Deven, asking to be received as a member of this body, your Committee recommend the following resolution:

Resolved, That said Church should make their application to the Classis of Geneva.

3. With regard to the overture from the Classis of Bergen, requesting General Synod to take some action with reference to baptized children, so that they may be recognized in the transfer of their patents from one Church to another, according to the 4th Chapter, 1st

Article, 3d Section of the Constitution, viz: "All baptized persons are members of the Church, are under its care, and subject to its government and discipline," your Committee would report: That not only the Constitution of our Church, but also the word of God recognizes the covenant relation which the offspring of God's people sustain to the Church. If members of the Church, they should be recognized and treated as such, and not as aliens. They should be taught the fact that they stand in this relation—the nature of that relation, and the obligations resting upon them. Hence, in their passing from under the care and watch of one part of the Church to another, they should bear with them the testimony to which they are entitled, and not be allowed to go forth as aliens. The recognition of this great principle of our Faith should; be set forth in our practice; therefore your Committee recommend the adoption of the following resolution, viz:

Resolved, That in the transfer of the parents from one section of the Church to another, the membership of their baptized children be recognized, and they be included in such transfer.

4. With respect to the Classis of Passaic, asking "direction as to what course to pursue with reference to those persons whose names are upon our record of membership, but who have left the Church irregularly and without certificates, and whose places of residence are at present, and have been for a term of years, entirely unknown."

Whereas the Constitution provides but three ways whereby a member can dissolve his connection with the Church, or have it dissolved; and whereas there are many whose names stand upon the record of the several Churches, which have not been erased in any one of these constitutional ways, and yet whose place of residence is not known, nor the fact of their being among the living or the dead; and whereas the desire of Synod, as frequently embodied in resolution, is to obtain an exact report from all the Churches of actual membership: therefore be it Resolved, That the several Consistories be directed to keep a separate list of those members whose place of residence, after diligent search, cannot be ascertained, and that such members be not included in the yearly statistical reports.

5. With reference to the request of the Classis of Wisconsin, to be assisted in meeting the expense of their delegates to the General Synod:

Your Committee fully appreciate the request of the Classis of Wisconsin, asking the attention of this Synod to the subject of the expense incurred by their delegates in attendance upon the meetings of Synod. In this connection, the Committee have also listened to the suggestions of delegates from other Western Classes. It is evidently unjust that these delegates, or their Churches, should be subject to the expense necessarily incurred in the long journeys required to enable them to be represented in the meetings of this body. Unless some provision is made to bear at least a part of their expenses, a failure of representation from our Western Churches must of necessity occur. The Commit-

tee are of opinion that provision should be made to pay the expense of these delegations to an amount equivalent to the excess to which they are now subjected over and above the average of delegates from other portions of the Church. The Committee therefore recommend a payment of such excess to the delegations from our Western Churches, upon the principle of mileage, at the rate of two cents per mile.

As it is believed that the funds of the Synod will not warrant a draft upon them for these expenses, and reluctant as the Committee are to recommend any additional tax upon the Churches, yet necessity is laid

upon us. The Committee therefore propose the following:

Resolved, That the expenses of delegates from the following Classes, incurred in attendance upon Synod, be paid at the rate of one cent per mile, for the distance set opposite their names respectively, and apportioned as follows:

Classis	of Wisconsin,	eight	hundred	miles	 		. \$	96	00	
44	Illinois,	nine	"	"	 			108	00	
46	Michigan,	seven	"	"	 			84	00	
44	Holland,	seven	"	"				84	00	
							_			
							\$	372	00	

Resolved, That the Treasurer of General Synod is hereby requested to pay the delegates before mentioned the appropriations which may become due to them, upon the order of the Stated Clerk of this Synod.

All of which is respectfully submitted,

By order of the Committee.

ALEXANDER H. WARNER, Chairman.

Resolved, That each of the Stated Clerks of the several Classes of our Church be directed to call the attention of their respective Classes to the 15th Section of Article 1st, of Chap. CUSTOMS AND USAGES.

Reports were received from certain Classes in relation to the amended Forms for the Administration of the Lord's Supper and Baptism, which were sent down to the several Classes by the last Synod, (p. 95,) which were referred to a Committee consisting of Rev. James Demarest, John B. Shaw, and the Elder, E. Andrews.

The Committee reported, and their report was accepted, and is as follows:

The Committee to whom was referred the Reports of the Classes in relation to the revised sacramental forms, viz., Baptism and the Lord's Supper, beg to present the following report:

That the reports of only thirteen Classes out of thirty have been received; that they have examined them, and find that five of the thirteen, to wit:

The South Classes of Long Island,

" North " "
Classis of Geneva,

" " Miehigan,

" " Paramus,

approve of the amended forms. And that eight, viz:

Classis of New Brunswick,

" Passaie,

" Greene,

" Schohari

Grange, "Schoharie, "Schoharie, "New York,

disapprove of the amended forms.

JAMES DEMAREST, Chairman.

Resolved, That (for the purpose of testing the sense of the Church on the subject) the Synod hereby approve the portions of the Revised Liturgy of 1856, not yet acted upon, so far as to authorize the Board of Publication to issue the same in a separate volume, and also to allow Ministers and Consistories who may choose to do so, to use them—it

being understood that this is a provisional arrangement, to continue until the stereotype plates from which the Liturgy is now printed are worn out, when the whole subject shall be finally determined.

Whereas, The Sacramental Forms contain certain verbal errors, which it is thought desirable to correct:

Resolved, That each Classis be requested to transmit to the next General Synod a list of such changes, if any, as they may desire to have made in those forms.

ARTICLE XII.

SCHOOLS AND CHRISTIAN EDUCATION.

The Twenty-fifth Annual Report of the Board of Education was received, read, and referred, with certain accompanying papers, to the Committee on Education.

The report of B. L. Kip, late Treasurer, and that of F. J. Hosford, the present Treasurer of the Board of Education, were received and referred to the Committee on Education.

The Eighteenth Annual Report of the Board of Sabbath School Union was received, read, and referred to the Committee on Education.

A report was received from the Committee on Education, appointed at the session of the General Synod of 1856, in relation to a portion of their report then submitted, in reference to the Sabbath School Union, which had been recommitted, with direction to report to this General Synod, which was referred to the Committee on Education.

The Committee on Education reported, and their report was accepted, adopted, and is as follows:

The Committee on Education, to whom were submitted the documents relating to Education, respectfully report to the General Synod that they have carefully examined these papers, and present the following statement as their action on, and disposal of them:

1 .-- THE SUNDAY SCHOOL MATTERS.

Under this head are classified the Reports of the General Synod's Sabbath School Board, and the report of the committee appointed by the last General Synod "to confer with both the Sabbath School and Publication Boards, in relation to the management and co-operation necessary to the proper conducting of all their affairs, and to report to this Synod at its next Annual Session, with a view to their more perfect and harmonious action."

In relation to the report of the Sabbath School Board, your committee remark, that the Saviour's command to Peter, "to feed his lambs," makes the Sabbath School an integral part of a completely organized Church. The instruction and religious upbringing of children is a part of the work of the visible Church. The fact that a majority of the earth's population are minors, makes this matter one of tremendous importance. The Consistory of every Church is bound to watch over this immense interest. The Classes and General Syuod cannot shrink from meeting the question of the religious rights of children.

It is on this ground that the General Synod has a Sabbath School This Board has the supervision, or ought to have the supervision of all Sunday Schools belonging to the denomination. Inasmuch, too, as the question of Ecclesiastical Boards, instead of Voluntary Boards, is substantially settled in the opinion of the General Synod of the Reformed Dutch Church: therefore the necessity of all the Sunday Schools in the denomination being connected with the Sabbath

School Board of General Synod is self-evident.

The Sabbath School Board, after due deliberation, state in their report that a Secretary is needed by them, whose whole time shall be devoted to the interests of the Board. Your committee are not exactly agreed on the expediency of the General Synod appointing a Secretary at this time; still we believe it to be a matter of such vital importance to the interests of Sabbath Schools, as to require the careful consideration of this General Synod.

If the Synod think proper to appoint a Secretary, there would be no lack of work for him to do. On the contrary, it would be an arduous and responsible Secretaryship. He would not only be required to take the general supervision of the affairs of the Board, but also to correspond with the Churches, visit them, to pour light on the great question of Sabbath School instruction, as well as to make known the best Sabbath School literature, and the best methods for conducting and teaching Sunday Schools.

In relation to the report of the committee to confer with the Board of Publication, your committee have only to state that the Sabbath School Board, after due consideration of the matter, have resolved to pass over to the Board of Publication the Sunday School Books, Journals, &c., as the most suitable agency to take charge of them.

As a proper disposition of the matters appertaining to the whole

Sabbath School documents, your committee recommend:

I. That the General Synod approve and sanction the transfer and the sale of the stock in trade of the Sabbath School Board to the Board of Publication, on equitable terms, with the view to the future publication by the Board of Publication of all the Books, Pamphlets and Sunday School Papers of the Sabbath School Union.

II. That the Board of Sabbath School Union be authorized to elect a Secretary, whose whole services shall be devoted to the interests of the Board, whenever in their estimation it may be deemed expedient.

III. That the General Synod urge on all the Consistories of the Churches the necessity of connecting their Schools with the General

Synod's Sabbath School Board, as in union there is strength.

IV. That the General Synod moreover request the Consistories to see that a tabular report of their Schools be annually prepared and forwarded to the Sabbath School Board, one month previous to its annual meeting.

H .-- MATTERS RELATING TO THE BOARD OF EDUCATION.

Your committee consider the report of the Board of Education a valuable and able document. It grapples with many questions of vast importance to the well-being of the Dutch Church. If the spirit of it could be imbibed by every member of this Synod, a new impulse would be given to Ministerial Education.

The following points have been suggested to your committee by the

perusal of the report:

- 1. The duty of parents to consecrate their children wholly to the service of the Church. It is to be feared that the fundamental thought in Baptism is too often lost sight of. The element of water is a symbol of the covenant between the parent on the one hand, and Godhead on the other. The consecration by Elkanah and Hannah of their son
- Samuel is a model one.
- 2. The subject of Parochial Schools. The question concerning parochial schools is one of immense importance. The Committee believe that the necessity for their establishment rests on the proposition, that the religious element should be a condition of all school systems. If this proposition be sound, then the argument for the necessity of parochial schools is complete. It ought to be remembered, however, to carry out the Parochial System, attention must be paid, 1st. To school structures and grounds; 2d. To School Books and to a school literature, as well as to the system to be taught; and, 3d. To teachers, their aptness to teach, and to the breadth of their attainments. Over and above this, the establishment of one or more normal schools, to raise up suitable teachers for the parochial schools.

3. The fact that the number of pious youths, in course of preparation for the Gospel ministry, is much increased; and that the number of Churches contributing to the fund of the Education Board is greatly augmented since the appointment of the laborious and efficient Secre-

tary.

4. In the Treasurer's account these figures point out the duty of every Church in the denomination to this Board. Your Committee cannot understand how any Consistory can reconcile with the duties of their high office their failure to bring the interest of this Board, and every other Board of the Church, before the people annually.

Your Committee feel it their duty to call the attention of the General Synod to these facts, and they finally propose the following resolu-

tions:

Resolved, That the Board of Education pay the Tuition bills of Rutgers College, over and above the maximum allowance to students.

Resolved, That the Board of Education be authorized to fill any vacancies that may occur in their number between the sessions of General Synod; and that the person so chosen shall serve till the expiration of the time of those whose places they take.

Resolved, That General Synod remove the limit of the amount which the Board may pay to the Secretary, leaving the amount of his salary

to be determined by the Board.

Resolved, That General Synod adopt "the report of the Committee appointed to digest a plan for the better conducting of our whole Educational system, adopted by the Board of Education, and by it ordered to be sent to the General Synod for its adoption."

III, --- THE HOLLAND ACADEMY.

Your Committee on Education call the attention of the Synod to the fact, that the Holland Academy, located in the Town of Holland, in the State of Michigan, is in a highly flourishing condition. It appears that it has already 15 young men in it, who expect to become ambassadors of Christ. It promises to be an efficient agency in promoting the object of the Board of Education. It is expected that, with the addition of an assistant teacher, and a new building, 50 or 60 students will make application for instruction next fall.

In view of the importance and promise of this institution to the

Church, your Committee recommend:

1. That General Synod approve of the erection of the new edifice, for the benefit of this Literary Institution.

2. That the Rev. A. C. Van Raalte be commended to the Churches, in his efforts to collect funds for the new buildings for their Academy.

- 3. That the Classical Committee, already nominated by the Classis, and approved by the Particular Synod of Chicago, to regulate and manage the affairs of the Holland Academy, be requested to take charge of the property of the Academy according to legal form, or to place the title in the Board of Corporation of the General Synod, that the property may be secured to the object to which it has been devoted.
- 4. That the same Committee shall annually report its doings to the Board of Education.

IV.—THE DOCUMENTS RELATING TO THE ENDOWED SCHOLARSHIPS AND EDUCATION FUNDS.

The Committee have considered these documents, and find them entirely satisfactory. We are unanimously of opinion, that the Churches rely too much on these vested funds. The children should not feel that, because their fathers made appropriations for educating a ministry, they are therefore to be exempted from all moneyed responsibility. The very opposite of this is the case. The wants of the Churches are in-

creasing with every generation. The children ought, then, to follow the example of their fathers in this particular. For how shall the people hear without a preacher? And how shall they preach, unless they be

raised up, commissioned and sent forth.

The account of the Treasurer, which accompanies this report, has been compared with the vonchers, and certified as correct, leaving a balance in his hands of \$13.76 due the General Fund; \$53.25 due the Special Fund; and \$150 belonging to the fund for the emigration of pious young men from Holland.

All of which is respectfully submitted to the General Synod.

JAMES SCOTT. Chairman.

ITHACA, June 9, 1857.

The following is the "Plan for the better conducting of the whole Educational System of the Church," adopted by the Board of Education, and referred to in the above report:

The Board of Education shall consist of 24 members, to be elected for three years, of whom nine shall constitute a quorum for the transaction of business. They shall be divided into three classes, one of which shall be elected annually. They shall have power to choose their own officers, and shall have the immediate care of all the beneficiaries and education interests of General Synod, including such beneficiaries as shall receive support or assistance from the Van Benschoten and Knox Funds in the hands of the Trustees of Rutgers College, and shall have power to make such By-Laws as they may deem necessary, and as shall not contravene the rules established by General Synod, and shall annually report all their proceedings to the General Synod.

MODE OF RECEPTION.

1. Every person applying to be received as a beneficiary, must be a member in regular and good standing in the Reformed Dutch Church, and must also have been a member of some Protestant Church for at least one year previous to his making such application.

2. If any one wishes to avail himself of the aid of the Church, he shall make known his desire to his Pastor, or some member of the Classis with which his Church is connected, who, if he approves of it,

shall make application to the Classis for his examination.

3. The examination shall be on his personal piety, on his motives for seeking the holy office of the Ministry, on his general habits, on his studies, his talents, his ability for public speaking, his health, his freedom from debt, and the necessity of his receiving aid.

4. If this examination be sustained, and Classis decide to recommend

him to the Board, it shall be done in the following form:

At a meeting of the Classis of

, held at

, on

the day of , 18 , the person whose name is given in the following report, having been examined in conformity with the Plan of Education adopted by General Synod, is hereby recommended to receive aid from the Educational Funds of the Church:

REPORT.

Name.	Age.	Residence.	With what Church connected.	Stage of Education.	Lowest amount required.	Health.	Debts.

5. When the beneficiary thus recommended shall have been received by the Board of Education, his name shall be entered upon a book kept by the Secretary, and ruled in the following manner:

No.	Name.	Age.	Residence.	With what Church connected.	Stage of Educa-tion.	Place of Study.	Lowest amount required.	When received.	When his connection ceased.	General Remarks.

6. This power of examining candidates shall be vested in the Board of Education also, and they shall be empowered to make such examination whenever in their judgment they may deem it necessary or desirable.

7. Every beneficiary shall have finished a complete and regular course of Collegiate study before he shall be allowed to enter the Theological Seminary, unless a dispensation shall have been obtained from General Synod.

8. If at any time there shall have been discovered in any student such defect in capacity, diligence, prudence or picty, as would render his introduction into the Ministry a doubtful measure, it shall be considered the sacred duty of the Board to withdraw their appropriations.

Students shall also cease to receive the assistance of the Board when

their health shall have become such as to unfit them for study, and for the work of the ministry; when they are manifestly improvident, and contract debts without reasonable prospects of payment; when they marry, and when they receive the assistance of any other Educational Board or Society.

9. If any student fail to continue in his preparation for the work of the ministry, unless in the judgment of the Board he be providentially prevented, or if he cease to be in connection with the Reformed Dutch Church, or if the withdrawal of his support shall have been rendered necessary by wilful neglect of duty or mal-conduct, he shall be required, at the discretion of the Executive Committee of the Board, to refund all the money which he may have received from the Board.

10. When any student shall have found it necessary to relinquish study for a time, to teach or otherwise increase the means of support, he shall first obtain the consent of the Executive Committee, and it shall be left to their decision whether his appropriation, under the cir-

cumstances, shall be continued, or continued only in part.

11. All the instructors of the young men under the care of this Board shall be furnished with forms of a report, and shall be requested to fill up and forward the same to the Secretary of the Board, at the close of each current term of study.

12. All the students shall be considered to be under the Pastoral care of the Secretary, who shall endeavor to cultivate a friendly intercourse with them, and, if he deem it advisable, occasionally to address them individually or together.

13. All previous action of General Synod which is in conflict with the Plan of the Board of Education now adopted, is hereby repealed.

JAMES A. H. CORNELL, Secretary.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Sabbath School Union whose term of service has expired. Livingston K. Miller, Adrian Bergen, Daniel R. Hitchcock, Daniel R. Suydam, John Delamater, J. B. Wood, and James Anderson.

The Committee on Nominations having reported, Synod proceeded to fill the vacancies in the Board of Education whose term of service has expired. PROFESSORATE.

The following report was received from the Committee appointed to procure the erection of a Theological Hall in New Brunswick, accompanied with the Treasurer's report and vouchers, and deeds for the property, donated or purchased, on which the Hall is erected, which were referred to the Committee on the Professorate.

The Committee appointed by the General Synod to procure the funds and secure the erection of a Theological Hall, beg leave to make their report:

By the kind providence of God, the work assigned them has been completed. The Peter Hertzog Theological Hall was finished on the 23d of last September, on which day it was solemnly dedicated to the service of God, and opened for the occupancy of the sons of the prophets. The experience of eight months, during which period the Hall has been occupied, enables the Committee to speak with much confidence as to the commodiousness of the building. The rooms of the students are comfortable and well ventilated. The furnaces set up by Mr. A. W. Rand, of Philadelphia, have given entire satisfaction. During the intense cold weather of the past winter, the apartments of the students in the Hall were more comfortable than the houses of any of

the Committee residing in New Brunswick. Some few rooms of the building have not been sufficiently heated during even the mildest winter weather, but the fault was not in the furnaces, but in the heat-flues, which difficulty the Faculty hope to remove during the summer vacation. For further security against fire, it is purposed to take up the floors around the furnaces, and to pave those parts of the basement with brick. The cement-wash, with which the outside of the building is coated, was purposely left in its present condition, that it might become hardened. As it is hoped this end has been gained, it is now desirable, both for beauty and durability, to have the whole of the exterior brick work thoroughly painted. This work ought certainly to be done this fall.

By the kind liberality of the Churches, the apartments of the students and the lecture rooms of the professors have been comfortably furnished. The Committee prepared and had printed a circular, addressed particularly to the ladies of our Churches, asking them to afford the means necessary to accomplish this purpose. The response was prompt and adequate. The first answer came from Mrs. Sarah Zabriskie, widow of the late Rev. John L. Zabriskie, who has since gone to her reward; and Mrs. Sarah Gates, late wife of Rev. Cornelius Gates, and Miss Anna M Tappan sent their responses from their death-beds. These three answers are particularly mentioned by the Committee, because the reception of them served to cheer the heart in a dark hour. But the donors were confined to no one class or condition, and we gratefully record the fact, that male and female, old and young, white and colored, united in pouring in their offerings into the lap of the Lord. God be mindful of them, because they had pity on us in the day of our The Treasurer's report gives in detail the names of the individuals and Churches who came to the help of the Lord, and it is still further the purpose of the Committee, during the present vacation, to place the names of these individuals and Churches upon the doors of the rooms. Would it not also be well to prepare a tablet, and suspend it in the Library of the Hall, upon which the names of all the liberal donors should be inscribed?

From the Treasurer's report it will be seen that \$967.4% have been expended in excavating, grading, &c., and that more than \$200 have been expended in curbing and paving the gutter on College Avenue, flagging, &c. But nothing further can be done to good purpose, until the property is enclosed in a fence. The Committee would therefore call the attention of the Synod to the necessity of having a substantial iron fence around the premises. Now, the Hall stands in the midst of desolateness, but when the ground is enclosed the work of arranging and adorning will be vigorously prosecuted. This outward seemliness is due to ourselves and our Church, and much more to God.

The Corporation of New Brunswick have also resolved to open an Avenue in the front of the Hall. The Synod will therefore have to provide at its present session for these expenses.

The Committee, together with this report, send to the Synod the

deeds of the land on which the Hall stands. The Synod are aware that Messrs. James Neilson, David Bishop, and Charles P. Dayton presented to the Church the lands for which the accompanying deeds were given; but the land of John Myers was obtained by purchase, the money for that purpose, (\$2,000,) having been generously given by Messrs. Francis and Wessell Wessells, of Paramus, N. J. All these deeds have been recorded in the Clerk's Office, of the County of Middlesex.

The building has been insured by the Committee for \$15,000, at a premium of \$180, of which, however, \$30 was a carpenter's risk. As the year of insurance will expire on June 9th, before the deeds, &c., of the Hall will reach the Board of Corporation, the Committee will secure the insurance for a second year out of the funds remaining in their hands.

It will also be seen by an examination of the Treasurer's accounts, that besides insurance, the Committee have paid for Janitor's wages, fuel, &c.; for all which expenses in future the Synod will please take order.

In this connection, it is important to state the fact, that all the exercises of the Seminary during the past year have been performed in the Theological Hall, and that the Seminary has, therefore, derived no advantages from the services of the College Janitor, nor used the fuel of the College, for both of which the Synod has hitherto paid the College. In the opinion of the Committee, these funds should now be appropriated to the support of the Theological Hall.

The Committee beg leave to say, that the discharge of their duties has brought them into correspondence with nearly every portion of the Church, and they rejoice to add, that the interests of the Seminary are very dear to the hearts of the Church. The Synod need, therefore, have no fear, lest in devising liberal things they should not receive a hearty response from the people. The Committee are sure that the Church will promptly answer all proper calls made by Synod in behalf of the Seminary.

The Committee feel it a duty to add, that of the funds contributed for the erection of the Hall, Mrs. Hertzog gave her liberal donation at the personal solicitation of the Rev. Dr. Ludlow, at whose request also James Neilson, Esq., gave his large gift of land. The Rev. Dr. Van Vranken collected among his friends the sum of \$4,000, and he has also handed to the Committee notes to the amount of \$750, which are just maturing, and will be paid promptly on demand. The rest of the money was chiefly sent in answer to the printed circular of the Committee.

The Treasurer's account, together with the vouchers for all expenditures, accompanies this report, which shows a balance of \$1,308.91 in hand. Certain debts remain still to be paid, viz., balance of janitor's salary \$50; renewal of insurance \$150; painting and graining library

shelves (say) \$60. There may be a few other bills still unpaid, but

they cannot be of any great amount.

The Committee, in conclusion, give thanks to God for having given them such a work to do, and for having so remarkably blessed them in the doing of it. As long as they live they will bless His name for the honor of having been helpers in the erection of the Peter Hertzog Theological Hall.

All which is respectfully submitted.

The following report was received from the Theological Faculty, transmitting to the Synod a plan for the regulation of the Peter Hertzog Theological Hall, which they had been required by the Synod to prepare, which was referred to the Committee on the Professorate:

The Theological Faculty, in accordance with the following Resolution of General Synod, (passed June, 1855,)

"Resolved, That the Theological Faculty be empowered to prepare and adopt a plan for the regulation of said Hall, should it be completed before the next session of the General Synod, and, in any case, subject to the revisal of said Synod,"

Beg leave respectfully to report the following Rules, which have been adopted by them for the regulation of the Peter Hertzog Theological Hall:

RULES.

- 1.—The Hall shall be under the immediate oversight and control of the Theological Faculty, subject to the Board of Superintendents of the Theological Seminary.
- 2.—No person shall be admitted to the privileges of the Hall, but such as are preparing for the Gospel Ministry.
- 3.—In assigning rooms, the preference shall be given to the Theological Students in the order of the classes. The same order shall be observed in relation to the students in the College and Grammar School. The students shall select rooms in alphabetical order.
- 4.—Every one residing in the Hall shall pay \$5 room rent to defray contingent expenses.
- 5.—No person shall room alone without the special permission of the Faculty, and he shall be required to pay \$10 room rent, and be charged double for fuel and light.
- 6.—Every person occupying a room without boarding in the Hall, shall be charged \$10 in addition to the regular charges.
- 7.—Every occupant of a room shall be responsible for injury done to the room or its furniture.
- 8.—Every occupant of a room shall carefully secure the outside shutters of his room.
- 9.—Prayers shall be regularly maintained in the Chapel of the Hall, at 7 A.M. and at $5\frac{1}{2}$ P.M., at which all the students residing in the Hall will be required to attend. The students of the Senior Class in the Seminary shall officiate in turn.
- 10.—The following hours, viz: from 9 A.M. to 12 M., and from 2 P.M. to 5½ P.M., and after 7 P.M. shall be regarded as study hours, during which no music or noise, which will disturb or interfere with study, shall be allowed in the building.

11.—A monitor for each corridor shall be chosen by the students residing in the same, who shall have the supervision of it, according to such rules as the students may adopt, and the Faculty approve.

All which the Faculty respectfully report.

S. A. VAN VRANKEN, WM. H. CAMPBELL, JOHN LUDLOW.

NEW BRUNSWICK, May 29, 1857.

The Synod proceeded to fill the places of those in the Board of Superintendents of the Theological Seminary, whose term of service has expired. Nominations were received from the Classes of Albany, Passaic, Schenectady, and the South Classis of Long Island, which were confirmed.

It was referred to the Committee on Nominations to nominate double the number of persons from whom to choose members for those Classes who have not nominated.

The Committee reported, and the election took place accordingly. The following are the persons chosen to fill the vacancies in the Board of Superintendents: Rev. Maurice W. Dwight, D.D., Jacob Van Vechten, D.D., Abram G. Ryerson, Julius H. Seelye, A. H. Van Vranken, and Theodore B. Romeyn.

The Rev. Francis M. Kip, who was nominated by the Classis of Poughkeepsie, was appointed a member of the Board in the place of Rev. A. Polhemus, D.D., who has removed from the bounds of the Classis.

The Rev. Samuel B. How, D.D., who was nominated by the Classis of New Brunswick, was appointed in the place of Rev. John DeWitt, who has resigned his seat.

The Committee on the Professorate reported, and their report was accepted, adopted, and is as follows:

The Committee on the Professorate respectfully present the following report:

I. A careful examination of the papers referred to them from the Board of Direction of the Corporation, shows that the general condition of the funds of the Synod is eminently satisfactory. The operations of that Board entitle them to the largest gratitude and confidence of the Churches, whose faithful servants they have been for so long a period. As their Report, together with the Annual Digest, and the Accounts of the Treasurer, will be printed in the Minutes, we deem it necessary only to refer the Synod and Churches to these important documents.

The Board ask for power to sell upon equitable terms, and convey the Moses Cowan property in Saratoga County, for the benefit of the Board of Education, to which it was bequeathed.

Resolved, That this request be and hereby is granted.

A deficiency is reported in the annual income of the Synod for the past and previous ecclesiastical years, amounting to eight hundred dollars per annum. This has been caused by the increased obligations assumed in October, 1855. The collections directed to be taken by the Synod of 1856 have amounted only to \$552.09, which is not enough to meet the deficiency of a single year. To prevent a growing debt, the Board earnestly ask the Synod to take prompt action in the premises.

Resolved, That until permanent funds can be procured, the amount necessary for the contingent expenses of each year shall be apportioned by the Treasurer and Stated Clerk of General Synod, among the several Classes, and that it shall be the duty of each Classis to arrange for the collection of the same by its Questor at its stated Fall or Spring Session, and to see that the amount so collected shall be punctually paid to the Treasurer of General Synod.

Resolved, That the Committee consisting of Rev. John Knox, D.D., W. B. Crosby, James Suydam, C. E. Spangler, and Robert H. Prnyn, who were appointed by the last Synod to procure a permanent addition of the funds for investment, be continued, and that they be requested to urge the matter promptly, and report at the next stated meeting

of the General Synod.

The Committee would also call attention to the collection of outstanding subscriptions to the Professoral Fund. The amount of said subscription reported as available is \$7,000. The vicissitudes of human life admonish us of the need for securing these sums as promptly as possible, and we respectfully invite the action of the Board upon this subject.

II. The Van Benschoten and Knox Funds appear to have been carefully administered. Sixteen young men have been sustained in

whole or in part by the former, and two by the latter.

We observe that interest to the amount of \$402 remains unpaid upon the Van Benschoten Fund. This amount would nearly sustain three young men during the present year. The necessity of securing these and all other moneys arising from this Fund, is respectfully urged upon the attention of the Trustees of Rutgers College, who are the Trustees of this Fund.

An unappropriated balance of \$312.11 is reported from the Knox Fund.

III. Respecting the resignation of the Treasurer of General Synod:

1. Resolved, That this Synod have received with deep regret the resignation by Isaac Young, Esq., of his office of Treasurer of the General Synod.

2. Resolved, That his resignation be accepted, and that the Bond given on his appointment be surrendered to him to be cancelled, so soon as all the books, papers, documents, moneys, and securities in his possession which belong to the Synod, shall be delivered by him to his successor in office, under the supervision of the Board of Direction of

the Corporation.

3. Resolved, That while yielding to the request of their Treasurer, the Synod do hereby for themselves, and in the name of the whole Church, express their high sense of the faithfulness and efficiency with which Mr. Young has managed the large trust committed to his care during the space of thirty years, and that we desire for him in his retirement from public life the choicest Divine blessings, both spiritual and temporal.

4. Resolved, That a certified copy of this action be sent to Mr. Young by the Stated Clerk.

IV. Report of the Board of Superintendents of the Theological Seminary. Thirty-five young men have been in attendance upon the exercises of this Institution during the past year. One has withdrawn on account of doctrinal differences. Six have received professoral certificates.

The very valuable services of Professor Ludlow have been temporarily suspended, by a long and severe illness. With the deepest sympathy for the beloved Professor in his affliction, we desire as a Synod to express our fervent gratitude, that there is a bright prospect of his speedy and entire restoration to health and duties. Long may he be spared to train up many useful, learned, and devoted Ministers of Jesus Christ.

The Board of Superintendents report that more than five hundred volumes have already been collected as the nucleus of a new library for the Theological Hall. Appropriate book cases have been erected by the donations of friends of the Institution. On this important subject we recommend the adoption of the following resolutions:

Resolved, That the thanks of this Synod be and hereby are expressed to the generous donors of books and money for the Theological Library and for the erection of book cases.

Resolved, That the Synod earnestly request liberal donations from all the friends and lovers of our Church, for the purpose of enlarging the library of the Theological Seminary with works of permanent value.

Resolved, That the Theological Faculty be hereby authorized to remove the books given by the late Mrs. Margaret Chinn, together with the case which contains them, from the College Building to the Peter Hertzog Theological Hall.

Whereas, A room is provided as a Library in the Theological Hall, and properly prepared for the reception of the books belonging to the

Synod; and whereas, a large number of the books now in the Library of Rutgers College are the property of the General Synod; therefore,

1. Resolved, That the Rev. Drs. Van Vranken, Campbell, Ludlow and De Witt be a committee on the part of this Synod, to act in concert with a corresponding committee to be appointed by the Trustees of Rutgers College, to effect an amicable and equitable division of the books in the Library of the College at New Brunswick.

2. Resolved, That the Libraries of both Institutions should be accessible to the Professors and Students in the College and Seminary, under

the regulations adopted for each.

Respecting the right of Rev. Dr. Polhemus to a seat in the Board of Superintendents, as a representative of the Classis of Ponghkeepsie, after his connection with that body had ceased, your committee respectfully report the following action:

Resolved, That no person can be entitled to a seat in the Board of Superintendents, who is not at the time being a member of the Classis for which he was elected, and therefore that the decision of the Board is not sustained in this case.

V. Peter Hertzog Theological Hall. The committee have carefully examined the documents submitted to them respecting this Institution. These important papers consist of Deeds for the land which has been secured for the use of the Theological Seminary, together with the report of the committee appointed to procure the funds and secure the erection of the Theological Hall; the Treasurer's accounts of the receipts and disbursements of the committee, with the vouchers; and the report of the Theological Faculty, containing a plan for the regulation of said Hall, which is submitted to Synod for approval. On this whole subject your committee must be allowed to express their surprise and gratitude over the results reported in these documents. When but two years ago the committee was charged with the high trust, it was not known where the first dollar was to come from. has most signally honored the faith with which the Church then cast herself upon His providence and grace. There the noble building stands, a monument of Divine favor to our ancient Church, and crowned with complete success in its practical operation. have been raised up, munificence has poured forth its sanctified streams like the smitten rock in the wilderness. And now with fervent love and ardent hope the whole Church may repeat the prophetic promise which was uttered like a fresh inspiration over its corner stone, "Jehovah Jireh, the Lord will provide."

To complete the historical records of this great work, and as an act of simple justice to the Synod, to the committee, to the generous friends of the Institution, and to the Church at large, we recommend

what follows:

1. Resolved, That the report of the committee to procure the funds, and secure the erection of a Theological Hall, and the Treasurer's re-

port of the receipts and expenditures for the property, be accepted, approved, and printed in full in the Minutes of this General Synod.

2. Resolved, That the Rules for the regulation of the Theological Hall, as reported by the Faculty of the Theological Seminary, be approved, and printed in connection with the above documents in the Minutes.

- 3. Resolved, That the thanks of this Synod and of the entire church are hereby tendered to the Committee who have enjoyed the honor of bringing this great enterprise to its present issue, and that we hold in the highest estimation their arduous, persevering, faithful and successful labors.
- 4. Resolved, That a Standing Committee on the Peter Hertzog Theological Hall be appointed, consisting of six persons, of whom the Theological Professors shall always be members; the other members shall serve during the pleasure of General Synod, one of whom shall be annually chosen by the General Synod. The Committee recommend that the Rev. Drs. Bethune and Chambers and Rev. T. C. Strong be the remaining members of the Committee for the present year.

5. Resolved, That this Committee shall have the general charge of this property, to keep it in repair and attend to such business matters as may be necessary for its proper preservation; and that this Committee shall report fully at each stated session of the General Synod.

6. Resolved, That the Standing Committee be authorized to carry out the suggestions made in their report for finishing the building and the grounds, and whatever else may be necessary to complete its appropriate arrangements.

7. Resolved, That this Committee are hereby authorized and requested to secure such additional funds as may be needed to accomplish the objects of the Institution.

8. Resolved, That the attention of the friends of the Church and her Institutions is earnestly called to the reports made to this Synod respecting the Peter Hertzog Theological Hall, and that other continued liberality is solicited, in order that it may immediately be put on a full equality with the most favored and complete Theological institutions in this country.

9. Resolved, That the expenditures of the Peter Hertzog Theological Hall and adjacent grounds, by the Committee of this Synod having the same in charge, shall not in any case exceed the amount of funds actually collected.

VI. Preaching by Students of Theology. The South Classis of Long Island have requested that General Synod will "adopt efficient measures to prevent the preaching of students before they are licensed." On this subject the Committee recommend the following resolutions:

Resolved, That no student in our Theological Seminary be allowed to preach or lecture in any of our Churches or Congregations prior to his licensure by the Classis; it being understood that this resolu-

tion does not interfere with such exercises in the Seminary, or with such christian labors in prayer meetings or Sabbath Schools, or otherwise as may be useful, either to the student or to those in whose behalf he may labor. A violation of this rule shall be considered a disqualification for obtaining a professoral certificate for one year after the completion of the regular course of study in the Theological Seminary.

Resolved, That the Professors in our Theological Seminary be requested to require the attendance of the Senior Class at lectures on Monday, the same as the other days of the week.

VII.—Applications for Dispensations.

1. Dr. Henry J. Brown requests a dispensation to allow him to appear before the Classis of Philadelphia to be examined for licensure to preach the Gospel; and also that he may be excused from a critical

examination in the Hebrew and Greek languages.

Dr. Brown is a physician in full practice in the City of Philadelphia, in middle life, with a family, and so situated as to render the usual course of study in the Theological Seminary entirely out of the question. The committee have received such personal assurances of the theological attainments, piety, and preparation of the applicant for the ministry, together with the endorsement of the Classis of Philadelphia, that they recommend the Synod to grant his request.

2. The Classis of Westchester ask a dispensation in behalf of Mr. Alexander Watson, from the studies of Hebrew and Greek, that he may be examined by said Classis for licensure to preach the Gospel. Mr. Watson is represented to us as possessing an extensive and thorough knowledge of Theology, aptness to teach, and active piety, which have been fully tested during many years of successful labor in the Bible cause. He is a man in middle life, and has a family. The

committee recommend that this request be granted.

3. The Classis of Holland asks dispensations in behalf of P. Zwema, Garret John Nykerk, and Johannes Van de Lyster, that shall empower the Classis at such time as seems judicious to it during the present year, to examine these brethren, with a view to licensure to preach the Word. These persons have families, are from thirty-five to thirty-eight years of age, and are now studying in the Holland Academy. One of them has been a most useful Elder in his Church for some years, and has been invited to become the Pastor of said Church, and inquiry has been made respecting a second by another Church. The committee, after full conference with the Delegates from the Classis of Holland, propose the following action:

Resolved, That the request of the Classis of Holland respecting Messrs. Zwema and Nykerk be granted; and that Mr. Van de Lyster be admitted to a similar examination, provided any Church in connection shall express a wish for his services as a Minister of the Gospel.

In each of the above cases the direction of Providence has seemed so marked as to leave no choice to the committee. It is surely an interesting feature in the prospects of the Ministry that men of family and property, in middle life, and in active secular duties, are compelled to say, "Woe is me, if I preach not the Gospel." May it not be that God will thus largely reinforce the ranks of his Ambassadors, by calling one from his plough, another from his merchandise, and not a few from learned and scientific professions? But while the duty has seemed clear in these very peculiar cases, your committee would enter their earnest protest against lowering the standard of ministerial preparation. A learned and able ministry is essential, and the Reformed Dutch Church must always maintain that high position on this subject which has ever distinguished her character and history.

Application has also been made for a dispensation from the rule requiring a College Diploma, to allow Mr. Henry W. F. Jones, of the Classis of New Brunswick, to enter the Theological Seminary. As Mr. Jones' education has been quite equivalent to the ordinary Collegiate course, we recommend that this request be complied with.

The Classis of Cayuga recommends Julius Geyer for aid in preparation for the Ministry. Similar applications are made by the Classis

of Illinois, for W. H. Van Vleet, and by the Classis of Wisconsin, for J. Bray

The following young men are recommended for aid from the Van Benschoten Fund: Thornton Van Vleet, by the South Classis of Long Island; Thomas S. Dusenberre, by the Classis of Paramus.

Resolved, That these recommendations be approved, provided that the usual requisitions in each case are complied with.

Respectfully submitted,

W. J. R. TAYLOR, Chairman.

MISSIONS.

The Twenty-fifth Annual Report of the Board of Domestic Missions was received, read, and referred to the Committee on Domestic Missions.

The report of the Treasurer of the Board of Domestic Missions was received and referred to the Committee on Domestic Missions.

The sermon in behalf of Domestic Missions was preached on the evening of the second day of the session, by the Rev. William R. Gordon, D.D., from Rev. 2: 1-5.

The Committee on Domestic Missions reported, and their report was accepted, adopted, and is as follows:

The Committee on Domestic Missions beg leave respectfully to report, that a careful examination of the documents placed in their hands has satisfied their minds that the affairs of this Board are wisely and energetically managed. No body of men that General Synod could select, we are persuaded, could dispense the charities of the Church with more economy or impartiality in every section of the home field, or operate with greater efficiency with the means possessed for the extension of our Redeemer's kingdom. Under the prevailing spirit that evidently governs the Board—namely, not of seeking their own, but Christ's; not simply of building up our denomination, but of extending salvation to the needy—we are assured that the piety of our Church is experiencing a gradual and healthy development. A retrospect of its history for the last ten years, and a comparison of its early plans and efforts with its present enlarged operations, afford cheering evidence of steady progress in the grace of giving among our people, and gratifying memorials in the records of independent and flourishing congregations established through its agency that it has not labored in Although in times past our denomination has not accomplished vain. all that it ought to have done, and with ease might have done, yet it is a hopeful sign for the future prosperity and usefulness of our beloved Zion that it is becoming more perceptibly awake every succeeding year to the claims of the destitute and perishing to its sympathies and lib-The entire amount of its benevolent offerings is not comprised. erality. in the Annual Reports of our respective Boards, for large sums are cast into the treasuries of those national institutions which are the glory of our age, of which this ecclesiastical body takes no review. The bulk of our churches, too, are giving with commendable generosity, and a few of our members, even to the sacrifice of their domestic comforts, to this noble cause—a fact which, in justice to these brethren, ought to be distinctly and publicly noted. Yet it is a matter of deep

regret that there are one hundred and forty congregations, and some of these abundantly able to give, who have not taken up one collection for this object within the year. To the apathy and delinquency of these Churches we are compelled to attribute all the embarrassments of this Board in financial matters; for if they had contributed in a relative proportion with their brethren, we should not have been told that it has been obliged to borrow \$6.575 from banks and individuals, to meet its engagements, to pay \$226 10 for interest on temporary loans, and to go on with a debt of \$2,850 hanging like an incubus on its exertions. No words that we can use can express the earnestness with which we would appeal to them to assume their share of these burdens and responsibilities, and beg of them to take up one collection without fail within the present year, for our self-denying missionaries. of Christ's ministers in the home field have been deprived of the necessaries of life, and almost forced to abandon their posts, on account of the privations endured by their families. The relief that these congregations can and might afford, we are confident, will be acknowledged by the Master in the last day. "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto ME." sense of accountability to God for the influence which the pastors of these congregations wield over the minds of their charges, we trust, will induce them to lay this subject in all its bearings before their people without delay, and to plead, as under the eye and in the presence of the Redeemer, with them, as the stewards of God, to give to this object, so vital to the triumph of Christianity in our own land, according to their ability, and as the Lord has prospered them. And the same motive should stir up the Consistories of these congregations, should they be without pastors, to avail themselves of the first opportunity, when their pulpit is supplied by a minister of the Gospel, to present the claims of the neglected multitudes who are perishing in our country, through the lack of the ordinances of God's house, and the care of spiritual shepherds to seek out the lost and straying. this sacred obligation we believe that not one of these congregations can be excused. Even the feeble pensioners on the bounty of the Board are required by its rules, as one of the conditions of receiving its aid, to cultivate the habit of giving to the Lord by taking up a collection for its treasury. Surely, then, other and stronger congregations ought to afford the privilege to their members to give something, be it more or less, for the evangelization of our own countrymen. Something all can give, for the Lord annually grants the means, by renewing the bounties of his Providence; and one collection each year is all that we ask. Let each congregation move as a unit comprised in the above aggregate, and a pleasing change will come over the aspect of our internal affairs. Blessings rich and new, from the Father of mercies, will gladden and refresh these portions of our denomination, rewarding them for their sacrifices an hundredfold.

Another painful feature in the Report of this Board is a falling off

of receipts, to the amount of \$2,218 01, as compared with the contributions from the churches last year. To the old contributors of the Board we would say, let it be your aim always to equal the efforts of the past, or else the calculations of the Board which are made on this basis must fail, and embarrassment be perpetuated. Had only this mark been reached, this Board would now have been free from debt. The deficiency of a few dollars on the part of each congregation falling below the standard has produced this mischief, throwing a vast burden of gloom, perplexity, and discouragement on the minds of the brethern to whom the supervision of this work is intrusted. To the old and tried friends of the Board we would suggest, not only to take up the collection at the appointed time, but to bring in the full quota of supplies, "the sinews of war." But "Progress" is the watchword of our age and country. It characterizes both the State and the Church. It stands out prominently in the plans and results of all American institutions of benevolence. The wealth of our denomination is augmenting with that of the nation. Our people are becoming richer year by year. We should not rest satisfied with old measures of charity, but we should press on to new and loftier degrees in the consecration of property to God. The only safeguard against the corrupting power of our abounding prosperity is to check the spirit of covetousness by growing liberality, and to extinguish selfishness in love to a dying world. As a Church, we have a vast distance to traverse before we attain to that deadness to the world and the things of the world evinced by the martyrs and confessors of Holland in the Reformation, who counted not their lives dear unto them, and rejoiced in the loss of their goods, for Christ's sake. And we have much, very much, of the sanctifying power of a Saviour's love to learn before we shall feel the burning zeal of the primitive saints who laid all their possessions at the Apostles' feet. O let us, the favored Christians of America, not be behind the impoverished and persecuted servants of God in those perilous times, and oppressed lands, in these expressions of our attachment to our dear Redeemer!

But the history of this Board is not all dark, for while as a Church we have incurred the reproach of the omission of these good works, the blessings of a covenant-keeping God have illumined its path, and the bow of promise spans its future. The Lord is alluring us to the cultivation of this field by rewarding the labors of a few husbandmen with a large harvest. Five hundred and twenty-six persons have been added to the churches aided on confession of their faith, and three hundred and twenty-two have been added by certificate from other churches. Placed in the balance against these precious souls, how worthless are all the donations to this treasury! Besides, the present year must be regarded as an era in the annals of our Church, as well as of the Board, because it dates the organization of the Particular Synod of Chicago. The Providence of God points to the Great West as the territory where our denomination is to seek its chief expansion,

and where it may employ its resources without limit in planting missionaries and founding churches. The lapse of a single generation, we doubt not, will place that Synod side by side with those of Albany and New York in numbers and usefulness. And the settled policy of the Board to establish new enterprises in destitute neighborhoods, instead of multiplying feeble congregations in old settlements, well supplied with the preached gospel, must meet the cordial approbation of every member of our Church who can rise above the feelings of a narrow sectarianism. The intelligence that thirty churches of emigrant Hollanders, distinguished for their pure faith and fervent piety, have attached themselves to our communion, must diffuse joy through all hearts. Equally gratifying is the fact that thirty churches have been gathered among the foreign Germans, who are served by converted ministers in their native tongue, and furnish a nucleus of means for spreading vital piety among thousands of their countrymen in this land. It is mournful to think to what an extent this class of our population, computed by some at three millions of souls, are exposed to the wildfire of fanaticism, on the one hand, and to the death-chill of formalism. on The Church of Holland commissioned and supported devoted missionaries who labored among the Germans of the United States before the American Revolution. The moral wants of that portion of our fellow-citizens appeal loudly to our Church at this day to provide them with a ministry who shall teach them the unadulterated doctrines of the Reformation, together with the necessity of the new birth and experimental religion. Happily this door stands wide open, and whensoever we will we may do them good. Our plans in respect to them should look forward to the endowment of an academy where pious German youth may receive their preparatory training, with views as broad and comprehensive as those entertained concerning the Hollanders in this country. Great discrimination must be exercised in the employment of clergymen of foreign birth and training. for the great majority of them do not preach the Gospel as it is proclaimed in our pulpits. If this element is to amalgamate with our denomination, and to become one with us in sentiment and action, we must train up the pastors that are to serve them in our school of the Otherwise, after years of labor and the expenditure of large sums of money, our Church may be disappointed to find them becoming restive or rebellions under rules of order and government, or tainted with rationalism or formalism, the evils of German Protestantism.

The thorough training of the baptized youth of our Church in the catechisms approved by General Synod we rank among the foremost duties of all the missionaries of this Board, in reference to which we desire that special attention should be given in its instructions to all the ministers who are dependent on its aid, and a report required, in writing, on this head at least once every year. In the chaotic state of religious opinions in the West, and in the multiplication of errors outside of our communion in the East, we perceive the necessity to

display a banner for the truth, on entering any new community, and strengthening the bulwarks, if the walls of the citadel are to withstand the repeated assaults of heresiarchs. Our young people must be taught to regard the peculiarities of the Reformed Dutch Church with an intelligent love, if a generation is to be brought on the stage of action who shall perpetuate the doctrines of the cross with a life-giving power. In conclusion, your Committee beg leave to present the following preamble and resolutions for adoption:

Whereas, this Synod has heard with pain that there are so many congregations within our bounds who have not made any contribution during the past year to the Board of Domestic Missions, and that its finances, after so many appeals, are still in a state of embarrassment;

therefore,

1. Resolved, That the Stated Clerk of General Synod be directed, at his earliest convenience, to communicate to the pastors and Consistories of these several churches the regret of this body that they have not exhibited a willingness to bear their part of the burdens and the pleasures of supporting our domestic missionaries, and urge them to place this object among their annual collections, and to cherish it as its importance demands.

2. Resolved, That the delegates representing the several Classes on the floor of this Synod be requested to bring before their respective Classes, at their next regular session, the views and feelings of this Synod, call their attention to the action of the last Synod on this subject, and endeavor to obtain such action as shall secure a collection

from each church within their bounds.

3. Resolved, That each congregation be earnestly and affectionately requested to take up one collection at least, within the present year, for this object.

4. Resolved, That this Board be recommended to refuse every new application for aid, or to terminate every existing grant to those "who

look for help when they should not."

- 5. Resolved, That this Board be authorized, as soon as its funds permit, to appoint an itinerant Missionary Agent, to labor within the bounds of the Particular Synod of Chicago, in order to foster feeble churches to their establishment, and to gather new congregations; said missionary to be under the joint direction of the Particular Synod of Chicago and the Board of Domestic Missions, and to be paid a sufficient salary and his traveling expenses, by the Board of Domestic Missions.
- 6. Resolved, That the Board be directed to employ the Board of Publication to issue, under the supervision of the Stated Clerk, thirty thousand copies of the sermon preached on its behalf before this Synod by Rev. Wm. R. Gordon D.D., at an expense not exceeding 1½ cents per copy, and that the Stated Clerk provide each of the pastors of our churches with a sufficient number of said copies to supply each family of his charge; and further, that the Stated Clerk direct the special at-

tention of said pastors to said sermon, with the request that every family may be supplied with a copy, immediately preceding the taking of a collection in aid of Domestic Missions, or at such other time as the several pastors may consider proper.

All of which is respectfully submitted,

JOHN F. MESICK, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Domestic Missions whose term of service has expired. On counting the ballots, it appeared that the following were appointed: Rev. Robert P. Lee, D.D., William R. Gordon, D.D., A. P. Van Giesen, and Messrs. Frederic T. Frelinghnysen, William B. Crosby, Samuel Sloan, John I. Brower, and Francis Wynkoop.

The Twenty-fifth Annual Report of the Board of Foreign Missions was presented, read, and referred to the Committee on Foreign Missions

The Report of the Treasurer of the Board of Foreign Missions was received, and referred to the Committee on Foreign Missions.

A report was received from the Board of Foreign Missions, in relation to the probable expense which would be incurred by an independent Foreign Missionary Establishment, prepared agreeably to the direction of the last General Synod, (p. 116,) which was referred to the Committee on Foreign Missions.

Accompanying the report of the Board of Foreign Missions was a memorial from the Amoy Mission, in relation to Church and Classical Organization, together with certain other papers, which were referred to the Committee on Foreign Missions.

The Annual Sermon in behalf of Foreign Missions was preached on the evening of the sixth day of the session, by the Rev. Isaac Ferris, D.D., from Jeremiah 6:16.

The Committee on Foreign Missions reported, and their report was adopted, and is as follows:

The Committee on Foreign Missions beg leave to report:

I. On the State of our Missions.

This is in most respects eminently satisfactory. 1. The three brethren at Amov are continuing to gather the rich harvest with which God has rewarded the toils of former years. The outpouring of the Spirit upon

their field is most marked and gratifying. The seventy-two converts added in 1855 did not exhaust the blessing, for we find that during the first nine months of the succeeding year, fifty more were received into the communion of the Church. Nor were these hasty additions, for the method of examination and trial used by the missionary brethren is shown to be as rigid and cautious as could well be devised.

The Mission has been graciously preserved in health and strength during the past year, but they are sadly overtaxed. The success which has attended them imposes more labor than they are well able to perform, and their cry becomes more and more urgent for additional helpers. A prompt answer to this cry is the more desirable, in order that younger brethren may enjoy the full benefit of the ripe experience and judgment of the senior missionaries, especially of him who has now been twenty-one years engaged in the work. It is high time that some efficacious means should be used to secure a strong reinforcement to this "model Mission," as it has been called.

2. The Mission of Arcot, constituting, with its five churches, the Classis of the same name, is represented in this body by a delegate bearing the honored name of its founder, Dr. John Scudder. From him we have recent intelligence that the work continues to prosper, and that, as was said in the Report of last year, "There is nothing to limit the enlargement of their Mission but the want of means and the want of men." Their field lies amidst a country population, on the great thoroughfare from Madras, (which is ninety miles distant,) and is pierced by the first commenced of the railroads now in course of construction in India. The statistics of the Mission are as follows:

Vellore.—Rev. H. M. Scudder, M. D., and wife, and Miss L. Scudder and one native helper, three schoolmasters, one colporteur, 42 communicants.

Chittoor.—Rev. E. C. Scudder and wife, one native helper, two schoolmasters, one colporteur, 40 communicants.

Aruce.—Rev. J. W. Scudder and wife, two native helpers, one schoolmaster, one colporteur, eight communicants.

Arcot.—Rev. W. W. Scudder, one native helper, one schoolmaster, one colporteur, nine communicants; a native pastor about to be ordained and installed over this Church.

Coonoor. — Rev. Jos. Scudder and wife, one schoolmaster, 20 communicants.

The brethren have been much engaged in preaching tours, which have brought them in close contact with large masses of men, while they have also performed regular pastoral duties in their respective charges. They have given attention to the preparation of a series of tracts suitable to their field. Their schools are strictly parochial—being established for the children and youth of their Christian congregations. Appropriations have been made for the erection of several places for public worship, one of which, at Vellore, has already been dedicated.

Your Committee recommend the following resolutions:

- 1. Resolved, That devout and earnest thanks are due to the Head of the Church for his favor to our missionary brethren, in preserving their lives and health, and especially in giving such abundant success to their labors.
- 2. That we hail with joy the presence among us of the Rev. W. W. Scudder, beloved for his own and his father's sake, and pray that his visit may be the means of awakening a deeper interest in the missionary cause in our churches.
- 3. That the Corresponding Secretary of our Board be requested to present the claims of the foreign field to the students of our Seminary as often during each year as he may find it convenient.

II. Funds and Agencies.

From the Treasurer's Report it appears that the receipts for the last year were \$12,303 99, being an increase of \$139 95 upon those of the year before. But a much larger increase is needed immediately. The appropriations for this year are: for the Arcot Mission, \$14,000, and for Amoy about \$5000, making a total of \$19,000, being nearly double the amount required for the last year. This enlarged expenditure is due in part to the erection of buildings, which of course will not require to be speedily renewed; but it arises also from the increased number of our missionaries, and in either view should be regarded, not with distrust or alarm, but with gratitule and joy, as indicating how greatly the Divine blessing has rested upon our brethren's labors. the increase of appropriations calls for prompt and vigorous measures to increase the receipts into the treasury, else there will be embarrassment and trouble. As these receipts have been stationary for several years, while the churches have been growing in numbers and wealth. it is manifest that all that is necessary to obtain the requisite enlargement, is to bring the claims of the cause more generally and directly home to the hearts of our people, so that every member of our congregations shall have a personal summons addressed to him or her for a yearly contribution. The Board have suggested a system of Classical exchanges as best adapted to reach this end. The Committee recommend the following resolutions:

Resolved, 1.—That the increased expenditure in our Missions, caused by the signal blessing of God upon their work, calls loudly for more generous contributions from our people.

Resolved, 2.—That the Classes be requested to take such order as will secure the due presentation of this cause to every church within our bounds during the present ecclesiastical year.

III. The Memorial of the Amoy Mission.

Among the papers submitted to the Synod is an elaborate document from the brethren at Amoy, giving the history of their work there, of its gradual progress, of their intimate connection with missionaries from other bodies, of the formation of the church now existing there, and expressing their views as to the propriety and feasibility of forming a Classis at that station. In reply to so much of this paper as respects the establishment of individual churches, we must say that while we appreciate the peculiar circumstances of our brethren, and sympathize with their perplexities, yet it has always been considered a matter of course that ministers, receiving their commission through our Church, and sent forth under the auspices of our Board, would, when they formed converts from the heathen into an ecclesiastical body, mould the organization into a form approaching, as nearly as possible, that of the Reformed Protestant Dutch Churches in our own land. Seeing that the converted heathen, when associated together, must have some form of government, and seeing that our form is, in our view, entirely consistent with, if not required by the Scriptures, we expect that it will in all cases be adopted by our missionaries, subject, of course, to such modifications as their peculiar circumstances may for the time render necessary. verts at Amov, as at Arcot and elsewhere, are to be regarded as "an integral part of our Church," and as such are entitled to all the rights and privileges which we possess.

And so in regard to the formation of a Classis. The Church at home will undoubtedly expect the brethren to associate themselves into a regular ecclesiastical organization, just as soon as enough materials are obtained to warrant such measure, with the hope that it will be permanent. We do not desire churches to be prematurely formed in order to get materials for a Classis, nor any other exercise of violent haste, but we equally deprecate unnecessary delay, believing that a regular organization will be alike useful to our brethren themselves and to those who, under them, are in training for the first office bearers in the Christian Church on heathen ground. As to the difficulties suggested in the memorial, respecting the different Particular Synods to which the brethren belong, and the delays of carrying out a system of appellate jurisdiction covering America and China, it is enough to say:— 1. That the Presbyterian Church (O. S.) finds no insuperable difficulties in carrying into operation her system, which comprehends Presbyteries and Synods in India as well as here; and, 2. That whatever hindrances may at any time arise, this body will, in humble reliance upon the Divine aid and blessing, undertake to meet and remove them as far as possible. The Church at home assumes the entire responsibility of this matter, and only ask the brethren abroad to carry out the policy held steadily in view from the first moment when our Missions began.

The following resolutions are recommended:

Resolved, 1. That the Synod view with great pleasure the formation of churches among the converts from heathenism, organized according to the established usages of our branch of Zion.

That the brethren at Amoy be directed to apply to the Particular Synod of Albany to organize them into a Classis, so soon as they shall have formed churches enough to render the permanency of such

organization reasonably certain.

3. That the Stated Clerk be directed each year to furnish the brethren abroad with several copies of the Minutes of Synod, and of all other printed documents of the Session.

IV. An Independent Missionary Organization.

It appears that last year a very able Report, traversing this whole subject in all its parts, was, by the unanimous vote of our Board of Foreign Missions, submitted to the General Synod. The Synod's Committee reported favorably on the proposed change; but after discussion the whole question was postponed to this year, and now comes up for The Report of our Board for 1857 does not retract their final action. unanimous opinion given in 1856, but merely cites the language of one of the resolutions passed by the A. B. C. F. M. at Newark, in October last, which it says renders null the reason for separation founded upon the point of "ecclesiastical organization." But this point was "only incidental;" the weight of the question was placed upon other grounds. The action, therefore, of the American Board, last October, has not touched the essential elements of the case; these still exist in all their original integrity. They are thus given in the masterly Report of 1856: understood to be from the pen of the Rev. Dr. Ferris:

I. If, as a Church, we are to do anything effectually in the great work of Foreign Missions, we need a mode of action which shall bring the responsibility directly home to our people, and this an independent operation is most likely to secure.

II. We are able to conduct this department of Church work for our-

selves, and should, therefore, undertake it.

III. The Church is ready for and desires a distinct and separate or-

ganization.

IV. It is regarded as not a small consideration, that such separate action on a prominent branch of Christian benevolence will complete the organizations which the great interests of the Church call for.

First.—If, as a Church, we are to do anything effectually in the great work of Foreign Missions, we need a mode of action which shall bring the responsibility directly home to our people, and this an independent operation is most likely to secure.

All Christians agree that to preach the gospel to every creature is an absolute duty,—made such by the highest authority in the Church,—its Head. The circumstances of time and place, when he uttered his charge, give special solemnity to this duty, while the blessings vouch-safed to the efforts to diffuse the proclamation of mercy show how pleasing it is in his sight. Each Christian individually, and each distinct ecclesiastical organization, has here a most important part to act, and each is bound to that mode of action which shall most certainly bring every energy to the work. It is a vast work, and the Christian

influence, and prayers, and charities of each are called for, - every heart

should be awake, every right agency called in.

Now, it is believed to be true, in the prosecution of all interests, that the most effectual mode of calling out and bringing to bear the moral power of an individual, or a body of men, is the fastening responsibility on them directly, and as far as may be, personally. Individualizing the man or the body, bringing each to confront direct and positive claims, taxes the conscience and draws upon the Christian sympathies in a way that will call out the desirable response. When an object is remote, when business passes through second hands and distant hands, and responsibility is removed, our infirm nature is prone to fall into indifference, or will feel little. Others have charge of the active movements, others impel the ear; the subsidiary agency is distant from all the points of conflict and difficulty, and hence will ordinarily be cold and listless, or a philosophical action may be kept up without power and vitality. The confirmation and illustration of this are seen in the history of all our charitable associations. The more direct the responsibility, the more decided and earnest will be the effort.

By the present arrangement in conducting Missions our place is simply subsidiary. Other counsels manage, other hands execute; responsibility for vigilance, and oversight, and prompt action is removed several stages from us. All means go to another treasury, and its disbursement calls out no care, scarce an inquiry. We assume it all to be right, and it is happy in the circumstances that it is and will be right, and we know no more. And then, if difficulties arise, they fall elsewhere. If there be deficiency, we do not feel it. There is a ready answer to all urgency: "O, if we do not furnish the means, others will," and thus a double injury results: the withholding of benefactions being the less, and the positive moral torpifying influence the greater.

It cannot be said our Church has done nothing. On the contrary, there has been a constant, if not a large stream, making its meandering way to the great reservoir. But to those who know her it is obvious she has done far less than her position and resources would lead us to look for. In short, far less than she ought to have done, and to be doing. About the time of the departure of the first missionary family there was a high degree of feeling, and the interest was widely diffused, and it may be a question whether to the impetus then given we are not indebted for what has since been done, only occasional circumstances having come in to keep up the momentum. Such is the constitutional characteristic of our people, that having begun an undertaking, they pursue it, as a habit, even though the interest taken be not lively—a capital trait to rely on, but one which should be improved for the accomplishment of the highest results.

At present, where is there animation and energy in the good cause? Does this Board possess either? Is not the Board very much a cypher, and made such by its position? What is the meaning of the fact that it has held one meeting a year? Has it not been felt that we have

nothing to do? Of what worth can such a body be? And what feeling pervades the Church? Is it the quickened feeling of a high sense of responsibility? Do the hearts of our people warm towards the great subject as their own? Does it not seem as if the prevalent feeling was, that the interest of the affair lies over East, beyond the boundary of our own State, and only concerned our people secondarily?

If this is so, we need a change in our mode of action, such a change as will bring close before our mental view and very near our hearts the necessities which call for Christian help. We need an operation which shall lay responsibility upon every conscience directly, which shall draw hard, and constantly, and largely on our piety—something which shall waken all to the Lord's work among the perishing, whose cry may

come to the heart fresh through as few mediums as possible.

It is believed that a distinct and separate conduct of Foreign Missions will tend much to secure this end. It cannot be said that this will be unfailing, for there will be, doubtless, always, while Christians are what they are, drones in the Christian hive; but the claim set up is—this will be the most hopeful means of attaining what we desire. Under it we may hope to see portions of the Church, now inactive, become earnest, and those which have settled down into a supine state awaken to new life, as they would be made to feel that the whole weight of our missionary work was on them.

Secondly.—We are able to conduct this department of Church work for ourselves, and should, therefore, undertake it.

It is a grave question whether moral responsibility can be transferred from oneself to others without culpability. Certain it is, it cannot occur where there is full ability and abundant opportunity to do one's work. Each man must answer directly for any failure to meet the Divine requirement. What is positively required must be as positively met. If there be inability or insufficient opportunities, these may be pleaded in bar of judgment, but then the evidence must be adequate to the plea.

In the work of which we speak, neither of these can be urged, and

our duty remains; the claims are urgent and inalienable.

The proper inquiry is, what is the ability needed in the independent management of Foreign Missions? Two things are embraced, we would reply: the pecuniary resources to be expended, and the men of

intellect, integrity, and sound judgment to take the oversight.

That we have the former is manifest from the history of the past. Let us suppose that there is merely a transfer of the Missions where our brethren are engaged to our immediate care,—have not the means necessary for their support been realized from our Churches? If our people only do as they have done will there be any fear of failure? From the Annual Reports of the Treasurers of our Board since 1832, it appears that \$203,916 56 have been contributed, which, after deducting a comparatively small sum for the occasional agencies of our commissioned or returned missionaries, and incidental expenses, (say

not exceeding \$5000,) in the twenty-four years, have gone into the treasury of the American Board. On the other hand, the American Board, as appears from the Annual Reports, has expended on our Missions and mis-ionary brethren \$131,367 44, to which may be probably added some \$10,000 for sums appropriated to Dr. Abeel and Dr. Scudder, which have not been presented separately, but are included in aggregates of the Missions where they were. Here, then, we see that not only has the Church furnished what was necessary for her own sons, but aided in a considerable sum in the blessed work of making other hearts glad.

No special urgency has been applied in what has been accomplished; and may we not conclude that what has been done can be done? The Church's means have not been exhausted. On the lowest supposition which we can make, if no more effort is put forth, and no greater ability is enjoyed, and our Missions remain the same in point of num-

ber and expensiveness, we should fear no saddening issue.

But who of us for a moment believes that the pecuniary ability of the Church does not warrant the fair hope of much more under a proper influence? God has highly blessed our people with the good things of this world. A full cup—eminent prosperity has been theirs. The Church, besides, has grown and expanded very decidedly within twenty-five years. In 1829 the Stated Clerk of General Synod gave a list of our ministers as numbering 149, when our churches also were 184. In 1855 he publishes, in the Minutes of General Synod, that there are 348 ministers and 364 churches—a noticeable increase. With this expansion there has been proportionate growth of strength. It would be ungrateful to our benign Benefactor to deny, with this before us, that much more might be accomplished, if we had the proper spirit. Our Missions might be multiplied, new fields might be occupied, and all requisite support would be turnished.

It should not be forgotten that quite a large proportion of our churches have done very little or nothing for our Foreign Missions, while none have exercised self-denial in what they have given. It is reasonable to believe that many now and heretofore inactive, under a more direct action will come up to this work, and thus we may fairly

calculate on having new channels of beneficence opened.

It is true, under an independent organization there would be additional expenditure incurred; but this, including every form of expense, would not be large—certainly not exceeding two thousand dollars, (and this is an outside estimate,) which would be more than made up by the new resources which would be secured. It should be remembered in this connection that much service is constantly rendered simply from love for the cause of religion. The members of our Boards, (among them men of active business, whose time is very valuable,) the Recording and Corresponding Secretaries and Treasurers, receive no pecuniary compensation. What would be requisite, then, would be incidental to the collection and transmission of money. If more should

be required through the occupancy of new fields, the Providence which

opened the door would furnish the means.

As to the second requisite—our having men of intellect, integrity, and judgment to manage missionary matters—we think there can be no doubt. The Foreign Missionary work has peculiarities, and these must be fully understood in order to be provided for, but the same class of mind which elsewhere does the work is found among ourselves. We are not aware that there is any evidence, in any enterprise of the Church conducted by our brethren, of any deficiency of executive or administrative talent. We think the position of our institutions and our general interests is sufficient to satisfy at least ourselves of what our brethren are adequate to perform.

High praise is to be accorded to the distinguished men who have been and are in charge of the operations of the American Board. We love and honor them—they are our friends and brethren. We are not to forget concerning them that actual contact with their special duties has fitted them for their work. And the same, we may hope, will be

the case with our own brethren in the same circumstances.

In a new enterprise we must allow for some friction, but very soon every desirable adjustment will be secured. Certain it is that as we now are, our brethren will, in no cases, ever acquire that familiarity with the practical details of missionary management which will be called for, if hereafter, at any time, we are to go alone. No man among us supposes we shall always act through the present agency. Will we, then, act prematurely, if we take measures to bring about an organization to which we all look forward, and for which we shall need the qualifications which may be attained while our Missions are few, and compact, and well arranged? Let us allow that mistakes may be committed, so it occurs in all departments, for none are infallible; yet we have no reason to anticipate any which united councils may not correct or modify.

And then shall we be cut off from the benefit of the advice of our brethren in the missionary work in other denominations? Shall we, because of separate and distinct operations, be divorced from all the good offices of the brethren with whom we have so pleasantly and so

long acted? We ought to have no fears here.

Such is the general acquaintance with the missionary work, we have read so much, heard so much, and seen so much of the movements around us, that we have confidence that we might look for the Divine blessing on our distinct efforts as a Church, and that every year would see the circle of duty becoming more and more a training school for securing higher results.

After this review we may ask, On what ground can we put away from us, as a Church, the obligation to preach the gospel directly to the perishing? Having all the ability, pecuniary, and intellectual, and pious, which is necessary, can we without culpability ask other persons to do our work? Will it not be a more serious reflection than to go

alone and not accomplish so much at the outset, or commit some mistakes in our first efforts?

The circumstances of our Church, twenty-four years ago, were such as to make the union then formed very desirable, and almost the only feasible mode of action. We have since been rapidly gaining strength and position. Our Church plans have been advanced to a higher point, and we are better fitted in every respect to go forward in every legitimate Church enterprise. Shall we not do it for our own sake, shall we not do it for the sake of truth and human good?

THIRDLY.—The Church is ready for and desires the separate and distinct organization. When the present arrangement was made, it had the warm and earnest interest of a large majority of the Church. Cases there were of brethren who were adverse, but they preferred to be silent and see the plan fully tried. They were willing, for the sake of the cause, that the friends of the Union should realize all that was practicable under it.

It was about four years after this when the subject of separation came up before the Synod, and it was referred to this Board to express its judgment in the premises. That was decidedly and strongly in favor of the continuance of the present plan, based especially on the consideration that we had so recently formed it, and hence could not pronounce on its efficiency; and also that we had sought it, and so soon to abandon it would reflect on us as a denomination.

In the progress of succeeding years the feeling has gained strength that the Church should do her own work; that it was derogatory to throw into other hands, and those of strangers, the oversight and care of our sons. This, from all we can gather, seems to be the prevailing sentiment. It is true that no ecclesiastical action has given form to the views entertained, yet there have been frequent conferences of brethren in which this has been expressed. Among those who desire the independent form of action, are some of our best and most influential men, and those who have not withheld their hand from effort.

It is proper to say that the reasons given vary. But by far the larger number take the broad and high Christian ground, that the Church as such can only be true to her duty to her Head, by doing her appointed work for herself, as he has blessed her with the means and

opportunities.

It is not to be concealed that there is a growing disinclination for what have been called voluntary associations, and a tendency to ecclesiastical responsibility, and, where ministers are concerned, a marked conviction that their position should be decided, and controlled by ecclesiastical action, where they have the right of appeal, and not by committees.

But whatever the considerations which have moved the minds of our brethren, it is believed that there is an extensive readiness for separate action, and that the Church will come promptly and liberally to its maintenance. FOURTHLY.—It is regarded as not a small consideration, that such separate action on a great branch of Christian benevolence will complete the organizations which the great interests of the Church call for.

It is conceded on all sides that we must take care of ourselves. we have nothing to which we attach importance, nothing worth preserving in our principles and polity, then is there no call for solicitude or wakefulness or effort. But this is not the case, as all our efforts to meet various forms of want clearly show. The Church has felt that she must perpetuate her ministry, secure her own sons for her pastoral fields, while she would not close the door on others, and hence she has attended specially to her educational interests, and provided for the exigencies of such as need aid. She has ever been known for her solicitude for a well-trained ministry,—one trained in the truth; hence she has her School of the Prophets. Her feeling has deepened in behalf of her own children and the strangers from other lands, and especially from the fatherland, diffused over a vastly extended country; hence she has her Domestic Missionary Board. She has a sympathy for her disabled or poorly sustained ministry, and the families of her deceased sons; accordingly she has her Sustentation and Widows' She has more recently, in her highest judicatory, with entire unanimity decided that she would furnish her families with a sound Christian literature, and hence she instituted her Board of Publication. And now, to complete the circle of provision for great interests, she only needs her distinct operations for Foreign Missions.

If one of the fathers who fell asleep some thirty-five years or forty years ago should arise, how different a Church would he find in all the points of true Christian usefulness from that which he left, while everywhere he would hear the same truth and observe the same Church order maintained. And how cheering would he regard the prospect, as he saw on every side so many young men, and so many in the vigor of life, engaged in the Church's service! The mind cannot rest on the present attitude of our denomination as a tribe in the Christian Israel, without gratified feeling. Never before did we stand so strong, never so happily caparisoned for the work of the Master. We are a united Church; we have a noble band of men under the middle line of life, and others coming up well-trained and glowing with zeal, who will not be behind their brethren. We may well complete the group of agencies, that they may labor with better advantage, and carry on what the fathers have begun to a higher degree of success and usefulness.

If it should be asked whether, on the principles stated, we must have our organizations for distinct classes or descriptions of men, the reply would be, that provision should be made for these under those now enjoyed. There is no incongruity in having a domestic missionary for the Jews in our land, or a domestic chaplain for seamen in our ports, under the care of our Domestic Board, and the same under our Foreign Board for those abroad. And as to the department of Publication, there are not a few who believe, as they scan the signs of the

times, and note how the entering wedge of distracting discussion has been employed, that we may soon have stronger reasons for believing the organization of a Board of Publication most timely.

It may be said this whole view tends to make us exclusive, but this is not necessarily so. There is nothing to call out an unkind feeling towards others, nothing to interrupt the comities which should prevail among Christians. It does not follow that because a man keeps up good enclosures, and supplies himself with all desirable instrumentalities to do well the work of his own domain, therefore he is estranged from his neighbor, or must look coldly on his condition and progress, and cannot unite with him in working on the common highway. In maintaining distinctly all we regard important in doctrinal views and order, if our course is a right one, we shall cultivate more and more the Christian spirit, and we shall find much in which we shall co-operate, and may wish God speed to all right-minded, earnest men, though they bear not our commissions.

It may also be said, why separate when our relation is so happy, and so much harmony prevails? The reply is, if there be duty in the case or responsibility, such as has been affirmed, then, when there is ' such good feeling and harmony, is the time to make a required separa-It is a grievous reflection that many Churches grow out of bitter controversies and deeply seated enmities. This is far from being honorable to the piety of those concerned. Still, if they cannot live together, they had better live apart. But what blessing can be looked for where the seeds of strife are sown broadcast? There is something pleasant, something that accords with every principle of the gospel, for brethren who feel that they must have larger place, that they owe a better service to the Master and to man, to leave what may be called the home circle, with all its endearments, to enter upon a wider field. It is the young swarm going out from the parent hive, to carry on its honey-gathering labor under new auspices. There ought to be a state of kindness when such partings occur. We shall need each other's kind offices; we shall be called at times to work side by side for our Divine Lord .

So, again, it may be said we loose the benefit resulting from participation in so large a work as that of the American Board, and the opportunity of bringing to bear upon the hearts of our people those glorious results from time to time secured. We acknowledge this will be true in a degree; we acknowledge the advantage of being able to draw from the large and accumulating treasury of delightful and touching incidents gathered from a wide missionary field; we acknowledge there will be a loss felt by numbers who have mingled in the scenes of the great Annual Convocation, and listened to the Annual Report, a document more important than almost any annual state paper, and borne away the thrilling emotions and deep convictions of the importance of the missionary work which the occasion induced. But allowing all this, the question is, what does duty dictate? Is this not a case in which duty

calls for the self-denial involved? But, after all, the missionary work is one, however numerous its branches or departments. We shall still be sharers with our brethren in the joy of their success. All that is done by God's people of every name is ours. It is our privilege to cull from all fields whatever may minister to the interest of our people, whatever may arouse to duty and aid in the coming of the kingdom of our blessed Lord.

The Committee recommend the adoption of the following resolutions:

1. Resolved, That, considering the growth of our missions abroad, the duty of the Church, in her distinctive capacity, as such, to take charge of these missions, the growing sentiment among our people in favor of such a course, and the hopeful prospect that this action will tend to call out far more largely and promptly the resources of our denomination, we are satisfied that the time has come to dissolve the union with the American Board of Commissioners for Foreign Missions, and henceforth conduct our operations among the heathen through the exclusive agency of our own Board.

2. Resolved, That the intimate relation which has existed for a quarter of a century between the Reformed Protestant Dutch Church and the A. B. C. F. M., in the prosecution of this work, has confirmed our confidence in the wisdom, the integrity, and the catholic spirit of that great and noble institution; nor shall we ever cease to feel a lively interest in the growth of its operations and the success of its plans.

3. Resolved, That in dissolving the pleasant and useful connection we have maintained with the officers and members of that Board for the last twenty-five years, we are not influenced by any dissatisfaction with their modes of action, or any want of fidelity on their part to the terms of this connection.

4. Resolved, That we take pleasure in expressing to the A.B. C.F. M. our grateful sense of the benefits derived from their experience, foresight, and enlarged views, and of the uniform Christian kindness and courtesy which have marked their intercourse with our Board.

5. Resolved, That the Board of Foreign Missions, now composed of fifteen members, be increased to twenty-four, the additional members to be chosen by the Board itself; that they be and hereby are empowered to arrange with the A. B. C. F. M. the terms of an amicable separation, and to assume the management and control of the Missions in Arcot and Amoy; and that they be authorized and directed to employ all suitable means, such as the use of the press, the appointment of agents, the holding of missionary conventions, and the like, for the purpose of developing the power and exciting the interest of our churches in the great work of evangelizing the world.

6. Resolved, That every pastor be requested to preach, at least once in each year, on the subject of sending the Gospel to the heathen, dwelling particularly upon the character of the Church as the great missionary organization, upon the claims of our missions abroad for reinforce-

ment, and upon the duty and privilege of a more unreserved consecration of life and means to the advancement of God's cause throughout the world.

TALBOT W. CHAMBERS, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Foreign Missions whose term of service has expired. On counting the ballots, it appeared that the following were chosen: Rev. Joseph F. Berg, D.D., Alexander R. Thompson, Thomas M. Strong, D.D., and Messrs. Sanford Cobb and Jacob Brouwer.

The Committee on Nominations having reported double the number of persons from whom to elect individuals to preach the Annual Missionary Sermon, the Synod proceeded to the election, when the Rev. Ebenezer P. Rogers, D.D., was chosen primarius to preach the sermon on the subject of Foreign Missions, and the Rev. John F. Mesick, D.D., secundus; the Rev. John Mason Ferris was chosen primarius to preach the sermon on behalf of Domestic Missions, and the Rev. Samuel M. Woodbridge, secundus.

Resolved, That the Board of Foreign Missions be directed to print the report on Foreign Missions adopted by this body, and take measures to give it the widest possible circulation throughout the bounds of our Church.

The following Report was received from the Committee appointed by the last General Synod, (p. 103,) to revise the plan for a Sustentation Fund, which was read and referred to the Committee on the Widows' Fund:

The Committee to whom the last General Synod referred the subject of the Sustentation Fund, respectfully report, that in their judgment the plan adopted by Synod will require for its successful execution a capital larger than from present appearances can be obtained from the Churches, and larger than can well be justified when the claims of the other Boards and their existing indebtedness are considered. They are of the opinion that only one feature of the plan should be retained, viz: that which contemplates some provision for destitute Ministers, disabled in the providence of God, and having claims upon no other of the Boards of the Church. Such cases should be certified by the Classis to which the person needing aid belongs; and of funds collected by annual contributions in the Churches such division should be made to each applicant as in the judgment of the Committee to whom the matter may be intrusted may be best; and they would re-

commend that the Trusteess of the Widows' Fund be such Committee. The collections from the Churches should be annually made for both these objects at the same time, and the congregation should be previously notified that, by written directions, they may give the whole or what part of their contributions they please to either Board; or the collections for each may be made separately. Should there at any time hereafter remain a surplus of the Sustentation Fund beyond what may be needed for the beneficiaries on that fund, it is recommended that it be carried over to the benefit of the Widows' Fund; yet such transfer shall be made only by special authority of the General Synod. The Committee who are the Trustees and Distributors of the Sustentation Fund, shall annually report all their receipts and disbursements to the General Synod.

All which is respectfully submitted.

ARTICLE XIX.

widows' fund.

The Committee on the Widows' Fund reported, and their report was accepted, adopted, and is as follows:

The Committee on the Widows' Fund beg leave to report:

We find the whole number of subscribers to this fund to be 67, of whom 13 were added last year. Nine have paid the \$500 necessary to constitute them life members. There are 13 annuitants, 9 of them widows of deceased clergymen, and four of them ministers declared emeriti by their Classes.

The assets, subject to draft, are cash balance May 31, 1856, \$346-54. Since received, interest on vested funds, \$1,011-97. Subscriptions, \$1,063-00. Sum total, \$2,421-51. Debits paid Treasurer, \$150-53; annuitants, \$1,605-00; withdrawn, \$80-00; withdrawn for purpose of transfer to life membership, \$380-00; cash balance in hand, \$205-98; sum total, \$2,421-51.

The moneys for investment are cash balance May 31, 1856, 8818-19; received on life memberships, \$1,500; collected in the churches, \$261-02; total, \$2,579-21. There has been duly invested, \$1,250, leaving a cash balance for investment of \$1,329-21. The whole capital now secured on bond and mortgage is \$15,900.

This fund has not received the effective co-operation of our churches which is absolutely necessary, if the important end it designs to sub-

serve is accomplished. The whole interest on the capital and the entire amount received from subscribers, except for life memberships, was last year paid to the annuitants; and yet for the last six months they received only \$70, where they no doubt expected \$100, the maximum half year annuity. Here not one cent is added to the capital from interests or current subscriptions. It is obvious that as the number of annuitants increases, while the number of subscriptions and amount of interest continue nearly the same, the annuity must be continually decreasing, or the capital itself absorbed.

Is the church ready to witness either of these results? Shall there be no effectual provision made for the widows and destitute families of our brethren, who are in the providence of God unblessed with this world's goods, and yet wear themselves out or die at their posts in the service of our divine Lord within our own denomination? Your Committee are aware that this branch of the church's operations is by some viewed not as a charity but a mere life insurance arrangement, in which the brethren who subscribe must calculate for themselves whether it is to prove to them and their families a profitable investment? We will not ask whether this is a kind view, but only whether it is correct? The annual subscription is \$20; this is about one-third of the premium of a life insurance of \$3,000 for a clergyman at the age of 35 years, which is a fair average for the calculation. And yet after paying this \$60 per annum his widow would receive a sum affording a revenue of only \$210, which, notwithstanding the large excess of outlay, is only \$10 above what this fund designs to secure to her. Take another view; an annual payment of \$20 at 6 \$\text{P} ct. compound interest for fifteen years, which is a large average for length of payment, would amount to about \$500; yet this small capital, which at 7 \$\mathbb{P}\$ ct. would yield only \$35 per annum, when placed in this fund yields \$200 per And the same thing is true of \$500 given at any one time. Now, when we consider that those who subscribe with the design of securing to their families some small support at least in case of their removal, are those who can ill afford to pay even \$20 annually, ought not the church to encourage and effectively aid their commendable And shall not such effective aid be considered in the line of benevolent action? Your Committee think there ought not to be two opinions upon this matter.

There are two objects to be kept in view in the due administration of this fund. The first is the prompt payment of all the state of the fund will warrant to actual annuitants. This department seems to be well attended to, and it is only to be regretted that the annuity falls below the maximum amount, which surely is small enough in these days of high prices. The second is the enlargement of the capital itself. The Board of Direction say in their report: "Measures for the more rapid increase of this important fund have a just claim on the attention of Synod." Your Committee earnestly second their remark. The holy object for which this fund was instituted must eventually fail

of accomplishment, if this fund itself is not enlarged. How shall it be done? Your Committee respectfully suggest the following:

First, by carefully investing the whole amount in the hands of the Board. The uninvested capital in 1854 was \$991 93; in 1855 the same amount remained uninvested, and the capital meantime had not increased by a single cent. In 1856 the uninvested capital was \$818 19, and the present year it is \$1,329 21, besides a cash balance, which seems to be subject to draft, of \$205 98.

Secondly, by calling the attention of our wealthy and charitable members to the subject of bequests in behalf of this fund. Let those whom God's providence has favored with abundance to make their families comfortable as to this world's goods, express their gratitude by bequeathing \$500 or \$1,000 to this fund, which will gladden one or two families of God's faithful poor when they are in their graves. And if any person feels an inclination to perform so charitable a deed, now let him indulge himself, and taste the sweetness of it while he lives.

Thirdly, by asking every church in our denomination capable of doing it, (and the large majority of them are,) to add \$20 to their annual current expenses, and direct their treasurer to forward this sum annually to the Treasurer of the Board of Direction, by a standing rule of the Consistory; the church so contributing having the right to the maximum annuity for the family of a minister deceasing in their service, or declared emeritus by the Classis.

Fourthly, by again urging, with increased earnestness, all our pastors to subscribe to this fund, and then leave the amounts paid by them as sacredly devoted to this object. Any considerable increase of the number of subscribers would render this a reliable and permanent institution, and if these pastors or their families are so happy as never to need the annuity to which they are entitled, it will secure unknown comforts to a multitude of worthy recipients among the widows and orphan children of our laborious clergy.

Your Committee would report the following resolution:

Resolved, That at the coming fall session of the Classes the President be requested to ask distinctly what has been done in the churches in behalf of destitute families of deceased ministers, and particularly what churches are willing to adopt the third suggestion of this report.

Your Committee have had placed in their hands the report of a Committee, consisting of Dr. Vermilye, Rev. J. S. Lord, and Elder Thos. Jeremiah, appointed by the last General Synod "to revise the plan for a Sustentation Fund, adopted Oct., 1855."

That Committee report no real modification of the plan, except that any surplus funds should by special authority of General Synod be earried over to the benefit of the Widows' Fund; but this would interfere with the rights, and perhaps very designs, of donors to the Sustentation Fund.

Your Committee believe that, while the design itself is noble, all the

leading features of the plan are good and adapted to their end, and only wish they were more thoroughly tested by use.

We would, however, suggest the following emendations:

Resolved, That the last clause in both the second and sixth sections of the "Plan of the Sustentation Fund" be rescinded.

Resolved. That annual disbursements be made from the contributions received during the current year, and from interests on vested funds; and that any sums thus accumulated and remaining unappropriated at the end of each year, be vested as provided by the third section of the Plan, together with all such donations and bequests as are designed to found a permanent capital.

All of which is respectfully submitted.

ANSON DU BOIS, Chairman Com.

ARTICLE XX.

BOARD OF PUBLICATION.

The Third Annual Report of the Board of Publication was received, read, and referred to the Committee on Publication.

The report of the Treasurer of the Board of Publication was received, and referred to the Committee on Publication.

One hundred copies each of eight Tracts lately issued by the Board of Publication, and one hundred copies of "A Pastor's Hints to his People," issued during the year 1855, were received from the Board of Publication, and distributed among the members of the Synod.

Resolved, That this Synod recommend to each Consistory of our Church to procure all the publications of our Board of Publication already issued, and hereafter to be issued, to be placed in the Pastor's library of each church, and to remain there as the property of the church.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Publication whose term of service has expired. On counting the ballots, it appeared that the following were chosen: Rev. Thomas M. Strong, D.D., Talbot W. Chambers, D.D., David D. Demarest, and Messrs. Peter S. Danforth, James Demarest, Ten Eyck Sutphen, George B. Brinkerhoff, and Abraham J. Beckman.

The Committee on Publication reported, and their report was adopted, and is as follows:

The Committee on Publication respectfully report: That it is with much satisfaction they have examined the various matters embraced in the report submitted to this Synod by your Board of Publication.

In the judgment of your Committee, the Board deserve the warmest thanks of the Synod for the unwearied attention to the important work assigned them. For their judicious and economical management of the finances, and for the great number of excellent works which they have already published in the English, German, Holland and French languages; and we hope that before long a more suitable compensation may be afforded to your deserving Agent for his faithful labors.

So far as we have been enabled to examine the publications issued by the Board, and from the known reputation of such as we have not been able to examine, we believe them to be such as meet the views and designs of the Synod in originating and establishing this branch of benevolence, and such as they can fully adopt and confidently recommend to all our people, and all other evangelical churches, as being well adapted, with the Divine blessing, to lead men to the saving knowledge of the truth as it is in Jesus, to awaken the careless, to direct inquiring souls to the Lamb of God, who taketh away the sins of the world, to edify and establish believers, to engage their hearts and lives in the delightful service of the Lord, to teach them how to become ashamed of sin, the end of which is death, how to be made free from the guilt and power of sin, and be led to that holiness which becometh the house of the Lord forever, and without which no man shall see the Lord.

The proper limits of a report will not permit us particularly to notice the numerous and valuable books and tracts already published by your Board, which we would take pleasure in recommending. We hope they may have a very extensive circulation, and be the means of accomplishing much good, and that the Board will be encouraged by all our Churches in their laborious and benevolent work.

An important item in the report is the communication of Mr. Samuel B. Schieffelin, containing the very liberal offer of \$4,000 on certain conditions therein expressed, with a view to enable the Board to publish a series of Christian School Books for the use of Schools and Academies, which they are making arrangements to accomplish: we hope the liberal projector of this plan, to promote Christian education in our Schools and families, will be richly rewarded by the good results of its accomplishment.

Reference is made in the report of your Board to the monthly paper called The Sower, and we find in the statement of the report that the expense of its publication has exceeded the income more than \$500. It also states that the recommendation of the last General Synod to the five Boards of the Church, who had all been benefited by the circulation of this paper, to make up this deficiency, has not been complied with by any of them except the Board of Domestic Missions, who offered their proportion, with the understanding that all would contribute their respective parts. Hence the deficiency remains

unprovided for, and we regret to learn from the report that it therefore becomes necessary, as the only remedy, to increase the price of the paper; fearing that this may prove injurious, and prevent in a measure an extensive circulation of the paper, we hope, if possible, that some plan may be devised by which this necessity may be obviated. If this cannot be done at present, we hope subscribers will be found willing to pay at least sufficient to defray the actual cost of this truly valuable paper, until better arrangements can be made.

The report, accompanied with the account of the Treasurer, contains a particular statement of the financial operations of the Board, from which we learn that they have now an amount of stock on hand

Which is an increase for 1857 over the amount for 1856,

From the details of the report, we believe the Synod have abundant reason to be satisfied with the economy of the Board in their financial

operations.

We regret to see that so few Churches, only 88 out of 380, have as yet contributed anything to the funds of this Institution of the Church, and of this number only 15 yearly, but hope that we shall soon see a far better state of things in this respect. We believe that all our Churches will be willing to give their assistance, when the matter shall be properly brought to their notice.

We are also pleased to learn from the report that some good has been done by the employment of Colporteurs during a part of the past year, and your committee believe that much may be affected by this means, if suitable men can be obtained for this work. We hope the Synod will encourage the Board to continue their attention to this very

important department of their operations.

In the report of your Board notice is given that a request will be presented to the Synod at its present session, by your Sabbath School Board, for leave to transfer to the Board of Publication all their stereotype plates and stock in trade, at a fair and equitable valuation, so that the Board of Publication may have the entire and exclusive control of all the publications of the Church. The Board of Publication concur in this arrangement, in view of important benefits which they believe will result to both Boards. In consideration of this request being mutual, and for the reasons contained in the report, your committee would recommend that their request be granted.

In reference to the above matters, as contained in the report of your Board, thus briefly referred to, your committee would recommend the

adoption of the following resolutions:

1. Resolved, That the operations of the Board of Publication meet the approbation of this Synod, as accomplishing the great end and purpose of its organization.

- 2. Resolved, That this benevolent work, so important to aid the Ministry in diffusing the light of Gospel truth through their congregations, should induce every Minister and Consistory, so far as practicable, to spread the different publications of the Board, and especially their valuable and interesting Tracts, and their monthly paper, The Sower.
- 3. Resolved, That this Synod regard the system of Colportage as a valuable auxiliary in spreading a sound Christian literature for the edification of the church, while it affords an excellent school of training, especially for the students of our Theological Seminary, to whose attention we commend this work.

4. Resolved, That this Synod deeply deplore the apathy hitherto manifested by the most of our churches, and express their warmest thanks to those benevolent individuals of the Board and others by whose liberal contributions, loans, and gratuitous labors the Board

have been chiefly sustained in their operations.

5. Resolved, That this important institution of our church be affectionately commended again to the serious consideration of all the Classes, and that they be solicited to devise some plan by which they may best secure the attention of their people to this department of Christian benevolence, and contributions of funds for its more efficient management.

All which is respectfully submitted.

ISAAC D. COLE,

Chairman of the Committee.

Resolved, That the Board of Publication be authorized to have the Minutes of the Synod, from year 1771 to 1794, translated at the expense of this body, and then to publish them in a convenient form in connection with the Minutes in English, down to the year 1812, when the Synod commenced to hold annual sessions.

Resolved, That the Board of Publication be requested to publish a Tract upon the subject of Systematic Beneficence, and that they take measures to have the same, when published, circulated throughout the churches.

Also, that they cause to be prepared forms suitable to the purpose of systematic beneficence.

ARTICLE XIV.

PROFESSORATE.

Resolved, That so much of the report of the Committee to erect the Theological Hall, as refers to the payment of Janitor's wages, &c., for Rutgers College, be referred to the Committee on the Professorate, (see Minutes, p. 203).

It having been announced by the Stated Clerk that the Rev. Dr. Ludlow, Professor of Ecclesiastical History, Church Government, and Pastoral Theology, had been removed from the Theological Seminary by death, on the eighth day of September last, it was referred to the Committee on the Professorate, to report suitable resolutions to be adopted, and the action proper to be taken in relation to the event by the Synod.

The Committee on the Professorate reported, and their report was adopted, and is as follows:

The Committee on the Professorate respectfully present the following Report, respecting the decease of the late Professor Ludiow:

Whereas, it has pleased the great Head of the Church to remove by death our late most respected and useful Professor of Ecclesiastical History, Church Government, and Pastoral Theology, the Rev. John Ludlow, D. D., L. L. D., this Synod do hereby,

1. Resolve, That while they humbly bow to the inscrutable Providence which has taken him away from the important station which he has filled, they cannot but express their own deep sorrow,

and that of the whole Church over this sad bereavement.

2. Resolved, That this Synod will ever cherish with affectionate regard the precious memory, and the invaluable services of their deceased Professor to the Church, which so largely enjoys the fruit of his labors, and in whose confidence he ever held an exalted place.

3. Resolved, That in testimony of their sentiments, this Synod direct the erection, at their expense, of a suitable monument over the grave of the late Professor Ludlow, and that the Professors of the Theological Seminary be and hereby are appointed a Committee to prepare a suitable inscription for the monument, and to superintend the erection of the same.

4. Resolved, That the funeral expenses of the deceased Professor

be paid by the Treasurer of this Synod.

5. Resolved, That the salary of the late Professor, for the quarter during which his death has occurred, be paid in full to Mrs. Ludlow.

6. Resolved, That certified copies of these resolutions be sent to the family of Dr. Ludlow, and published.

In behalf of the Committee, W. J. R. TAYLOR, Chairman.

Synod proceeded to appoint a Professor of Ecclesiastical History, Church Government, and Pastoral Theology, in the place of the Rev. John Ludlow, D.D., L.L.D., who has been removed by death.

A number of candidates for the Professorship having been nominated, and said nominations being by ballot reduced to two,—on a succeeding day, after a season of special prayer, Synod proceeded to elect a Professor. On counting the ballots it appeared that the Rev. George W. Bethune, D.D., was elected. Whereupon it was

Resolved unanimously, That the Rev. George W. Bethune, D.D., be and hereby is appointed Professor of Ecclesiastical History, Church Government, and Pastoral Theology, in the Theological Seminary of the Reformed Protestant Dutch Church.

Resolved, That an instrument certifying the appointment, and specifying the duties of the office, be signed in the presence of the General Synod by the President thereof, and by him be given in the name of the Church to the Professor elect.

Resolved, That the salary of the Professor elect be eighteen hundred dollars, with the use of the west wing of the College edifice.

Resolved, That the President of this Synod, and the Rev. I. N. Wyckoff, and W. J. R. Taylor, and the Elders Ed. S. Brayton, and Peter S. Danforth, be a Committee to wait upon the Professor elect, inform him of his appointment, and obtain from him his decision on the subject.

The Committee reported that they had waited upon the Professor elect, and that at their request he would in person attend the Synod and announce his decision.

In accordance with this arrangement the Rev. Dr. Bethune appeared in Synod on the afternoon of the second day of the session, and declared his declinature of the appointment of the Synod, together with the reasons which had induced him to come to this decision. Whereupon it was

Resolved, That the Synod have heard with regret the decision of the Rev. Dr. Bethune, in relation to the appointment conferred upon him, but that under the circumstances they are constrained to accept his declinature.

Synod then proceeded to elect a Professor of Ecclesiastical History, Church Government, and Pastoral Theology, in the place of the Rev. Dr. Bethune, who has declined the appointment.

A number of candidates for the Professorship having been nominated, and said nominations being by ballot reduced to five, on a succeeding day, after a season of special prayer, Synod proceeded to elect a Professor. On counting the ballots it appeared that the Rev. Samuel M. Woodbridge, D.D., was elected. Whereupon it was

Resolved unanimously, That the Rev. Samuel M. Woodbridge, D.D., be and hereby is appointed Professor of Ecclesiastical History, Church Government, and Pastoral Theology, in the Theological Seminary of the Reformed Protestant Dutch Church.

Resolved, That an instrument certifying his appointment, and specifying the duties of the office, be signed in the presence of the General Synod by the President thereof, and by him be given in the name of the Church to the Professor elect.

Resolved, That the salary of the Professor elect be eighteen hundred dollars, together with the use of the west wing of the College edifice.

Resolved, That the President of this Synod, and the Rev. Isaac N. Wyckoff, D.D., and W. J. R. Taylor, and the Elders A. Van Bergen and Peter S. Danforth, be a Committee to wait upon the Professor elect, inform him of his appointment, and obtain from him his decision on the subject.

The Committee reported that they had waited upon the Professor elect, and that at their request he had accompanied them from New Brunswick, and would attend the Synod in person, and announce his decision.

In accordance with this arrangement, the Rev. Dr. Woodbridge appeared in Synod on the afternoon of the third day of the session, and declared his acceptance of the appointment of the General Synod, as the Professor of Ecclesiastical History, Church Government, and Pastoral Theology, in the Theological Seminary at New Brunswick.

Resolved, That the Professor of Ecclesiastical History, Church Government, and Pastoral Theology, be inaugurated into his office on Wednesday, the second day of December, at eleven o'clock, in the First Reformed Dutch Church, in New Brunswick; and that in addition to the inaugural address to be delivered on that occasion by the Professor elect, the Rev. Thomas M. Strong, D.D., be and hereby is appointed to deliver a sermon, and the Rev. Mancius S. Hutton, D.D., to deliver a charge to the Professor; and that the Rev. M. W. Dwight, D.D., be secundus to the Rev. Dr. Strong, and the Rev. Isaac Ferris, D.D., be secundus to the Rev. M. S. Hutton, D.D., and that the President of the Synod preside on the occasion.

Resolved, That a Committee consisting of Messrs. John Demott, and Garrit G. Voorhies, be appointed to aid the Professor elect in his removal to the College edifice, and that the Treasurer of General Synod is hereby authorized to pay the expenses of the same.

Resolved, That this Synod request Dr. Bethune to deliver a course of Lectures on Pulpit Eloquence, during the course of the year, to the Classes of the Theological School, and that the details of the arrangement, and the compensation, be committed to a Committee, consisting of Rev. Isaac N. Wyckoff, D.D., E. P. Rogers, D.D., Gustavus Abeel, D.D., W. J. R. Taylor, H. D. Ganse, and the Elders James W. Beekman, and William H. Crosby.

Resolved, That the same Committee take into consideration the expediency and practicability of establishing a Professorship of Sacred Rhetoric in the Theological Seminary, and report on the subject to the next General Synod.

Whereas, This Synod have been informed that the Library of the late Professor Ludlow contains many works of permanent value to our Theological Seminary, and that these may be secured at a reasonable price, therefore

Resolved, That a Committee consisting of Rev. E. P. Rogers, D. D., William H. Campbell, D. D., William J. R. Taylor, and Elders Theo-

dore Frelinghuysen, James W. Beekman and Maurice E. Viele, be appointed to secure the funds for the purpose, and to purchase such works belonging to the late Professor Ludlow as may be deemed desirable for the Library of the Theological Seminary, and that the Committee report to the next General Synod.

The Committee on the Professorate reported, and their report was adopted, and is as follows:

The Committee on the Professorate respectfully report on the matters submitted to them.

1. The Committee for the erection of the Peter Hertzog Theological Hall, state the fact that all the exercises of the Seminary during the past year have been performed in the Theological Hall, and that the Seminary has therefore derived no advantages from the services of the College Janitor, nor used the fuel of the College, for both of which the Synod has hitherto paid the College.

It appears also from the statement of the Treasurer of the Synod, that the sums of "one hundred dollars for one year's salary of Hugh Tolan, the Janitor of Rutgers College, and twenty dollars for fuel for the College," have been drawn and paid, although the exercises of the Seminary have not been held in the College building during the past year.

We therefore recommend the following resolutions:

(1). That the funds hitherto paid by the Synod for the services of Janitor, and for fuel in Rutgers College, be hereafter appropriated to similar use in the Theological Hall.

(2). That the Trustees of Rutgers College are hereby respectfully requested to refund to the Treasurer of the Theological Hall, the amount paid to the Treasurer of the College for the services of their Janitor, and for fuel during the past year.

2. Respecting the Communication of the Professor of Didactic

Theology,

Resolved, That Messrs. Johnson Letson, Professor Cooke, and Rev. Dr. Van Vranken, be a Committee to make whatever repairs may be needed in their judgment to the Professor's dwelling, and that the necessary expense of the same be paid by the Treasurer of General Synod.

3. The Committee recommend that Synod grant the application of the Classis of Bergen in behalf of Christian Schenfield, as a suitable person to receive aid from the Educational Funds of the Church, and also that in accordance with the request of the Classis, a dispensation be granted to Mr. Schenfield, from the rule requiring a full collegiate

course previous to entering the Theological Seminary.

Respectfully submitted, W. J. R. TAYLOR, Chairman.

ARTICLE XVIII.

MISSIONS.

The Rev. Dr. Ferris, Corresponding Secretary of the Board of Foreign Missions, appeared in Synod, and made a statement in relation to the operations of the Board, and laid upon the table copies of the "Constitution of the Board of Foreign Missions, with the Rules of Business," which had been adopted by the Board, which were referred to the Committee on Foreign Missions.

The Committee on Domestic Missions reported, and their report was accepted, adopted, and is as follows:

The memorial from the German Ministers of the Reformed Dutch Church has been considered by your Committee, and they are satisfied that it contains suggestions which are the fruit of experience in that particular field, and worthy of the attentive consideration of Synod, in all its efforts to evangelize the German emigrant population of our land. The document presents the claims of that vast department of Domestic Missionary enterprize,—its peculiar difficulties and dangers, and the necessary line of policy to meet and obviate them,—if, as a denomination we are to incorporate any considerable portion of this element into our Church, or mould it in harmony with our prevailing spirit. To give a practical bearing to its suggestions, your Committee recommend the following resolutions for adoption:

1. Resolved, That this memorial be commended to the consideration of the Board of Domestic Missions.

2. Resolved, That the Secretary of that Board be directed to have

it published in the columns of the Christian Intelligencer.

3. Resolved, That the Rev. J. C. Guldin be a Committee on behalf of this Synod to open a correspondence with those Missionary Institutions in Germany, which are engaged in educating young men for the Gospel Ministry in America, with a view of introducing them into the service of our Church.

4. Resolved, In addition to the regulations applicable to this class of persons, that Licentiates and Ministers from these Institutions be required to spend one year in our Theological Seminary previous to their examination by Classis for ordination or installation.

JOHN F. MESICK, Chairman.

The Committee on Foreign Missions reported, and their report was accepted, adopted, and is follows:

The Committee on Foreign Missions beg leave respectfully to report the following resolutions, in relation to the subjects brought before the Synod by the Corresponding Secretary of our Foreign Board.

1. Resolved, That the Synod hereby approve and sanction in the general both the Constitution and the Rules of Business, as of late adopted by the Board of Foreign Missions, but as to the details of the latter, refer the same back to the Board for further consideration.

2. Resolved, That the Synod heartily approve the arrangement by which The Sower is made the Board's organ of communication with the churches, and hereby request the Classes and Consistories to use their best efforts to secure the circulation of this paper in every part

of our Church.

3. COMMUNICATIONS.

The following report was received from the Board of Superintendents of the Theological Seminary; which was read and referred to the Committee on the Professorate:

REPORT OF THE COMMITTEE ON SYNODICAL REPORT, ADOPTED BY THE Board of Superintendents, May 19th, 1858.

The Committee on Synodical Report beg leave to report as follows: •

The Board of Superintendents of the Theological Seminary met in Peter Hertzog Hall, on Tuesday, May 18th, 1858, at 11 o'clock, A.M.

The President, Rev. Dr. McLaren, opened the meeting with prayer. The following members were present:

Rev. P. D. Van Cleef,

- " Philip Phelps, Jr.,
- A. C. Millspaugh, J. R. Van Arsdale,
- Theo. B. Romeyn,
- Ferdinand H. Van Derveer,

- " Francis M. Kip, D.D., " M. N. McLaren, D.D.,

- Rev. Jacob Van Vechten, D.D.,
 - Edwin Vedder,
 - Julius II. Seelye,
 - A. H. Van Vranken,
 - Nathan F. Chapman,
 - John Minor,
 - James R. Talmage,
 - George H. Fisher, D.D.

The following Classes were not represented, viz: The Classes of New York, South New York, New Brunswick, South Long Island, Passaic, Hudson, Washington, Watervliet, Michigan, Illinois, Holland, Wisconsin, Arcot, Kingston.

The Board was organized by the election of Rev. Jacob Van Vechten, D.D., as President, and Rev. James R. Talmage, as Clerk, pro

tem.

The report of the Theological Faculty was laid before the Board, from which it appears that the following young gentlemen have been in attendance upon the exercises of the Seminary during the past year, viz:

Senior Class.

William T. Enyard, John S. Lott, John C. Lowe, Joseph Mayou, F. W. A. Riedel, Jeremiah Searle, Mason R. Strong, Alexander McKelvey, Jacob F. Neef, Alvin Ostrom, Daniel Rapalje, Robert G. Strong, J. B. Thompson, Augustus F. Todd.

Middle Class.

Jacob Chamberlain, Jr., Hasbrouck Du Bois, Philip Furbeck, Maurice G. Hansen, James Huyssoon, Josiah Jansen, A. W. Knowlton. Henry Ray Lott, M.D., Charles D. Nott, Henry Schiebe, William A. Shaw, C. G. Van Derveer, Edward M. Weiss.

Junior Class.

Jacob Baay,
James H. Ballagh,
Isaac Collier,
William R. Duryee,
Albert V. Gulick,
H. W. F. Jones,
Leonard W. Kip, Jr.,
Frederick Loeber,
Dennis Wortman, Jr.,

Edward Miller, George H. Peck, Robert R. Proudfit, Lester C. Rogers, Christian Schoenfeldt, John Scudder, Thomas A. Talmage, John E. Watkins.

The above report informs us that Frederick Loeber and Christian Schoenfeldt have withdrawn from the Institution—the latter on account of ill health, the former for reasons not known. John R. Leslie, who finished his Junior year last May, has not been in attendance during any part of the year.

Mason R. Strong, of the present Senior Class, has been absent from the Seminary since the first of January, on account of serious sickness. If his health will permit, he will return next September, and prosecute his studies with the Senior Class. Thomas A. Talmage, of the Junior Class, having been very ill for the month past, and not being able to attend this examination, the Professors recommend that his absence be excused, and he be allowed to proceed with his class at the opening of the next term. The above recommendation was complied with.

This Board rejoice to learn from the Professors so favorable an account of the studious habits and Christian deportment of the young gentlemen under their care; also that the claims of the heathen are engaging the attention of many of them, and that four of the Senior Class have already resolved that, with the permission of the great Head of the Church, they will preach the Gospel in heathen lands.

The Annual Sermon before the Board was preached by Rev. J. B. Alliger, from John 3:30; and the address to the students was deliv-

ered by Rev. N. F. Chapman.

The students of the several classes were examined in the various studies pursued in the Seminary. The Senior Class were examined also on the subject of personal piety, and their motives in wishing to enter the ministry. They also gave specimens of sermons, as to composition, analysis, and delivery. All the students passed through their examinations very much to the gratification of the Board. The entire Senior Class were recommended to the Faculty for the usual certificates.

The seats of the following members will become vacant at the next

meeting of General Synod:

Rev. P. D. Van Cleef, Rev. Edwin Vedder,

"S. T. Searle, "A. C. Millspaugh,

"C. E. Crispell, "J. R. Van Arsdale,

"Anthony Elmendorf, Philip Phelps, Jr.,

M. N. McLaren, D.D.

The Board of Superintendents would do great violence to their own feelings, and, they are confident, to the feelings of the General Synod also, were they to close this report without at least a brief allusion to the sad providence which has visited the Seminary since our last meet-Death has removed from his sphere of usefulness on earth to his rest and his triumph in the better world, one whom we all loved. membering the genial spirit, the strong intellect, the ripe scholarship, the rich and varied mental furniture, and above all, the sweet Christian spirit and Godly zeal of our late Professor, the Rev. John Ludlow, D.D., and conscious, many of us, of experiencing now, as we have through years of toil, the benefits of that paternal attention and labor, which, with so much solicitude and kindness, he was accustomed to bestow upon the students here, we feel that we, as individuals, and the Church at large, have sustained a sore bereavement. While we bow with submission to Him whose right it is to take his own to Himself whenever it seemeth to him good, we would not forget the members of that circle most deeply affected by this trying dispensation. With the respect which sorrowing virtue always inspires, we assure them of our tenderest sympathies, and of our prayers on their behalf, to Him who is the Father of the fatherless and the Judge of the widow, in his Holy habitation.

It will not be considered improper in this connection to speak of the goodness of the King and Head of the Church, in so soon and so appropriately placing another in the chair made vacant by the removal of the venerable man whose death we deplore. From our personal acquaintance with the young Professor, and in view of this his first appearance before us at the head of his department, and from the evidence the young gentlemen gave in their examinations, of being under able and thorough training, we are confident the churches will have every year increasing reason to feel that the General Synod was wisely and kindly guided in placing Dr. Woodbridge in his present position.

M. N. McLAREN, Chairman.

Stated Clerk of the Board.

Accompanying the report of the Board of Superintendents were the following preamble and resolution, which were read and referred to the Committee on Education:

To the Stated Clerk of General Synod:

The following preamble and resolution were adopted by the Board of Superintendents at their late session, and directed to be sent to the General Synod:

Whereas doubts are entertained as to the duty of the Board of Superintendents in reference to examining applicants for aid from the Board of Education,

Resolved, That the General Synod be requested to inform this Board whether, in adopting the new plan of 1857 for the better conducting of the educational interests of the Church, it was the intention of Synod to repeal all that part of the plan of 1851 which empowered and made it the duty of the Board of Superintendents to examine all applicants for beneficiary aid.

JERSEY CITY, June 2d, 1858.

Accompanying the report was the following action of the Board in reference to the increase of the number of young men for the ministry, which was referred to the Committee on the Professorate:

To the Stated Clerk of General Synod:

The following is an extract from the report of the Committee on the Professoral Report adopted by the Board of Superintendents at its late meeting:

"The Faculty respectfully ask the Board to initiate measures by which the claims of the ministry may be more earnestly pressed upon our pious youth, and a deeper interest felt and shown by the Church in furnishing the necessary funds for their education. The Committee recommend that this part of the report, which they deem very important, be referred to the serious consideration of General Synod."

The following is the passage in the report of the Professors to which the Committee referred in the extract above:

"The Faculty would respectfully ask the Board to initiate measures by which the claims of the ministry may be more earnestly pressed upon our pious youth. Many young men of warm piety and excellent abilities have been added to our churches. Ought they not to give themselves to the Lord in the work of the ministry? This subject will not be pressed in vain; and if so many of our young men are going abroad to preach the Gospel to the heathen, we may confidently expect that their example will stir up others to follow them, and that God will open still wider the door of entrance to the Pagan world, as He sees we have a heart to enter in. We shall need then more ministers both for the foreign and home fields. Let it be also remembered, that if our youth consecrate themselves to this work, it will be necessary to provide more abundant means to educate the increased number."

P. D. VAN CLEEF, Stated Clerk.

ARTICLE IV.

BOARD OF CORPORATION.

The following report of the Board of Direction of the Corporation was received, accompanied with the Treasurer's Report, the Annual Digest, a list of the securities held by the Board, a list of the endowed scholarships, a list of the clerical subscribers to the Widows' Fund, and accounts current of said Board with the Widows' Fund and the Board of Education, together with the report of John C. Elmendorf, Esq., Treasurer of Rutgers College, in relation to the Van Benschoten and Knox Funds.

To the General Synod of the Reformed Protestant Dutch Church:

The Board of Direction respectfully report, that the increased obligations assumed in October, 1855, have created an annual deficiency in the regular income of the Synod to defray its existing standing expenses, of about eight hundred dollars a year. In 1856, the Synod, at its meeting in June, recommended to the churches to make collections to meet this deficiency; this call on the churches has failed to relieve the case, and the deficiency increases annually.

The Synod perceives that some early and effectual measures should be adopted, or this increasing deficiency will become very serious and

embarrassing.

The funds of the Synod, it is believed, are safely invested, the interest accruing thereon regularly paid, and its fiscal affairs generally receive due attention.

The Widows' Fund amounts at this time to the sum of \$15,900; it has a just claim upon the benevolence of our churches, and to a more

liberal consideration.

The Board of Direction, with the whole Church, deeply lament the decease of their friend and brother, the Rev. Dr. Knox, since their last report; his memory will long be cherished with sincere and affectionate respect and veneration. His christian discretion, his chastened experience, and his devoted piety gave to his well-trained mind an influence of singular power, and he faithfully consecrated it to the cause of his blessed Master.

A deed from Rev. Alburtus C. Van Raalte, and his wife, to General Synod, dated the first day of May, 1858, for the land and buildings in the village of Holland, Michigan, known as the Holland Academy, has been deposited with this Board.

The Treasurer's report, herewith submitted, exhibits in detail the

state of the funds belonging to the Synod.

Respectfully submitted,

ABM. VAN NEST, President.

CORRESPONDENCE.

The following report was received from the Rev. Talbot W. Chambers, D.D., the delegate appointed to attend the late meeting of the

General Assembly of the Presbyterian Church in the United States; which was accepted, and referred to the Committee on Correspondence:

The undersigned begs leave to report to the General Synod, that, in pursuance to his appointment as delegate to the General Assembly of the Presbyterian Church, he attended the recent session of that body at New Orleans, La., where he was cordially welcomed, and had the pleasure to receive very kind expressions of fraternal feeling toward himself, and especially toward the Church which it was his privilege to

represent.

The proceedings of the Assembly were animated, but harmonious, and our brethren were rejoicing in the evidences of the large measure in which their Church had received the signal blessing recently bestowed upon the people of God in all parts of our favored land. The good wishes expressed by your delegate were fully reciprocated by the presiding officer of that body, and there seems no reason to doubt that the bonds of brotherhood between them and us as Churches of the same faith and order, will be strengthened rather than impaired by the lapse of time and the developments of Providence.

Respectfully submitted,

TALBOT W. CHAMBERS.

NEW YORK, June 7th, 1858.

The Committee on Correspondence reported, and their report was accepted, adopted, and is as follows:

The Committee on Correspondence respectfully report, that having examined the statements of the Corresponding Delegate of General Synod to the General Assembly of the Presbyterian Church, they are happy to testify to his cordial reception, and the manifestation of feelings of entire harmony and fraternity. The bond of brotherhood which has so long united their body with our own, seems to have lost none of its strength, and the desire for each other's peace and prosperity to be unabated. A continuance of the correspondence is earnestly recommended.

Respectfully submitted,

A. D. WILSON, Chairman.

The Committee on Correspondence having reported a double number of persons from whom to elect delegates to the General Assembly of the Presbyterian Church, Synod proceeded to the election, when the following were chosen: Rev. George H. Fisher, D.D., *Primarius*; Rev. J. Mason Ferris, *Secundus*.

ARTICLE VI.

SYNODICAL REPORTS ON THE STATE OF THE CHURCHES.

In conformity with the standing regulation, the Synod spent a part of the afternoon of the first day of the session in religious exercises, conducted agreeably to a plan previously reported by a Committee for that purpose, consisting of Rev. Edward P. Simpson, Ransford Wells, D.D., and the Elder, Samuel B. Schieffelin.

Resolved, That the subject of making arrangements for the observance of the Sacrament of the Lord's Supper be referred to the Committee appointed on the devotional exercises of the Synod.

The Committee reported, and their report was adopted, and the Sacrament of the Lord's Supper was observed accordingly.

The Committee on the State of Religion reported, and their report was accepted, adopted, and is as follows:

The Committee on the State of Religion would respectfully report:

In the review of God's dealings with the Church during the past year, she has unwonted occasion to adopt the language of the royal Psalmist, and say, "I will sing of merey and judgment; unto thee, O Lord, will I sing." Seldom before has our Zion presented such a record of mingled grief and gladness, as that which makes up this annual summary. Three prominent points arrest the attention, as we

peruse that record.

First: The sudden, severe, and as yet unexplained monetary crisis, with its subsequent prostration of business, which swept over the land after a season of unusual prosperity, and while yet the husbandman was rejoicing over his abundant harvests. Perhaps our country has never felt, to the same extent, the effects of financial embarrassment, and probably never expected them less, than at the moment when they burst upon us. The bearings of such an event upon the Church, in all her movements, especially in her plans for extension and enlargement, are too obvious for remark. But whilst we were yet singing of "judgment," behold! the song of thanksgiving is interposed. Temporal disasters are speedily followed by abounding spiritual mercies. The hand of God, visible in the rebuke of our prevailing worldliness, and pride, and self-sufficiency, is no less manifest in the awakening and conversion of sinners, and the revival of religion in the hearts of his people. The Spirit of God was poured out upon the churches. have increased in numbers and in strength; and increasing also in the graces of Christian liberality, self-denial, and sacrifice, the treasury of the Lord has not wanted for the offerings of grateful hearts. the second point of marked interest in our review.

A third point, in which judgment and mercy are still blended, in

results of infinite wisdom and goodness, carries our thoughts upward from earth to heaven, from the visible to the invisible Church, from the field of conflict to the mausions of rest. "Precious in the sight of the Lord is the death of his saints." And the Church has more interest in the departure of those who, within her bosom, have ripened for glory, than merely the interest of a mourner. They are so many witnesses, who have sealed their testimony to the sufficiency of Divine grace. They are so many compeers who have preceded, and await us in the better land. They are so many answers to the Saviour's prayer, "Father, I will that those whom thou hast given me be with me where I am, that they may behold my glory which thou has given me." The legacy of their grateful memories remains, without the possibility of their faltering or failure to mar it. The greatness of their reward may stimulate our endeavors; and that they have so soon and suddenly departed, admonishes us also that the time for labor is short, while the period of rest is eternal.

We gather up from the reports of the churches those particulars

which may fall under these several heads.

1. Benevolence.

The reported contributions of the churches for religious and benevolent objects have reached an aggregate of \$102,388.16, which is \$7,622.28 less than the amount reported in June, 1857. This diminution is probably much less than was generally expected in the earlier months of the ecclesiastical year. Considering the very extraordinary state of things in all departments of business and industry during the antumn and most of the winter—the monetary embarrassments and losses of the rich—the suspended industry of artisans and mechanics—the low prices and uncertain markets of agricultural products—we think the result has shown no decrease, but an actual advance in the benevolence and liberality of the Church. This will be the more apparent if we compare the report now presented with that of the year 1856, which will show a gain of \$26,490 in favor of the year just closed.

Your Committee regard it, then, as an occasion for gratitude, and a ground of encouragement, that, whilst the hand of God has been stretched out over our land, teaching us the instability of all earthly possessions, he has nevertheless made provision that the cause of Christian benevolence should suffer so little; and we fain would hope and believe that He has done this mainly by teaching his people, more than ever before, the responsibility and right uses of wealth, when possessed.

But your Committee cannot forbear remarking upon the fact, that, with an aggregate amount of benevolent contributions reaching to \$102,388.16, only some \$48,000 has passed through the channels of our several Boards. We would be far from restricting the benevolence of the Church to its own appointed operations and agencies; but when those agencies extend, as they now do, to the various departments of Home and Foreign Missions, Education, Publication, and Sabbath

Schools, and when some of these Boards of the Church are crippled in their efforts by want of funds, and are largely sustained in their present operations by individual liberality, we submit if it is not being more generous than just to give them so much less than one-half of the whole amount of our benevolent contributions. Surely this is not the method pursued by other churches; and we would commend to the consideration of pastors and churches the question, Whether, in view of the full equipment of our own Church for the work committed to her hands in the various departments of Christian activity, the time has not come for giving to the claims of her own Boards that prominence and preference which they have a right to expect?

2. State of the Churches.

With much more than ordinary interest and gratitude, we pass to consider the state of the churches, as exhibited in the reports for the year. Here we find no falling off of numbers, or declension in the evidences of piety, to be accounted for and mourned over, but almost uniformly the signs of promise, the expressions of hope, and the fruits of grace, to gladden our hearts and animate the song of our thanksgiving. footing up of the statistical tables would give a very inadequate view of the extent and richness of the blessings which the Lord hath granted. Many precious sheaves had not yet been garnered when the annual summary was made up. Many tokens of the Divine presence and favor, though felt and seen, could not be measured or recorded in words. Of the fruits of that awakening which has made the year to be memorable, a large proportion will doubtless be reported among the accessions of the following year. And yet the record shows a gain to the membership of the Church, by confession, of 4,260—being an excess over the gain of the past year of 1,690. The goodness of God in this may be the more observable, when we remember that the accessions of 1857 exceeded those of 1856 only by 19.

But it is in the detailed statements of the Classes that we find the most cheering evidence of the extent and power of this work of Divine grace. In the Synod of New York one Classis after another takes up the same strain, and echoes and re-echoes the exclamation of adoring gratitude, "What hath God wrought!" From the Synod of Albany comes back the response, "The Lord hath done great things for us, whereof we are glad." And the Synod of Chicago sends no discordant note, but, in the tidings of the Spirit's presence, and the Church's increase, joins in that song of the "watchmen, who lift up their voice,"

as "with their voice together they do sing."

It is becoming to us, as it is also pleasing and profitable, to dwell upon those marked manifestations of the Divine goodness which the Church has enjoyed and is enjoying. The history of the beginning and progress of this revival is instructive and peculiar. The history of its extent, continuance, and blessed results, we hope, may be long delayed by the still accumulating materials which shall crowd the records from year to year. Your Committee would not presume so far as to attempt, in a paper like this, a detailed statement of all that is already known

of the ways of God in this great and glorious work of his grace. But the Psalmist, concluding his survey of the goodness of God in his wonderful works to the children of men, assures us, that "Whoso is wise, and will observe these things, even they shall understand the loving kindness of the Lord." For the increase of our faith, and for the encouragement of our efforts and prayers, as well as for the generations that come after us, it is wise to notice and record some significant facts.

1. The beginning of this work was sudden, in its outward manifestations. In the language adopted in one of the reports, "When the Lord turned again our captivity, we were like unto them that dreamed." But it would be wrong to conclude that it was a deep, unbroken slumber of worldliness which immediately preceded the awakening. many of God's people, and their pastors, there had been months and years of grief and mourning over apparently fruitless ministrations and barren ordinances. The deepening solicitude found expression and relief at the throne of grace, and when prayer becomes earnest it But still the tide of activity swept on. prompts to activity. urgent appeals of truth seemed to fall upon listless ears, until God interposed, by the dealings of his providence, and by the effusion of the Spirit. As when the viewless wind, in the blast of a tornado, rocks the forest, overturning the loftiest monarchs of the wood, and bearing down in their fall all meaner growth, so an invisible Hand, in a storm of disaster, prostrated the pride of the rich and the confidence of the poor, that "both high and low, rich and poor, together," might learn at length that "The blessing of the Lord, it maketh rich; and he addeth no sorrow with it." The coincidence in time would seem of itself to point to a connection between the temporal embarrassments and the spiritual prosperity which succeeded. But surely it is no extraordinary thing for God to make the afflictions which he sends the instruments for accomplishing his gracious designs. Judgment and mercy are often blended in his dealings, that the greatness of the latter may inspire the sentiment and augment the volume, while the former deepens the tone of that song of thanksgiving which we offer.

As a record of the beginning of that manifestation of the Spirit's presence, over which a revived Church is now rejoicing, we quote an extract from the Consistorial Report of the Collegiate Church of New

York, as follows:

"For a few years past the lower part of the city, in the vicinity of our North Church, in Fulton Street, has been changing into a field of commercial and business pursuits. The families regularly attached to the Church, and under our pastoral care, have become quite few. The Consistory, viewing the spiritual wants of that part of the city, resolved to employ a pious, judicious layman to explore that section, and invite the poor to the house of God and the Sabbath School; and also to visit public houses and boarding houses, to invite to the free seats in our sanctuary. His labors have been faithful and successful; the attendance on the Sabbath services has been at least doubled. In the lecture room, at his suggestion, the noonday prayer meeting originated, which

gradually increased, and has spread until, under the Divine blessing, the present state of things spread throughout our churches, and through our land, is realized; concerning which we may well exclaim, "What hath God wrought!" Thus it appears that the providence of God has immediately connected with one of our own churches the commencement of this great movement, and the origin of a meeting most

happy in its conception and most blessed in its results."

It appears, further, both from this extract and many other intimations in the reports, that united prayer and conference have been the prominent means employed in the beginning and progress of this revival. "In many of the churches where God has poured out his Spirit, the awakening has commenced in connection with, and as the immediate result of, special seasons of prayer for the descent of the Holy Ghost." Thus God has taught us anew the value of prayer, and what is our resource and refuge when the ways of Zion languish, and few come up to her solemn feasts. He has also in this whole work remarkably owned and blessed the personal efforts of Christians in bringing sinners to the Saviour. Nor has he failed to put especial honor upon his appointed ordinances and the preaching of his truth in limplicity and godly sin-He has signally rebuked the devices of men when they would be wiser than God, and place their reliance upon an arm of flesh, upon expedients, measures, or men, departing from the truth as it is in Jesus, and from the law of God's house in the order and decency of his wor-Never, perhaps, with so extensive an awakening has there been so little excitement, so little sounding of trumpets, and crying, "Lo here!" and "Lo there!" There has been a depth of feeling and soleinnity wholly incompatible with noise and extravagance. The Word of God read and preached, with united prayer and individual efforts to do good, have been the means which God has blessed.

2. And these characteristics of the revival are marked in its effects upon the churches. It is believed that the general tone of picty among professed Christians has been deepened. The sense of personal responsibility, and the obligation to be fruitful in good works, has taken a firmer hold upon the hearts of God's people. Notwithstanding the pressure of the times, we have reports of church edifices renovated, and rebuilt, and multiplied. Peace prevails throughout our borders. Difficulties and divisions have been healed, and alienations removed. No judicial cases have come up to any of the Synods. The doctrines of the Church seem to have been faithfully preached, and her order carefully observed.

Your Committee are pleased to find, from the reports, that increased attention has been paid to the instruction of the young in Sabbath schools and Bible classes, and that God has blessed this instrumentality, in the conversion of many both of teachers and scholars. It would be yet more gratifying if we had similar testimonials of increased fidelity in catechetical instruction on the part of parents and pastors. The whole number of Sabbath school scholars reported, is 40,282, while the number of catechumens is 16,484. The catechisms of the Church are generally taught in the Sabbath schools. But we hope the impression will

never prevail, that this agency can supersede the God-appointed and untransferable obligation and duty, of parental and pastoral care and

diligence, in the religious training of the young.

In all this extended statement of the spiritual condition of the Church we have unusual occasion to "Sing of mercy," for even in churches which report few accessions, or none, there are yet grounds of encouragement and expressions of hope. In view of it all, your Committee conceive that the attitude which the Church ought now to assume, is that of adoring gratitude for abounding mercies to those so unworthy —not as if we had already received all that we ought to expect or desire—not as if the blessing was already exhausted, and God had no more to give, and his people no more to ask or seek after—not as if we had reason for complacency with ourselves, much less for boasting, but humbled under a deep sense of our own short-comings, we yet rejoice in the goodness of God, and, taking encouragement from the past, we animate each other to greater diligence and devotion, thus responding to the exhortation of the Apostle, that highest and tenderest appeal to Christian love and gratitude, "I beseech you, therefore, brethren, by the mereies of God, that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service. And be not conformed to this world; but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect will of God." The crisis of the Church, the glorious displays of Divine love and power, the presence of the Holy Spirit, all plead with us to be up and doing, and to be earnest in prayer, that "the hope of Israel may not be to us as a wayfaring man, that turneth aside to tarry for a night," but that He may delight to dwell with his people, until Zion shall become the joy and praise of the whole earth.

3. Removals by Death.

But strains of chastened grief and sadness mingle with the swelling notes of gratitude. We are impressively reminded that this is not our home, and the Church on earth is but the preparation for the Church triumphant in heaven. Death has made sad havoc within our bounds during the year. Seven hundred and ninety-four of the members of our communion have been removed from their labors and conflicts, to the rest of the redeemed. And while this large deduction has been made from our membership, including an unusual number of elders and efficient supporters of the churches, fearful breaches have also been made in the ranks of the ministry. From our Theological School the learned and gifted Dr. John Ludlow has passed away. From the active ministry Abraham Polhemus, D.D., a man of noble mould, with a nobler spirit; the venerated John Knox, D.D., a model of Christian wisdom and fidelity, who, after a long and successful ministry, was suddenly called, while yet his eye was undimmed and his natural force unabated. And quite as suddenly, the genial, warm-hearted, untiring, and eminently beloved and useful pastor of the Church in which we are now eonvened, James Scott, D.D.; these, from the scenes of their active labors, have entered into rest; while Robert J. Blair, after years of sickness and suffering, and Dr. Cornelius D. Westbrook, whose name is associated with the activities of a former generation, and Rev. Thomas Romeyn, a man full of the Holy Ghost, having served his generation faithfully for many years, have ceased to be numbered among the living. Monitory voices come to us from the graves of the dead, and whether as ministers, elders, or members, it becomes us to pause in the review of the year, and consider how short our time is.

4. Recommendations.

Your Committee have had occasion to observe, with regret, that the recommendations of last General Synod, to the Classes, and Particular Synods, and Stated Clerks, in relation to their reports and statistical tables, have been only partially regarded. We therefore recommend the adoption of the following resolutions:

Resolved, That the attention of the several Classes and Particular Synods be called to the resolutions of General Synod on page 154 of Minutes of 1857.

Resolved, That the Stated Clerks of the Particular Synods be requested to prepare, and insert in their printed Minutes, a tabular summary of the statistical tables of their respective Synods.

Resolved, That this Synod would earnestly invite the attention of pastors and Consistories to the great disproportion in their benefactions, as between our own Boards and foreign objects, and urge upon them the propriety and necessity of turning a larger share of their benevolent contributions into the channels of our own operations.

All of which is respectfully submitted,

A. B. VAN ZANDT, Chairman.

ARTICLE VII.

SYNODICAL REFERENCES.

The Committee on Synodical Minutes reported, and their report was accepted, adopted, and is as follows:

The Committee on Synodical Minutes would respectfully report:

The Minutes of the last General Synod, and of the Extra Session. and of the Particular Synods of New York, Albany, and of Chicago, were placed in our hands, and were carefully examined.

They find nothing in the Minutes of the Particular Synod of New

York to which to direct the attention of this General Synod.

In the Minutes of the Particular Synod of Albany they find, upon page 6, the following reference to General Synod:

The following minute from the Classis of Schoharie was referred to the action of the General Synod:

Mr. Thomas L. Shaeffer, a member of the Reformed Dutch Church. and long an elder in the Church, appeared before Classis and stated his desire to preach the Gospel, while his age precludes the practicability of a regular course of preparatory study. After hearing Mr. Shaeffer's views, and a full exchange of views of the members of Classis on the subject, the following resolution was adopted:

Resolved, That the Classis ask a dispensation of General Synod in behalf of Mr. Thomas L. Shaeffer, from the studies of Hebrew and Greek, and that he may be examined by said Classis for licensure to

preach the Gospel.

From the Particular Synod of Chicago, the following:

The following transactions, found in the Minutes of the Classis of Illinois, deserve the attention of this body. Under the head "Missions and Christian Education:"

Whereas, The education of youth in the higher departments of literature and science seems particularly allied to the interests of religion, and is regarded as closely identified with the prosperity of every branch of the Church; and, whereas, the time seems to have come when it is necessary for the interests of our denomination, that we have an institution of a high order in this state; Therefore,

Resolved, That a committee of five persons be appointed, to take into consideration the necessary steps for securing a Collegiate Institution. under the care of this Classis, and that said committee report progress

at the next meeting of Classis.

The Lemma "Delegates to Synod," brings to the attention of General Synod the expenditure involved in attending the meetings of that

body. The following action was taken:

Whereas, The expense of attending the General Synod is a very serious obstacle to securing an attendance of delegates from this Classis —the cost being about sixty dollars for each delegate—and whereas, the last General Synod made an appropriation for the several Classes in the West, which sum is not sufficient to secure the attendance of a full delegation; Therefore,

Resolved, That this Classis request the General Synod to divide the whole amount appropriated to this Classis among its delegates who shall be in actual attendance on the General Synod, during the continnance of such appropriation, provided that no delegate receive more than the actual expenses of travel.

Under the head "Particularia," we observe that Rev. Aaron Lloyd was nominated as a member of the Board of Superintendents, to represent this Classis.

Your committee recommend that these two last items be referred properly to the General Synod.

A communication was received from citizens of South Bend, Indiana, in regard to establishing a College in that town, and requesting the Synod to take the institution under its care. Rev. W. T. Van Doren appeared in behalf of the friends of the movement. It was

Resolved, That we have heard with interest the statement made upon this floor with reference to an institution of learning, designed to be located at South Bend, and to be under the care of this Synod.

Resolved, That this Synod call the attention of our General Synod to the importance of having instruction given in the German language in the literary institutions of the Church.

Whereas, The General Synod has, years ago, determined to establish a Church Building Fund, which, if carried on effectually, would encourage feeble societies, by assisting them in erecting a church edifice, which now, for the want of such aid, languish, and not unfrequently fall into the hands of other denominations; Therefore,

Resolved, That this Synod request the General Synod to take vigorous action to revive the Church Building Fund, as one of the most important agencies of our Church to extend the borders of our Zion and the kingdom of our Lord.

In the Minutes of the Regular Session of the General Synod, on page 194, the following:

Whereas, The Sacramental Forms contain certain verbal errors, which it is thought desirable to correct:

Resolved, That each Classis be requested to transmit to the next General Synod a list of such changes, if any, as they may desire to have made in those forms.

In the Minutes of the Extra Session, the following:

Resolved, That this Synod request Dr. Bethune to deliver a course of Lectures on Pulpit Eloquence, during the course of the year, to the Classes of the Theological School, and that the details of the arrangement, and the compensation, be committed to a Committee, consisting of Rev. Isaac N. Wyckoff, D.D., E. P. Rogers, D.D., Gustavus Abeel, D.D., W. J. R. Taylor, H. D. Ganse, and the Elders, James W. Beekman and William H. Crosby.

Resolved, That the same Committee take into consideration the expediency and practicability of establishing a Professorship of Sacred Rhetoric in the Theological Seminary, and report on the subject to the

next General Synod.

Whereas, This Synod have been informed that the Library of the late Professor Ludlow contains many works of permanent value to our Theological Seminary, and that these may be secured at a reasonable

price; therefore,

Resolved, That a Committee, consisting of Rev. E. P. Rogers, D.D., William H. Campbell, D.D., William J. R. Taylor, and Elders Theodore Frelinghuysen, James W. Beekman and Maurice E. Viele, be appointed to secure the funds for the purpose, and to purchase such works belonging to the late Professor Ludlow as may be deemed desirable for the Library of the Theological Seminary, and that the Committee report to the next General Synod.

Resolved, That so much of the resolution which was passed by this Synod at Ithaca, concerning the printing of the amended Liturgy, as authorizes the use by the Churches of the amended Forms for Ordination and Church Discipline, be hereby rescinded, as conflicting with the

Constitution.

Resolved, That the forms of the Revised Liturgy which have not been submitted to the Classes, be now sent down to them with the request that they will act upon the same prior to the next stated meeting of the General Synod.

Resolved, That the Stated Clerk of each Classis be requested to send distinct and separate notice of the result of the Classical action on this subject, to the Stated Clerk of this body, as soon as such action shall have been had.

All of which is respectfully submitted,

J. PASCHAL STRONG, Chairman.

Resolved, That so much of the above report as refers to the subject of dispensations be referred to the Committee on the Professorate.

Resolved, That so much as relates to the imparting of instruction in German be referred to the Committee on the Professorate.

Resolved, That so much as relates to the subject of the Church Building Fund be referred to the Committee on Domestic Missions.

CUSTOMS AND USAGES.

Reports were received from certain Classes in relation to verbal alterations in the forms for the administration of the Lord's Supper and Baptism, and also in relation to the forms of the Revised Liturgy, which were sent down to the several Classes by the last Synod, (p. 256,) which were referred to a Committee consisting of Rev. Ransford Wells, D.D., Abraham B. Van Zandt, D.D., Peter Stryker, and the Elders, Richard Walsh, Jacob Duryea.

The Committee reported, and their report was accepted, adopted, and is as follows:

The Committee to whom was referred the papers on the revision of

the Liturgy, beg leave respectfully to report.

The movement to revise and improve the Liturgy of our Church was commenced in 1853. The first report, making great alterations in the Sacramental Forms, and adding several new forms, was presented in 1854, and the whole subject has been freely and at great length discussed at every subsequent meeting of the Synod. The last General Synod passed the following resolution. (See Minutes of General Synod of 1857, page 193.)

The Sacramental Forms being considered as a part of the Constitution, can only be modified or changed by the consent of two-thirds of the Classes. This has not at any time been given. It seems to be the sense of a large majority of the Reformed Dutch Church, that the forms for administering Baptism and the Lord's Supper shall remain in their present state, not only as a memorial of our earlier history, made venerable by its antiquity, but as being sufficiently accurate and complete to subserve the purpose for which they were originally adopted.

To the last reference by the General Synod only sixteen Classes have responded, and six of them are opposed to any change, and have taken no further action on the subject. Three of them wish no change, but suggest one or two verbal corrections in case any change is made.

Two Classes recommend a change in the sentence, "innocently condemned," to read, "he being innocent, was condemned," or "though innocent, was condemned."

Two approve the Revised Liturgy without exception; and three recommend numerous verbal alterations.

Thus it will be seen that only seven of the Classes that have reported to this Synod, are in favor of any revision, and of these only five go beyond a change in one sentence. It is evident, therefore, that the great majority of the Classes are either so indifferent that they have taken no action, or have expressed their opposition to any revision.

Therefore, Resolved, That inasmuch as the revision of the Sacramental Forms has several times been sent down to the Classes for their action, and a large majority have either failed to report, or have re-

ported against any alteration—in the judgment of this Synod, the Church has decided to make no revision.

The last General Synod passed a resolution authorizing the Board of Publication to have printed those forms in the Revised Liturgy which the Synod had not acted upon, and to allow Ministers and Consistories to use them or not as they may choose. Four Classes have endorsed this action, and recommended the adoption of these forms; and four have approved in part, but the great majority have either passed by the subject in silence, or have disapproved of the addition.

The General Synod, at the Extra Session in this city, October, 1857, rescinded the resolutions of the regular session in Ithaca, and sent down to the Classes for their action those forms of the Revised Liturgy which had not been acted upon; the result leaves the question just where it

stood at that time.

A paper from the Rev. Wm. Demarest, suggesting several verbal alterations in the Sacramental Forms, was referred to this Committee; as this is merely a personal communication, it calls for no action by the Synod.

Respectfully submitted,

R. WELLS, Chairman.

Resolved, That it be referred to our Classes to decide in the fall, as to the propriety of changing the words in the form of Administration of the Lord's Supper, "That he was innocently condemned," so as to read as follows: "That he, although innocent, was condemned." And that the Board of Publication, on receiving authentic information that two-thirds of our Classes assent to the change, be authorized, in printing the said form in our Hymn Books, &c., to make the change as aforesaid.

Resolved, That the Stated Clerks of the several Classes be directed to forward forthwith the results of Classical action, to the Stated Clerk of General Synod.

ARTICLE XII.

SCHOOLS AND CHRISTIAN EDUCATION.

The Twenty-sixth Annual Report of the Board of Education was received, read, and referred to the Committee on Education.

The report of the Treasurer of the Board of Education was received, read, and referred to the Committee on Education.

The Nineteenth Annual Report of the Board of Sabbath School Union was received, read, and referred to the Committee on Education.

The Sermon in behalf of Education was preached on the evening of the seventh day of the session, by Rev. William J. R. Taylor, from 1. Samuel, 10:26, "And Saul also went home to Gibeah, and there went with him a band of men whose hearts God had touched."

The Committee on Education reported, and their report was accepted, adopted, and is as follows:

The Committee on Education begleave respectfully to report as follows:

Your Committee have examined with care the Report of the Board of Education. It presents facts, and suggests reflections, which demand the earnest attention of the Church.

From this report we learn that there are about one hundred and twenty-five young men in various stages of preparation for the ministry, at New Brunswick, and at Holland, Michigan. Of these, seventytwo have received aid, in whole or part, from the funds of the Church.

Your Committee rejoice in the fact that there is so large a number of young men in preparation for the ministry. But we are met at once by the statement in the report of the Board of Education, that they have been compelled to borrow more than twenty-six hundred dollars in order to meet their engagements with the young men, while they are in debt to Rutgers College, on behalf of the young men, in the sum of eight hundred and sixty dollars. They are thus left in debt to the amount of thirty-five hundred and ten dollars.

Under these circumstances, the Board has passed a resolution that they will receive no more beneficiaries until supplied with funds.

How long this resolution shall stand on the record of the Board, the Church must determine.

We are sure that no words can overstate the importance of giving to the world an adequate and efficient ministry. The supply even now, with all the aids from the various Boards of Education in different denominations, is most lamentably deficient. Were these sources of supply cut off, the number would certainly be reduced to one-third of what it is now. If we desire to see the world converted to Christ by the preaching of the Gospel, we are shut up to the necessity of educating young men for the ministry, who have not the means of obtaining that education.

Unless we carry forward this department of our operations with an ever-increasing energy and enlargement, every other one of our instrumentalities must languish. Without this arm of our service, we should die out on the home field, and we should have no men for the Western

and the Foreign.

It is not for your Committee to argue this subject. The policy of the Church is settled. But we cannot but express our surprise and sorrow that there are upwards of two hundred Churches in our denomination who have contributed nothing to this cause for at least three years past. Surely every minister ought to be most earnestly desirous to introduce at least one young man into the ministry, who shall perpetuate the influence which he was permitted to begin. It is a blessed thing to be the instrument, in the hand of God, of the conversion of any man; but to introduce a man into the ministry, who shall be the instrument of the conversion of many men, and set in motion an influ-

ence that shall never die, is a blessing and an honor that every minister should covet, and every Christian labor for.

As expressive of the views of your Committee, we suggest the adop-

tion of the following resolutions, viz:

1. Resolved, That every minister and every Church should pray and labor for the honor of leading at least one young man into the ministry of our Lord Jesus Christ.

2. Resolved, That each Church is hereby earnestly exhorted to make

a yearly contribution to the Synod's Board of Education.

The Board has adopted a regulation which requires all the young men who receive aid from the Board, to lodge in the Hertzog Hall, except in cases for which provision is made. Your Committee recommend that Synod give their hearty approbation to this plan.

In view of the necessity of admitting only the right men into the ministry, your Committee recommend the adoption of the following

resolution, viz:

Resolved, That the Classes, the Board of Education, and the Board of Superintendents be instructed to use the utmost care in recommending and admitting young men to the funds of the Church, and to the Theological Seminary.

Your Committee learn with pleasure of the working of the plan adopted last year, which requires the Theological Professors to make a detailed report to the Board of Education of the mental and moral standing of all the young men who receive aid from the Board. In this way a pleasant and full communication is sustained between the Professors and the Board of Education respecting those in whom we all have a deep interest, and for whom we have a high responsibility to God and the Church which they are to serve.

Respecting those students in the Theological Seminary who receive no aid from the Church, your Committee suggest whether a plan somewhat similar to the above could not be adopted, by which the Professors would make a yearly detailed report to the Board of Superintendants respective their standing and superses in the Saminary

ents respecting their standing and progress in the Seminary.

In order to bring this whole subject before the Synod, your Committee recommend the adoption of the following resolution, viz:

Resolved, That the Board of Superintendents be requested to adopt some plan by which the Professors of the Theological Seminary will make a yearly detailed report to the Board of Superintendents of every student in the Seminary; and that they be authorized to have blank reports prepared and printed for this purpose.

HOLLAND ACADEMY.

The Holland Academy, we are glad to learn, is in a flourishing condition. The Academy building is not yet finished; a part only is in a condition to be used. There are now forty-two pupils receiving their education in this Institution. Of these, twenty-two are preparing for the ministry. These Holland brethren are now educating nineteen young men for the ministry, for whom they have raised the sum of twenty-one hundred and eighty dollars. This large sum has been given

by these brethren out of much poverty, and by much self-denial. Their example is surely an encouragement, and a rebuke to their more favored brethren in the Church.

In view of the commanding importance of this Institution to the growth of our Church in the West, your Committee recommend the adoption of the following resolution:

Resolved, That any effort that may be made to complete and furnish the Holland Academy, so that it may accomplish the full measure of its usefulness, be commended to the earnest sympathy and liberality of the Churches.

PAROCHIAL SCHOOLS.

There are sixteen Parochial Schools now receiving aid from the funds appropriated to this purpose. Many of them are in a very prosperous condition, and several report that the special blessing of God has rested upon them, and that a number of scholars has been converted to God. This is precisely in accordance with the expectations that we are encouraged to cherish, by the Word of God. We all need more faith in the conversion of children. That God will convert very young children, if Christian parents and teachers are faithful to Him, the Word of God and the history of his Church warrant us to expect.

Your Committee have learned with great pleasure, that the Board of Publication is about to issue a series of Christian School Books, and would recommend the adoption of the following resolution by the General Synod, viz.:

Resolved, That all the schools of the Church, Parochial and Sabbath, be earnestly recommended to adopt this series of books as a part of their course of instruction.

A communication has been received from the Board of Superintendents, asking whether it was the intention of the General Synod of 1857, in adopting its plan for the conducting of the Educational interests of the Church, to repeal that part of the plan of 1851 which made it the duty of the Board of Superintendents to examine all candidates

for beneficiary aid.

The Committee are of the opinion that the action of 1857 does supersede the necessity of an examination by the Board of Superintendents. To require that the young man be examined by the Board of Superintendents as well as by the Board of Education, might create a delay of nearly a whole year in his reception, as the Board of Superintendents meets only at the close of the year, in May, and a Committee of that Board meets in September. Besides, it seems to be unnecessary, as the candidate is required to be examined, first by the Classis from which he comes, in order to be recommended to the Board of Education, and then by the Board of Education itself. And besides all this, he is under the care and supervision of the Board of Superintendents during the whole period of his course in the Theological Seminary. Should this view meet the approbation of the General Synod, it will sufficiently answer the inquiry of the Board of Superintendents, without the adoption of any further action.

ENDOWED SCHOLARSHIPS.

A list of endowed scholarships has been referred to your Committee. From this list it appears that there are nineteen scholarships now productive. Each one does not fully sustain a candidate for the ministry; the whole nineteen will support about fifteen young men. The Van Benschoten Bequest will sustain eight, and the Knox Fund not quite one. The funds contributed to the Board of Education during the past year (about \$6,000,) will sustain forty young men. The whole number which our present resources will supply is only about sixty-three—and these scattered through all the years of their preparation. At the utmost, this would give us not more than nine young men yearly, on an average, to enter upon the actual work of the ministry. We can do more, and we ought to do far more than this.

CORRESPONDING SECRETARY.

In view of the earnest and laborious efforts of the Corresponding Secretary of the Board of Education, and the blessing of God which has crowned his endeavors, your Committee think it right that the Synod should, in this formal manner, pass the following resolution, viz:

Resolved, That the General Synod devoutly recognize the goodness of God in the blessing which he has conferred upon the Corresponding Secretary in his efforts to advance the cause of Christian Education, and that this Synod does hereby cordially commend the Secretary to all the pastors and churches, with their earnest approval of his past labors.

SABBATH SCHOOLS.

The report of the Board of Sabbath School Union has been referred to your Committee. The schools are reported as in a prosperous condition. The report states, that during the past year fifty-six teachers and fifty-three scholars have united with the Church.

Your Committee gratefully understand that the Board is endeavoring to enlarge its usefulness, and at the same time carry out the great original purpose of the Sunday School by the establishment of schools in destitute neighborhoods in New York and its vicinity. From many of these, as the nucleus, may yet arise the Church of God with all its ordinances. In this manner the Board would be doing its true, missionary work.

The same plan may be effectually put into operation in neighborhoods in the West. From these would grow up, in many instances, Missionary Churches. In this way the Board of Sunday School Union may be expected to be the forerunner of the Board of Domestic Missions, and do its preparatory work in the most effectual manner. We would suggest whether the Board might not so enlarge its field of operations as to do something in the way of helping the schools established by our Foreign Missions.

The Board has elected the Rev. R. B. Campfield as its Corresponding Secretary. A new era of usefulness, the Board thinks, is now before

them. Mr. Campfield has served the American Sunday School Union for a period of nearly twenty-five years. His long experience there will eminently fit him for the work to which he has now been called by your own Board. Your Committee recommend the adoption of the following resolution, viz:

Resolved, That the General Synod commend the new Secretary of the Board of Sunday School Union to the fraternal regard and hearty co-operation of the Church.

The report of the Treasurer of the Board of Education, with the endorsement of the Auditing Committee, has been referred to your Committee. Also, an account of the Education Fund. These papers

require no further action.

The papers submitted to your Committee relate to two of the grandest interests of the Church. They cover the whole ground of Christian instruction for the young, and the furnishing of the Church with an adequate supply of ministers of the gospel. These two interests lie at the very foundation of all our operations. To train the children of the Church for Christ; to gather the poor and neglected children under Sabbath influences and instruction; to take by the hand the young man who feels that Christ has called him to preach the gospel; these are the profound interests that have a first claim upon our regards. Faithfulness here, and success with the blessing of God, will give new life, power, and development to all the plans and movements of the Church. Success in these will clothe the Church with her richest beauty and crown her with a glorious diadem. In these departments of effort the Church owes to Christ her noblest endeavors. And all efforts on other lines of labor, without the faithful prosecution of these, must and will be abortive. Your Committee join with the utmost unanimity and heartiness in commending these primary and fundamental interests to the sympathies, the prayers, and the zeal of the Church.

All of which is respectfully submitted,

WM. W. HALLOWAY, Chairman.

So much of the above report as refers to the regulation of the Board of Education, which requires the beneficiaries to lodge in the Hertzog Hall, was referred to a Special Committee, to examine into the character of the board which is furnished to the students. The Committee was appointed, and are as follows: Rev. A. B. Van Zandt, Joseph A. Collier, and the Elder, Henry Bergen. The Committee reported, and their report was accepted, unanimously adopted, and is as follows:

The Committee to whom was referred so much of the report of the Committee on Education as refers to the requirement of the Board of Education, that its beneficiaries should board in Hertzog Hall, would respectfully report:

That after such inquiries as the circumstances would permit, they recommend the adoption of the report of the Committee on Education, to wit, that the Synod approve the action of the Board in this matter

Your Committee would further recommend the following resolution: Resolved, That Synod express its full confidence in the Theological Faculty, and in their management of the Hall, and highly deprecate the introduction on the floor of Synod of any matters pertaining to its management.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Sabbath School Union whose term of service has expired. On counting the ballots, it appeared that the following were elected: Rev. Charles S. Hageman, J. A. Todd, A. R. Van Nest, Thomas C. Strong, Anthony Elmendorf, Enoch Van Aken, and Messrs. Bauman, Lowe, E. S. Potter, Gilbert H. Van Mater, John Skillman, William Bogart, and Jeremiah Johnson, Jr. Rev. William H. Ten Eyek was elected to fill the unexpired term of Rev. John Knox, D.D.

The Committee on Nominations having reported, Synod proceeded to fill the vacancies of those in the Board of Education whose term of service has expired. On counting the ballots, it appeared that the following were elected: Rev. S. B. How, D.D., W. R. Gordon, D.D., N. E. Smith, and Messrs. B. Livingston Kip, Peter S. Duryee, Jeremiah Lambert, Theodore Frelinghuysen, and John S. Woodward.

The Committee on Nominations having reported double the number of persons from whom to elect an individual to preach the Sermon on Education, Synod proceeded to the election, when it appeared that Rev. William H. Campbell, D.D., was chosen *Primarius*, and Rev. Oscar H. Gregory, D.D., *Secundus*.

Whereas, The General Synod deeply feels the importance of calling the attention of the Church to the religious training of her children; therefore,

Resolved, That the ministers of all our Churches be requested to preach to their congregations on the fourth Lord's day of February, upon the importance and means of the religious training of the young, especially within the family, and that the same Sabbath be observed as a day of special prayer for the conversion of the children of the Church.

Resolved, That all the pastors and Churches in connection with this Synod are hereby earnestly requested to observe the last Thursday in February as a day of special prayer for Colleges and Seminaries of learning, and that the Classes take measures to secure this object.

Synod proceeded to fill the places of those in the Board of Superintendents of the Theological Seminary whose term of service had expired. Nominations were received from the *Classes* of Bergen, Geneva, Saratoga, Illinois, Monmouth, and Schoharie, which were confirmed. It was referred to the Committee on Nominations to report double the number of persons from whom to choose members for those Classes who have not nominated. The Committee reported, and the election took place accordingly.

The following are the persons chosen to fill the vacancies in the Board of Superintendents: Rev. Henry M. Scudder, M.D., David H. Riddle, D.D., John L. See, Oscar H. Gregory, D.D., Aaron Lloyd, Ralph Willis, John H. Pitcher, D. McL. Quackenbush, Victor M. Hulburt, Martin V. Schoonmaker, and William G. See.

The Committee appointed at the Extra Session of the Synod, held October, 1857, (page 260,) to secure the services of Rev. George W. Bethune, D.D., to deliver a course of Lectures on Pulpit Eloquence to the classes of the Theological School, reported, and their report was accepted, adopted, and is as follows:

The Committee appointed at the last General Synod to arrange for the delivery of a course of Lectures on Sacred Rhetoric and Pulpit Oratory, at the Theological Seminary, by the Rev. Geo. W. Bethune, D.D., respectfully report:

That they were able to make an arrangement with Dr. Bethune, to spend one day in each week with the students in the Seminary, and deliver lectures on the above subjects. The report of Dr. Bethune, himself, hereto appended, will give the Synod full information as to the details of the course. The Committee would only add, that the united testimony of Professors and Students to the great value of the labors of their distinguished teacher, is complete and satisfactory, and confirms us in the opinion that the best interests of the Seminary would be greatly promoted by an arrangement by which permanent instruction in these branches could be afforded to the students. The subject of a fourth Professorship, to be devoted to this object, is one which ought to command the attention of the Synod.

The Committee agreed to pay to Dr. Bethune, for his services, the sum of \$700 and his traveling expenses, which amount to \$30. This sum, small as it is, the Committee are sorry to say, has not yet been paid. It was to have been raised by the efforts of the members of the Committee, and their report is as follows:

Rev. Dr. Wyckoff has raised	\$175	00
	150	
Rev. E. P. Rogers "		00
W. H. Crosby, Esq., "	48	90
Total	\$498	90

Leaving a balance yet to be raised of \$231 10. Three of the Committee have done nothing.

All which is respectfully submitted,

E. P. ROGERS, Chairman pro tem.

The Rev. Dr. Wyckoff, Chairman of Committee of General Synod, on a Course of Lectures, δc., δc.

MY DEAR BROTHER:

I have the honor to report, that I yesterday ended my efforts to discharge the duties assigned me by you. I began them early in November last, very shortly after receiving your final orders. Monday was the day of the week chosen for my visit to New Brunswick, because it was preferred by the Professors and Students; and also because I could

spare no other from my duties at home.

I have failed to meet the classes four times; once, because of a previous engagement, which I told you of on accepting the appointment; and three times in consequence of being unable to speak, from a heavy cold. It would be impossible for me to describe in detail the method which I have pursued. In general, I determined to devote my main endeavors to teaching the delivery of sermons with the conduct of public worship. After an introductory lecture, I read, at proper intervals, five others to the assembled classes on—1, Utterance; 2, Articulation; 3, Intonation; 4, Emphasis; 5, Gesture. Besides these, I gave extemporaneous, though not unpremeditated advices, to the several classes on various subjects intimately connected with the public service of the Church; and also spent much time in criticising the reading of the students in Scripture and hymns. For this purpose, after the first few weeks, I met the students in the Second Church, its use having been kindly accorded to us. This allowed the student to ascend the pulpit and exercise his voice in a larger audience chamber. The Senior Class received, for obvious reasons, the largest share of my attention. Middle and the Junior Classes I taught at first separately, but found it afterwards more convenient and profitable to unite them. I rarely devoted less time than about three hours to my work on each day of my duty.

The work being new to me, and as I had never had any experience in teaching anything to anybody, except as a pastor, I fear that my attempts were not a little awkward. Experiment was necessary to my practice, by which it may very well be that the young men lost what they might have gained from one of more fitness than myself. I can

only say, that, relying on the aid of the Master of Assemblies, I have

done the best that I could, which has not been much.

My purpose and endeavor have been not to make actors or mere orators of the young men, but honest, natural, distinct and impressive preachers of the true Gospel, believing that any artifice or merely external performances would be readily detected, and disgust their hearers. For this reason, I ignored the popular systems of physical rhetoric, and sought to show what the dictates of Nature and Providence are. I cannot flatter myself that my course, in this respect, has been as imposing as a more pretentious method would have been, but think that it was the right one; in which opinion I am sustained by the high authority of Archbishop Whateley, though I am ashamed to say that I was ignorant of his opinion when I planned my method.

It gives me lively satisfaction to say that my intercourse with the students has been very pleasant, and that they have my sincere gratitude for the manner in which they received my anxious services. I am also under deep obligations to the reverend Professors for the kind countenance and most Christian sympathy which they afforded me as an unworthy partner in their toils, notwithstanding the comparative humbleness of the share given me. I must also add, that their unwearied hospitality has diminished the expenses of my work. "These will

be covered by thirty dollars.

Owing to the arrangement of the railroad trains, from ten to eleven hours have been required for each visit to New Brunswick made by me. This has been a great expenditure of time for one pressed by other cares, as I have been.

I trust that your kindness will pardon the defects of my service, and that you will add your prayers to mine for the blessing, without which

all our works are dead.

Your servant in the Lord,

GEO. W. BETHUNE.

BROOKLYN, May 4th, 1858.

Resolved, That the whole subject be recommitted to the same Committee, with powers to raise the deficiency in the funds needed to compensate Rev. Dr. Bethune; and also, that they be empowered to consider further the expediency and practicability of establishing a Professorship of Sacred Rhetoric in the Theological Seminary.

The Committee appointed to secure funds for the purchase of a portion of the Library of the late Professor Ludlow, reported, and their report was accepted, adopted, and is as follows:

The Committee appointed by the last Synod to purchase, for the use of the Theological Seminary at New Brunswick, the Library of the late Dr. Ludlow, beg leave to report:

They have attended to the duty assigned them, and through the Rev. W. H. Campbell, D.D., who has rendered valuable service both in se-

lecting books and making collections, a selection has been made of such works as will make a most valuable addition to the Library of the Seminary. These books have been purchased for the sum of \$600, and it is believed that the same amount could not have been invested to a better purpose.

To raise this sum of \$600, the Committee have labored in the use of personal solicitation, and by circulars addressed to the Churches, and have succeeded in realizing, in eash and reliable pledges, the whole

amount. It has been contributed from the following sources:

The Committee on the Professorate reported, and their report was accepted, adopted, and is as follows:

The Committee on the Professorate would respectfully report:

I. The Board of Corporation call the attention of Synod to the deficiency annually occurring in the Synodical Fund, and urge the importance of taking proper measures to prevent it. Your Committee are informed that the necessary expenses of the Synod are from \$800 to \$1000 annually more than the income of the moneys invested. A Committee was appointed by the General Synod in 1856, and continued at the last meeting of the Synod, to secure additional funds for investment, so as to make the income of the Synod equal to the yearly expenditure. No report, as far as your Committee are aware of, has been received from this committee. Such an annual draft upon the Synod must in the end produce embarrassment, and, if not arrested, involve the most serious consequences. To enable the Board to pay the salaries of the Theological Professors, and to meet the incidental expenses of the General Synod, will require an addition to our Professoral

Fund of about \$15,000. As this is a subject in which not only the whole Church is interested, but which lies at the foundation of every interest in the Church, your Committee would recommend that an early and simultaneous effort be made throughout the whole Church, to raise the required amount. The great Head of the Church, who is so benignly looking down upon our Zion and raising up spiritual helpers, may, through the increasing faith of his people, also furnish the gold for the service of the temple. It cannot be for a moment believed, that the Church will suffer those foundations of sacred learning, which were laid with so many sacrifices and so many prayers, to be undermined, for the comparatively small amount that would be necessary to give them permanent efficiency and stability. Your Committee would call attention to the fact, that the expenses of the Board of Superintendents are paid out of the income of the Professoral Fund; these funds having been expressly given for one purpose, should not be used for any other, especially at a time when they are insufficient to meet the demands for which they were created.

Resolved, That until permanent funds can be procured, the amount necessary for the contingent expenses of each year shall be apportioned, by the Treasurer and Stated Clerk of General Synod, among the several Classes, and that it shall be the duty of each Classis to arrange for the collection of the same by its Questor at its stated Fall or Spring Session, and to see that the amount so collected shall be punctually paid to the Treasurer of General Synod.

Your Committee recommend the following resolutions:

Resolved, That all our Churches be requested to make special efforts on or before the first day of March next, with the view and purpose of adding at least \$15,000 to the permanent fund of General Synod.

Resolved, That Rev. Thomas De Witt, D.D., Wm. B. Crosby, James Suydam, Robert H. Pruyn, C. E. Spangler, James W. Beekman, Fred. J. Hosford, Edward S. Brayton, Rev. E. P. Rogers, D.D., Rev. W. J. R. Taylor, Richard V. DeWitt, and Maurice E. Viele be a Committee to have a circular prepared as soon as practicable, and sent, at the expense of the Board of Corporation, to all of our Churches, containing a copy of the resolution of Synod recommending the collection, and an earnest request that this matter have early attention; and should there be any deficiency thereafter, that the said committee be requested to take such steps as they deem best to accomplish the matter with the least possible delay.

Resolved, That in view of the present state of the funds, and until the condition of these funds be permanently improved, the expenses of the members of the Board of Superintendents be paid by their respective Classes, and not by the Treasurer of the Board of Corporation as

heretofore.

The Board of Direction speak of the decease of their late associate, Rev. John Knox, D.D., in language of the deepest sorrow. He was for many years their wise counsellor, their faithful helper, and their beloved brother in the Lord. But in the deep utterances of their

hearts they speak only the feelings and sentiments of the Church, at whose altar he so long considered it a blessed privilege to minister. They who were permitted to meet him in the family circle, in his rounds of pastoral duty, to hear his voice in the Sanctuary as he proclaimed the everlasting Gospel, or who listened to his words of wisdom in the councils of the Church, will long bless God for what they have seen and They will remember his manly and dignified appearance, his great simplicity of character, his large heart full of affection and sympathy for his toiling brethren in the ministry, his vigorous and welltrained mind, his wisdom in council, his earnest yet unaffected piety, his abundant labors, and more than all the great blessing which God has conferred upon the Church, in all her interests, through his instru-There was scarcely any great work begun or ended in the Church, in which his heart and hand were not engaged. He rests from his labors, and joyously participates in the glories of his heavenly Father's house.

While death has removed from the service of the Board one faithful and tried helper, another member, who for so many years had stood by his side in the service of the Church, and waited on his ministrations, desires his trust henceforth (in his own language) to be committed to more vigorous hands.

A communication from Abraham Van Nest, Esq., declining a reelection as President of the Board of Direction, has been placed in our hands. Your Committee take this occasion to express their high sense of the services he has rendered during the long course of sixteen years, in which he has served the Church as President of this Board; of the untiring energy and devotion with which he has ever given himself to the service of the Church, and the many sacrifices which he has made to advance her progress and promote her interests. While they regret that he has felt constrained to decline a re-election to the position of responsibility and usefulness which he has so long occupied, they would render gratitude to God that the period of his active life has been prolonged, that he might for so many years unite his labors with his prayers for the prosperity of our Zion. They would rejoice that his sympathy for the Church still lives, and that his prayers still ascend in her behalf. And they would fervently pray that his years may yet be lengthened in the land of the living, and his soul still strengthened by the strength of Israel's God, till, when life's last change shall come, he shall triumph in the faith of that Redeemer to whom he has devoted his life.

Your Committee, therefore, recommend the following resolution:

Resolved, That the request of Mr. Van Nest be granted, and that the Committee on Nominations be directed to act accordingly.

A communication from Professor Woodbridge states, that, owing to the condition in which he found the West wing of Rutgers College, he deemed it necessary to have certain repairs made before he could occupy it. Accompanying his communication are the bills and vouchers for the payment of the same, amounting in all to \$56, for which he asks to be reimbursed by the Synod.

Your Committee think that this was a labor which ought not to have been laid on the Professor. When small items of repairs are required to be made to the property of the Synod under the occupancy of their Professors, they should not be compelled to ask for the payment of each item at the doors of the General Synod, or quietly submit to bear the burden themselves. No interests could suffer by giving the Board of Corporation power to authorize and pay for such repairs, especially when confined within a limited amount.

The following resolutions are proposed for the action of the Synod:

Resolved, That the Treasurer of the Board of Corporation be authorized to pay to Rev. Prof. Woodbridge \$56, the amount paid by him

for repairs to the West wing of Rutgers College.

Resolved, That hereafter the Board of Direction of the Corporation be authorized to make such repairs to the wings of Rutgers College as they may deem necessary for the comfort and convenience of the occupants, and at their request, and pay the expenses of the same from the funds of the General Synod.

With respect to the request of the Synod of Chicago, that teachers of the German language be employed in our literary institutions, your Committee do not see the way clear to propose any action to the Synod.

A communication has been received from the Board of Superintendents, asking that measures may be initiated by which the claims of the ministry may be urged upon the attention of our pious youth. Your Committee, though feeling the importance of the subject, regard the

matter as already disposed of by the Board of Education.

In view of the large amount of business usually referred to this Committee, we would recommend the appointment of a new Standing Committee of General Synod, to be called the Committee on the Board of Direction, to which all the papers coming from or through that Board be referred, and all papers which have reference to any action from that Board; and we further recommend that the said Committee, if not inconsistent with the rules of Synod, be placed at the head of the list of Standing Committees.

The Committee, in view of the importance of the trust and the labor connected with the office of the Treasurer of General Synod, recom-

mend the following resolution:

Resolved, That the salary of the Treasurer of General Synod hereafter be six hundred dollars—one hundred and fifty dollars of which is for the administration of the Widows' Fund.

II. The Van Benschoten and Knox Funds.—From the report of the Treasurer of Rutgers College, it appears that sixteen young men have received aid from the first named fund, either for the whole or a part of the year, at the rate of \$150 per annum. The unappropriated balance at the commencement of the year was \$1,229 77, and the amount of interest since received amounts to \$1,281 81, making a total of resources for the year, \$2,511 58; while the disbursements, as already referred to, amount to \$2,687 50, leaving a balance due the Treasurer of

Rutgers College of \$175 92. It further appears, that there is still un-

paid and past due of interest on the said fund \$306.

From the Knox Fund no student has received aid for several years past, while there remains on hand, unappropriated, a balance of \$432 11.

The Committee recommend as follows:

Resolved, That it be recommended to the Trustees of Rutgers College to take immediate measures to collect the arrearages of interest due on the Van Benschoten Fund, and in all cases to secure the payment of accruing interest as it becomes due.

Resolved, That the said Trustees be requested to select from among the beneficiaries of the Board of Education suitable persons to enjoy the benefit of the unappropriated income of the Knox Fund on hand.

III. Theological Seminary.—From the report of the Board of Superintendents, it appears that fifty-seven young men have been enjoying the benefits of the institution preparatory to the work of the ministry during the past year. This, your Committee believe, is a much larger number than has ever before been in attendance. Two, however, have withdrawn from the institution; one for ill health, and the other for reasons not stated. Two have been compelled to suspend their studies for a time on account of sickness, but are expected to return next September. Thirteen young men of the Senior Class have received professoral certificates, and have been licensed to preach the

Gospel.

The subject of preaching by students of Theology has been brought to the attention of your Committee by resolutions of the Classes of Bergen and North Long Island. They both ask a modification of the resolutions of the last Synod on this subject; while the penalty for the violation of the rule is so severe that it is not likely to be enforced, the rule itself becomes a dead letter. Your Committee freely grant that such a rule of General Synod ought to be obeyed without a penalty. But the privilege of preaching by the students of Theology has been so long enjoyed, not only by the students, but by the pastors who have been relieved by their services, that to the minds of many it appears as a right of which they ought not to be deprived. The practice of the students of neighboring institutions goes so far to strengthen this idea, that it seems impossible to enforce any rule that would entirely take away the liberty of the students to deliver their discourses in public assemblies. While your Committee feel that the General Synod has no right under the Constitution to license any one to preach the Gospel, yet under the circumstances of the case, and believing that an imperfect rule well regulated and enforced is preferable to a perfect one that is not likely to be earried into practice, they submit for the action of the Synod the following:

Resolved, That no student of Theology in our Seminary be allowed to preach or lecture in any of our churches and congregations, except that the students of the Senior Class be allowed to deliver their own discourses, under the direction of one of the Professors of Theology,

with the understanding that this direction is to extend to the time when, the place where, and the discourse to be delivered; and except further, that students of the Senior Class be allowed the same privileges in the churches of which they are members, under the direction of their own pastor—the direction to extend as in the case before mentioned.

Resolved, That the Board of Superintendents, at their annual meeting, inquire of each member of the different classes whether he has conformed to the above resolution, and embody in their report to this Synod the result of their inquiries, with the names of any that have exceeded the rule.

Resolved, That the Professors of Theology be requested to discourage all preaching of students of Theology previous to their licensure.

Resolved, That the above resolutions are not intended to abridge the liberty or interfere with the duties of the students as private members of the Church and followers of the Lord Jesus.

IV.—Dispensations.

1. Matthew Brown Riddle applies for a dispensation enabling him to enter the Senior Class of our Theological Seminary. A letter from his father, Rev. Dr. Riddle, of Jersey City, states that the applicant is at present Adjunct Professor of Greek in Jefferson College, and has pursued his theological studies for two full years in the Western Theological Seminary of the Presbyterian Church at Alleghany City, Pa. In this case there is no shortening of the time of study asked for, but simply a request to be allowed for study that has been already performed. Your Committee take pleasure in recommending that his request be granted, and that upon presenting to our Theological Professors a certificate of two years' study in the Western Theological Seminary of the Presbyterian Church, he be permitted to enter the Senior Class in full standing, and be examined with his class for a professoral certificate.

2. Philip N. Berry, a student of the Union Theological Seminary of New York City, applies for a dispensation to allow him to prosecute the remainder of his course at New Brunswick. He has passed through his first year. In this case, also, the full course is contemplated, and your Committee cheerfully recommend that his request be granted, on his presenting a certificate of one year's study in the Union Theologi-

cal Seminary of New York City.

3. Dr. Henry Ray Lott asks a dispensation from the studies of the Junior year of the Theological Seminary. Having a regular medical education, he is represented by the Theological Professors as familiar with the Greek and Latin Classics, and as having made fine attainments in Hebrew; and, with the concurrence of the said Professors, has passed the Middle year in our Seminary. They strongly recommend him for a dispensation, considering his attainments to be such as would fully justify a departure from the rule which requires a full course of study. Your Committee recommend that his request be granted.

4. Charles Collins, Jr., of the Classis of Philadelphia, asks a dispensation from the rule which requires a knowledge of the Greek and He-

brew languages, as well as from the whole course of studies prescribed by the Constitution, as preparatory to the ministry. Mr. Collins is most highly recommended by the brethren Berg and Taylor, of Philadelphia, as a man whose talents, acquirements, and devotion to the Master's service give good promise of usefulness in the work of the ministry. Mr. Collins has appeared personally before us, and has expressed to us his earnest desire to labor in the Gospel work. Your Committee regard this as one of those extraordinary cases in which the rules of the Church may be safely dispensed with, so far as to allow him to examination for licensure; making his ordination to depend upon the trial of his gifts and the proof of his ministry.

Resolved, That the case of Mr. Collins be referred to the Classis of Philadelphia, and that his request be granted, provided the Classis shall, on examination, find him qualified to preach the Gospel of the Lord Jesus.

5. Thomas L. Shaffer is recommended by the Classis of Schoharie as a fit person to receive dispensation from the rule which requires a knowledge of Latin, Greek and Hebrew, as well as the whole prescribed course of study, preparatory to the work of the ministry. This case is in some respect similar to the last, except that Mr. Shaffer is more advanced in years. He is recommended by members of his Classis as a man of devoted piety and of excellent gifts, and calculated under the blessing of God to be extensively useful. Your Committee submit the following resolutions in his case:

Resolved, That the case of Mr. Shaffer be referred back to the Classis of Schoharie, and that his request be granted, provided the Classis shall, on examination, find him qualified to preach the Gospel.

Resolved, That the Classis of Schoharie be advised by this Synod not to lay ordaining hands on Mr. Shaffer until such time after his licensure as he shall have made a satisfactory trial of his gifts and a good proof of the usefulness of his ministry.

6. On behalf of Andrew Sawyer, a native Hindoo, an application is made by the Classis of Arcot for such a dispensation of the requirements of the Constitution of our Church as will admit of his ordination to the Gospel ministry. The candidate is represented as in every way qualified for his work, and as having already, as a preacher licensed under another mission, made good proof of his ministry.

While our hearts rejoice in such precious fruit gathered on heathen soils, we are constrained to feel that the request before us embodies a matter of the utmost importance. Our action on this will not be merely for a day or a year, but, as we trust, for ages and generations to come. Assumed as a precedent, it will exert its influence long after those who ask it, as well as those who grant it, shall have passed away. It is our pleasure to refer to the fidelity with which our Church has hitherto maintained her faith once plighted to the Classis of Amsterdam, in instituting and maintaining a three years' course of study as preparatory to the work of the ministry, and the blessing which has followed this keeping of her covenant.

But let us look at the case of the mother over her tender, helpless child. That the small number of people in this country who had left their homes across the mighty waters, and settled alone in a strange land, and who were dependent for the Word of life on those who could speak their own tongue—that in these circumstances the stringent Ecclesiastical regulations of the Fatherland should stand between them and those who were able and willing to break to them the bread of life, would seem to be well nigh oppression. But our American Church blesses God to this day that the ancient Classis refused to yield her supremacy, till security was given for the proper training of our ministry.

This Classis was not acting for the few emigrants then on these shores; they were acting for the future American Zion, for the Reformed Dutch Church of our own time, and of all time to come—for the Classis of Arcot, and for the noble band of brothers, who stand up as the members of that Classis—for the brethren in the land of Sinnim, and the future Classis of Amoy, and for all the Churches in Christ Jesus that shall be gathered by those two bands of faithful brethren—till, if our prayers are heard in Heaven, the precious Gospel seed which they are now sowing shall, in its successive buddings and blossomings, be by the Divine Spirit wafted onward and outward from these centres of Heavenly influence—till their outer lines shall meet each other, encircle a heritage for God more extensive and more fruitful than our own beloved Zion.

Here then we stand, between the faithful past and the hopeful fu-With joy and gladness we learn that a native Hindoo helper is raised up to bear the vessels of the Lord. His case has been fully presented before the Synod; and while there may not be a single heart that would deny ordaining hands to be laid upon his head, yet we may not so well understand the character of the next applicant. The Classis of Arcot desires not only that the dispensation be granted in the present case, but a general dispensation that will cover all similar cases. might be willing to grant with all gladness to the noble and courageous brethren of the Arcot Mission all that they desire, if we felt that they were acting for themselves. But when we call to mind death's triumphs over God's living host, we are constrained to hesitate. Our legislation in the case of this Mission will have to be followed by the same course in other Missions. If in this case we go too far, we never can recede; but if we stop short of the proper action, the defect can at any time be remedied. The right to license preachers, and that without the presence of a deputatus, stands on the ground of that necessity which knows no The Synod has no power to dispense with it, but from the necessity of the case must overlook, and hold the rule which requires it in abeyance till the time come when it can be fully enforced.

The matter of ordination is a different case. The licentiate, by the Constitution, has no vote in the Classis; not so with the ordained minister; and the native Hindoo element in the Classis might, by an unforeseen Providence, gain the supremacy before it was capable of properly exercising it. Besides, your Committee cannot see that in the

matter of ordination any great counterbalancing hardship would ensue to the Mission, or to the candidate himself, if, in each case as it may occur, there should be sent up to this Synod his distinct, special qualifications, his progress in the knowledge of Divine truth, and all the other facts, which would go to show the propriety of the Synod's action, as we have in the case before us. In less than a score of months at most, the application might be made and the response of the Synod received back again. This is no greater hardship than is laid on our own young men, who have from a three to seven years' view of the goal before them. In the meantime the candidate need not be idle. He can be active under his license, in preaching the Gospel, and in all other duties of mission except the administration of the sacraments.

Besides, your Committee gravely doubt the right of this Synod to delegate its authority to anybody, however trustworthy, to dispense with the requirements of the Constitution, in admitting candidates to the sacred ministry. The Synod can exercise this power only with respect to persons brought individually before them. If what the Classis of Arcot ask for were in every respect proper to be granted, your Com-

mittee believe that the Synod have no power.

Your Committee, therefore, recommend the following resolution:

Resolved, That a dispensation be granted to Andrew Sawyer from the particular course of study prescribed by the Constitution, as preparatory to the exercise of the office of the ministry, and that the Classis of Arcot have power to ordain him to the work of the ministry.

6. Jacob Chamberlain, Jr., of the Theological Seminary, asks for a dispensation of four months from the prescribed term of study, that he may be enabled to attend a course of medical lectures preparatory to his going as a missionary to the Heathen. The Committee recommend that his request be granted.

All of which is respectfully submitted,

WM. REILEY, Chairman.

MISSIONS.

The Twenty-sixth Annual Report of the Board of Domestic Missions was received, read, and referred to the Committee on Domestic Missions.

The report of the Treasurer of the Board of Domestic Missions was received, and referred to the Committee on Domestic Missions.

The sermon in behalf of Domestic Missions was preached on the evening of the second day of the session, by the Rev. J. Mason Ferris, from Acts. 28:15, last clause—"He thanked God and took courage."

The Committee on Domestic Missions reported, and their report was accepted, adopted, and is as follows:

The Committee on Domestic Missions beg leave respectfully to report, That they have examined the various documents placed in their hands with great interest and care. They are impressed profoundly with the importance of the work committed to the Board, and with the discouragements and difficulties attending its execution; and as deeply with the amount accomplished under the circumstances. The Committee are happy to find, from the report of the New York City Missionary Society, that efficient aid has been rendered in the work of evangelization by that organization in a field, the importance of which is not exceeded by any that claims the care and cultivation of the Church. While the country may be simply destitute of the means of grace, a harvest ungathered, whose waving fields invite the sickle of the laborers, it is still not a place where monster vice and ruin are doing their work of demoralization and destruction as organized powers; while it is doubtless true that ignorance and sin and unbelief exist everywhere to an extent that calls for the unwearied and earnest effort of the Church to obey the Master's great command, "Go ye into all the world and preach the Gospel to every creature," it may with especial emphasis be said, "When he beheld the city he wept over it." Your Committee have not had the Treasurer's report of the New York City Missions before them, but, from the tone of the Secretary's report, they would infer that the work undertaken by them had been successfully accomplished. So much, however, we are sorry to say cannot be said of your Board of Domestic Missions. There we find the history of embarrassments, of ineffectual struggles, of diminished resources, of accumulating debt, and of urgent appeals for aid in extending the Redeemer's kingdom and the order and polity of our Church, to which they have not the

means of responding-that cannot but humble every member of this

Synod and of the whole Church.

The subject of Missions—the extension of Christ's kingdom—the dissemination of true evangelical truth, and of a sound and conservative Church polity, must always be matters of primary importance to every well wisher of the cause of Missions. They embody the spirit of the Gos-They are the hope of the Church, and of the world. This, in the abstract, it is not difficult to realize; and when we come to look at the facts—at what has already been accomplished under increasing discouragements, our convictions of its importance are demonstrated. need but to look at the 75 churches and stations aided, the 3,070 families having the Gospel regularly preached to them by the aid afforded by this Board; at the 3,905 members being trained in them; at the 4 new churches erected; at the 622 souls converted during the year; at the 81 Sabbath Schools that have shed their light upon the hearts and lives of 5,102 children, to see that this Board is doing a most precious work for Missions, and for the advancement of His Church; and yet all this goodly heritage—these gardens enclosed, whose spices flow abroad, have drawn out the fostering care and liberality of the Church only to the amount of \$15,338 39.

Your Committee would not employ the language of censure, nor even They would merely state the facts, in themselves suffiof complaint. ciently humiliating. To this we would add these other considerations that God in his goodness has given us honor in the eyes of men; that He has endowed us with a sound and acceptable form of Church government; and with pure and evangelical standards; and with a laborious, faithful, self-denying ministry. We are invited to possess the land. We are looked up to, to occupy places of importance and trust now in preference to those whose religious tenets are less reliable; and more than all this, we have been blessed and enriched beyond all expression with the gracious outpourings of the Spirit. God has given us the joy of harvest. He has opened the windows of Heaven and poured us out blessings, till we are straightened in receiving them. But with all this—and we speak of it with the deepest humiliation—the income of the Board, the gifts of the Church, have steadily fallen off In 1856, it was \$19,168; in 1857, it was for the past 3 years. \$16,950; in 1858, it was \$15,338. From these facts result two very painful consequences, which we place nakedly before the minds of the members of this Synod and of every member of our Church. The first is, that the debt of the Board is steadily increasing until it has reached the sum of \$3,000. The second is, that the Board have been under the necessity of denying all applications from new stations, and of contracting all their operations, thus shutting down the gates of progress and expansion, and allowing many a golden opportunity to pass away forever. Why is this so? Is this right? Has the novelty of new instrumentalities and agencies diverted the benefactions of the Church, or have we forgotten to give liberally in proportion as we have liberally received? And your Committee cannot but ask what portion of this debt of \$3,000, and of this sad contraction in the operations of

the Board, and of these destitute fields that ask in vain for the bread of life—is knocking at the doors of those churches within our bounds that have given nothing to this cause during the year. Your Committee, therefore, recommend the adoption of the following resolutions:

1st. Resolved, That Synod deeply regret that 139 of our churches have, during the past year, made no contribution to the Board of Domestic Missions, and that they affectionately appeal to the piety and Christian liberality of those churches no longer to withhold their aid, though it be but slight, from this essential work of the Church.

2d. Resolved, That to those churches which are withholding their contributions from this and other Boards of the Church, upon the plea of poverty, we earnestly commend the truth, "There is that scattereth and yet increaseth, and there is that which withholdeth more

than is meet, and it tendeth to poverty."

3d. Resolved, While we sympathize with those churches and stations aided, in the struggle they are making—that while they neglect to contribute annually to the Treasury, cannot justly expect to have their appropriations renewed.

Your Committee also find, in the Secretary's report to the Synod, a serious difficulty stated, where Classes request certain appropriations to be made within their bounds, or hold back a corresponding amount from the Board. Your Committee believe that it is a duty, and a high and glorious privilege, to relieve the Board from the pressure of pecuniary embarrassment, and then make it the honored agent of these disbursements. They therefore present the following resolutions:

4th. Resolved, That while we fully recognize the duty of Classes to attend to the interests of religion within their own bounds, we earnestly recommend to all the churches to make the Board of Domestic Missions the almoner of their bounties.

5th. Resolved, While we consider the cause of Domestic Missions as behind no other in magnitude and importance, and have unlimited confidence in the integrity and efficiency of its Board, that we consecrate ourselves anew as Ministers and Elders to advance its interest and prosperity.

All of which is respectfully submitted,

J. WEST, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Domestic Missions whose term of service has expired. On counting the ballots, it appeared that the following were elected: Rev. Isaac Ferris, D.D., Peter Stryker, Paul D. Van Cleef, Elbert S. Porter, D.D., Goyn Talmage, and Messrs. Samuel B. Schieffelin, Mortimer De Motte, and Thomas C. Doremus. The Rev. Abel T. Stewart was elected to fill the vacancy occasioned by the death of Rev. John Knox, D.D.

The Twenty-sixth Annual Report of the Board of Foreign Missions was presented, read, and referred to the Committee on Foreign Missions.

The Report of the Treasurer of the Board of Foreign Missions was received, and referred to the Committee on Foreign Missions.

The Annual Sermon in behalf of Foreign Missions was preached on the evening of the sixth day of the session, by the Rev. Ebenezer P. Rogers, D.D., from 2 Cor. 4:13, last clause—"We also believe, and therefore speak."

The Committee on Foreign Missions reported, and their report was accepted, adopted, and is as follows:

The Committee to whom was referred the report of the Board of Foreign Missions, have had the same under consideration, and beg

leave to present the following report:

The fact that this is the first report which has been made to the General Synod by its Board of Foreign Missions since that Board entered upon a distinct and independent existence, must give additional interest to its details and statements. Under a solemn sense of duty and responsibility to the Great Head of the Church, the Synod at its last regular meeting decided to separate from the A. B. C. F. M., with which most efficient and valuable agency it had been long and happily connected. While this decision was characterized by a very remarkable and unexpected unanimity, and under circumstances which fully warranted the belief that it was in accordance with the leadings of Providence, and the guidance of the Divine Spirit, it was natural that the result should be expected with mingled feelings of hope and fear. The first report of the Board would very naturally be looked for with unusual anxiety, and examined with unwonted interest. It would show whether the Synod had correctly interpreted the voice of Providence, and truly found the way of duty.

That report has been made, and in examining its statements, and summing up the results which it presents, our hearts have been filled with gratitude to God, and we have been inclined to say, "What hath God wrought." It has revealed the pleasing fact that our churches have in a good degree appreciated the responsibility which now rests upon them in relation to the work of Foreign Missions, and have come up nobly to the work of supporting their own Board. simple fact, that in a year characterized by a state of commercial depression unexampled in the history of our country, the contributions of our churches to this cause should have increased almost 331 per cent., is eloquent and impressive in its testimony to the correctness of the views of the last Synod, and affords pleasing assurance that the Church is ready to provide for her own missions on a scale of Christian liberality proportionate to the necessity and importance of the case. We are warranted in the hope that the course of the Dutch Church on heathen ground will, by the blessing of her Head, be hereafter one of increasing and permanent prosperity, usefulness and honor.

We learn from the report of the Board, that the work of connecting the two missions, with the missionaries and mission property, with our Board, has been consummated so far as has yet been practicable,

in a spirit of Christian courtesy and brotherly love, honorable to the character of all the parties concerned, and deeply gratifying to the feelings of the Church.

I. History and Condition of the Missions.

Amoy.—Rev. E. Doty, Rev. J. V. N. Talmage, and Rev. J. Joralemon, Missionaries; Mrs. Talmage and Mrs. Joralemon, Assistant Missionaries.

Church, 1; catechists, 5; places of worship, 2; theological class, 1; parochial school, 1; whole number of communicants, 137; received during the year, 19; received from the first, 157.

Out-Station, Chio-be.—Church, 1; catechists, 2; place of worship, 1; parochial school, 1; received to membership, 4; whole number in

communion, 35.

The brethren at this mission have continued their multiplied labors, and have been faithful in the arduous work committed to their hands, so far as permitted to enjoy the necessary strength. We have, however, been pained to learn that the health of Mrs. Joralemon has of late been increasingly delicate, and that a voyage to Singapore, undertaken by the advice of her physician, proved unavailing for her restoration. The probability now is, that this estimable sister will be obliged to return to this country at an early day.

The sad intelligence of the death of Mrs. Doty has also reached us by late advices. She died of severe and wasting disease, which she bore with true Christian fortitude and patience, on the 28th of February, eighteen days after giving birth to a daughter, leaving her excellent husband and five motherless children to mourn her loss. In view of this afflicting dispensation, the Committee suggest to the Synod the

propriety of adopting the following resolution:

Resolved, That the General Synod has heard with deep sorrow the sad intelligence of the death of Mrs. Doty, at Amoy, on the 28th of February last; that they present their Christian sympathies to their beloved brother in this sad bereavement, and invoke in his behalf and of his motherless children the sustaining presence and grace of that God who doeth all things well.

ARCOT MISSION.

Vellore.—Rev. Henry M. Scudder, M.D., Missionary; Mrs. Henry M. Scudder, Assistant Missionary; catechist and elder, 1; Christian schoolmasters, 3; parochial schools, 3; seminary, 10; pupils, boys 21, girls, 24—45; communicants received, 23; total in communion, 42;

baptized children, 58; catechumens, 18.

A church edifice, neat and commodious, has been completed and dedicated during the year. We have been permitted to welcome to this country, after an absence of fourteen years, the esteemed pastor of this Church, Rev. Henry M. Scudder, and we rejoice in the hope not only that his own health will be restored by his visit, but that he will be made the means of stirring up our Church to a deeper interest in the

work of Missions, and a higher sense of her obligations to raise up and send out additional laborers into those fields, now white with the harvest.

Arcot.—Andrew Sawyer, catechist; Paul, elder; Peter, Christian

schoolmaster; communicants, 10; catechumens, 12.

Chittoor.—Rev. W. W. Scudder, Missionary, (at present in America;) Rev. E. Scudder, in charge. Mrs. Scudder, assistant; Miss Louisa Scudder, assistant; catechist and elder, 1; Christian schoolmaster, 1; communicants added, 6; total in communion, 46; baptized children, 48.

Arnee.—Rev. Jared W. Scudder, Missionary; Mrs. Scudder, Assistant Missionary; catechist and elder, 1; readers, 2; Christian schoolmaster, 1; communicants, 9; school, 1; pupils, 16.

Conoor.—Rev. Jos. Scudder, Missionary; Mrs. Scudder, Assistant Missionary; elders, 2; catechist, 1; Christian schoolmaster, 1; com-

municants, 30; baptized children, 19; school, 1; pupils, 26.

Among the interesting facts presented in the report of the Board, is the statement that the Classis of Arcot have examined for licensure and ordination a Christian native, of whom they speak in high terms as a man of remarkable intelligence and deep piety, and who may be expected to prove a most valuable auxiliary to the missiona-

ries in their important and arduous field.

The Committee have been happy to learn from the report of the Board, that God has inclined the hearts of several of the young men, preparing for the ministry, to devote themselves to the work of Foreign Missions. Three have already been received by the Board, and assigned to their fields of labor: Rev. Alvin Ostrom and Rev. Daniel Rapelje to China, and Rev. Joseph Mayo to India. There is also a candidate for the foreign field at present in the middle class of the Theological Seminary. This intelligence the Committee believe will be very gratifying to the Church, and will doubtless stimulate to increased prayer and effort, to sustain the Board in their wise progressive policy. God in his providence opens wide the door, and raises up men to enter; let not the Church delay or neglect to provide the means to send them; if she does, she is recreant to her vows and obligations, and cannot expect to receive the smile of her Lord and King.

In this connection the Committee would testify to the value of the labors of Rev. W. W. Scudder, in visiting the Churches, attending missionary conventions, and delivering addresses to congregations and Sunday schools. They believe that this has contributed very much to an increased interest among the Churches, and to larger contributions

to the cause.

II. Funds.

From the Treasurer's report, which is a paper drawn up in the most complete and satisfactory manner, we learn that the total amount of funds in the treasury of the Board, during the past year, including a balance on hand at its commencement of \$3,911 74, and a donation of \$2,000 from the American Bible Society, for printing the Scriptures in the Arcot language, is \$21,994 61. The amount paid out is \$20,851 10; amount now on hand is \$1,143 51; due to A. B. C. F. M., is \$2,283 86; due Brown, Brothers & Co., \$800. The contributions from the churches and from individuals in our communion have been \$16,044 43. This is an advance over those of last year of \$3,740 44. When the financial embarrassments of the year are taken into the account, this is a most encouraging increase, and warrants the confident expectation, that in times of ordinary prosperity the treasury of the Board will be amply supplied with funds necessary to carry on its operations on a scale of increasing magnitude and efficiency. From present indications, a large addition of ontlay on the Missions will be called for during the coming year, and it is hoped that our contributions will reach the sum of at least \$23,000. None can question the ability of the Church to furnish this amount, and even more; it remains to be seen whether she will have a corresponding inclination.

The Committee recommend to the Synod the adoption of the follow-

ing resolutions:

Resolved, That the history of our Foreign Missionary operations during the past year, the first of our distinct organization, is such as to demand a tribute of fervent gratitude to the Great Head of the Church, and also should stimulate his people to increased zeal and activity in endeavoring to carry the Gospel of the kingdom to the perishing heathen.

Resolved, That the thanks of this Synod are due to the Board of Foreign Missions, and especially to the Corresponding Secretary and Treasurer, for the ability, fidelity, and economy with which they have managed its affairs during a year of peculiar responsibility, and one which called for special wisdom in the inauguration and prosecution of a new system of operation untried in the previous history of our Church.

Resolved, That it is the duty of all our churches to take a deeper interest in the work of missions, and to make regular contributions to

the funds of the Board.

Resolved, That in carrying on this work, our chief dependence, under God, must be upon the pastors, and that we earnestly and affectionately call upon them to endeavor by precept and example to elevate the standard of Christian duty and liberality among the people in reference to this great cause.

Resolved, That recognizing it as the solemn duty of the Church of Christ, as such, to carry out the great commission of her ascended Lord, we as a Church will endeavor, by God's grace, in the year to come, to do more than we have ever done, to "go into all the world, and preach the gospel to every creature."

In conclusion, the Committee would express the opinion that the Church has great encouragement to go forward with an enlarged zeal in this great and good work. The promises of God are yea, and amen. He has said that the earth shall be filled with His glory. And the Saviour, who gave the great commission under which we act, promised to be with his servants always, even unto the end of the world. The

resources on which we may depend are those of omnipotence. Greater is he that is in us than he that is in the world.

We need only faith—faith in what God has promised, faith in the grand vocation of the Church, faith in the simple Gospel, faith in the ultimate triumphs of the Cross—all things are possible to him that believeth. Strong in this faith, let the Church come nobly up to this work with renewed alacrity and zeal. Let her pray more for our beloved missionaries. Let her seek to add to their numbers and resources. Let her bind her missions closely to her heart, and cherish them, as a mother cherishes the children of her bosom. Let her pour in of her means to the treasury of the Lord, and keep not back her children from this cause. Thus shall she herself be greatly blessed of God at home, and thus made an honored instrument in extending the kingdom of her Redeemer, who is the Lord of glory and the King of saints.

All of which is respectfully submitted, on behalf of the Committee, E. P. ROGERS,

NEWARK, June 7, 1858.

Chairman pro tem.

Resolved, That the Corresponding Secretary of the Board of Foreign Missions be requested to make arrangements for holding a meeting in behalf of Foreign Missions, on the evening of the third day of the Session.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Foreign Missions whose term of service has expired. On counting the ballots, it appeared that the following were chosen: Rev. Thomas De Witt, D.D., D. D. Demarest, D.D., Jeremiah S. Lord, David H. Riddle, D.D., Hugh N. Wilson, D.D., and Messrs. Charles S. Little, Abraham J. Beekman, and Stephen Van Rensselaer.

The Committee on Nominations having reported double the number of persons from whom to elect individuals to preach the Annual Missionary Sermons, the Synod proceeded to the election, when the Rev. Henry M. Scudder, M.D., was chosen *Primarius*, to preach the sermon on Foreign Missions, and the Rev. John De Witt was chosen *Secundus*. The Rev. A. B. Van Zandt, D.D., was chosen *Primarius*, to preach the sermon on behalf of Domestic Missions, and the Rev. Joseph A. Collier, *Secundus*.

ARTICLE XIX.

WIDOWS' FUND.

The Committee on the Widows' Fund reported, and their report was accepted, adopted, and is as follows:

The Committee on the Widows' Fund would respectfully report:

That the Widows' Fund is a very important one, must be self-evident to all those who have before them the almost certain prospect of having to rely on it, or something less reliable, in the hour of need; and they are probably the great majority of our ministerial brethren.

That it is the duty of the Church to make ample provision for the comfortable support of her ministers and their dependents, as well in the time of decrepitude and need, as in that of active service, your Committee think will not be denied by any who believe in the Bible as the Word of God. Yet it would seem that our churches, in reference to such provision, had practically adopted the motto "Make haste slowly!"

The increase of the fund during the past year appears to have been only $\$367.^{50}_{.100}$. Only eleven subscribers during the past year have added their names to the list, making the whole number eighty-nine.

Of these, nine have gone, as we hope, to their glorious reward, and their widows are now receiving various and varying annuities, according to the number of payments made and the capabilities of the Fund;

and four subscribers are personally deriving benefit thereform.

The maximum annuity paid last year was \$140, from which it is plain that annuitants are increasing at a greater ratio than that of subscribers. This fact should arrest the attention of ministers and churches, and should stimulate to greater sacrifice and liberality on the part of each. No church should permit its minister to remain a non-subscriber to the fund merely from inability to do otherwise; and yet there are unquestionably many of our ministers who do not feel, and actually are not able to become subscribers, without subjecting themselves and their families to serious inconvenience and sacrifice, which they ought not to be permitted to bear.

Some of our sister Protestant churches have large funds devoted to the purpose contemplated by our Widows' Fund, and they are sustained principally, if not altogether, by the churches themselves; and there surely should be some method of a permanent character devised, to bring this subject more fully before the minds of our people; and yet your Committee are not prepared to suggest any such method, but

are content to leave it to the wisdom of Synod.

A resolution of the Classis of Bergen, in reference to the "Sustentation Fund," has been put into the hands of your Committee, which is as follows:

Resolved, That the General Synod be respectfully requested to require the several Classes to take action on the "Sustentation Fund," and bring it before the churches as the fund for the relief of disabled ministers and the families of deceased ones."

The Committee recommend the following resolution:

Resolved, That the Classes be requested to bring before the churches the Sustentation Fund for the relief of disabled ministers and families of deceased ministers.

All which is respectfully submitted,

ARTICLE XX.

BOARD OF PUBLICATION.

The Fourth Annual Report of the Board of Publication was received, read, and referred to the Committee on Publication.

The Report of the Treasurer of the Board of Publication was received, and referred to the Committee on Publication.

A copy of each of the Tracts published by the Board during the past year were received, and placed in the hands of the Committee on Publication for examination.

A number of copies of the Tracts, lately issued by the Board of Publication, were received from the Board, and distributed among the members of the Synod.

The Committee on Publication reported, and their report was accepted, amended, adopted, and is as follows:

The Committee on Publication report that the matters referred to them have received as much attention as circumstances would allow, but not as much as their importance demands, and the result is respectfully presented to Synod.

They have had before them a reference from the Classis of Geneva, on the subject of publishing the Minutes of Synod in Low Dutch, for the benefit of our Holland brethren.

Your Committee feel that such a measure is inexpedient.

From their Fourth Annual Report, in the hands of your Committee, accompanied by the report of the Treasurer, it appears that the Board of Publication have, notwithstanding serious embarrassments, prosecuted their work with energy and success.

Their treasury has received, during the past year, \$9,947 07; their expenditures have been \$9,924 51; leaving a balance in favor of the Board of \$22 56. There was on hand at the date of the report stock of the value of \$9,482 89.

Of the amount paid into the Treasury but a very small part has been contributed by the churches; *individual liberality*, and that largely developed among the members of the Board itself, have replenished her treasury, and kept her wheels in successful operation.

In view of this state of things, your Committee recommend the passage of the following resolution:

Resolved, That it be recommended to all our churches to contribute annually toward replenishing the treasury of the Board of Publication.

The Board have deemed it advisable to employ an agent, to visit the churches in furtherance of the important work in which they are engaged. The Rev. John Minor entered upon this agency some three months since, and has thus far met with cheering success. This agency is sustained, not by the funds of the Board, but entirely by individual gifts for that special object.

Your Committee are confident that, through the blessing of God accompanying the labors of this respected brother as he passes through our churches, such an amount of interest will be awakened as shall issue in a large increase of funds for the prosecution of this department of christian enterprise; and they would in connection with these remarks propose the adoption of the following resolution, viz:

Resolved, That this Synod sanction the action of the Board of Publication in the employment of an agent, under the circumstances above stated, and recommend such agent to the co-operation of our ministers and churches.

During the year closing May 1st, 1858, the Board have issued 3 new books; 2 editions of works already published; Revised Liturgy; works in German, 1,047 copies; works in Holland, 1,000 copies; 26 new Tracts; 4 old Tracts; whole number of pages published during the year, 3,043,388—making the publications of the year not only much greater than that of any former year, but actually in advance of all the three previous years.

These statements are certainly highly encouraging, and call for thanks

to God.

They witness, too, for the Board, that they have been diligent in the execution of their trust, and they should receive our cordial thanks.

The publications of the Board during the past year, which have been submitted to the Committee, appear, (so far as we have been able to examine them,) to have been judiciously selected, and to set forth evangelical truth, as constantly held in our communion.

The contract for the publication of our Psalm and Hymn Book expires in the coming year, and order should be taken at the present ses-

sion of Synod for its future issue.

This is, in the judgment of your Committee, a subject of great importance. Our Psalm and Hymn Book should be issued with the greatest care, so that it may be free from typographical errors; it should be printed on good paper, and firmly bound; and, at the same time, it should be sold at cost. The interests of the Church require this. In reference to this subject, your Committee recommend the following resolutions:

Resolved, That the future issuing of our Psalmody be committed to the Board of Publication.

Resolved, That the particular attention of the Board be called to the execution of this important work, especially so far as the paper, type, and binding are concerned.

Resolved, That the Board be directed to furnish our Psalm and

Hymn Book to the public at cost, or as near it as possible.

Resolved, That no edition be issued unaccompanied by the doctrinal standards and liturgy of the Church.

Your Committee are happy to learn that the "Sower and Missionary Recorder" is so well patronized by the churches, and that the necessary increase in its price has not diminished its circulation.

The subjects of Colporturage and Tract distribution are brought to the attention of Synod in the report of the Board. Your Committee appreciate the value of these agencies of usefulness in the Church, and suggest that Synod recommend to the Board to use them to as great an extent as their means will warrant; and also, that our ministers and churches do further efficiently any efforts of the Board in these directions.

At the suggestion of the Board of Publication, your Committee would recommend the following resolution:

Resolved, That it be a standing rule of Synod that a sermon be delivered before Synod, in behalf of the Board of Publication, on the evening of the third day of the session; and that the Synod shall annually appoint a person to preach said sermon, together with a secundus.

The Synod, at its last stated session, directed the Board to secure the translation of certain Minutes of ancient sessions of this Synod, in the Low Dutch tongue, into the English, with a view to their publication. The Board have secured the accomplishment of this work, and in view of this fact the Committee recommend the passage of the following resolution, viz:

Resolved, That the Treasurer of General Synod be directed to pay to the translator, Rev. William Demarest, his bill for such service, when it shall have been audited by the Board of Publication.

All which is respectfully submitted.

ROBERT P. LEE, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Publication whose term of service has expired. On counting the ballots, it appeared that the following were chosen: Rev. George W. Bethune, D.D., T. L. Cuyler, Isaac Ferris, D.D., S. M. Woodbridge, D.D., Wm. J. R. Taylor, and Messrs. James A. Williamson, Peter Duryee, and Richard Ammerman.

In accordance with the recommendation of the Committee on Publication, the Synod appointed Rev. Talbot W. Chambers, D.D., *Primarius*, and Rev. David H. Riddle, D.D., *Secundus*, to preach the sermon on behalf of Publication, before the next General Synod.

PARTICULARIA.

BENEVOLENT AND RELIGIOUS INSTITUTIONS.

The Synod was addressed on the third day of the session by the Secretaries of the Board of Education, the Boards of Domestic and Foreign Missions, the Board of Publication, and the Board of Sabbath School Union, in relation to the interests of these several Boards. After which the Synod spent a season in a free interchange of opinion in regard to the benevolent operations of the Church, when the following resolutions were adopted:

Resolved, That while we are grateful to God for having enabled us to do something for the advancement of His glory in the past, it is yet the decided conviction of this Synod, that God, by His providence and by the remarkable out-pourings of His Spirit, is calling us, as a Church of Christ, to greatly enlarged liberality and assiduity in cultivating the fields which He is opening up to christian effort.

Resolved, That we cannot acquit ourselves of our imperative duty in view of the dealings of God, without largely exceeding for the coming year our benevolent contributions for the past, and of giving for the cause of Christ according as the Lord hath prospered us.

Resolved, That those of our churches who have failed to contribute to any or all of our Boards during the last year, are hereby most earnestly requested and affectionately urged not to fail to contribute, and that liberally, to each of the benevolent enterprises of our Church.

Resolved, That it is to the pastors of our respective churches that we look, and by whom we confidently expect that the several causes of benevolence shall be statedly presented to their congregations, with such information as shall enable them to contribute according to the claims of the subjects presented.

The Synod was addressad on the third day of the session by Rev. J.

B. Pinney, Corresponding Secretary of the New York Colonization Society, in relation to the claims and wants of that Society.

Resolved, That this General Synod have listened with interest to the statements made by Rev. J. B. Pinney, Corresponding Secretary of the Colonization Society; are prepared again, as in time past, heartily to commend this Society to our churches and people as worthy of support.

The Synod was addressed on the third day of the session by Rev. E. R. Fairchild, D.D., Corresponding Secretary of the American and Foreign Christian Union, in relation to the claims and wants of that Society; whereupon it was

Resolved, That the Synod recommend this Society, and its interesting and important work among the Romanists of our own country and in Papal lands abroad, to the cordial and liberal support of the churches under its care and supervision, and recommend that annual and effective contributions be made in them in its behalf.

A number of copies of the "Sailors' Magazine," "the Seaman's Cause," and the "Life Boat," publications of the American Seaman's Friend Society, were received and distributed among the members.

ACCOUNTS.

The Committee on Accounts reported, and their report was accepted, adopted, and is as follows:

The Committee on Accounts would respectfully report, that the following minute of the Classis of Illinois has been put in their hands, viz:

Whereas, the expense of attending General Synod is a very serious obstacle to securing an attendance of delegates from this Classis, the cost being about \$60 for each delegate; and whereas the last General Synod made an appropriation and apportionment for the several Classes

in the West, which sum is not sufficient to secure the attendance of a full delegation; therefore,

Resolved, That the Classis request the General Synod to divide the whole amount appropriated to this Classis among the delegates who shall be in actual attendance on General Synod during the continuance of such appropriation, provided that no delegate receive more than the actual expenses of travel.

Your Committee recommend the following action:

Whereas, the members of the Classes belonging to the Synod of Chicago are obliged to sustain heavy expenditures in attending their regular and special meetings, and in performing Classical and Synodical business; and whereas we recognize the propriety of the Apostolic precept, "Bear ye one another's burdens," therefore

Resolved, That the request of the Classis of Illinois be complied with.

All which is respectfully submitted.

B. BASSLER, Chairman.

Total, 51.

From the same source we learn the death of Henry Schiebe, of the Senior Class, who perished in the Austria, on his way to this country for completing his studies at the Seminary. Eye-witnesses testify that, amidst the fearful scenes connected with his death, he displayed a Christian serenity, and among his last acts were his exhortations to the despairing around him to trust in Jesus Christ.

Mr. Riddle entered the Senior Class by dispensation from General

Synod.

Mr. Chamberlain was absent, by leave of Synod, about four months during the sessions, attending a course of medical lectures in New

York, as he is expecting to go on a mission to India.

Robert R. Proudfit was absent during the whole of the first session and part of the second, attending a course of law lectures. Since about the 23d of January his attendance has been regular, and his progress in study satisfactory.

W. R. Duryee has been absent in Europe during the year, on account of ill health. He expects to pursue his studies with the Middle

Class of next year.

Mr. Butts, of the Junior Class, is a preacher in the Methodist Church, but received permission from the Committee on Reception of

Students to attend upon the lectures.

Mr. Watson asked and obtained permission to leave on the 1st of May, that he might take an agency of the Sunday School Union, by which he hoped to raise himself above the necessity of asking aid from the funds of the Church.

The Faculty feel warranted to expect an increase in the number of

students, beyond that of the graduating class.

A sermon on 2d Kings, 2:15, was preached in the Second Reformed Dutch Church, on the evening of the first day of the session, by the Rev. Theo. B. Romeyn.

An address was delivered, at the close of the examinations, by the

Rev. Julius H. Seelye.

All the Classes were examined on their respective studies, and afforded entire satisfaction to the Board. The Senior Class were also examined respecting their personal experience of religion, and their views in wishing to enter the sacred ministry.

The Board congratulate the Synod on the general prosperity of the institution, and on the fact that the number of students is greater,

and the promise more encouraging, than ever before.

The Faculty also report that there has been strict punctuality in attendance on the lectures, and very commendable diligence in study.

The Board have received with special interest the following statement from the Professors: "Although we cannot report the same marked evidences of the special presence of the Spirit of God as existed a year since, yet numerous manifestations of zeal among the students have not been wanting. They have been engaged in Sabbath-schools, and in tract distribution. The union prayer-meeting of the Seminary and College, and other prayer-meetings, have been well sustained by them. From the fact that but a single member of the present Senior Class has offered himself as a missionary for the foreign field, it might

be inferred that the spirit of missions does not prevail to as great extent as in former years. But it should be borne in mind that three of our students have just sailed for India and China, and we have proofs that the two lower classes will send out a fair proportion to the heathen world. The meetings of the Society of Inquiry are attended by nearly all the students, and many indications show that questions concerning duty in respect to missions, both domestic and foreign, are agitated and earnestly considered."

Another year's experience has confirmed in the Faculty the conviction of the benefit arising from bringing together, in a single building,

students preparing for the ministry.

It is to be regretted that any difficulties or delays have occurred in the collection of "Hall dues," while ample provision is made for the beneficiaries by the Board of Education. At the request of the Professors, the Superintendents have resolved that the payment of these dues shall be a prerequisite to obtaining professoral certificates.

"Additions from abroad have been made to the library during the year, although not to such an extent as we could desire. Among other donations, a box has been received from the Consistory of the Collegiate Church of New York, containing more than 60 volumes, and another containing about 100 volumes, from the library of the

late Dr. Knox, presented by his sons.

"In accordance with an arrangement made a few weeks since, by committees of the General Synod, and of the Trustees of Rutgers College, more than 2,000 books have been removed from the College Library to the Peter Hertzog Hall. We have now in the Theological Library upwards of 4,000 volumes; still, it is altogether inadequate

to the wants of the institution."

In conformity with a resolution passed by the General Synod, at their last meeting, (see Minutes, pp. 345-6,) inquiry was made of each student whether he had complied with the standing rules of the Synod respecting the preaching of students. Transgressions seem to have occurred in the following instances, viz.: by Mr. Berry, Mr. Gulick, Mr. Jones, Mr. Peek, Mr. Dubois, Mr. Furbeck, Mr. Hansen, Mr. Lott, Mr. Nott, Mr. Shaw, and Mr. Vanderveer. In view of the answers given, it was Resolved, That although some of the students of the Senior Class have not complied with the resolution in all its specifications, it be proper for this Board to inform the Synod that these young brethren have not preached without the permission of one of the Faculty, and generally as to time, place, and the sermon.

The Board further adopted the following preamble and resolution: Whereas, The power of dispensation from any part of the studies of

the Seminary is not vested in this Board:

Resolved, That, as Mr. Robert R. Proudfit has omitted the studies of nearly half of the past year, the Board do not permit him to enter upon the next year of study without direction from General Synod.

The following report of the Board of Direction of the Corporation was received, accompanied with the Treasurer's Report, the Annual Digest, a list of the securities held by the Board, a list of the endowed scholarships, a list of the clerical subscribers to the Widows' Fund, and accounts current of said Board with the Widows' Fund and the Board of Education, together with the report of John C. Elmendorf,

Esq., Treasurer of Rutgers College, in relation to the Van Benschoten and Knox Funds.

To the General Synod of the Reformed Protestant Dutch Church:

The Board of Direction respectfully report, that two subscriptions to the Permanent Fund of the General Synod of \$500 each have been paid in. The Board have received from several individuals six bonds of the township of Holland, Ottawa County, Michigan, of \$100 each, in trust, for the benefit of the Holland Academy, in Holland, Michigan, the principal to be kept and applied towards an endowment fund for the benefit of said academy, and the interest used towards its support.

There has been deposited with the Board two deeds of the "American Board of Commissioners for Foreign Missions," dated August 25th, 1858, conveying to General Synod of the Reformed Dutch Church the real estate and other property at the missionary station known as the "Amoy Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," as the "Arcot Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," in China, also the real estate and other property at the missionary station known as the "Arcot Mission," in China, also the real estate and other property at the mission are the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China, also the "Arcot Mission," in China,

sion," in the Presidency of Madras, British India.

The Widows' Fund at this time amounts to \$17,018.35, being \$378.61 less than at the last report; there are 84 subscribers to the fund, of whom ten have been added during the year. The amount collected in the churches for this fund during the year is \$121.39, and there has \$500 been withdrawn. The Rev. John Gray and Mrs. Anna Scott, widow of the late Rev. James Scott, D.D., have been placed on the list of annuitants on the fund.

The contingent expenses of Synod for the year amount to about \$2,000, and the amount received from the Classes to meet this expen-

diture has been \$988.96.

A separate account has been opened for the Church Building Fund, and also for the Sustentation Fund, and they also appear in a separate form in the Annual Digest. The Board endeavor, as far as practicable, to keep distinct from each other the different funds of Synod, although in the investment of them this is not always possible.

Your Board have met frequently, and as often as the business intrusted to their care has required, and their meetings have been

characterized by the most entire unanimity.

Your Board would beg leave to remind General Synod that, with the increase of real estate and unproductive property placed under their care, there will necessarily arise an increased expense, to meet which a more adequate provision ought to be made, and they would therefore recommend that the churches be urged to pay greater attention to the fund required to meet the contingent expenses of Synod.

The Treasurer's Report, herewith submitted, exhibits in detail the

state of the funds belonging to the Synod.

All of which is respectfully submitted.

W. B. CROSBY, President.

ARTICLE V.

CORRESPONDENCE.

A letter was received from the General Synod of the Reformed Dutch Church of South Africa, which was read, and referred to the Committee ou Correspondence.

The following report was received from the committee to correspond with the Free Church of Scotland, accompanied with copies of proceedings and debates of the General Assembly of the Free Church of Scotland; which were referred to the Committee on Correspondence:

The undersigned begs leave to report to General Synod that he has received the printed Minutes of the "Proceedings and Debates of the General Assemblies of the Free Church of Scotland, held at Edinburgh, in May, 1857, and in May, 1858," which were sent to his care, and addressed "To the Rev. the Synod of the Reformed Protestant Dutch Church, U. S. A., from the Colonial Committee of the Free Church of Scotland, with fraternal salutations," by the Rev. J. Bonar, D.D., Convener of that committee. These Minutes contain highly interesting and important information and discussions, and it is respectfully recommended that they be deposited in the library of our Theological Seminary at New Brunswick.

No reply has been received to the letter addressed to the General Assembly by your Committee of Correspondence, which is acknowl-

edged and published in its Minutes for 1857.

SAMUEL B. HOW,

June 1, 1859. Chairman of Committee of Correspondence.

The Rev. John M. Krebs, D.D., of the Presbyterian Church, appeared in Synod, and having produced testimonials of his appointment, took his seat as a Corresponding Delegate from the General Assembly of the Presbyterian Church in the United States.

The Committee on Correspondence reported, and their report was accepted, adopted, and is as follows:

The Committee on Correspondence present the following report: The Free Presbyterian Church of Scotland have laid on the table

The Free Presbyterian Church of Scotland have faid on the table of this Synod two volumes of the Debates and Proceedings of their General Assemblies, held in 1857 and '58, which contain discussions on important subjects, which we recommend to be placed in the Theo-

logical Library belonging to our Church; also, we recommend that this correspondence be continued, by sending to that body three copies of

the Minutes of our Synod.

A fraternal letter has been received by this Synod, from a committee appointed by the Reformed Dutch Church of South Africa, on Foreign Correspondence, stating what they have done for the promotion of the Gospel among themselves, and for extending it to the heathen in their neighborhood. In the conclusion of their communication, they cheerfully refer to the revival which has taken place in this country, and pray that the Spirit of the Most High may continue to be poured down in rich abundance upon our Church, and request that the Christians in America will especially remember Africa in their supplications at a throne of grace.

Your committee recommend that this Synod continue their corre-

spondence with this body as heretofore.

The committee also recommend that the communication of the delegate of this Synod to the General Assembly of the Presbyterian Church, which has been received by this Synod, be printed in their Minutes.

F. H. VANDERVEER, Chairman.

The following report was received from the Rev. George H. Fisher, D.D., Corresponding Delegate to the General Assembly of the Presbyterian Church in the United States, which was referred to the Committee on Correspondence:

To the General Synod of the Ref. Dutch Church in Session at Albany:

The undersigned begs leave to present the following report: That having been appointed in June last to attend the sessions of the General Assembly of the Presbyterian Church, he performed that duty in the last month. The Assembly sat at Indianapolis. The attendance was very large. Many subjects of the highest interest were brought forward. The Assembly manifested a deep concern for the welfare and growth of that branch of the Church of Christ, and for

the spread of a pure and sound faith in all directions.

Various reports, presented from Missionary and other Boards, and on the condition of the several churches, show an addition during the past year of ten Presbyteries, a large accession of members, very liberal contributions, and a solid and growing prosperity. To the expressions of brotherly kindness and charity which your delegate felt himself anthorized to convey to the Assembly, in the name and on the behalf of Synod, the Assembly, through the Rev. Dr. Breckenridge, their Moderator, returned an animated and affectionate answer. Your delegate is authorized to convey to the Synod assurances of the Assembly's fraternal regard, and their prayers for the spiritual and temporal prosperity of our own part of the Redcemer's kingdom; and the more from the circumstance that the ecclesiastical bodies with whom the Assembly can now exchange delegations are reduced to two in number.

Your delegate begs leave to express the hope that the Christian courtesy and correspondence, now maintained between the Presbyterian and Dutch Churches, may be strengthened and long continued.

Respectfully submitted.

GEO. H. FISHER.

Utica, June 6th, 1859.

The Committee on Correspondence having reported double number of persons from whom to elect delegates to the General Assembly of the Presbyterian Church, Synod proceeded to the election, when the following were chosen: Rev. John De Witt, *Primarius*; Rev. Charles S. Hageman, *Secundus*.

ARTICLE VI.

SYNODICAL REPORTS ON THE STATE OF THE CHURCHES.

In conformity with the standing regulation, the Synod spent a part of the afternoon of the first day of the session in religious exercises, conducted agreeably to a plan previously reported by a committee for that purpose, consisting of Rev. Mancius S. Hutton, Joseph F. Berg, and the Elder, Thomas Jeremiah.

Resolved, That the subject of making arrangements for the observance of the sacrament of the Lord's Supper be referred to the committee appointed on the devotional exercises of the Synod.

Resolved, That a prayer-meeting be held in the Consistory Room of the church, between the hours of 8 and 9 o'clock, A. M.

The sacrament of the Lord's Supper was observed on the afternoon of the second day of the session, in conformity to the arrangement reported by the committee on the devotional exercises of the Synod.

The Committee on the State of Religion reported, and their report was accepted, adopted, and is as follows:

To the General Synod of the Reformed Dutch Church:

The Committee on the State of Religion beg leave to report, that they have seldom had placed in their hands more cheering documents than the reports of the several Synods on this subject; and they regret that the necessity for brevity forbids them to reiterate the satisfactory details found in these reports.

By the admirable arrangements now adopted, they have had before them a statement from almost every church in our connection, and with hardly an exception the language is joyous and hopeful. Each of the Particular Synods use the same phrase, and call this year the year of the right hand of the Most High, and justly, for if he who offers praise glorifies God. God is this day glorified by our Church; her language as she tells what God has done is full of thanksgiving, nor is there scarcely a discordant note from one end of our Zion to the other. Your committee, however, do not mean to say that there is no cause for deep humility and lowly confession, for they do not forget that the Church is still militant, encamped within a province in rebellion against our rightful Lord; that the sounds and sights of treason against the Most High are on every side, and that she is not herself as loyal as it becomes the servants of such a King to be; yet, as each individual band passes in review, they behold, almost without exception, the cheerful shout and the stir of activity, and they feel that it would be ungrateful to God to adopt a different strain.

In endeavoring to ascertain, from the documents before them, "what is the state of religion in our Church," two inquiries presented themselves. The first of these is, What does Christ think of his

Church?

We know, indeed that our Lord sees much, oh! how much! in us for the forgiveness of which he must daily intercede; but judging from his dealings with his Church during the past year, your committee think that they must say, that the light of his countenance is upon her; his truth is proclaimed throughout her borders. Her people rejoice in the sanctuary. He meets them there according to his promise: he imparts the graces of his Spirit. He has added during the year more than the Pentecostal number of five thousand (5,209) to her communion. He has caused the hearts of the fathers to go out towards the children, and to care for the lambs of the fold. He has extended her cords and strengthened her stakes in the Western portions of our land, and has induced her to stretch forth her hand to the distant East, and to seek to add India, and China, and Japan to his kingdom. He blesses her ministry—aiding and comforting them while they live; and when they grow old or feeble he allows them to die and to be with him. And yet in his love he spares them long to his Church, and allows her this year to mourn over the removal of only five of her standard-bearers—the lamented Rev. Dr. Lee, D. Van Olinda, E. H. May, C. C. Vermeule, Peter Labagh; and while Synod has been in session he hath called from his labors our Brother Sill. giveth his beloved sleep. Yes, the smiles of our beloved Lord are on us, and if your committee interpret aright his dealings, they would say take courage, for Jesus loves still our Church; he owns her; he blesses her.

But, in seeking to ascertain the state of religion in a church, there is another important inquiry to be made. We must not only ask what does Christ think of his Church, but what does his Church think of him.

Your committee are persuaded that no one can look at the results of the past year without feeling that our Church loves Christ more than ever; obeys him more cheerfully, and more fully; trusts him more unreservedly, and has put forth renewed efforts to extend his cause and kingdom. She has prayed more, she has contributed more. During the preceding year her contributions for benevolent purposes amounted to \$102,388.16; and this year her offering is upwards of

\$155,000. She is active amid her young, seeking to bring them early to the Saviour. She promises to educate for the Gospel ministry all of her sons who seek her aid, and seems ready to endeavor to do her

duty to her Lord.

Far, therefore, as she comes short of what she ought to be, deeply as she mourns over her want of self-sacrificing love, to your committee her attitude is cheering and full of promise. She is leaning on the arm of her beloved, looking to Him. She is penitent, but grateful, and is praying for more grace, thanking God and taking courage.

In reply to the request that General Synod would define more fully what is meant by contributions for religious and benevolent purposes, and whether the contributions made to indigent members of each church are to be placed under this head, or under that entitled Congregational Purposes, your committee would remark, that they cannot conceive how the design of Synod could be more clearly defined than by the terms religious and benevolent purposes; surely contributions made for the poor whom Jesus loves is a religious and benevolent act, and cannot be styled a congregational purpose.

All of which is respectfully submitted.

M. S. HUTTON, Chairman.

SYNODICAL REFERENCES.

The Committee on Synodical Minutes reported, and their report was accepted, adopted, and is as follows:

The Committee on Synodical Minutes respectfully report:

That the Minutes of the last General Synod, of the Particular Synods of New York, Albany, and Chicago, have been placed in their hands, and examined with care.

In the Minutes of the Particular Synod of New York they find the

following references to General Synod:

From the Classis of Westchester we have this resolution:

"Resolved, That General Synod be requested to state, for the information of the several Consistories, whether the contributions taken up by particular churches for the assistance or support of their own indigent members in full communion are to be reported to Classis under the head of contributions for Religious and Benevolent Purposes, or for Congregational Purposes; and further, to define more fully the meaning of the requirement in regard to Consistorial reports of benevolent contributions, with a view to greater uniformity in making up said reports. Also,

"Resolved, That Mr. George Strohmenger be recommended to General Synod for a general Dispensation allowing this Classis to examine him; and if his examination be sustained, to license him to preach

the Gospel among the Germans."

From the Classis of Poughkeepsie we have the following resolution:

"Resolved, That the attention of General Synod be respectfully directed to the request recently received from the Lodiana Mission, desiring the devotion of a specific time in January next to prayer by the whole Church for the outpouring of the Spirit upon the world."

They find nothing in the Minutes of the Particular Synod of Al-

bany requiring the attention of this General Synod.

In the Minutes of the Particular Synod of Chicago we have sev-

eral matters brought to the attention of this Synod.

The following was adopted, at the request of the Classis of Michigan:

"That this Classis respectfully asks the Particular Synod of Chicago to request the General Synod to extend to the other Western Classes the privilege that was granted during its session of June last to the Classis of Illinois, viz.: to divide the whole amount appropriated to each Classis, for expenses to General Synod, among their respective delegates, who shall be in actual attendance upon the General Synod, during the continuance of such appropriation; provided that no delegate shall receive more than the actual expenses of travel."

Under the head "Church Government," the following resolution was adopted:

"Resolved, That inasmuch as there is a deficiency of one elder in the formation of a quorum, this Particular Synod requests the General Synod to grant the necessary dispensation."

Under the head of "Schools and Education," the following preamble and resolution were adopted:

"Whereas, The students at New Brunswick from the West, who are sustained by the Board of Education, receive the same appropriation as the Eastern students for their support, and, on account of their distance from home, have to make at every vacation a very great journey, or remain in New Brunswick under expense; and as it is impossible for these students to live on what they receive, they generally having no relations or friends who are able to contribute anything towards their living; and as it is of great importance to regard and take to heart these circumstances, because they are most discouraging both to those who are educated and to those who promote the cause of education, and because it is clear that it will be very difficult to go farther in preparing our young men for the ministry under the present arrangement: Therefore,

"Resolved, That the General Synod be, and hereby is, requested to authorize the Board of Education to increase the amount appropriated to the students from within the bounds of this Synod, who pursue their studies at New Brunswick, so as to place them on an equal

footing with those students whose homes are in the East."

Under the head "Particularia," the following preamble and resolutions were adopted; the third resolution claiming the attention of this Synod:

"Inasmuch as it is the will of our Lord that we bear each other's

burdens; and

"Whereas, Our beloved Brother Ferris, with his small church, must sink under crushing calamities, if not aided; and inasmuch as the maintenance of the Church in Chicago is very important to the Reformed Dutch Church in the West, it being at a very influential and central point: Therefore,

"Resolved, 1. That each church within the bounds of this Synod be earnestly requested to take up a collection in behalf of the Second Church of Chicago, on or before the first Sabbath of September

next.

"2. That the clergymen of this Synod be requested to preach each of them one Sabbath during the collecting journey of Brother Ferris,

at such time as may be agreed upon between him and them.

"3. That this Second Church of Chicago be recommended strongly to the benevolence of our Eastern Christian friends of the Dutch Church, and that the General Synod be asked to devise liberal means to release these brethren from their embarrassments."

All of which is respectfully submitted.

Resolved, That so much of the above report as relates to contributions to benevolent purposes, &c., be referred to the Committee on the State of Religion.

Resolved, That so much as relates to dispensations be referred to the Committee on the Professorate.

Resolved, That so much as relates to the appropriation for the expenses of the delegates from Western Classes be referred to the Committee on Accounts.

Resolved, That so much as relates to the deficiency in the formation of a quorum be referred to the Committee on Overtures and Judicial Business.

Resolved, That so much as relates to students from the West be referred to the Committee on Education.

Resolved, That so much as relates to the Second Reformed Dutch Church of Chicago be referred to the Committee on Domestic Missions.

An appeal taken by the Consistory of the Second Reformed Dutch Church of the city of Schenectady, from a decision of the Particular Synod of Albany, affirming the action of the Classis of Schenectady in relation to a call made by them, was presented, which was referred to the Committee on Overtures and Judicial Business.

Resolved, That the report of the Committee on Overtures and Judicial Business, contained in the Minutes of the Particular Synod of Albany of 1858, involving a question of interest to the Reformed Dutch Church of Schodack, and which was not noticed by the Committee on Synodical Minutes of the last General Synod, be referred to the Committee on Overtures and Judicial Business.

The Committee on Overtures and Judicial Business reported, and their report was accepted, adopted, and is as follows:

The Committee on Overtures and Judicial Business, to whom was referred the appeal of the Second Reformed Protestant Dutch Church at Schenectady from a decision of the Particular Synod of Albany, have examined the said appeal, and find it to be in order; and recommend that the trial of the appeal be conducted according to the order prescribed by Synod.

With regard to the order in which the documents shall be read,

the committee recommend the following, viz.:

1. The remonstrance presented to the Classis of Schenectady against the approval of the call.

2. The reasons accompanying the remonstrance.

The committee also recommend that the trial of the said appeal be made the order of the day for Monday next, at half past three o'clock, P. M.

With regard to the Particular Synod of Chicago, who ask a dis-

pensation from this Synod, in view of the fact that, at their late session, there was a deficiency of one elder in the formation of a quorum, a similar request was made by that Synod at the session of 1857. It is to be regretted they are so soon compelled to ask a like favor.

Your committee are aware of the difficulties which the elders have to encounter in attending the sessions of the Synod of Chicago. Some of them have to travel a long distance, and consequently at a great expense of time and money; and therefore the several Classes, in selecting their delegates to the Synod, should be careful to select such as in all probability will attend to the duty assigned them, and enjoin upon them, severally, the necessity of their attendance.

In hope that a similar case will not again occur, your committee

recommend the adoption of the following resolution:

Resolved, That the dispensation asked for by the Particular Synod of Chicago be, and hereby is, granted.

In the communication dated Rochester, 1st June, your committee

find nothing claiming the action of Synod.

With regard to the joint reference from the Reformed Dutch Church of Schodack and the Classis of Rensselaer, concerning the question as to what are the Consistorial Minutes requisite to be presented to Classis, as found among the actions of the Particular Synod of Albany, at their regular session in May, 1858, your committee recommend the adoption of the following resolution:

Resolved, That the Church of Schodack be referred to Chapter 11, Article 2, Section 8, of the Constitution.

All which is respectfully submitted.

ALEXANDER H. WARNER, Chairman.

ARTICLE VIII.

SYNODICAL APPEALS.

Synod took up the appeal of the Consistory of the Second Reformed Dutch Church of Schenectady from a decision of the Particular Synod of Albany, affirming the action of Classis in relation to their not approving a call made by said Consistory.

The President announced that the Synod was about to proceed to the consideration of judicial business, and enjoined upon the members to regard their character as judges in the highest court of Jesus Christ known to the Constitution of the Reformed Dutch Church.

Synod considered the appeal in the following order:

- 1. The sentence appealed from was read.
- 2. The appeal and reasons of appeal were read.
- 3. The documents in the case were read, in the order prescribed by the Committee on Overtures and Judicial Business.

- 4. The Consistory were heard by their Commissioner, Hon. S. H. Johnson.
 - 5. The Classis were heard by the Rev. Abraham J. Switzs.
- 6. The Particular Synod were heard, in explanation of the grounds of their decision, by the Rev. J. G. Hall, a member of that body when the decision appealed from was made.
 - 7. The Consistory were heard in reply by their Commissioner.

The parties having withdrawn, the Synod proceeded to deliberate and decide.

The roll was called, for the purpose of giving the members an opportunity to express their opinion, when the following motion was made and seconded:

Resolved, That the appeal be sustained.

The question being taken on this motion, it was decided in the negative.

Resolved, That General Synod, in their action not to sustain the appeal of the Second Church of Schenectady, had reference only to the appropriate action of Classis in the settlement of ministers, and would not be considered as deciding upon the merits of the case, which, from the nature of the appeal, did not come before them. But, as all controversy in a church must be very displeasing to our Divine and loving Master, and ruinous to themselves, the Synod would affectionately assure the Consistory and Church of Schenectady of their deep sympathy and desire for their peace and welfare, and would therefore earnestly entreat them to exercise towards each other that kind and Christian forbearance which their circumstances demand; each one seeking, according to the Apostle's direction, not his own, but the things of Christ.

Resolved, That the Stated Clerk transmit a certified copy of the above resolution to the Consistory of the Second Reformed Dutch Church of Schenectady.

CUSTOMS AND USAGES.

The following report was received from the Stated Clerk in relation to the reference sent to the several Classes by the last General Synod, proposing an amendment in the Form for the Administration of the Lord's Supper:

The undersigned would report, that he has received returns from eighteen Classes in relation to the reference proposing an alteration in the Form for the Administration of the Lord's Supper, which was sent down to the several Classes by the last General Synod. Of these, the Classis of New York, the South Classis of New York, the Classis of New Brunswick, the North Classis of Long Island, the Classes of Poughkeepsie, Paramus, Westchester, Albany, Rensselaer, Schenectady, Greene, Orange, Kingston, Geneva, Cayuga, Saratoga, and Michigan, approve of the proposed amendment, and the Classes of Bergen is opposed to the same. It thus appears that seventeen of the Classes have assented to the emendation. This is a majority of all the Classes, and of course the alteration is constitutionally adopted. The Board of Publication have been officially informed of this result, and the future editions of the Psalm and Hymn Book will contain the Form as now amended, viz.: "That he, although innocent, was condemned."

Respectfully submitted.

THOS. M. STRONG,

June 1, 1859.

Stated Clerk.

ARTICLE XII.

SCHOOLS AND CHRISTIAN EDUCATION.

The Twenty-seventh Annual Report of the Board of Education was received, read, and referred to the Committee on Education.

The Treasurer's Report of the Board of Education was received, and referred to the Committee on Education.

The Nineteenth Annual Report of the Board of Sabbath School Union was received, read, and referred to the Committee on Education.

An extract from the Minutes of the Board of Sabbath School Union was received, requesting that a preacher be appointed to deliver a sermon on behalf of Sabbath-school operations of the Church. Whereupon, it was

Resolved, That the subject be referred to the Committee on Education.

The report of the Treasurer of the Board of Sabbath School Union was received, and referred to the Committee on Education.

A sermon was delivered on the seventh day of the session, by the Rev. Professor W. H. Campbell, D.D., on behalf of Education, from Hebrews 5:12: "For when for the time ye ought to be teachers, ye have need that one teach you again which be the first principles of the oracles of God; and are become such as have need of milk, and not of strong meat."

The Committee on Education reported, and their report was accepted, adopted, and is as follows:

The Committee on Education, to whom the Annual Reports of the Boards of Education and Sabbath Schools have been submitted,

would offer the following as their report:

The Annual Report of the Board of Education, read before Synod by the Rev. Dr. Cornell, presents most gratifying intelligence respecting the educational interests of our Church. Never before, in the history of the denomination, have so many incentives to grateful acknowledgment and increased zeal been presented in the reports of our various Boards; and yet the feeling seems to pervade them all, with singular unanimity, that the blessing which the Lord has vouchsafed is but the earnest of greater mercies still in store. The number of candidates for the work of the ministry is eighty-three. This is a great increase, but the means of education have been supplied in proportion to the enlarged exigencies of the demand. This fact is in pleasing contrast with the experience of former years; and, as evidence of the gracious favor of the Master towards our institutions, calls for devout and humble acknowledgment. For several years past there has been a steady advance in the liberality of our churches, but this readiness to make provision for the training of laborers has been greatly stimulated, and the amount of contributions to the Treasury of the Board of Education during the past year has reached the sum of more than \$13,000 for current expenses. The single item in the Treasurer's Report of "Receipts from Churches and Individuals for Educational Purposes" amounts to \$13,372.60. We would guard against all vainglorious statements, but we cannot refrain from blessing the Lord, whose good hand has been upon our churches, and whose grace has inclined them to honor him with their substance. With the increasing disposition to send out men and youth to be trained in our schools, a weightier responsibility devolves upon the Church and the Board of Education. We must secure the most efficient workmen in the vineyard. We want not only ministers, but able ministers, of We have no right to look for the miraculous the New Testament endowments of inspiration as the present qualification of the ministry; and, therefore, we may not forget that those who are to labor successfully require gifts as well as grace. The possession and enjoyment of genuine piety is beyond doubt the first and best of all endowments, for it imparts unction, which is power; but it is not the only talent which the minister of Christ requires. Your committee observe, therefore, with hearty concurrence in the prudence of the measure, that increased attention is suggested by the action of the Board to

this point. No new legislation or deliverance of opinion is required from this body on the subject, inasmuch as the matter has already been passed upon in former years; and we merely call attention to the fact, that stated reports from the professors and teachers in the College, and Seminary also, respecting the proficiency of the students under the care of the Board, would greatly facilitate the formation of sound and discriminating judgment upon their progress, and the prospect of permanent usefulness in the ministry. Probably, also, no loss would accrue to the best interests of the Church, if a rule were adopted requiring those who come under the care of the Board of Education to be prepared to enter the College at New Brunswick, before special appropriations from its funds are made for their support. It is believed that such provision would obviate the mortifying necessity of the dismissal of candidates for the ministry, after years of patient probation and expenditure.

Your committee are gratified with the evidences of affectionate interest exhibited by the action of the Board in the comfort of the students under its care, and trust that the beneficiaries of the Church may ever regard her as a kind and judicious parent, solicitous for their welfare, whilst enforcing proper subordination and discipline.

Six of the students have recently received professoral certificates for licensure, but these vacancies are already prospectively more than filled by applicants who are waiting to be received in the coming autumn.

THE HOLLAND ACADEMY.

The statements respecting this institution, embodied in the report of the Board of Education, are highly encouraging. Thirty-nine pupils have been in attendance during the past year. The Rev. John Van Vleck, who has been identified with this institution from its foundation, has felt constrained to resign his professorship. This step is deeply regretted, as he is endeared to his colleagues by his faithfulness in the discharge of his official duties; but your committee observe, with pleasure, that an efficient successor has been appointed, and that the Rev. Philip Phelps, Jr., is prepared to enter at once the station vacated by Mr. Van Vleck. The Holland Academy is now legally in possession of Synod, as much so as the Theological Seminary; and it would therefore seem to be just that hereafter the teachers and professors should hold their appointment from the General Synod, and derive their support from its treasury.

PROPOSED CLASSICAL ACADEMY AT FAIRVIEW, IN ILLINOIS.

The Classis of Illinois, in compliance with the request of the Particular Synod of Chicago, is desirous of establishing a Classical Academy for the purpose of preparing young men for the ministry, and for the office of teachers. They desire that it may be thoroughly identified with the Reformed Dutch Church, and be religious in its character. The want of such an institution is represented as urgent. Several young men of promising ability and talent are already prepared

to enter it. A building at Fairview, suitable for the purposes of such an Academy, is offered gratuitously to the Synod, and the proposition is made that the Boards of Education and Domestic Missions should appropriate, for a term of years, a sum, not to exceed \$500, for the maintenance of a competent teacher. Your committee would commend the subject to the attention of the Synod.

PAROCHIAL SCHOOLS.

Increasing interest is felt in the development of these institutions. Twenty schools derive aid from the Fund, and the blessing of God has most manifestly attended the course of instruction maintained in them. Several of them have become self-sustaining. It is to be regretted, however, that not more than one-half of them have forwarded the statistical statements, which they are under obligation to furnish.

Your committee believe that the system of instruction in Parochial Schools is worthy of far more attention than it has hitherto received, and the suggestions offered in the report of the Secretary of the Board of Education commend themselves as eminently judicious and truthful; but it may be that the attention of the churches will not be sufficiently directed to the importance and value of Parochial Schools until further painful experience shall attest their worth, and prove them to be essential to the maintenance of the Church's influence over the youth committed to her care.

In concluding that portion of their report which relates to the Board of Education, your committee would express their gratification at the continuance of the Rev. Dr. Cornell, the efficient Secretary of the Board, in the relation, the duties of which he has fulfilled with so much zeal and self-denial.

SYNOD'S BOARD OF S. S. UNION.

From the very elaborate report submitted by the Secretary of this Board, your committee gather the general fact that the Divine blessing has been signally bestowed upon the Sabbath-schools in connection with the Board. On the value of this institution, which has now become identified with the Church, your committee feel that they need not enlarge. Our ministers and churches all love the Sabbath-school; and, regarding it as the nursery of the Church, are thankful for the facilities which it affords for training the children in the nurture and admonition of the Lord. That many precious seals to the faithful ministry of Sabbath-school teachers have been gathered during the past years of our history, is a truth for which we would devoutly bless Your committee feel that it is specially incumbent upon all who are engaged in the legitimate work of the Sabbath-school to endeavor to awaken a love for the truths of the sacred Scriptures in the minds of the youths; and whilst throwing around the course of instruction all the attractions which will interest the mind and engage the affections, to guard against those measures which are more stimulating than nourishing, lest its exercises should by any means degenerate into a species of religious dissipation or amusement, and so the great object be frustrated.

The claim of the Sabbath School Board upon the liberality of the churches cannot be contested. In order to enable it to establish Sabbath-schools in destitute regions of our country, it should share the benevolent sympathies of the Church. Your committee would therefore present the suggestion of the Board for consideration, that a sermon be preached, at each annual meeting of the Synod, in behalf of the Sabbath-school operations of the Church, and that the Synod appoint a preacher for this purpose.

In conclusion, your committee offer the following resolutions for

the consideration of the Synod:

Resolved, That the request of the Classis of Illinois, respecting the establishment of a Classical Academy at Fairview, and the overture of property for that purpose, be referred to the consideration of the Boards of Education and Domestic Missions.

Whereas, The students at New Brunswick from the West, who are sustained by the Board of Education, receive the same appropriation as the Eastern students for their support, and, on account of their distance from home, have to make at every vacation a very great journey, or remain in New Brunswick under expense; and as it is impossible for these students to live on what they receive, they generally having no relations or friends who are able to contribute anything towards their living; and as it is of great importance to regard and take to heart these circumstances, because they are most discouraging both to those who are educated and to those who promote the cause of education, and because it is clear that it will be very difficult to go farther in preparing our young men for the ministry under the present arrangement: Therefore,

Resolved, That the General Synod be, and hereby is, requested to authorize the Board of Education to increase the amount appropriated to the students from within the bounds of this Synod, who pursue their studies at New Branswick, so as to place them on an equal footing

with those students whose homes are in the East.

Resolved, That the matter respecting the Holland Academy be referred to the Synod of Chicago, for their consideration.

THE DOCUMENTS RELATING TO THE ENDOWED SCHOLARSHIPS AND EDUCATION FUNDS. •

The committee have examined these documents, and report them as entirely satisfactory. The large amount invested is not, however, to be relied on by the Church as a substitute for its continued liberality, especially when Providence indicates the increasing responsibility of the churches to provide means for the education of a well-furnished ministry.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Managers of the General Synod's Board of Sabbath School Union whose term of service has expired. On counting the ballots, it appeared that the following were elected, viz.: Rev. Thomas E. Vermilye, D.D., Benjamin C. Taylor, D.D., John C. Guldin, Polhemus Van Wyck, and Messrs. Thomas Jeremiah, John S. Bussing, John M. Keese, Jacob Brower, Charles S. Little, Abraham I. Beekman, Abraham Van Nest, and John Delamater.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Education whose term of service has expired. On counting the ballots, it appeared that the following were chosen, viz.: Rev. Thomas E. Vermilye, D.D., John Proudfit, D.D., Mancius S. Hutton, D.D., Joseph F. Berg, D.D., William H. Ten Eyck, and Messrs. Peter R. Warner, F. J. Hosford, and Hugh Allen.

The Committee on Nominations having reported double the number of persons from whom to elect an individual to preach the sermon on Education, Synod proceeded to the election, when it appeared that the Rev. Hugh N. Wilson, D.D., was chosen *Primarius*, and Rev. John Macauley, D.D., Secundus.

Resolved, That a sermon be preached on the evening of the fifth day of the session, at each annual meeting of General Synod, in behalf of General Synod's Board of Sabbath School Union; and that the Rev. Dr. M. S. Hutton be appointed preacher as *Primarius*, and the Rev. G. H. Mandeville as Secundus for the next meeting of Synod.

ARTICLE XIII.

RUTGERS COLLEGE.

Certain bills for repairs to the College edifice were presented, which were referred to the Committee on the Professorate.

Resolved, That the Standing Committee on Rutgers College be directed to report at the next meeting of the Synod.

ARTICLE XIV.

PROFESSORATE.

The following report was received from the Standing Committee on the Peter Hertzog Theological Hall, which was read, and referred to the Committee on the Professorate: The Standing Committee on the Peter Hertzog Theological Hall beg leave to make their annual report.

In accordance with the resolution of Synod, passed June, 1857, the committee have been engaged in procuring funds to "finish the building and the grounds, and whatever else may be necessary to complete its appropriate arrangements." The task has not been easy, but, by the blessing of God, it has been nearly completed. The following details will show what has been done:

1. The whole exterior brick-work of the Hall has been painted with

three coats of paint, and carefully sanded.

2. A substantial and well-painted fence of nearly fifteen hundred

feet now incloses the grounds of the Hall.

3. The grounds have been graded; the carriage-ways laid out and graveled; the soil thoroughly prepared for the planting of trees and the growth of grass; a flagged walk of a thousand feet, extending from gate to gate, has been laid down; and a large number of trees has been planted.

4. An avenue in front of the Hall, nine hundred feet long and eighty feet wide, has been opened and graded, the curb-stones laid,

and the gutters paved.

This was a work of great labor and expense; the excavation, in

some places, exceeded eight feet in depth.

5. Trees have been set out along the three streets to which the Hall is adjacent, and surrounded by suitable boxes for their protection.

6. A drain, six hundred feet long, and reaching down below the foundation of the Hall, has been dug and properly secured, to lead off from the building the water which was settling under it, and rendering it damp and unhealthy.

7. Land was bought of Dr. F. A. Van Dyke and C. P. Dayton, Esq., to carry Neilson Avenue through from George Street to College

Avenue. The sum paid for the same was \$966.84.

These details show how extensive a work has been done; and if it has been well and cheaply done, as the committee believe it has, the Synod are very much indebted for it to the counsel and assistance of Abraham Schuyler Neilson and Isaac Voorhees, Esq's, and the superintendence of Mr. Van Cleef Voorhees. Messrs. Neilson and I. Voorhees aided the committee in forming their plans and executing them most economically. Mr. V. C. Voorhees was the superintendent of the whole work, at a compensation but little above that of an ordinary day-laborer; but had his compensation been five times greater than it was, it would not have been an unreasonable reward for his In view, therefore, of the kind assistance of these friends, the committee are glad to be able to say, that the general opinion in New Brunswick is, that there never was so extensive a work so well and so cheaply done in this city. The aim was to have the work done in a thorough manner, such as became the Seminary and the Church; and the general judgment is, that the purpose has been accomplished.

This extensive work has required a heavy outlay of money, and hearty thanks are due to the friends of the Church for the prompt response to the application for pecuniary assistance. The Consistory of the Collegiate Church of New York gave \$2,000, with a cheerfulness which indicated the interest they took in the work. James Neilson, Esq., to his large gift of land, detailed in the last report, has given, in addition, the sum of \$1,016 08 to aid in completing Neilson Avenue. Several members of the First and North Churches of Newark deserve, also, special thanks for prompt and liberal pecuniary aid, rendered at a time when the committee were peculiarly pressed for money.

The deeds for the land, purchased of Messrs. Van Dyke and Dayton, accompany this report. These deeds were made out in the name of the General Synod, in order to secure the possession of a gore of land on the southwestern corner of Neilson Avenue, and to prevent

its becoming a nuisance to the Seminary.

The Treasurer's account, together with the vouchers for all expenditures, accompanies this report. From this it will be seen that the sum of \$12,712.17 has been expended, and that the committee are indebted to their Treasurer in the sum of \$504.05.* The committee beg leave to inform the Synod that they have paid on the insurance of the Hall \$330 of the money contributed by the churches for the arranging of the grounds. They therefore ask that this money may be refunded to them by the Synod, that they may pay their indebtedness to their Treasurer. The remaining sum of debt, \$174.05, over and above the aforesaid \$330, the committee would be glad if the Synod would assume. The committee, composed entirely of clergymen, feel that they have been quite secularized in their labors for the erection, &c., of the Theological Hall. They have collected the money, made the contracts, supervised the work, and kept the ac-This is not the work of pastors and professors. The time given to these secular pursuits was withdrawn from the appropriate work assigned to the ministry. This is not said complainingly, but to give point to the remark, with which the committee beg leave to close their report, asking the Elders on the floor of Synod to assume this debt, and see it paid.

All which is respectfully submitted.

S. A. VAN VRANKEN, WM. H. CAMPBELL, S. M. WOODBRIDGE, T. W. CHAMBERS, THOS. C. STRONG.

NEW Brunswick, May 28, 1859.

^{*} It is proper to remark, that this excess of debt, above the amount of money collected, arises from the expense incurred in digging the drain. This work was not contemplated when collections of money were being made. Indeed, the whole of the proposed work at the Hall was completed before the imperative necessity of digging this drain was felt by the committee.

[†] Subscriptions sufficient to liquidate the above indebtedness were obtained during the present meeting of the General Synod.

WILLIAM H. CAMPBELL,

Treasurer.

The following communication was received from the Theological Faculty, which was referred to the Committee on the Professorate:

The Theological Faculty would bring to the mind of the Synod that, at the meeting held June, 1857, at Ithaca, a set of rules for the regulation of the Peter Hertzog Theological Hall was adopted, on the recommendation of the Faculty. These rules have not been found as wise, in their practical working, as had been hoped. And, indeed, an institution like the Hall cannot be governed by laws of Synod, which must be inflexible. The present rules, since they are laws of Synod, admit of no questions of modification. They must be enforced at all times, and on all, and even when the Faculty may have become convinced that the rules are not the best possible.

The Faculty think that great good would accrue to the Hall, if the power of making the laws for its government were intrusted to a few, who could be convened at any time they were needed. The suggestion is therefore made, that the power of making laws for the regulation of the Hall be given to the Standing Committee on the Peter Hertzog Theological Hall; and that, in cases of difficulty, reference

be had to the Board of Superintendents.

S. A. VAN VRANKEN, WM. H. CAMPBELL, S. M. WOODBRIDGE.

NEW BRUNSWICK, May 28, 1859.

Synod proceeded to fill the places of those in the Board of Superintendents of the Theological Seminary whose terms of service had expired. Nominations were received from the Classes of Paramus, Greene, Ulster, Kingston, Holland, and Rensselaer, which were confirmed.

It was referred to the Committee on Nominations, to report double the number of persons from whom to choose members for those Classes who have not nominated.

The committee reported, and the election took place accordingly.

The following are the persons chosen to fill the vacancies in the Board of Superintendents: Rev. William Demarest, from the Classis of Paramus; Rev. William E. Turner, from the Classis of Greene; Rev. John Gosman, D.D., from the Classis of Ulster; Rev. Benjamin C. Lippincott, from the Classis of Kingston; Rev. Peter J. Oggel, from the Classis of Holland; Rev. Laurence H. Van Dyke, from the Classis of Rensselaer; Rev. Harvey D. Ganse, from the Classis of New York; Rev. G. H. Mandeville, from the North Classis of Long Island; and Rev. John Garretson, D.D., from the Classis of Cayuga.

The Committee on the Professorate reported, and their report was accepted, adopted, and is as follows:

The Committee on the Professorate report as follows:

I. Board of Direction.

The report of this Board shows that its members are laboring with

great judgment and fidelity in the trust committed to them.

The most important subject for the Synod to take action upon in regard to their report is the deficiency of funds to meet the expenses of the General Synod. The contingent expenses of Synod last year were about \$2,000, and the amount received from the Classes to meet this expenditure has been \$988.90—just one-half. The Board say, "that they would beg leave to remind General Synod that, with the increase of real estate and unproductive property placed under their care, there will necessarily arise an increased expense, to meet which a more adequate provision ought to be made; and they would therefore recommend that the churches be urged to pay greater attention to the fund required to meet the contingent expenses of Synod."

The Church ought to understand that the funds of the Synod are nothing more nor less than the funds which the Church depends upon to pay the debts of its own contracting. It ought, in all honesty, either to stop running into debt, or provide the means necessary to

meet their engagements.

One great cause of the deficiency is the neglect of some of the Classes to pay their proportion of assessment to the General Synod; and yet these Classes vote on the expenditures which are drawn from the same.

For several years plans have been suggested and committees approinted to meet the difficulties, and yet little has been done. The committee appointed last year have made no report, and here we are still, presenting the pitiable spectacle of helpless poverty, petty indebtedness, and temporary expedients. What shall we do? Reiterate the resolutions of last year and the years previous; or shall we determine to take hold of the matter with one will, and put a stop to these unseemly complainings and positions of the Church?

In this hope, and with this view, we recommend the following reso-

lutions:

1. Resolved, That every Consistory be advised, at the meeting held for the appointment of a delegate to Classis, to furnish to the minister or elder delegated, the sum assessed to pay the Contingent Fund of General Synod.

2. Resolved, That the Classes be requested to impress upon their Questors the duty of reporting to them such churches as fail to meet

their obligations to the Contingent Fund.

- 3. Resolved, That the attention of each Classis be specially directed to the delinquencies in the contributions to the Contingent Fund; and that Synod recommend that they introduce a standing rule, that each pastor be required, at the annual spring session of Classis, to state the reasons for any deficiency in that department, in case such dereliction should exist.
 - 4. Resolved, That the Board of Corporation be authorized to ap-

point one or more agents for the purpose of raising a permanent fund to meet the annual deficiency in the expenses of the General Synod, to the amount of \$30,000.

II. Board of Superintendents.

Fifty-one students have been in attendance upon the exercises of the institution during the past year. Fourteen have received professoral certificates. The Board congratulate the Synod on the general prosperity of the institution, and on the fact that the number of students is greater, and the promise more encouraging than ever before. The missionary spirit has been awakened among the students. Three have just sailed for India and China, and there are indications that the two lower classes will send out a fair proportion to the heathen world.

The additions to the library have not been commensurate with the

wants of the institution, nor the means of the Church.

Your committee call the grateful notice of the Synod to two donations: one from the Collegiate Church of New York, of sixty (60) volumes; and the other from the family of the late Dr. Knox, of one hundred volumes.

Your committee approve the course of the Board in not permitting a student who has omitted the studies of nearly half a year, to enter upon the next year of study without a dispensation from General Synod.

III. Hertzog Hall.

The Standing Committee on the Peter Hertzog Theological Hall have called the attention of Synod to the increased liberality of James Neilson, Esq., and to the efficient aid afforded to them in the counsel and assistance of Abraham Schuyler Neilson and Ira C. Voorhees, We therefore return them, in behalf of the General Synod, our heartfelt thanks.

This committee have labored assiduously and cheerfully in their task of arranging and completing the Hall. They have been obliged to violate the rule of General Synod, limiting their expenditures to the sums collected for that object; and they now ask that \$330, paid by them for insurance out of such sums, be refunded to them by the Synod, and a remaining debt of \$174.05 be also assumed by your

This committee, composed of professors and pastors, have been required to engage in an amount of labor not congenial to their tastes or habits, and they suggest a hope that the liberality of the elders will come to their aid. While we would reiterate this expression,

we propose the following resolution:

Resolved, That the Treasurer of General Synod be directed to pay to the Standing Committee of Hertzog Hall the sum of \$330, and also to assume the remaining debt of \$174.05.

The Theological Faculty send up a communication to General Synoil, asking such a modification of the rules for the regulation of the Hall as shall allow the Standing Committee to frame their own rules; and that, in cases of difficulty, reference be had to the Board of Superintendents.

Your committee recommend that the request be granted.

The deeds of the property purchased for the benefit of the Hall from Charles P. Dayton and Frederick A. Van Dyke, Synod are recommended to deposit with the Treasurer of General Synod, and offer for their adoption the following:

Resolved, That the above-mentioned deeds be transmitted to the Treasnrer of General Synod, to be deposited by him among the other titles of property belonging to them.

IV. "Van Benschoten and Knox Funds."

Twenty-two young men have received aid from these funds. In the account of the Van Benschoten Fund, an unappropriated balance of \$349.49 is reported, which the Treasurer states should be \$349.99; the error having occurred by bringing forward the amount from the preceding page of his statement.

There is also in the Knox Fund an unappropriated balance of

\$333.11.

Resolved, That the Board of Education be authorized to nominate to the Trustees of Rutgers College two of the students under their care in the Theological Seminary, to be placed on the Knox Fund.

V. Rutgers College.

The Board of Trustees of Rutgers College have sent up to the Synod two bills for repairs to the building: one of \$11.09, from Peter Wyckoff; and another of \$109.77, from J. C. Bergen.

Your committee recommend the following:

Resolved, That the Treasurer of General Synod be directed to pay the above bills.

VI. Dispensations.

An unusually large number of applications for dispensations have been referred to your committee, upon some of which they have concluded to report favorably; and they therefore recommend to Synod that the following requests be granted:

1. That of the Classis of New York, in behalf of the Rev. Peter Buri, a minister from the Reformed Church of Berne, in Switzerland, that he be admitted to ordination when the Classis see proper.

2. A request from the Rev. Mancius S. Hutton, D.D., on behalf of his son, Mancius H. Hutton, that he be permitted to enter the Senior Class in the Theological Seminary of New Brunswick.

3. A request from the Classis of Holland, for a dispensation for

Mr. Honbolt, that they may proceed to his licensure. .

4. From Mr. John Scudder, a student in the Senior Class of our Theological Seminary, that the Synod would grant him a dispensation for five or six months from the duties of the Seminary, in order that

he may attend a course of medical lectures the coming winter, to bet-

ter fit him as a laborer in the missionary work.

In regard to the applications for dispensations for Mr. Charles Strohmenger, Mr. John Wenish, and Mr. Isaac W. Warner, your committee feel that they cannot recommend to Synod to grant their request, and advise that they pursue in our Theological Seminary such a course of studies as the professors may deem necessary to fit them for usefulness as pastors and teachers.

GUSTAVUS ABEEL, Chairman.

The following report was received, accepted, and adopted:

The committee, continued by the General Synod of 1858, "to raise the deficiency in the funds needed to compensate Rev. Dr. Bethune, and to consider further the expediency and practicability of establishing a Professorship of Sacred Rhetoric in the Theological Seminary," beg leave respectfully to report:

That, after many applications to the delinquent members of the committee, only about \$60 was reported by Dr. B. as received from the Church of Philadelphia, leaving still due to Dr. B. some \$130.10. The committee beg to be discharged from the commission, and recommend the resolution:

That the Treasurer of the Board of Corporation be directed to pay

the balance to Dr. Bethune.

In regard to the expediency and practicability of establishing a Professorship of Sacred Rhetoric, the committee have no confidence that it can be done by a detailed solicitation addressed to the churches; and therefore they recommend the following resolution, viz.:

That this Synod hope and pray that God will put it into the heart of some opulent member of our Church to endow such a profes-

sorship.

MISSIONS.

The Twenty-seventh Annual Report of the Board of Domestic Missions was received, read, and referred to the Committee on Domestic Missions.

The report of the Treasurer of the Board of Domestic Missions was received, and referred to the Committee on Domestic Missions.

The Secretary of the Board of Domestic Missions having tendered the resignation of his office, it was

Resolved, That in accepting the resignation of the Secretary of the Board of Domestic Missions, this Synod gratefully acknowledge his past service, and express their desire for his future health and usefulness in the Gospel ministry.

A sermon in behalf of Domestic Missions was preached on the evening of the second day of the session, by the Rev. A. B. Van Zandt, D.D., from 2 Kings, 7:9: "Then they said one to another, We do not well: this day is a day of good tidings, and we hold our peace; if we tarry till the morning-light, some mischief will come upon us: now therefore come, that we may go and tell the king's household"

The Committee on Domestic Missions reported, and their report was accepted, adopted, and is as follows:

The Committee on Domestic Missions respectfully report:

That the Annual Report of the Board of Domestic Missions presents in concise form a clear and happy exhibition of the action of the Board, and of the results of the Mission work performed during the past ecclesiastical year. The well-arranged statistical tables embraced in this document give great value to it, as at a glance it shows just what the Church desires to know respecting the operations of this department.

The appropriations of the Board have been fairly distributed throughout the Church; eighty churches having been aided in twenty-four of the twenty-nine Classes in this country, and have had the labors of sixty-seven pastors and missionaries. In these churches, two thousand, nine hundred and thirty-six families have had the Gospel of the blessed God preached unto them. In them have been gathered to the sacramental host of God our Saviour three thousand, seven hundred and fifty-eight communicants; of whom five hundred and eighty-four professed their faith in Jesus during the past year, and one hundred and forty-four were received on certificate from other churches.

In these churches, seventy-five Sabbath-schools number four thousand, six hundred and eighty-one children; and one hundred and seventy-five Bible-classes contain eighteen hundred and eighteen chil-

dren and youth, who have received instruction mainly from pastors and missionaries.

God has shown that he approves our work, and will bless the efforts of the sons and daughters of Zion in building up his kingdom in the world.

Four churches have become self-sustaining during the year.

The Board have aimed at an enlargement of their operations, for which there is no want of opportunity, on the right hand and on the left. There is every encouragement to do so, did the churches supply the needed contributions to the treasury, and the ministry go forth to labor where pressing wants are making constant appeals for that preached Word which is the power of God and the wisdom of God unto salvation. Surely, if the whole work of the Church be considered, there can be no reason why every department of it should not be equally well manned and supplied with means to arge it forward. Why there should be any lack in the Domestic Mission field, while every other field is rising in importance, gaining the ear and the heart of the Church, it is not easy to conceive. Possibly some local interests may have been presented in colors too glowing, thus encouraging prospects and hopes never to be realized; then disappointment follows, and future efforts are retarded by the early failure, whereby confidence is shaken, prejudice awakened, and difficulties are augmented. May it not be that each one, magnifying the importance of his own case, looks on the cases of others with diminished favor, or wonders why one should be more liberally provided for than another, and thus becomes dissatisfied, and hence withholds more than is meet? In cases of churches of long standing, yet comparatively feeble, and often aided, when assured that our principles of action require them to put forth still more energy at home, and so relieve the Board, possibly they may feel aggrieved and complain, and then withhold, if not from the Board, yet from their own pastors, and leave them to struggle single-handed, when a trifling increase of effort on their part would result in comfort to the man of God who ministers unto them in holy things, and in adding somewhat to the treasury of the Lord for this holy purpose. While, however, these and similar causes may have measurably reduced the contributions to the Board, we may well inquire whether our deficiency is not owing to a lack of appreciation of the magnitude and importance of our Domestic Missions By these operations we give the preached Word to many immortal souls, and prepare the way for the wider diffusion of the Gospel of the blessed God in future years, and at the same time attest our love to the Saviour. Only let the heart of the Church be awake to the grand results of this labor of love, and it will beat responsive to the pressing calls of many, who have gone out from the families and church homes where, in years gone by, they have learned the Saviour's name, and the truth as it is in him; while others will be drawn around them from similar associations, and together prosecute vigorously the work given the Church to do.

We have cause of thanksgiving to God for his smiles and blessing upon the labors of the year just closed. The souls converted to God under the ministrations of the pastors and missionaries in the service of the Board; the ingathering of so goodly a number of children and youth into Sabbath-schools and Bible-classes; the greatly increased attention of the laborers employed, to the visitation of families, preaching Christ from house to house, resulting, as it has done, in bringing many families into their churches who would otherwise never have come under the influence of the preached Word, and, in many places, bringing about an increased observance of the Sabbath;—bid us thank God and take courage. Where these results are seen and felt, we have a sure token of the churches soon becoming self-supporting.

The Treasurer's Annual Report shows contributions to this Board during the year amounting to sixteen thousand, eight hundred and three dollars and eighty-five cents; a small increase on the amount contributed during the previous year. And the Board, by prudent management, have reduced the former heavy indebtedness to a small sum. The Auditing Committee have carefully examined this account, and find it correct, and a balance on the 1st instant in the treasury of two hundred and ninety-six dollars and forty-nine cents; and that the

present indebtedness of the Board is five hundred dollars.

From this statement, it is evident the Board could not have prudently enlarged their operations, and it is earnestly to be desired that hereafter this holy work of Domestic Missions may be more energetically sustained and vigorously prosecuted.

The Board, in view of the resignation of their Corresponding Secretary, Rev. John Garretson, D.D., have nominated as his successor

the Rev. Anson Dubois.

Your committee recommend for adoption the following resolutions: Resolved, That the Board of Domestic Missions be, and hereby are, authorized to appoint a Corresponding Secretary.

Resolved, That this Synod heartily approve of the nomination of Rev. Anson Dubois for that office.

The importance of a Committee on Domestic Missions at the West has been by the Synod referred to this committee. The reasons assigned in the paper under consideration are forceful. It is often difficult, and sometimes impracticable, for the Board of Domestic Missions to make a satisfactory examination of the localities, or to ascertain the precise character of new openings. But a committee on the ground, composed of prudent men, who are not personally interested in the locality, would go very far to aid in judicious selections, and to judge of the means and appliances necessary effectually to put in motion and to sustain the enterprise

Such an arrangement would no doubt in a little while call more thoroughly and efficiently into action the men of the West, so that they should more certainly and early rely upon themselves. This self-reliance ought to be developed in the Western churches.

Your committee, therefore, recommend the following resolution:

Resolved, That this subject be referred to the Board of Domestic Missions, with discretionary power.

In the matter of the Second Church of Chicago, referred by the Particular Synod of Chicago to this General Synod, your committee deem the case of that church to demand the eareful and kind care of the Synod. The importance of the position, the necessity of a church of our denomination at that great centre of influence, cannot be questioned. This church, in its infancy, has encountered great difficulties, which have threatened its extinction. But it is believed it may, with co-operation with a few friends who are inclined to foster and sustain it, on the part of the churches at the East, become well established, and prove a blessing to many.

Your committee, therefore, recommend for adoption by the General Synod the following resolution:

Resolved, That the Second Reformed Dutch Church at Chicago be, and hereby is, recommended to the benevolence of our churches, and of Christian friends of the Reformed Dutch Church.

The communication of the missionary to the Thousand Isles at Alexandria Bay, Jefferson Connty, New York, has been carefully attended to by your committee. The request is preferred therein, that this General Synod authorize the Board of Corporation of the Synod to accept and hold in trust a deed of conveyance for the parsonage premises of that Mission Church. The representatives of the deceased donor of the land are anxious to convey the premises so that they may be properly secured to a responsible body, for the uses and purposes specified in the original terms of donation. The Board of Corporation, it seems, will be the appropriate body for that purpose.

Your committee, therefore, recommend the adoption of the following resolution:

Resolved, That the Board of Corporation of the General Synod be, and hereby are, authorized to receive and hold the appropriate deed of conveyance of the parsonage premises of the Church of the Thousand Isles, for the uses and purposes specified by the donor.

All of which is respectfully submitted.

BENJAMIN C. TAYLOR, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Domestic Missions whose term of service has expired. On counting the ballots, it appeared that the following were chosen, viz.: Rev. Isaac N. Wyckoff, D.D., John Garretson, D.D., Harvey D. Ganse, Gustavus Abeel, D.D., George H. Fisher, D.D., and Messrs. Leonard W. Kip, Benjamin C. Miller, and Smith Bloomfield.

The Rev. John H. Suydam was chosen to fill the vacancy occasioned by the decease of Rev. Robert P. Lee.

The Twenty-seventh Annual Report of the Board of Foreign Missions was presented, read, and referred to the Committee on Foreign Missions.

The report of the Treasurer of the Board of Foreign Missions was received, and referred to the Committee on Foreign Missions.

A sermon in behalf of Foreign Missions was preached on the evening of the sixth day of the session, by the Rev. H. M. Scudder, M.D., from Mark 16:15, 16: "Go ye into all the world, and preach the Gospel to every creature. He that believeth, and is baptized, shall be saved; but he that believeth not shall be damned."

The Committee on Foreign Missions reported, and their report was accepted, adopted, and is as follows:

The report of the Board of Foreign Missions, presented to this body by its Corresponding Secretary, the Rev. Dr. Ferris, has enabled your committee to frame the following table of statistics:

There are three Missions under the care of the Church, viz.: the

Amoy, the Arcot, and the Japanese.

1. The Amoy Mission was founded in 1842, by the late lamented and ever-beloved David Abeel, D.D. It is now composed of Rev. Messrs. E. Doty, J. V. N. Talmadge, J. Joralemon, A. C. Ostrom, and D. Rapalje, Missionaries; and Mrs. Talmadge, Mrs. Joralemon, and Mrs. Ostrom. Assistant Missionaries; with eight native helpers—making sixteen laborers in all, who, in their several spheres, are united there in teaching and preaching the Gospel.

The measure of success which has been divinely bestowed on the Amoy Mission is large. The amplest freedom in preaching the Word has been enjoyed. The Word has been savingly applied to the hearts of once heathen hearers. Eighteen during the past year have been added to the Amoy Church, on confession, and three to the Chiobbé station. There are now one hundred and eighty-five communicants walking in the fear of the Lord and in the comfort of the Holy Ghost,

under the care of this mission.

There are also three parochial schools and four theological students under the patronage of this mission; and everything in the report of . its condition shows that not only are our brethren at Amoy doing the work of evangelical instruction, but that they are successfully laying the foundations of a comprehensive system, which, with the Divine favor, will hereafter furnish on heathen soil, and from once heathen material, the means of conducting an expansive scheme of Christian labor

2. The Arcot Mission, dear to the memory and precious to the heart of the Church, as the place where that patriarch of missionaries, the late Dr. John Scudder, wrought in the Master's service until he was summoned to his rest, consists now of Rev. Henry M. Scudder, M.D., Rev. William W. Scudder, Rev. Joseph Scudder, Rev. Ezckiel Scudder, Rev. Jared L. Scudder, Rev. Joseph Mayou, and Rev. Jacob

Chamberlain, Jr., (under appointment,) Missionaries; and Mrs. H. M. Scudder, Mrs. W. W. Scudder, Mrs. Joseph Scudder, Mrs. Jared L. Scudder, Mrs. Joseph Mayou, and Miss Louisa Scudder, Assistant Missionaries—in all thirteen, together with Andrew Sawyer, a candidate for ordination.

The churches comprising the Arcot Classis are five, viz.: Chittoor, Arnee, Rahnepettah, Vellore, and Coonoor; having an aggregate of 146 members, 29 of whom have been received during the past year. As the statistics of this Classis are published in full in their proper place in the Minutes, we need not refer to them further than to say, that they show conclusively, that even in India, in face of the tremendous obstacles which exist to the progress of the Gospel there, it does, nevertheless, prove its power to break down the strongest ramparts, and secure its appropriate triumphs.

3. The Japanese Mission, the members of which are now on their way to their destined field, consists of Rev. S. R. Brown, Rev. Guido F. Verbeck, and Duane B. Simmons, M.D., Missionaries; and of Mrs. S. R. Brown, Mrs. Guido Verbeck, Mrs. Dr. Simmons, and Miss

Julia Brown, Assistant Missionaries.

The whole number of missionaries now under the care of the Church is fifteen (15), assistant missionaries thirteen (13), native helpers (reported) 9—making in all thirty-seven Christian preachers and teachers engaged in our behalf, and for the sake of Jesus, in the great work of

evangelizing the heathen world.

During the past year, the Amoy Mission has been reinforced by Rev. Messrs. Ostrom and Rapalje, of whose safe arrival we have just learned, with grateful satisfaction. To Arcot has gone Rev. Mr. Mayou, who accompanied Rev. W. W. Sendder on his return. He who holds the waters in the hollow of his hand, and guides the winds in their winding paths, hath been pleased to bring them also to their desired haven.

The Mission to Japan, invited by Providence, is an undertaking which at once enlarges the sphere of our operations, and augments both our moral and pecuniary responsibility to pray and give, that the work so auspiciously increased do not decline upon our hands.

For Arcot, the Rev. Jacob Chamberlain, now under commission,

· expects in a few months to sail.

Thus it will be seen that our two established missions have been strengthened, and another initiated during the ecclesiastical year now closed. It is also stated that several of the students now in our Theological Seminary intend to devote themselves to the foreign missionary work—a fact which indicates the growing missionary zeal of the Church, and which ought to encourage all in our communion to supply liberally the means to send abroad the men who are willing to battle in the high places of heathenism for "the truth as it is in Jesus."

It is almost needless to say that the present condition of our Foreign Missionary affairs awakens gratitude and inspires hope. Two years ago, when our now adopted and cherished method was initiated, fear and trembling pervaded the Church. To-day every heart is glad, and the courage of faith has supplanted unworthy doubts and timid irresolution. "The Lord will go before you, and the God of Israel will be your rearward," is a promise which we have come to understand, as the providence of God has interpreted it through our own

experience.

If ever the smallness of our denominational stature could be urged as a valid plea for cautious indifference, that plea can now no longer find a place in our counsels, nor be permitted to influence our "Say unto the people that they go forward," is a divine command, audible to every man who hath an ear to hear what God, by his Word, and Providence, and Spirit, is speaking to his Church. We have at length been taught to know what, alas! we were slow in learning, that a great purpose is as necessary to a church as it is to an individual. We are no longer a parasite, hanging in weak dependence upon organizations of human contrivance. But, inasmuch as Christ has charged his Church, as such, to evangelize all nations, we, blessed be his name, have learned, by the discipline of his providence, that we can be loyal to him and true to ourselves, only when, as a Church united in spirit and in effort, we try to execute our Lord's Already the rectitude of this principle of ecclesiastical action is justified by the record of a single year.

While, however, we indulge in the luxury of grateful joy excited by the progress secured in our missionary work, we cannot forget that the feeling engendered by success oftentimes dwindles into indolent self-complacency; and therefore our care should be to guard in every possible way against any decline either in our efforts, or plans, or liberalities. Each succeeding year will now increase the demand for men and money to initiate new and carry forward older undertakings. But, as the five loaves and the two fishes sufficed, in the hands of the Master, to feed the hungry multitude, so we cannot doubt that God's grace will convert our poor resources into means abundant to carry

forward the work intrusted to us.

The full and elaborate missionary report furnished this body by the Rev. Dr. Ferris shows to some extent the nature of the great burden of Christian care and solicitude which he has carried with so much of constancy and devotion to the interests committed to his special supervision. The committee are sure they express the wish of the Synod in making this inadequate public recognition of the value of the service gratuitously rendered by the Corresponding Secretary, and in the utterance of the hope that his health may be restored and his life be long preserved to witness the triumphs of the Redeemer's kingdom in the uttermost parts of the earth. And we recommend that the Board of Foreign Missions be authorized to make such appropriation for his future services as that Board may think proper.

It is a matter of gratulation that the Rev. Dr. Scudder and the Rev. Mr. Joralemon, during their stay here, are enabled to address our churches, and plead the cause of Foreign Missions, out of the abundance of their knowledge of the wants of the heathen world. It

may very well be that for such a time as this the Lord transferred them from India and China to America, that they might be instruments in his hand to incite their brethren here to larger zeal in the

work of saving the world.

From the Treasurer's Report, your committee learn that the sumtotal of receipts during the past year has been \$25,134.61—a sum larger than the Synod of last year ventured to hope might be raised. Cheering as this statement is, it is important for us distinctly to mark and weigh the fact, that during the year to come, we shall need at least thirty-five thousand dollars to meet expenses for which the Board is now pledged, and for the sending out of other missionaries. As there can be no going back in this work, it is necessary that pastors and Consistories should take early and efficient steps to gather the gifts of God's people for the foreign field.

The Treasurer's Report, which has been in our hands, is a document prepared with great labor, and exhibits minutely the current contributions of the several Classes and Churches, together with all donations made by individuals. Too great praise cannot be awarded Mr. Hayt for the perspicuity and accuracy of his annual account just rendered.

The following resolutions are submitted:

1. Resolved, That the Board of Foreign Missions of the Reformed Protestant Dutch Church be, and hereby is, authorized to apply to the Legislature of this State for an act of incorporation under the above title.

2. Resolved, That this Synod earnestly enjoin upon the churches the duty of forming each for itself a systematic plan of benevolence,

in which the Foreign Missionary work shall occupy a place.

3. Resolved, That every pastor should regard himself as bound, by the very nature of his office, to act as an agent for our Foreign Missionary Board; and that the Foreign Board regard every pastor as such, and make suggestions as to the mode of operation desirable to be pursued.

4. Resolved, That we regard the Sower as an important vehicle of Missionary intelligence to the churches, and commend it to their at-

tention.

Respectfully submitted.

ELBERT S. PORTER, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Foreign Missions of the Reformed Protestant Dutch Church whose term of service has expired. On counting the ballots, it appeared that the following were elected, viz.: Rev. Isaac Ferris, D.D., E. P. Rogers, D.D., William J. R. Taylor, Philip Peltz, James Demarest, Jun'r, Daniel McL. Quackenbush, and Messrs. Theodore Frelinghuysen, William B. Crosby, and John T. Moore.

The Committee on Nominations having reported double the number of persons from whom to elect individuals to preach the Annual Missionary Sermons, the Synod proceeded to the election, when the Rev. Samuel M. Woodbridge, D.D., was chosen *Primarius* to preach the sermon on Foreign Missions, and the Rev. Charles S. Hageman was chosen *Secundus*.

The Rev. John De Witt was chosen *Primarius* to preach the sermon on behalf of Domestic Missions, and the Rev. Paul D. Van Cleef, *Secundus*.

ARTICLE XIX.

WIDOWS' FUND.

The Committee on the Widows' Fund reported, and their report was accepted, adopted, and is as follows:

The Committee on the Widows' Fund respectfully report, that according to the statement of the Treasurer of the Board of Direction, the fund now amounts to \$17,018.35.

There were added to the principal during the year, \$121.39, collected in the churches.

Cash received from annual subscriptions amounts to.....\$1,261 50 Interest on invested fund during the year............1,113 00

Sum of income.......\$2,374 50

Sum of disbursements...... 2,077 30

Leaving in the treasury a balance of 297 20 The number of subscribers to the fund is eighty-four, of whom ten have been added during the year.

Fourteen of this number have made no payments within the last five years, and some have not for a much longer period; thereby, of course, forfeiting their interest in the fund, except the privilege of withdrawing the amount paid by them, without interest.

Thus, there are only seventy actual paying subscribers at the present time out of three hundred and eighty-nine ministers, being less than

one-fifth of the number.

The fund has been slow in its progress. It was in embryo as early as 1813; occupied the attention of Synod and committees, and was an object of anxious solicitude from year to year, until 1837, when it was fully matured and put into operation, and received the first annual subscription of ministers.

It became available to beneficiaries by the increase of the fund to \$10,000 in 1845, since which time it has slowly but surely advanced. The Board of Direction and committees, and Synod, have, year after year, reiterated their expressions of confidence in its principles and

results, and commended it to the ministry and churches. It has been framed with great care, occupied for years the best minds, and, as finally perfected, is believed to furnish as safe a basis for investment as any other fund in existence.

It affords advantages in many respects which ordinary life insurance policies do not present. The collections and donations by churches and persons who are not ministers, cause an increased proportionate benefit to those who are interested in it; whereas, in ordinary life insurance companies, there is no other source of benefit than from the money actually paid by the insured, and by them alone.

In ordinary life insurance companies, the diseased, the infirm, the aged, are not allowed to share its interests by an insurance upon their lives. They are those only whose death is calculated to have best chances of being remote through youth or vigor, and health, who are

received into the number.

Then, moreover, no man himself obtains advantage, however infirm, or helpless, or needy he may become. Its benefits are available only at his death. The six worthy clergymen, in their infirmity and need, now assisted and cheered by our relief fund, could themselves have derived no assistance from any life.insurance company. This fund, moreover, while it is permanent, so that no essential feature of it can be altered without the consent of every one who is a party to it by subscription, is under the supervision and control of the Synod-itself, and managed by the trusty men of their own appointment, constituting the Board of Direction.

The fund is now in effective operation, affording assistance to ten worthy widows once co-workers in the Master's cause with, and now relies of, our dear departed brethren; and to six worn-out, faithful servants of the Lord.

Your committee again recommend it to the ministers of the Church, and solicit their attention to it, as due particularly from the following considerations:

1st. Their own benefit. Twenty dollars a year, or ten, or five, if any prefer, could be spared by many without serious inconvenience, or if needful, could, by proper management, be collected in the churches, and applied in payment of the subscription of pastors, which would afford a sure aid to themselves, if in need, and to their widows and children while young and helpless.

2d. Their attention to it is due from principles of benevolence to their brethren. Should neither particular subscribers nor their families reap advantage from it equal to their payments, five, or ten, or twenty dollars a year, is but a small amount to contribute for the benefit of the whole company of our disabled, needy brethren, and the widows and helpless children of the departed.

To the churches, too, this fund is commended, not only on principles of benevolence, but also those of justice—The men who, through the whole period of active life, have devoted themselves to the Church, and received in compensation no more than a bare supply of current wants, while those of all other professions and callings enjoy the opportunity of laying up in store for age and disability, and provide for their de-

pendent households, in justice, are entitled to a maintenance in time of need from those in whose service their energies were exhausted during the period of active life.

But it is believed that the churches are willing to contribute regu-

larly and liberally to the object, if properly presented to them.

Other objects of benevolence are receiving increasing attention and enlarged contributions from the Church. And doubtlessly, the benign operations of the Widows' Fund might be largely extended, and place beyond all contingency of diminished annuity those now reaping or

hereafter to reap its benefits.

It may be proper to remind the churches that there are two methods by which an interest in the fund may be secured. One, by the payment of an annuity; the other, by the payment at once of such sum as will bring an interest tantamount to the annual subscription, which sum may be refunded to the subscribers or their heirs, the interest of it having secured the annual payment of their subscriptions. This last method is particularly commended to the more wealthy and benevolent members of churches, as the means of securing with the least trouble the enlargement of the operations of the fund.

Your committee would offer the following resolutions:

1. Resolved, That the Widows' Fund and the Sustentation Fund be commended to the ministers and churches under our care, as deserving of increased contributions.

2. Resolved, That the attention of the Classes be called to the Widows' Fund and the Sustentation Fund, and that they be requested to take some steps to make those funds more efficient.

All which is respectfully submitted.

E. VAN AKEN, Chairman.

ARTICLE XX.

BOARD OF PUBLICATION.

The Fifth Annual Report of the Board of Publication was received, read, and referred to the Committee on Publication.

The Report of the Treasurer of the Board of Publication was received, and referred to the Committee on Publication.

A sermon was delivered on the evening of the third day of the session by Rev. Talbot W. Chambers, D.D., on behalf of the Board of Publication, from Ecclesiastes 12: 11: "The words of the wise are as goads and as nails fastened by the masters of assemblies, which are given from one shepherd."

The Committee on Publication reported, and their report was accepted, adopted, and is as follows:

The Committee on Publication would respectfully report as follows: The Annual Report of the Board of Publication, in its tone of encouragement and hopefulness, seems like an echo of those of previous years. Reversing the order of nature, however, in which the sound becomes fainter and fainter, until it dies away from the ear, this echo

waxes stronger and yet more strong at every repetition.

The report is remarkable for its unimaginative character, consisting mainly of an array of business items and figures, which are wearisome to the ear, but more reliable in enabling the Synod to pass a sound judgment upon the condition and prospects of the Board than any flights of fancy or rhetorical flourishes that might have been indulged in.

The following summary of operations is worthy the attention of Synod:

The sum-total of the receipts of the Board during the last year amounts to \$15,453.87. Of this amount \$1,318.55 has been received in collections from forty-seven churches, and \$546.94 in donations from individuals; the remainder principally accruing from sales at the Depository, and subscriptions to the Sower.

The expenses of the year for the publication of their various treatises, together with office rent, salaries, &c., have been \$15,159.83,

leaving a balance in the treasury of \$294.04.

There is a stock on hand in books, stereotype plates, &c., valued at \$15,902.69, showing an increase of \$6,419 during the past year. The balance sheet shows an excess of the assets of the Board over all their liabilities of \$9,227.63, an amount one-half greater than all the contributions of the churches during the five years of its existence.

The financial exhibit of the year is very minute and satisfactory, leaving no doubt of the economy and practical wisdom with which the affairs of the Board have been conducted, and inviting our fullest confidence, that under the same administration a path of great usefulness and success lies before us in this department of our operations. The business of the Board has very largely increased during the year, the sum-total of its publications exceeding that of the four previous unitedly. Those newly issued have for the most part already obtained acconsiderable circulation, and received the approval of the churches; and they all, so far as the committee have an opportunity of judging, are adapted to the maintenance of sound doctrine, and the promotion of the great interests which we all have at heart, confirming your committee in their views of the importance of such an agency as a means for the dissemination of the truths of the Bible, as exhibited in the standards of our Church.

During the year the Board has published 16 new books, of which have been printed 26,500 copies; one new edition of a former book has been printed of 1,000 copies; of works in German, 2,000 copies; 24 new Tracts, 37,950 copies; 9 new editions of old Tracts, 13,000 copies; Sabbath School Bible Proofs, 20,000 copies. In addition to these, the Minutes of Particular and General Synods, and of the various Boards, 3,250. In all of Books and Tracts, 103,700 copies; number of pages printed during the year, 7,740,000.

We cannot but feel that the Board has a claim to the hearty cooperation of the churches, and that its condition is such as to invite confidence and liberality far exceeding what has already been manifested. We trust that the time is not far distant when, in view of the increased prosperity of this, and all our Boards, the Dutch Church shall possess a suitable building, in which they may find accommodations better adapted to their necessities than the present contracted and insufficient rooms in which their business is conducted. This, however, must proceed from individual liberality.

It is a matter of regret that so few of the churches have yet given

to this Board a share of their contributions.

Your committee would recommend the following resolution:

Resolved, That the Board of Publication be recommended to all our churches, as eminently worthy of more enlarged and general contributions, and that churches and individuals be invited to assist in the circulation of its Books and Tracts.

There are several subjects upon which the Board desire the action of Synod. The first of these is the Psalm and Hymn Book. The Board have been preparing plates for a new and more correct edition of our Psalms and Hymns. They first ask that the Synod will so modify their past action as to allow them to publish the smallest and cheapest book, with only the addition of the Heidelbergh Catechism, the Compendium, and the Sacramental and Ordination Forms, as the insertion of all our doctrinal standards would so increase the size as to render it unfit for binding.

Resolved, That the Board of Publication be instructed to publish no more books of this edition.

Another request relates to the selection of a new hymn in place of Hymn 634, which is a duplicate of several verses in Hymn 635.

Resolved, That authority be hereby given for making such selection and substitution.

The report likewise states that Hymn 747 is without a metre, and as it now stands cannot be sung, and ask permission to make various changes which will remedy the difficulty.

Resolved, That such alteration is expedient.

The Board request that they have permission to charge \$1.25 for the new edition of the large book until the stereotype plates are paid for, and after that time \$1.

Resolved, That the permission be granted.

A further request is, that the Board have the privilege of publishing a Book of Selections from the Psalms and Hymns suitable for social worship, and also a smaller one, which could be sold for a few cents, suitable for Sabbath-schools.

Resolved, That the Board be authorized to make and publish such Selections, as speedily as is consistent with due deliberation in choosing the Hymns best adapted for such purposes.

In the plates for the new Hymn Book various improvements have been introduced, which must render it more acceptable to the churches than the old, such as the correction of innumerable typographical errors, adding fuller indexes, page titles, and substituting for the double numbering of the Hymns the name of the author, so far as the same can be ascertained; all of which your committee approve.

As it is desirable that the early records of the Dutch Church should be accessible in a language which we can all understand, your com-

mittee would offer the following resolution:

Resolved, That the Board of Publication be authorized to have the Minutes of the Old Cœtus translated from the Dutch, provided that the expense shall not exceed one hundred and fifty dollars; and that when the work is done to the satisfaction of the Board, the Treasurer of the Synod be directed to pay the sum required, to their order.

Resolved, That the Board of Publication have authority from this Synod to publish Books and Tracts in the Dutch language, for circulation among our Holland churches, so far as they can do so without

embarrassment.

In concluding their report, the committee feel that some notice should be taken of the indefatigable and laborious services of the Corresponding Secretary of the Board of Publication, which he has now rendered for five years without pecuniary compensation. It may not be necessary to offer any resolution, but have no doubt that the Synod will heartily endorse this acknowledgment of the obligations we are under for the faithful discharge of his duties as an officer of this Board.

All which is respectfully submitted.

JOHN DE WITT, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Publication whose term of service had expired. On counting the ballots, it appeared that the following were chosen: Rev. Thomas De Witt, D.D., Thomas C. Strong, Elbert S. Porter, D.D., David H. Riddle, D.D., and Messrs. James Myers, Jonathan S. Burr, Maurice E. Viele, and Mortimer De Motte.

The Committee on Nominations having reported double the number of persons from whom to elect an individual to preach a sermon on behalf of the Board of Publication, Synod proceeded to the election, when it appeared that the Rev. Thomas C. Strong was chosen *Primarius*, and Rev. John Mason Ferris, Secundus.

ARTICLE XXI.

PARTICULARIA.

Two hundred printed copies of the Roll of the Synod, including members, officers, and Standing Committees, were presented by the Rev. Dr. Rogers, when it was resolved that the thanks of the Synod be returned to Dr. Rogers for his kindness.

An invitation was received from the Librarian of the Young Men's

Association of the City of Albany, to visit the Reading-rooms of the Association, which was accepted, and the thanks of the Synod returned to them for their polite invitation.

The communication containing the bequest of the Rev. Elias Van Benschoten was read.

The Rev. Charles Scott, John N. Jansen, and the Elder, Samuel G. Lott, were appointed a Committee of Canvass, to whom the ballots cast for filling vacancies in the several Boards of the Synod, for corresponding delegates, and for persons to preach the sermons on behalf of Foreign and Domestic Missions, of Education, and of the Board of Publication, were committed, who reported the result of the election.

Resolved, That the labors and self-denying services and varied usefulness of the late Rev. John Scudder, M.D., Missionary to India, claim for him a special place in the memory and affections of the Christian Church, and deserve to be commemorated by some suitable monument in the field in which he labored.

Resolved, That Messrs. Thos. C. Doremus, James A. Williamson, James L. Schieffelin, Robert H. Pruyn, and Fred. T. Frelinghuysen be a committee to raise means for the erection of a suitable monument in India, and to execute the same.

Resolved, That as Dr. Scudder was so largely the servant of the churches, the committee be not restricted, in securing donations, to our own denomination.

ARTICLE XXII.

BENEVOLENT AND RELIGIOUS INSTITUTIONS.

The Synod was addressed on the third day of the session by the Secretaries of the Board of Foreign Missions, the Board of Education, the Board of Publication, and the Board of Sabbath School Union, in relation to the interests of those several Boards. After which, the Synod spent a season in a free interchange of opinion in regard to the benevolent operations of the Church, during which they united in prayer and thanksgiving to God.

Resolved, That the names of the officers and members of the several Boards of the Church be hereafter published annually in the Minutes of General Synod.

Resolved, That all the pastors and churches in connection with this Synod are hereby earnestly requested to regard its injunction, that the last Thursday of February be observed as a day of special prayer for colleges and seminaries of learning, and that the pastors of the various churches preach upon the subject of Education on the Sabbath previous thereto.

ACCOUNTS.

The Committee on Accounts reported, and their report was adopted, and is as follows:

The Committee on Accounts respectfully report:

The following extract from the Minutes of the Particular Synod of Chicago has been referred to this committee:

"The Classis of Michigan has passed the following resolution:

"Resolved, That this Classis respectfully asks Particular Synod of Chicago to request the General Synod to extend to the other Western Classes the privilege that was granted during its session of June last to the Classis of Illinois, viz.: to divide the whole amount appropriated to each Classis for expenses to General Synod among their respective delegates who shall be in actual attendance upon the General Synod, during the continuance of such appropriation; provided that no delegate shall receive more than the actual expenses of travel."

In considering this extract from the proceedings of Particular Synod of Chicago, your committee find that, in 1857, the following amounts were appropriated to the Western Classes for expenses in attending General Synod, viz.:

Classis of	Wisconsin	. \$ 96	00
44	Illinois	. 108	00
**	Michigan	. 84	00
"	Holland		
		1000	
		\$372	00

We have ascertained that the understanding at the time was, that each Western Classis should send three delegates, each of whom

should receive one-third of the amount appropriated, in the manner above stated. Last year, at the request of the Classis of Illinois, the amount appropriated to that Classis was divided between two delegates; and now, at the suggestion of the Classis of Michigan, (as appears from the extract cited above,) this Synod is requested to divide in the same manner the amount appropriated to each Classis equally between the members in attendance.

After this brief review of the facts, your committee have concluded to present the following resolution:

Resolved, That we return to the arrangement of 1857, viz.: to divide the sum appropriated between not more than three delegates from each Classis; and if there be less than three delegates in attendance, then each delegate shall receive but one-third of the sum thus appropriated.

The adoption of this resolution (your committee believe) will carry out the intention of the original appropriation, which was, to bring the Western delegates to the bounds of the Classis of Cayuga, and so put them on an equality with the delegates from the Eastern churches. This arrangement of the matter will, we believe, be carried on without objection: while we apprehend that any other may awaken opposition, and at last defeat the end in view.

The following bills have been presented:

For services of Sexton and assistant		
Stationery	5	00
For printing ballots	3	50
Amounting in all to	\$28	50
which they recommend to be paid.		

Respectfully submitted.

G. L. ROOF, Chairman.

ARTICLE XXVI.

RESUMPTION AND CLOSE.

Resolved, That the Stated Clerk publish 1,300 copies of the Minutes of this Synod, duly authenticated, and that he distribute among the Classes the number of copies directed by them.

Resolved, That the thanks of the Synod be given to the Consistory of the North Dutch Church of Albany, for the use of their church edifice and lecture-room during the sessions of this body; and also to the Consistory of the Second Dutch Church, for the use of their church for the sermon on Education.

Resolved, That our particular acknowledgments are due to Rev. Dr. Rogers, and to Messrs. Maurice E. Viele and Robert H. Pruyn.

for their unwearied personal attentions, and for their generosity and kindness in favoring us with a free excursion to the Albany Cemetery and Cohoes Falls.

Resolved, That our thanks be tendered to the families of this city, for the very hospitable manner in which they have entertained the members of this body, and that we will retain most pleasant and grateful recollections of our sojourn amongst them.

Resolved, That the thanks of this Synod be returned to Captain Isaac P. Smith, of the steamer "Armenia," for the kind offer of a free passage to the members of Synod from this city to New York.

Agreeably to the standing rule of the Synod, the roll was called at the close of the session, when it appeared that the Rev. Daniel Lord, and the Elders, Richard Spear, Harman Hallenbeck, Gilbert Wemple, Thomas F. Mesick, F. P. Bellinger, A. J. Schuyler, and A. Hees, were absent without permission.

The Minutes were read and approved.

Mr. Matthew B. Riddle, Resident Licentiate.

Mr. Hutton, of the Senior Class, entered by dispensation of Synod, he having pursued his studies two years previously in the Union Theological Seminary of New York.

Mr. L. C. Rogers is a preacher in the Seventh-Day Baptist denomination, but has passed through our whole course, and with great ac-

ceptance to the Faculty.

Mr. John Scudder has been absent by dispensation of Synod during a portion of the year, attending medical lectures in New York. He has, however, by great diligence since his return, made up to a considerable extent for the time lost by absence.

Mr. Warner, according to the advice of Synod, entered the Seminary, and in view of his age, besides his having been a licentiate in another denomination, was advised by the Faculty to take the course of the senior year. His case has been referred back to Synod, with testimonials as to his piety and orthodoxy.

Mr. Frazee, of the Middle Class, is a member of the Presbyterian Church. He has attended to all the English studies of the institution, and has been licensed to preach by the Presbytery of New Brunswick.

A communication, received by the Professors from the Elders of the Church of Graafschap, in the Classis of Holland, was transmitted to the Board, asking that Mr. R. Pieters might be permitted to leave the institution at the close of the present seminary year, and become their pastor. Mr. Pieters is unwilling to move in the matter, and prefers that the Board of Superintendents should decide whether any movement for a dispensation shall be made. The Faculty state that they have entire confidence in the piety, ability, and sound judgment of Mr. Pieters, and were he at once put into the ministry would have no fear as to the result.

Upon the foregoing the following resolution was passed: That the case of Mr. Pieters be referred to General Synod, with the recommendation of this Board that the dispensation contemplated in his case be

granted.

The Faculty report with gratification that the health of the students has been unusually good. Their diligence, attendance, and general conduct have been very commendable and satisfactory. They also report a very encouraging exhibition of the missionary spirit; in the fact, that five of the Senior Class have offered themselves for the foreign field. One of these has been advised by his physician to withdraw his offer, on account of the state of his health. Four others have devoted themselves to the service of the Domestic Board in the West.

The Board feel called to congratulate Synod on the foregoing facts concerning the number and the spirit of consecration of the students.

Our thanks are due to the Great Head of the Church for the measure of prosperity granted to this agency for the education of a

pious and efficient ministry for the Church.

The questions directed by Synod were put to the students, with reference to their preaching otherwise than under the special cases of exception mentioned in Synod's resolutions. The Board regret the necessity of reporting that the rule of Synod was confessed to have been broken by all but two members of the Senior Class, and by seven members of the Middle Class. The names of those transgressing are Messrs. Baay, Ballagh, Berry, Collier, Gulick, Jones, Miller, Peek, Scudder, Talmage, Watkins, Wortman; Middle Class: Messrs. Blauvelt, Krum, Miller, Pieters, Vandermeulen, Vanderveen, and Wilson.

The examinations of the several classes were well sustained. All the members of the Senior Class were recommended for the usual professoral certificate, except Mr. Warner, who, in view of the necessity of obtaining a dispensation from Synod, was recommended for a quali-

fied certificate.

The annual sermon was preached by Rev. D. H. Riddle, D.D., from Romans 1: 18.

The address to the students was delivered by Rev. O. H. Gregory, D.D.

It was resolved to extend the sessions of the Board to Thursday evening, to afford time for more extended examinations.

A letter was received from the Faculty, informing the Board that

Rev. F. M. Kip, D.D., had just presented to the Seminary a beautiful portrait of Rev. Dr. Livingston.

The Board adopted the following minute, it being understood that Dr. Kip had presented the portrait on behalf of the family of his late revered father:

"The name of the Rev. Dr. John H. Livingston is very intimately associated with the history of the Reformed Dutch Church in America. It is a name which will always have a sweet fragrance with all who feel any interest in the maintenance and diffusion of evangelical piety on this continent. It is therefore with feelings of peculiar gratification that the Board of Superintendents have received an excellent portrait of Dr. Livingston from Rev. Francis M. Kip, D.D.; and hereby express their grateful acknowledgments of this memorial of a father in the Church, who is so extensively known, and so highly appreciated."

The Board having been deprived sometimes of the presence and eounsel of members for want of secundi to take the place of primarii, who are hindered from coming, recommend to Synod to authorize hereafter the appointment of a member primarius, and a secundus for each Classis.

All which is respectfully submitted.

ARTICLE IV.

BOARD OF CORPORATION.

The following Report of the Board of Direction of the Corporation was received, accompanied with the Treasurer's Report, the Annual Digest, a list of the Securities held by the Board, a list of the endowed Scholarships, a list of the Clerical Subscribers to the Widows' Fund, and accounts current of said Board with the Widows' Fund and the Board of Education, together with the Report of John C. Elmendorf, Esq., Treasurer of Rutgers College, in relation to the Van Benschoten and Knox Funds.

To the General Synod of the Reformed Protestant Dutch Church:

The Board of Direction respectfully report, that the storehouse of their Treasurer was consumed by fire on the third of January last, and that some of the books and papers of Synod were destroyed, and others injured. It is, however, supposed that no inconvenience will arise therefrom, as most of them were very old, and possessed no pecuniary value.

A deed of Charles P. Dayton and wife, and a deed of Frederick Van Dyke and others, conveying to General Synod portions of the ground connected with Hertzog Hall, have been deposited with the

Board.

The Board have received from Garret S. Smock, executor of the estate of Daniel J. Schanck, (deceased,) late of Monmouth Co., N. J., the sum of three thousand dollars, being the amount of a bequest of said Daniel J. Schanck, to the General Synod, the interest of which is to be applied to the support and education of pious indigent young men preparing for the Gospel Ministry.

On application, the Board have given their consent to the closing

of the street immediately in the rear of the Holland Academy.

In accordance with the resolution of General Synod, in 1854, the Board have executed a quit-claim deed releasing the interest of General Synod in the Church property corner of Broome and Greene Streets, and have transferred that interest to the property lately purchased by the Consistory of the Broome Street Church on the North side of 34th Street. And this lien of General Synod upon their new property renders the favorable action of Synod necessary to enable the Consistory of that Church to carry out their wishes as contained in their application to General Synod, herewith transmitted, at their request, to your venerable body.

The Board have sold the property in Moreau, Saratoga County, being part of the proceeds of the estate of the late Moses Cowan, for \$1,200, which will be invested in behalf of the Board of Education.

Five hundred dollars have been withdrawn from the Widows' Fund, to which there are now only eighty-two subscribers, and which at this time amounts to \$17,094.11.

The amount of collections from Churches, &c., for this fund during

the past eleven months is \$328.19.

The amounts paid to the several annuitants for the last six months ending on the 1st day of November last were considerably smaller than those paid them in former years. This was caused by three of the subscribers to this fund withdrawing what had been paid by them into the fund, amounting in the aggregate to \$560; and as this amount by the rules of the fund is taken from the income to be distributed to the annuitants, it left so much less to be divided among them. The annuitants are always subject to such contingencies, and to such variations as necessarily arise from the fact that the income for distribution arises from the interest accruing from the invested funds and from the annual payments of the yearly subscribers.

In relation to the contingent expenses of General Synod, the Board deem it necessary to present a much longer and more detailed report

than usual.

The contingent expenses for the eleven months ending April 30th, 1860, amount to \$1,555.34, and the amount received from the Classes to meet this expenditure is \$1,136.65, leaving a deficiency of \$418.69. If Synod will examine the Minutes of 1859, they will find the contingent expenses of that year set down at \$2,000, and the amount received from the Classes \$988.96, leaving a deficiency that year of \$1,011.04. Synod, therefore, cannot be surprised when your Board state that on account of the lack of funds the bills of Peter Wyckoff for \$11.09, of J. C. Bergen for \$109.77, and the bill for translating the Minutes of the old Cœtus, amounting to \$150, and a balance of \$130.10 due Rev. Dr. Bethune for his valuable services, remain unpaid; and also that there are no funds in the hands of the Treasurer to pay the delegates attending the present Synod—none to pay the expenses of Synod now in session, and none even to pay the salary of the Stated Clerk.

Your Board have done all that was in their power to obviate this difficulty, and in compliance with the resolutions adopted by General Synod at their last meeting, the Board has commenced the effort to obtain a Permanent Contingent Fund. Believing that the object could be accomplished without being felt burdensome by the Church,

and without recourse to the employment of agents out of this city, and at the same time an interest in the affairs of the Church be created in the minds and affections of all our people, the Board endeavored to enlist the co-operation of our ministers and their Consistories, out of the City of New York, by requesting them to collect from their respective congregations an amount equal to the very small sum of one dollar from each family reported by them, as enumerated in the summary view of the Church contained in the printed proceedings of the last meeting of the General Synod. They hoped that the smallness of the amount named (being less than two cents per week for a family for one year) would commend it to the favor of every pastor in our Church, and secure his cheerful assistance in obtaining his portion of the desired Fund at an early day, and thereby save the Church the expense which would necessarily be incurred if it should become indispensable to resort to the employment of agents. such views, and indulging in such hopes, circulars have been addressed to a large portion of the ministers located out of this city. may be the intentions of the greater portion of the ministers to whom the circulars have been addressed has not as yet appeared, as out of upwards of 240 circulars issued several months since, only a little over one-fourth in number of those to whom they were sent have complied with the request for an answer. From the replies which have been received, they regret to say, a few have declined participating in the Six, however, have cheerfully responded, two of them in full, and four in part, and many of the others have given encouragement to hope that they also will soon contribute their quotas to the fund. Waiting for the action of the Churches addressed, no especial efforts have been made in this city, (except that one member of the Board has commenced laboring for the object in one of our churches,) and when they shall have heard from those Churches, they will be better able to determine upon the necessary measures to be taken here. order that those Churches which have contributed in whole or in part, and also those which may hereafter contribute to such fund, may be placed upon an equality with those which may not participate in forming it, it is proposed to allow the interest received on the sums paid in, in response to the circulars, to the credit of such churches, and thereby relieve them to the amount of such interest in the annual assessment by their respective Classes for the contingent expenses of General Synod-while the interest on the contributions otherwise obtained will be accumulated until the whole amount of the fund is obtained.

The indispensable necessity of securing at an early day such a fund, the interest on which shall meet the current expenses of General Synod, or of Synod's taking some decided action by which the necessary funds may be regularly and promptly provided, will be perfectly apparent by an examination of the accounts of the Treasurer, which will show that while \$1,555.34 have been paid for contingent expenses, there are several claims against Synod, amounting to \$400.96, which Synod at its last meeting directed to be paid, but which, from want of the

requisite funds, the Treasurer has not been able to pay.

This condition of the Treasury, so different from that which existed when making their report for the year ending 31st May, 1859, requires an explanation, that Synod may understand how the difference has oc-When the majority of the present members of the Board entered upon their duties, in June, 1858, they found in the Treasury an undesignated balance of \$2,732.42, which had been accumulated in some way not shown by the books. Upon diligent investigation, they subsequently discovered that a part of it was the accumulations upon part of the funds of the Board of Education, and they at once added \$769.70 of the amount to the Maria Freeborn scholarship, which completed the required sum to establish a scholarship, and the balance of the interest which had accrued on the original investment to 31st May, 1859, amounting to \$11.50, was credited to the income of the funds. In addition, \$184.20 was added to the amount previously received on account of the legacy from Moses Cowan, as interest thereon, to the 31st May, 1859; showing that \$965.40 of the accumulation belonged to the Education funds; also, \$247.57 of the sum was added to the principal of the Widows' Fund, where it belonged. Deducting said sums from the undesignated balance, the sum of \$1,519.45 remained, from which the deficiency in the receipts for contingent expenses was taken to meet the expenses of the year ending 31st May, 1859, and as a necessary consequence, the funds appeared ample at the time of making their last report.

During the financial year, which, by direction of Synod, closed on the 30th April last, the receipts for expenses were, as already stated, insufficient to meet those expenses, and of necessity, several claims had

to remain unpaid.

Of the assessment of \$1,800 for the year, made by the Treasurer and Stated Clerk, as directed by Synod, the following were the only Classes which paid their quotas in full, viz.:

From the foregoing exhibit of the backwardness of some of the Classes to meet promptly their proportions of the annual expenses, and the entire want of funds remaining from former years, together with a debt to commence the financial year upon which we have just entered. the prospect before the Board is anything but pleasant, and they feel convinced that Synod will readily perceive the necessity for immediate remedial measures by which their obligations may be punctually met. and the credit of Synod be maintained. From an examination of the preceding, it will be seen that there are only three Classes from which nothing has been received during the past two financial years, and that in addition to those there are only three others that are still indebted for part of their quotas for 1858, and of the whole for 1859; and the remainder are for part for 1859, except one, which is indebted for the whole amount. Could those Classes which are still behindhand be induced to discharge their indebtedness at once, and all the Classes hereafter pay the annual assessments upon them at the opening of each financial year, the Board would be enabled to pay each obligation as it matured.

From the difficulties with which some of the Classes have doubtless to contend in obtaining the very limited amount which each church is required to contribute towards raising the annual assessment, it would appear reasonable to suppose that every one of our pastors, and each Consistory, would desire to save themselves from the necessity of repeating the same operation every successive year, and would readily and cheerfully make a prompt and vigorous effort to secure a fund, ample for the object, at an early day; and that if they found it impracticable to comply with the request of the Board, as contained in the circular, in obtaining the sum designated for their particular church by personal solicitation, they would, while continuing their portions of the annual assessment, also make quarterly, semi-annual, or annual collections towards the fund, until the requisite sum is paid over to the Treasurer.

Before leaving the subject of providing for expenses, the Board feel themselves necessitated to call the attention of Synod to their action at their last meeting in relation to the Holland Academy, as embraced in the Report of the Committee on Education, which was accepted and adopted by Synod. In their report the committee say: "The Holland Academy is now legally in possession of Synod, as much so as the Theological Seminary; and it would therefore seem to be just that hereafter the teachers and professors should hold their appointment from the General Synod, and derive their support from its treasury."

From the opinion thus endorsed, it is possible that at an early day General Synod may be called upon for action; the Board would therefore suggest the propriety of ascertaining where the necessary funds are to be obtained to defray the salaries and other expenses incidental to the ownership and possession of the property, before any measures are taken by which a claim may be made upon the treasury. At present there are no funds to meet such obligations, except the income derived from some bonds of Holland Township, which were given for the benefit of said Academy, and which, while used, is insufficient to pay the premium of insurance upon the building.

The title to the Academy grounds being now in General Synod, it will become necessary to make application to the Legislature of Michigan to confirm such title, and authorize the Church to hold real estate in that State; the Board therefore suggest the propriety of Synod's

authorizing them to make the necessary application.

They would also allude to the subject of the parsonage premises of the Church of the Thousand Isles, the deed of conveyance for which Synod, at their last meeting, authorized the Board to receive. The deed for said property has not yet been received by the Treasurer. When the title becomes vested in General Synod, there will doubtless be an addition to the expenses, as it will be expected the Board will keep the buildings insured; and should repairs become necessary, the cost thereof, in all probability, will be expected to be paid from the resources of Synod.

The Treasurer's Report, herewith submitted, exhibits in detail the

state of the funds belonging to the Synod.

All which is respectfully submitted.

THEO. FRELINGHUYSEN M. S. HUTTON, P. R. WARNER,

JOHN I. BROWER, Treasurer.

So much of the above Report of the Board of Direction and accompanying documents as relates to the Widows' Fund was referred to the Committee on the Widows' Fund; so much as relates to the Board of Education, to the Committee on Education; and the residue to the Committee on the Professorate.

The Committee on Nominations having reported, Synod proceeded to the election of the Board of Direction of the Corporation. counting the ballots, it appeared that the following were chosen: Mr. William B. Crosby, President; Rev. Maneius S. Hutton, and Messrs. Peter R. Warner, Theodore Frelinghuysen, Directors; and Mr. John I. Brower, Treasurer.

ARTICLE V.

CORRESPONDENCE.

A letter was received from the Vaudois Eglisé, which was referred to the Committee on Correspondence.

A memorial of the inauguration of the Theological Seminary of the Reformed Dutch Church of South Africa, in Stellenbosch, on the first of November, 1859, was received through Rev. Mr. Faue, Stated Clerk of the General Synod of the Reformed Dutch Church of South Africa, which was referred to the Committee on Correspondence.

The Rev. William M. Scott, D.D., of the Presbyterian Church, appeared in Synod, and having produced testimonials of his appointment, took his seat, as a Corresponding Delegate from the General Assembly of the Presbyterian Church in the United States.

The following report was received from the Rev. John De Witt, the delegate of the Synod to the General Assembly of the Presbyterian Church:

The undersigned, appointed, by the last General Synod, Corresponding Delegate to the General Assembly of the Presbyterian Church, would respectfully report, that he had the pleasure of attending the recent session of that body at Rochester, N. Y.

He was received with great kindness, and bidden to bear to the General Synod a cordial reiteration of past assurances of affection and confidence, and of the satisfaction with which they regard and cherish this correspondence.

JOHN DE WITT.

Millstone, N. J., June 5th, 1860.

Certain documents were received from the Free Church of Scotland, which were referred to the Committee on Correspondence.

The Committee on Correspondence reported, and their report was adopted, and is as follows:

The Committee on Correspondence report, that they have carefully attended to the following subjects intrusted to them, viz.:

I. A reference from the Classis of Greene, asking an expression of the opinion of this Synod on the subject of union in efforts to advance religion with denominations differing from us in their doctrines and usages.

II. Two pamphlets from the Free Church of Scotland: the one being a report of their Foreign Missionary enterprise, and the other of their Colonial Mission.

III. A letter from the Church of the Waldenses. Concerning them, they propose the following action to the Synod: That the reference from the Classis of Greene be answered by the following resolution:

I. Resolved, That while this Synod does not depart from its uniform practice of making no declaration of abstract principles, it leaves the subject of union with Christians of other denominations, in their efforts to promote revivals of religion and the edification of the Church, to the prudence of ministers and Consistories, with the advice that they take care that the attachment of the people to our doctrinal standards and our usages be not impaired.

II. That the Synod express their grateful sense of the courtesy of these bodies; that the publications be placed in the Library of the Theological Seminary at New Brunswick, and that the courtesy be reciprocated by sending to the General Assembly of the Free Church of Scotland a copy of our Minutes for the current year, and of such

Reports of our Boards as are published separately, and to the Reformed Protestant Dutch Church of South Africa the documents just named, with the General Catalogue of the Theological Seminary.

III. In reply to the letter from the Waldenses, the following letter

is respectfully submitted:

To the Moderator and Synod of the Church of the Waldenses:

Dear Brethren—Your letter, written under the pressure of sore trials, and in anticipation of deeper sorrows, has been laid before us. We thank our God that your faith, "spoken of throughout the whole world," sustained you in the solemn and critical period through which you have passed.

It gratified us to be informed that in your troubles, "after looking to your God you turned naturally to us," as to brethren who ever make mention of you in their prayers, and would be your helpers in the work

of the Lord.

The sympathies of our ministers, elders and members, who watched the course of the war, were deeply enlisted in your behalf, and prayer was offered for you. Though, as the information received by the mass of the people respected other aspects of the war, and other places in the march of the armies, the interest in you was not as general or as deep as we could have desired. We recognize in you a brotherhood of a common faith, which you have preserved through many trials for us and for others, and which will be found to be good seed for ground prepared of the Lord, and produce fruit to the glory of his name.

We rejoice with you in the return of peace; your prayers have been heard, and your mourning has been turned into joy. In this event is cause to hope that the desires of your hearts may be at length granted, and that new doors may be opened for the Gospel. May the light of truth, which has been so wonderfully preserved among you, soon be diffused throughout Italy, and the restrictions which have so long impeded your progress be removed, so that you may contribute largely to the triumph of our Lord. In this good work our hearts are with

you, and our hands will be opened for your aid.

The Saviour—Head of the Church—has dealt very kindly with us. Our Missionary enterprises, both foreign and domestic, have been greatly prospered, as well in the increasing numbers of men offering themselves to the work, as the enlarged contributions from the churches for their support. Our Theological Seminary was never more prosperous than at present. This is true of all our benevolent enterprises, and God is not leaving our churches without tokens of his Spirit's presence. In these circumstances of great joy, we need your prayers that we may meet our increased responsibilities worthily of him who has called us into his kingdom and glory. Brethren, pray for us.

Grace be with you, and peace from our Lord Jesus Christ.

H. N. WILSON, Chairman of Committee on Correspondence.

The Committee on Correspondence having reported a double number of persons from whom to elect delegates to the General Assembly of the Presbyterian Church, Synod proceeded to the election, when the following were chosen: Rev. Abraham Messler, D.D., *Primarius*, and Rev. R. Ormiston Currie, D.D., *Secundus*.

ARTICLE VI.

SYNODICAL REPORT ON THE STATE OF THE CHURCHES.

In conformity with the standing regulation, the Synod spent a part of the afternoon of the first day of the session in religious exercises, conducted agreeably to a plan previously reported by a committee for that purpose, consisting of Rev. Messrs. J. B. Alliger, Richard H. Steele, and the Elder, Samuel B. Schieffelin.

Resolved, That the subject of making arrangements for the observance of the Sacrament of the Lord's Supper be referred to the Committee appointed on the Devotional Exercises of the Synod.

Resolved, That a prayer-meeting be held in the Consistory Room of the Church, between the hours of 8 and 9 o'clock, A. M.

Certain resolutions on the subject of intemperance were presented, which were referred to the Committee on the State of Religion.

The Committee on the State of Religion reported, and their report was accepted, adopted, and is as follows:

The Committee on the State of Religion would respectfully present the following:

Last year's Report on the State of Religion opened with an utterance of gladness, almost of exultation. The Spirit-pouring right hand of Jehovah, the Lord, had been signally displayed in all our bounds; and from the churches, with hardly an exception, voices of joy and thanksgiving for the mercy-showers which had copiously fallen, made music to the hearts of God's children, like that of the morning stars at the beginning.

The report of this year must open in a less jubilant tone, indeed, but one very far from being dismal or despondent. Though the mighty, rushing wind, blowing, as at Pentecost, where it listeth, has been followed by a comparative calm, the calm is not that of the lifeless body or the stagnant pool. On every side are evidences of freshness, and fertility, and genial growth, after plenteous, much-needed rains—ears of corn waving in the sunshine, promising a generous harvest when the fruits shall have had time to reach maturity.

The reports from the various Synods speak almost a uniform language. There has been no wide-spread outpouring of God's Spirit this year within the limits of our Church. Individual churches in several localitles have been specially favored, indeed; but these cases are

exceptional. In the great majority of cases, instead of large numbers being gathered into the Church, as in former years, the heavenly blessing has shown itself in a smaller, though steady and hopeful increase—in the enlarging attendance, in many cases, on the sanctuary services, on the faithful preaching of the doctrines of the Cross; in the harmony and peace which have continued to prevail; in the growing fidelity with which the interests of the children and youth have been cared for and cherished; in the strengthening hold which our charitable institutions are taking on the heart of the Church, as testified by the earnestness, and, in some instances, unwonted liberality shown in their support; and in the intense yearnings which, looking beyond the little limits of a single land, go forth, to seek out souls and save them, into all the world, which the Messiah's own mandate made, to the end of time, the missionary field of his Church.

These are not slight things; they are greatly important; they are greatly significant. They show that, though especial revival seasons have been absent, the Divine Spirit, giving life and activity, has been They indicate that Zion is awake to her position, and recognizes more and more the new responsibilities imposed by the special mercies which the churches have lately enjoyed from God's reviving They show, too, that where a genuine revival visits the churches, its highest and most beneficent results are not immediately apparent, but remain to be developed more fully by-and-by, perhaps in the far-When multitudes are born into Christ's kingdom as it were in a day, and the Church welcomes, as she always must, the crowds that enter her gates with rejoicing, the rapture of the hour may lead her to feel that this, of all others, is the time of the Church's palmiest prosperity, of her greatest beauty and strength. But the conclusion is often a hasty one. The fervor of aroused feeling will be apt to sub-The voices of numbers entering God's kingdom with shoutings will cease to thrill the universal heart as they did at first. The time of sober, every-day, life-long work, and praise, and prayer, has come. The seed fallen in shallow soil, springing up rapidly, will wither and die, because unable to resist the scorehing sun and the fierce blast. will reach a dwarf growth at best; while the true plant of the Lord's planting will strike its roots deeper and spread its branches wider, bearing fruit richer and in more abundance, till, after years of fertility on earth, God's hand transplants it, to flourish a fruit-bearing tree forever in his paradise on high.

Judged by this test, our churches show that God has blessed them exceedingly—in the precious revival showers of the past months, and the large accessions made to the number of disciples. And as what is well rooted will be strong, the added strength of these new converts must be felt in every department of Church life and Christian enterprise. And when we learn, as we do from the reports this year, that the prayer-meeting is unusually well attended, and the house of the Lord on the Sabbath better filled; that deeper attention marks the reception of the Word preached; that the communion list is recruited by new names—two thousand five hundred and seventy-nine persons, more than

half the number of last year, having been received on confession of their faith—when we see that growing interest is felt in Sunday-school instruction, in education, in missions, and other causes, as evinced by important individual donations, and a freer scale of benevolence among the churches—several thousand dollars more being given to foreign missions this year than any former one—when we see the disposition to respond more heartily to appeals for money and men to be sent to the destitute myriads around us, we recognize in these signs the benign fruits of the years of the right hand of the Most High, and bless God for all that we have seen and now see, and take courage to press forward towards a higher spirituality and a more Paul-like consecration.

But sin is not dead yet, though so many sinners have been reclaimed through Christ's mercy. Large as the number is that the Church has gained from the world, it is but as a drop from the bosom of the vast ocean of iniquity. The earth is still filled with wickedness. In lands covered over with Christian temples, whose myriad spires point heavenward, where the Bible pours its light, and thunders its wrath against the despisers of God, vice and God-defying iniquity walk abroad with unblushing front. The voice of blasphemy makes the ear to tingle in every street, and lane, and corner of the land. The holy Sabbath is defiantly profaned by throngs who shun the sanctuary, and go forth seeking their own pleasures, on the day of the Lord. Fraud and corruption no longer peep timidly forth from lurking-places, but show their unsightly visage boldly, in high places, amid halls of legislation, in centres of trust and responsibility, and in courts of justice. wonder that in subordinate positions, and through the various ramifications of business-life and work-day activity, the fatal example should be followed, and the demoralization go forward on a terrific scale!

Intemperance continues to number its wretched victims by scores of thousands, while the subtle poison of its enticements is diffusing itself through the veins and arteries of society, while the manifold evils that march in its train—improvidence, sensuality, discord, thefts, murders, suicides, and crimes of every name—defile, and ruin, and spread desolation everywhere. Loose moral and religious principles—sentiments we should more properly call them—concerning God and his revealed Word, and man's position and responsibilities, are sadly prevalent too, striving to substitute a wretched humanitarianism for Christ and his Cross, and man's shifting and capricious notions of right for the great unalterable standards set up by Him who is the same to-day, yesterday, and forever.

These and such like deadly influences insinuate themselves into the Church, to ensnare and destroy, if it were possible, God's very elect. They bear fruit after their kind, begetting, where they can, distrust of the divine sanction of Christian ordinances, a lurking skepticism in regard to the obligation of Christian principles, human policies to strengthen and expand the Church and advance Christ's cause, in preference to the patient, prayerful use of the simple but sublime means which God has ordained for saving souls, and the belief that external conformity to certain self-devised and self-expounded laws may fitly explode the

everlasting rule and way of life—"Believe in the Lord Jesus Christ, and thou shalt be saved."

In view of this wide-spread and desperate depravity, this rampant preponderance of vice and immorality on every side, how small seems the impression that the Church has produced during all the centuries of her existence! How little the comparative result of the many thousands which the Great Revival has gathered into her communion! The work of Christianizing even Christian lands seems but just begun, the triumph of truth, if the victory over principalities, and powers, and spiritual wickedness in high places, lay with man, the prospect must appal the boldest heart, and we must give over the unequal contest in despair. But the weapons of our warfare are not car-The rock on which the Church rests is not like that which supports those who fight against God. The strength of the Church, blood-bought and Christ-defended, is in her weakness, so far as human might and wisdom are concerned. She has promises great and precious to cheer her. The militant host has a Captain of Salvation to lead it on, whose wisdom is unfailing, whose resources are exhaustless, whose plans are infinite, whose purposes of mercy towards a revolted race neither man nor hell can overturn; whose right hand can dash nations, like a potter's vessel, in pieces; and whose pledge has been given to a world redeemed, that he will ride forth in the chariot of his Gospel, conquering and to conquer, till his foes shall have become his footstool, and the kingdoms of this world shall have become his own ransomed and glorious kingdom forever.

Our hope, then, cannot flag. Our faith has just this foundation to rest upon—Christ in the Church, Christ over the Church, Christ never absent from the Church, prescribing and furnishing her resources, pouring fresh life into her veins, prompting her counsels, directing her energies, imbuing her with faith, courage, endurance, self-denial, bidding her fear nothing, but go forward to reap the great conquests which surely await her. In these words, "go forward," leaning confidingly on the arm of the Beloved, lies the whole duty of every church and every member of our communion. Let every one, minister and member, do all he can, in the toils and example of an unswerving devotion to the Master's cause, and the end of labor will be an endless rest of

the people of God.

Among the sins and evils already specified as making up the body of social and national immorality, the evil of intemperance has been singled out and made the subject of a special reference to your Committee, on the ground that the increasing ravages of this evil demand active interposition on the part of all the friends of morality and religion. Reference is also made to this evil in the close of the Synodical Report of the Particular Synod of New York, setting forth that intemperance is on the increase, and that young men are found oftener than formerly in haunts where the force of this temptation is apt to be most deadly. That the evils of intemperance are huge and threatening is undeniable, and equally so that the servants of Christ, and friends of good order and morality, should labor and pray for their abatement

and removal. But while no difference of opinion exists in regard to the character and dimensions of the evil, there is a difference in regard to the best mode of bringing Church action to bear upon it. The Gospel contains the great remedy for this, as for all other moral diseases; and where it is applied in all the fullness of its potent adaptations, temperance, and purity, and peace will be apt to stand forth to attest its reformatory power. Your Committee, without attempting to prescribe any specific plan of operations for the practice of the churches touching this evil, would recommend our ministers and elders, each in his own sphere, and with such ability as all may be able to exert, to bring the power of the Gospel to bear against this giant evil, and with an earnestness proportioned to its magnitude and the tenacious hold it has taken on the community.

A reference, also from the Classis of New York, has been placed in the hands of your Committee, suggesting to the Synod the propriety of so altering the Synod's statistical tables as to omit, because unnecessary, the columns entitled "Total of Congregation," "No. of Members in Communion per last Report," "No. of Sabbath-Schools," and "Total No. of Scholars." Your Committee regard the alteration as one that is fit to be made, and recommend it accordingly.

Nature and time hold on their course, while death is ever thinning the ranks of the living, to swell the "innumerable caravan" of the dead.

In the necrology of our ministry for the year, are the names of the Rev. Drs. William C. Brownlee, Maurice W. Dwight, James Romeyn, Philip M. Brett, the Rev. William Youngblood, the Rev. Israel Hammond, and, since the Classical Reports were presented, the Rev. Aaron A. Marselus. Among these are some of the brightest and most honored names in our Church's annals—names of men eminent for learning. for pulpit power, for pastoral fidelity, and beloved for unaffected piety. personal excellence, and untiring devotion to the work of winning souls. Having finished their course, and kept the faith which they gloried to proclaim, they are sleeping the sleep of the good Lord's beloved. Their works follow them; their patient endurance in well-doing, their trust, and hope, and fidelity, speak to us, and bid us be faithful unto death, that no man may lose the promised crown. Let us heed their counsels, follow them as they followed Christ, and be ready, when the summons comes, to lay aside the harness, and go up to join the triumphant songs of the general assembly and church of the first-born in heaven.

Respectfully submitted.

C. VAN SANTVOORD, Chairman.

Some of our Churches have contributed largely, according to their means; the Chittoor Church having given during the past year, for different purposes, a sum not less REMARES.—The sums under the head of Contributions for Religious and Benevolent Purposes include both what the Missionaries and Native Christians have given. than 80 or 90 Rupees, while the Church at Coonoor has contributed still more. All our congregations are detained and catechised after the close of the morning service, or immediately preceding the afternoon service, which takes the place of Sabbath-schools. Ministers without Charge.—Rev. E. C. Scudder, Rev. J. Mayou. The Rev. E. C. Scudder had charge of the Chittoor Church till May, since which time he has resided at Palmanair, where a church is soon to be organized. The Rev. J. Mayou is residing at Arnee.

SYNODICAL REFERENCES.

The Committee on Synodical Minutes reported, and their report was accepted, adopted, and is as follows:

The Committee on Synodical Minutes report:

That on a careful examination of the Minutes of the last General Synod, and of the Particular Synods of New York, Albany, and Chicago, they find the following items, which seem to require the action of this Synod:

On page 47th of the Minutes of the Particular Synod of New

York, are the following extracts and resolution:

From the Minutes of the Classis of Westchester.

"Resolved, That this Classis will cheerfully pay any reasonable assessment to defray the current yearly expenses of General Synod, which that reverend body may impose, but consider it a burden to bear the delinquencies of the non-paying Classes."

From the Minutes of the Classis of Raritan.

"Resolved, That this Classis will pay the assessment of General and Particular Synods at this time, and that our delegates be instructed to inform General Synod that it objects to the payment of the share of the arrearages created by the delinquency of other Classes who neglect to remit their annual dues to the Treasurer of General Synod."

"Resolved, That the extracts from the Minutes of the Classes of Raritan and Westchester, in relation to the assessments for the contingent expenses of General Synod, be referred to the General Synod."

The Classis of New York presents the following resolution:

"Resolved, That in view of the crowded state of the columns of the Statistical Table in the Minutes of General Synod, this Classis respectfully refer to the General Synod the propriety of dropping, as unnecessary, the columns entitled, Total of Congregation; No. of Members in Communion per last Report; No. of Sabbath Schools; Total No. of Scholars."

On page 24th of the Minutes of the Particular Synod of Albany, we find the following resolution, referred to this Synod:

"Resolved, That a Special Committee be appointed to define specifically the meaning of Questions 2, 3 and 4, in Chap. 3, Article 3, Section 8, of the Constitution, so that there shall be uniformity in the action, and the answers of the Classes with reference to them."

On page 16th of the Minutes of the Particular Synod of Chicago, is the following resolution:

"Resolved, That inasmuch as there is a deficiency of one Elder in the formation of a quorum, this Particular Synod requests the General Synod to grant the necessary dispensation." On page 18th of the same, is the following resolution, adopted by "a unanimous vote:"

"Resolved, That in the judgment of this Particular Synod, the time has come when some executive power, resident in the great field of Western Church extension, is imperatively demanded by the dearest interests of the whole Dutch Church, and by the common cause of Jesus Christ; and we therefore respectfully request General Synod to consider the necessity of appointing a Western Executive Committee of the Board of Domestic Missions, to enjoy equal powers with the Executive Committee now existing in the East.

Respectfully submitted.

V. M. HULBERT, Chairman.

Resolved, That so much of the above report as relates to the subject of assessment, in relation to the Contingent Expenses of General Synod, be referred to the Committee on the Professorate.

Resolved, That so much as relates to the Statistical Tables be referred to the Committee on the State of Religion.

Resolved, That so much as relates to certain questions in the Constitution be referred to the Committee on Overtures and Judicial Business.

Resolved, That so much as relates to a dispensation in consequence of the want of a quorum, be referred to the Committee on Overtures and Judicial Business.

Resolved, That so much as refers to the appointment of a Western Executive Committee be referred to the Committee on Domestic Missions.

The Committee on Overtures and Judicial Business reported, and their report was accepted, adopted, and is as follows:

The Committee on Overtures and Judicial Business respectfully report:

That from the Particular Synod of Albany there is a reference to the General Synod, requesting a definition of the meaning of Questions 2, 3 and 4, in Chapter 3, Article 3, Section 8, of the Constitution.

The committee find that Chapter 3 of the Constitution contains but one Article, and in that there are no questions as referred to by the Particular Synod of Albany.

The committee ask to be discharged from the further consideration of that subject.

From the Particular Synod of Chicago the following resolution has been referred to your committee:

"Resolved, That inasmuch as there is a deficiency of one Elder in the formation of a quorum, this Particular Synod requests the General Synod to grant the necessary dispensation."

Your committee respectfully submit that it is not in the power of the General Synod to grant the dispensation asked for.

SCHOOLS AND CHRISTIAN EDUCATION.

The Twentieth Annual Report of the Board of Sabbath-School Union was received, read, and referred to the Committee on Education.

The Treasurer's Report of the Board of Sabbath-School Union was received and referred to the Committee on Education.

The Twenty-eighth Annual Report of the Board of Education was received and read, and so much of said report as relates to the appointment of teachers for the Holland Academy, and their salaries, was re-

ferred to the Committee on the Professorate, and the residue to the Committee on Education.

A sermon was delivered on the fifth day of the session by the Rev. G. H. Mandeville, on behalf of the Sabbath-School Board, from Lamentations, ii. 19: "Arise, ery out in the night; in the beginning of the watches pour out thine heart like water before the face of the Lord; lift up thy hands towards him for the life of thy young children that faint for hunger in the top of every street."

The Committee on Education reported, and their report was accepted, adopted, and is as follows:

Report of the Committee on Education, presented to General Synod June 12, 1860.

The Committee on Education have carefully examined the papers placed in their hands, and beg leave to present the following report:

I. Board of Education.

The report from this Board informs the Synod of the severe and protracted illness of its Secretary, who has been cut off from all pulpit duty during most of the year, and for the last six months, even from attendance at the office. He has, however, been so far restored as to be able to resume the full discharge of his official duties. Your committee feel that the Synod has reason to rejoice in the kind Providence which has continued to the Church his faithful services. During the illness of Dr. Cornell, the Rev. J. L. McNair filled his place, and has performed his duties with a degree of energy, promptness, and efficiency that has secured to him the cordial thanks of the Board.

Owing to the change made by the last General Synod in the time of closing the fiscal year, the report covers a period of only eleven months. This accounts, in part, for the fact that the receipts for educational purposes from Churches and individuals are stated to be but \$9,782.14; less by \$3,800 than they were last year. When, in addition to this, it is remembered that the labors of the Secretary among the Churches were so seriously interrupted during the year, we think there is reason to consider the report in its financial aspect as on the whole encouraging.

Although the fear of embarrassment led the Board to pass a resolution declining to receive any new applicants, yet so far no young man, regularly recommended, has been refused, nor has any student been compelled to relinquish his studies for want of supplies from the Treasurer. The existing pecuniary deficiency, it is thought, will be only temporary.

The generous bequest of Mr. Daniel J. Schenck, of Monmouth Co., N. J., amounting to three thousand (\$3,000) dollars, was paid over in June last to the Board of Corporation, and the proceeds are now applied to the support of beneficiaries. A munificent donation of ten thousand (\$10,000) dollars, by Mr. James Suydam, of New York City,

has also been available since the 1st of January last, for the same purpose. May the blessing of the Head of the Church follow these noble benefactions to the cause of education.

During the past year there have been 84 candidates on the list, of whom 6 have pursued their studies at the Holland Academy. Great carefulness has been observed by the Board in the preliminary examination of candidates, and a kind supervision has been exercised over their progress. The Board refers with pleasure to the general circumspection in deportment and diligence in study of the students under their care.

The cause of beneficiary education for the sacred ministry is taking a stronger hold upon the heart of the Church. Its importance and necessity are apparent, from the increasing demand for ministerial labor at home and abroad, and the inadequate supply from the ranks of those who have resources of their own. Our Missionary stations are almost entirely manned by those whom the Church has brought out and sustained by her educational funds. At the same time, it is gratifying to notice the fact of an increase in the number of pious youth preparing for the ministry in dependence on their own means, or supported by their parents or friends. It will be a happy day for the Church, when parents, loyal to the interests of Zion, shall consecrate their sons to the Lord, and give their wealth to the training of those sons for the sacred office. Nine candidates, under the care of the Board, have recently received professoral certificates. Their places, however, will be immediately filled by waiting applicants.

Holland Academy.

The report from this important institution is very encouraging. The number of students last year was thirty-three (33), erroneously printed in the Minntes of Synod 39. Of these, five entered the College and Seminary at New Brunswick, and three suspended their studies. Twelve new pupils have been added during the year, making a

net increase of four, and the present number thirty-seven (37).

The Principal, Rev. Philip Phelps, has abundantly fulfilled the high expectations entertained of his efficiency and usefulness. The Rev. Giles Van De Wall continues his labors as Assistant Teacher, besides preaching in the Dutch language, under the direction of the Board of Domestic Missions. By the exertions of Rev. Dr. Van Raalte, every claim against the institution has been liquidated; the land needed to complete the area of the grounds secured, and the whole deeded to the General Synod. The Board now reiterates its conviction that the pecuniary support of the Academy is a burden not properly belonging to it, and urges with great force and justice, as we think, that as the whole institution is the property of the General Synod, that body should appoint the Professors and Teachers, and support them from its treasury. Your committee therefore recommend that measures be taken, as early as practicable, to relieve the Board of Education of all liability for the pecuniary support of the Holland Academy.

III. Parochial Schools.

There are now on the list as receiving aid, fourteen Parochial Schools, which, so far as the partial reports which have been sent in would show, appear to be doing a very important and necessary work. In several of these Schools the influences of the Holy Spirit have been enjoyed, and a number of the young pupils converted. should go far to remove the apathy which pervades the Church on this subject. These Schools are nurseries of the Church, as well as institutions for intellectual training, and morality and religion, as well as sound learning, will be promoted by their establishment wherever they are practicable. The reckless attempts which are being made to divorce religion from education in our public schools, should lead the friends of the Church to found as many as possible of those institutions which, by their very constitution, are fortified against the attacks of Romanism and Infidelity. The amount of contributions from Churches to the Parochial School Fund during the past year is very small, while few applications have been received for aid from the funds originally contributed and invested. Several of the Schools formerly aided have become self-sustaining.

IV. Board of Sabbath-School Union.

After an appropriate reference to the death of Rev. P. M. Brett, D.D., one of the Board, and of Rev. W. C. Brownlee, D.D., one of the earliest Presidents and warmest friends of the Sabbath-School Union, the full and lucid report of the able Secretary lays before the Synod the results of the labors of the past year. There are now connected with the Union 266 Schools, 26 having been added during the year. As reports have been received from only 112, and it is not known whether these are the larger or the smaller schools, of course any tabular statement or comparison of statistics, as to teachers, scholars, volumes, &c., would be imperfect and unreliable.

The Board has endeavored to perform a strictly Missionary work on behalf of children, and has divided its efforts and resources between two fields, the Home and Western; the former comprising New York and vicinity, the latter the four Western Classes of Michigan, Illinois, Holland and Wisconsin. In the home field, eight Mission Schools have been established, seven in the City of New York and one in Harlem. Some of these are now self-sustaining. One, planted some five months ago, located at Prospect Hill, has become a new and regularly organized Reformed Dutch Church, with about thirty members, and a commodious Chapel. The number of children gathered into these schools is not far from one thousand, chiefly from the streets and lanes, the garrets and cellars, of the city.

With regard to the Western field, the Board state that their aim has been to establish only as many schools, and in such localities, as could enjoy the direct and constant care and supervision of some particular Church of our denomination. To this end, fields have been selected lying around established Churches, and pastors and Consisto-

ries have been employed to aid in forming and superintending the schools. By consent of the Board of Domestic Missions, the Rev. H. J. Brown of Battle Creek, the Rev. J. H. Kershow of Centreville, and Rev. J. A. Davenport, itinerant missionary, were employed for a certain time as the Agents of the Sabbath-School Board in and around their respective fields of labor. Besides these pastors, three students, Messrs. G. H. Peck, C. S. Vanderveer, and R. Pieters, were commissioned for the summer vacation. The efforts of these brethren were successful, and have been followed by happy results. Sixty-one Sabbath-schools have been organized, revived, or visited, about one-half being new organizations. In these, about 350 teachers are employed in instructing 1,500 children, and pouring into their young souls the light of the Gospel.

Your committee believe that a good work has been done at the West, and with a small outlay. The salary which our faithful and self-denying Missionaries have received from the Sabbath-School Board, though small in itself, has not only added materially to their comfort, but has placed within their reach the facilities for a vastly enlarged usefulness. They are not neglecting their appropriate work when planting Sabbath-schools, and gathering in and feeding the

wandering lambs of the flock.

Your committee would suggest, however, in this connection, that the Board be directed, in employing Missionaries at the West to do their work, not to show partiality, but to offer the same commission to every pastor who is willing to accept it. They all feel under an obligation to labor for the Sabbath-school cause as far as they can, and they all should share in the assistance which the Board may be able to render in performing their arduous work.

Financial.

In examining the receipts and expenditures of the Board for the past year, your committee have arrived at a few facts and conclusions which they deem worthy of the attention of Synod.

There has been received during the year \$4,191.64, and expended

\$4,012.83. Of this sum, there has been paid as follows:

For	salary	and expenses	of Corresponding Secretary\$1,6	24	26
"	"	- "	Assistant, H. A. Holt 5	16	18
"	rent ar	nd expenses of	office	93	00

\$2,333 44

Here we have as the actual cost of working the collecting and managing machinery of the Board, nearly three-fifths of all the receipts, which is unprecedented in the history of benevolent societies. Now we have a balance of \$1,679.39, of which \$125 must go to pay a bill of Hosford & Co., and \$34 as a special donation to Mr. Van Raalte. This, after deducting \$2 of worthless money, leaves just \$1,518.39, out of more than four thousand, with which to carry on the legitimate work of the Board. This sum, your committee find, has been divided as follows: For the support of Mission Schools in

New York \$822.82, and for the salaries of Missionaries in the West \$635.57; leaving a balance of \$60. If we consider Mr. Holt as a Missionary laborer, on the same footing with those at the West, it will reduce our estimate of expenses, and increase the appropriation to Mission Schools in New York City and vicinity to \$1,339, which is more than double that which has been made to the Western field.

Your committee have presented this analysis simply that the Synod might have a clear view of the case. In examining the subject, it appeared to them that there was a discrepancy between the figures as they stand in the report, and the well-known intention of the Synod to enter upon missionary Sabbath-school work in the destitute regions of our country. The Board should be able to make its appeal to the whole Church, which it cannot successfully do so long as its home field means only the City of New York and vicinity, and absorbs the greater portion of the collections from the whole Church. bath-school enterprise is one of the noblest of all the agencies of the Church. Let the heart of the whole Church yearn after her children. and let her put forth her united efforts to save them for Him who said, "Of such is the Kingdom of Heaven."

The Board respectfully asks the Synod to amend the Second Article of the Constitution, which refers to the Board of Managers, and confers the power to elect their own officers, by adding the following words: "And fill vacancies occurring during intervals of the Sessions

of General Synod."

The committee recommend that the request be granted. The committee also append the following resolution:

Resolved, That it be recommended to the Board of Sabbath-School Union very materially to reduce the expenses of the collecting and managing machinery of the Board in the City of New York, and to appropriate a much larger proportion of their funds for the Sabbathschool work in the West.

Distribution of Books.

Your committee find among the receipts various donations of money expressly for Sabbath-School Libraries in the West, amounting to \$84.83, but in the disbursements there is no account of these having been disposed of as directed, although such may have been the case. The only sum expended for books, by the Treasurer's Report, as we have seen, is \$60, which was paid to Mr. Dodd for 200 copies of the Well Spring, for Mission Schools. The Secretary states that demands for books from needy schools have been large, and that every worthy applicant has been supplied through the timely aid received from more favored schools. Nearly \$800 worth of books have been given away, the most of which have gone to supply new and destitute schools in our Western field.

Your committee would suggest that in future the disbursement of these special donations should be fully reported.

All which is respectfully submitted.

P. D. VAN CLEEF, Chairman.

PHILADELPHIA, June 12, 1860.

Resolved, That the Board of Sabbath-School Union be, and hereby is, directed to insert in their report of this year the names and localities of the Sabbath-schools stated to have been organized by them.

A sermon was preached on the evening of the seventh day of the session on the subject of Education, by Rev. Hugh N. Wilson, D.D., from Rom. x. 13, 14, 15: "For whosoever shall call upon the name of the Lord shall be saved. How then shall they call on him in whom they have not believed? and how shall they believe in him of whom they have not heard? and how shall they hear without a preacher? and how shall they preach except they be sent?"

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Sabbath-School Union whose term of service has expired. On counting the ballots, it appeared that the following were elected: Rev. George W. Bethune, D.D., Mancius S. Hutton, D.D., A. A. Willetts, Jacob West, William H. Ten Eyck, Goyn Talmage, Paul D. Van Cleef, William W. Halloway, and Messrs. Livingston H. Miller, James Anderson, John Hardenbergh, and Teunis A. Waldron.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Education whose term of service has expired. On counting the ballots, it appeared that the following were chosen: Rev. James A. H. Cornell, D.D., Benjamin C. Taylor, D.D., R. Ormiston Currie, D.D., Ezra W. Collier, E. Tanjore Corwin, and Messrs. Samuel B. Schieffelin, James Suydam, and James W. Beekman.

PROFESSORATE.

Synod proceeded to fill the places of those in the Board of Superintendents of the Theological Seminary whose term of service had expired.

Nominations were received from the Classes of Albany, Montgomery, Poughkeepsie, Schenectady, Passaic, New Brunswick, South Classis of Long Island, and North Classis of Long Island, which were confirmed.

It was referred to the Committee on Nominations, to report double

the number of persons from whom to choose members for those Classes who have not nominated.

The committee reported, and the election took place accordingly.

The following are the persons chosen to fill the vacancies in the Board of Superintendents: Rev. John De Witt, from the Classis of New Brunswick; Rev. John F. Mesick, D.D., from the Classis of Raritan; Rev. John Simonson, from the Classis of Albany; Rev. Samuel Van Vechten, from the Classis of Poughkeepsie; Rev. Isaac G. Duryee, from the Classis of Schenectady; Rev. Mancius S. Hutton, D.D., South Classis of New York; Rev. Peter S. Talmage, from the Classis of Passaic; Rev. John H. Manning, from the South Classis of Long Island; Rev. William W. Halloway, from the North Classis of Long Island; Rev. William J. R. Taylor, from the Classis of Philadelphia; Rev. Joseph Knieskern, from the Classis of Montgomery; and Rev. H. Hermance, from the Classis of Michigan.

The Rev. John G. Hall, who had been nominated by the Classis of Montgomery, declined the nomination, when it was referred to the Committee on Nominations to make provision to supply the vacancy.

The Committee on the Professorate reported, and the report was accepted, adopted, and is as follows:

The Committee on the Professorate beg leave to submit the following Report:

I. Board of Direction.

1. The Board of Direction has communicated in its report to Synod the gratifying intelligence that a legacy of \$3,000 has been paid by the executor of the estate of the late Daniel J. Schenck, of Monmouth Co., N. J., designated by the will of the donor for educational purposes.

Your committee recommends that upon this sum, properly secured by bond and mortgage, a new Scholarship be erected, and called "The

Daniel J. Schenck Scholarship."

2. The Board of Direction further informs Synod that, under authority, the Board has executed a deed releasing the interest of the Synod in the Church property corner of Broome and Greene Streets, New York, and that the claim of the Synod has been transferred to the property now held by the Consistory of that Church, and situated in 34th Street, of the same city.

In order to carry forward the erection of a new Church edifice, the above-named Consistory, by and with the concurrence and recommendation of the Board of Direction, has made to this Synod the following application: "That the Synod will authorize its Board of Corporation to consent to or join in the execution of any mortgage or mortgages which the said Consistory may hereafter deem it necessary to make and execute, either in its present corporate name, or in such corporate name as

it shall hereafter assume." The reason, on account of which this authority is asked for, arises from the nature of the lien on the Church

property existing in favor of this Synod.

The committee recommends the adoption of the following resolution: Resolved, That the Board of Direction of the General Synod be, and it hereby is, authorized and empowered to consent to or join in the execution of a mortgage or mortgages, in the amount of \$25,000, in the manner and for the purposes contemplated in the foregoing application.

3. In relation to the contingent expenses of the Synod, we are informed by the report of the Board of Direction, that it has now

reached an embarrassing condition.

The financial year opens with a debt amounting to \$819.65, some of the items of which have been standing for a long time. And in view of the existing session of Synod, there are no means in hand with which to pay the salary of the Stated Clerk, the expenses of the Western delegates, nor even the current expenses of our daily sessions.

Under these circumstances, the report of the Board may well hold the language which we quote: "The prospect before the Board is anything but pleasant, and it feels convinced that Synod will readily perceive the necessity for immediate remedial means, by which its obligations may be punctually met and the credit of Synod be maintained. To meet the claims already existing, and those which must be established by the present meeting of Synod, the report of the Board shows, under the head of arrearage of assessments for the whole or parts of the past two years, from 22 Classes, the sum of \$787.10, a sum less than the actual indebtedness."

Now your committee is quite as much embarrassed as the Board in the solution of the question, how these contingent expenses may be comfortably provided for. To add to the difficulties of this position of things, several of the Classes, happily, however, only a very few in number, have sent up to the Synod complaints and requests against being burdened with assessments in this matter, and in reference to the delinquencies of the non-paying Classes. No one can be for a moment insensible to the perplexities of the case. But your committee will rather beg the Classes and the Synod to regard the whole difficulty as one of the self-inflicted embarrassments of our voluntary povertyvoluntary and continued poverty we mean—in the fact that the whole Church has not freely and heartily responded to the call made, under sanction of Synod, by the Board of Direction. It is trite enough to say that the Synod cannot get forward in its contingent expenses without money, and that no private hand is, or ought to be, opened to pay The Synod must meet, the work of the Church must go on, expenses must be incurred; complaints and fretting will not pay the debt; they will only mar our placid temper and cloud the sun of our fraternal amiability. Now, your committee can suggest no better, no easier financial measures, to answer the never absent necessities of the Synod, than the plans adopted at the last meeting of this body, and whose execution the Board of Direction has zealously commenced.

By the following resolutions, your committee recommends the re-enactment of the 3d and 4th resolutions, under the Article Board of

Direction, on page 447 of Minutes of last Synod.

Resolved 1st, That this Synod, fully admitting all the difficulties which surround the matter of the Contingent Fund, earnestly invites and enjoins the Classes to give their earliest attention to the plans adopted for its relief and supply.

Resolved 2ndly, That the Board of Direction be requested to give its attention with new interest to the plans on which it has entered, and especially that of the agency mentioned in the 4th of the above-

named resolutions.

Resolved 3rdly, That the Board of Direction be, and hereby is, instructed to borrow immediately from funds in hand, or from other parties, the amount necessary to pay the debts referred to above, and those which must arise out of the present session of the Synod.

4. Property of the Synod in its Foreign Mission Stations.

By order of a former Synod, the Board of Foreign Missions of the General Synod has applied for, and obtained from the Legislature of the State of New York, an act of incorporation for the more thorough execution of its work. This Board now asks that the title to the Missionary property held by the Synod may be transferred to its possession. Your committee recommends the following resolution:

Resolved, That the Board of Direction be, and it hereby is, authorized and empowered to take all the necessary steps to invest the Board of Foreign Missions with the title and possession of all the property belonging to the Synod at its Foreign Mission Stations, and contem-

plated in the foregoing application.

5. Holland Academy.

Reference to this institution has come to the hands of your committee, both from the report of the Board of Direction, and from that of the Board of Education.

From the Board of Education application is made to be relieved

from the duty and expense of maintaining the Academy.

And by the Board of Direction, a request is made that Synod would adopt measures to provide for the outlay which must be neces-

sary, not temporarily, but permanently.

And from the Board of Direction also comes the request that the Synod will empower it to obtain the necessary authority to hold real estate in the State of Michigan. On this last matter your committee recommends the following resolution:

Resolved, That inasmuch as the title to the grounds of the Holland Academy is now in this General Synod, and that it is necessary to apply to the Legislature of Michigan to confirm such title, and to authorize the Church to hold real estate in that State, the Board of Direction be, and it hereby is, authorized and empowered to make such application.

And inasmuch as there are special and valuable interests comprehended in the question of ownership, appointments, superintendence and payments in the Holland Academy, which ought to be very accu-

rately defined and settled, and inasmuch as that institution is now intimately related with the Board of Education, and its relations to the Synod bring it into close connection with the Board of Direction.

your committee recommend the following resolution:

That the Boards of Direction and Education be requested to confer upon the whole subject, and having devised a plan, defining its relations to the Synod, and the means of its support, report thereon to the next General Synod.

6. Church of the Thousand Islands.

The Board of Direction refers to the above-named Missionary Church, and to the possible incurring of expenses. At the last session of Synod the Board of Direction was authorized to accept the conveyance of the Parsonage property of this Church. The deed, not yet received, however, when delivered, may perhaps bring with it the

necessity of some expense of insurance and repairs.

In the operation of certain laws in the State of New York regulating the tenure of Church property, a necessity absolutely exists for the preservation of this house and land, that the Synod should hold title, in the peculiar situation of things at the Thousand Islands, or rather Alexandria Bay. Time and the growth of the Church can alone remedy the difficulty. Your committee, therefore, recommends that in the events referred to by the Board, the Boards of Direction and of Domestic Missions be, and by this act shall be, clothed with discretionary power.

Board of Superintendents.

1. The report on that pre-eminently important interest of the Church, the Theological Seminary, is highly interesting. And in view of it, adopting the language of the Superintendents to the Synod, we remark, that "our thanks are due to the great Head of the Church for the measure of prosperity granted to this agency for the education of a pious and efficient ministry for the Church."

The number of students is stated at the considerable figure of fifty-

Fifteen of whom were furnished with the usual Professoral certifi-And the sixteenth, whose case was one of dispensation, is now recommended by the Professors to the Synod, for an authority to apply for examination to the South Classis of New York, as will subsequently appear. The faculty took pleasure in reporting the commendable course of both study and character on the part of the students through the entire term. And the Board makes honorable mention of the examinations of the classes with which the year was closed.

2. Your committee mentions with pleasure the additions to our Foreign and Domestic Missionary forces which the last Senior Class has furnished, not alone on account of the number, but the character and attainments of those new and willing laborers. We pray that the numbers of such may be greatly enlarged for our future reinforcements.

3. Your committee also thinks it highly proper, and it recommends

that the Synod, by this action, adopt the acknowledgment made in the Report of the Board, of the gift to the Seminary from the family of the late Isaac L. Kip, Esq., of a valuable portrait of the Rev. Dr. Livingston, so long the eminent Professor of Theology in our institution.

4. And your committee would be glad if we could here dismiss our examination of the Report of the Board of Superintendents, and pro-

ceed to other topics.

We are, however, informed that when the questions directed to be proposed to the students, with reference to their preaching otherwise than under the special cases of exception mentioned in Synod's resolutions, the law of the Synod was found to have been deliberately violated.

Last year the report stated the matter thus: "Transgressions seemed to have occurred." But in this year's report it is stated "that the rule of the Synod was confessed to have been broken." Last year it was a seeming transgression, this year it was a confessed violation. Last year the names of the seeming transgressors mentioned were in number eleven. This year the number of confessed violators is twenty-one. We may well ask, Whereunto will this thing grow? If the members of the Seminary be "preachers," they are no longer "students." And if they be "students," they are not "preachers." It is true that the popular gaze is of late sometimes called to fix itself on "boy-preachers." But if we acknowledge such precocity, it would rather be as the exception, than the rule. And, in point of fact, we believe it to be undeniable, that even three years, to say nothing of one year, do not produce any more valuable and ripened fruits, than the necessities of ordinary intellects and the interests of sound doctrine require. Your committee believes that this unlicensed license, and the constitution of our Theological courses of training for the pulpit and the pastorship, are absolutely incompatible; and that, for order, for discipline, for law, for truth, one must overcome the other. We have no hesitation to make our election on the side of the constituted courses of preparation, and we hold that the liberty given to the students, by existing laws, to exercise their gifts, is quite broad enough, and that violations both can and ought to be promptly checked, and checked now. Your committee, in view of the statement of the Board, recommends the adoption of the following resolu-

I. Resolved, That in any instance of the violation of the existing laws regulating the students preaching, falling within its knowledge, the Theological Faculty is hereby empowered and directed immediately to examine the case, and suspend the offending party from his place in the Seminary until his case can be reviewed by the next General Synod.

II. Resolved, That in those cases of violation of the said laws which fall within the knowledge of the Board of Superintendents, in the fulfillment of their duties in session, it is hereby empowered and directed to suspend the offending party, of whatever class, from his place, until his case can be reviewed by the next General Synod.

III. Resolved, That in the judgment of this Synod, it is highly improper that Ministers and Consistories should invite the members of the Theological Seminary to preach, in contravention of the laws of the Synod.

III. Dispensations.

1. Your committee finds in the report of the Board of Superintendents of the Theological Seminary, a reference of the case of Mr. R. Pieters, who is recommended for a dispensation from one year's study, with a view to a settlement in the Classis of Holland. But no valid reason appearing in its favor, we recommend that this request be not granted.

2. We find also in the Minutes of the last General Synod, an advisory resolution in the case of Mr. John Wenish, and the case of Mr. Isaac W. Warner, that they should pursue in our Theological Seminary such a course of studies as the Professors may deem necessary to fit

them for usefulness as pastors and teachers.

Mr. Wenish is stated, by a communication from the South Classis of New York, to be of such an age, and in such circumstances as to family and support, as to preclude his compliance with this advice. The Classis asks, therefore, in his behalf a dispensation allowing it to ordain him to the Gospel ministry. We recommend, therefore, that Mr. Wenish be admitted to an examination in the presence of a Deputatus Synodi, and that if he be found sufficiently prepared, especially in the standard doctrines of the Church, the Classis may license and ordain him in the charge where he is now laboring.

Mr. Warner has produced to your committee the certificate of the Professors of the Theological Seminary, approved by the Board of Superintendents, stating his compliance with the resolution of Synod. We therefore recommend that he be admitted to the like examina-

tion before the South Classis of New York.

3. Mr. Augustus Blauvelt asks for a dispensation from attendance at the Seminary during so much of his senior year as will enable him to attend a course of medical lectures in New York, preparatory to his entrance into the field of Foreign Missions. We recommend his request to be granted.

4. Application is also made by the Classis of New Brunswick for permission to Mr. Frederick R. Brace to pursue his theological studies under its direction, and when it may deem it proper to do so, that it

may license him to preach.

It appears from the communication of the Classis that Mr. Brace desires no dispensation from any of the studies pursued in the Theological Seminary, but only from attendance in person upon its duties. It furthermore appears from the statements of the Stated Clerk of the Classis, who was instructed by the Classis to present Mr. Brace's case, that Mr. Brace is compelled from age and family, and mode of support, to seek this dispensation, while his pursuits and attainments eminently qualify and recommend him for an early admission into the ministerial office. In view, therefore, of all the circumstances, your committee

recommends that Mr. Brace be admitted to such an examination before the Classis of New Brunswick as would be accorded to him upon the usual professoral certificate.

IV .- Van Benschoten and Knox Funds.

In the Van Benschoten Fund there is reported an unappropriated balance of \$1,180.77, and on the Knox Fund \$72.11.

All which is respectfully submitted.

MISSIONS.

The Twenty-eighth Annual Report of the Board of Foreign Missions was presented, read, and referred to the Committee on Foreign Missions.

The Report of the Treasurer of the Board of Foreign Missions was received and referred to the Committee on Foreign Missions.

So much of the Report of the Board of Foreign Missions as refers to the transfer of the Mission Property to the Board of Foreign Missions was referred to the Committee on the Professorate.

The following report was received from the Committee appointed to "raise means for the erection of a suitable monument in India to the memory of the late Rev. John Scudder, M.D.," which was accepted:

To the General Synod of the Protestant Reformed Dutch Church now in Session in Philadelphia:

Dear Brethren—The Committee appointed at the last session of your venerable body, consisting of Tho. C. Doremus, James A. Williamson, James L. Schieffelin, Robt. H. Pruyn, and Fred. T. Frelinghuysen, "to raise means for the erection of a suitable monument in India to the memory of the late Rev. John Scudder, M.D.," respectfully report that, as Dr. Scudder was emphatically the children's missionary, it was thought wise to ask the children of the Sabbath-schools of the Dutch Church to contribute in sums of not less than ten cents each. Your committee are happy to say that upward of thirteen thousand children have responded, and that a sum has been raised sufficient to erect a suitable remembrance of that noble, valiant soldier of the Cross. The monument is now being made, and your committee herewith send a few copies (lithographic) for the inspection of your venerable body.

Should any funds remain, after paying all expenses, the amount will be paid into the hands of the Treasurer of our Board of Foreign Missions, unless your body should order otherwise.

All of which is most respectfully submitted.

THO. C. DOREMUS, Chairman.

New York, June 9, 1860.

A letter was laid before Synod from the Chairman of the Committee on the Scudder Monument by the Corresponding Secretary of the Board of Foreign Missions, which was referred to the Committee on Foreign Missions.

A sermon was preached on the evening of the sixth day of the session, on behalf of Foreign Missions, by the Rev. Charles S. Hageman, from Zechariah 4: 6: "This is the word of the Lord to Zerubbabel,

saying, Not by might, nor by power, but by my Spirit, saith the Lord."

The Committee on Foreign Missions reported, and their report was accepted, adopted, and is as follows:

The Committee to whom was referred the Annual Report of the Board of Foreign Missions have carefully examined the same, and beg leave to present the following as their Report:

The Report of the Board, which has been drawn up by the acting Corresponding Secretary, Rev. Philip Peltz, is an unusually elaborate and interesting document, and has evidently been prepared with great care, and with a due sense of the increasing magnitude and importance of the work which has been committed to our beloved Church, in heathen lands. It presents to us, in forcible and intelligible terms, a history of the progress which, in the good providence of God, has characterized this great work during the past year, and calls us to survey, as from some mount of vision, the goodly land which remaineth yet to be possessed by our Zion. The picture which it draws is not without its shadows. It sings of mercy and of judgment. But the lights far outnumber the shades, and mercy rejoices still over judgment. There is matter in the Report for grave, even anxious thought. There is a view of impending responsibility which cannot be properly met by the impulses of mere enthusiasm, but which calls for cool and sober consid-There are dispensations of Providence that are mysterious and trying, fitted to test our faith and submission; and yet, upon a review of the entire history of the year, as presented in the Report, there is abundant occasion to exclaim with devout and adoring gratitude, "What hath God wrought!" and to inspire us with increased zeal and hopefulness in entering upon another year of prayer and labor for the extension of our Saviour's kingdom, who is the Lord of glory and the King of saints.

From the reports from the missions at Amoy and Arcot, we learn that the work of the Lord has been carried on during the past year with an encouraging degree of success. A new church has been organized at Chioh-be, and a new house of worship erected at Amoy. The Gospel has been faithfully preached to the conversion of a good number of the heathen, and the work of parochial school and theological instruction has been well attended to. The benevolent contributions of the mission churches might shame the meagre offerings of many of our churches at home. The mission at Amoy has been reinforced by Messrs. Ostrom and Rapalje, who are already able to labor among the Chinese, and speak to them in their own language the wonderful works of God.

We rejoice to welcome Rev. E. Doty, D.D., after his long absence, to his native shores, and trust that his presence among our churches will be blessed of God, to the progress of the true missionary spirit, and the great advance of our efforts in its behalf.

The Arcot Mission, though deprived of the labors of Revs. Joseph and Jared Scudder, absent from the field on account of sickness, continues to flourish. A native pastor has been ordained and set over the

church at Arcot. Two new church edifices have been erected, a new station occupied, and the general history of the mission has been one of prosperity. Two new recruits have joined the mission band, and soon Dr. H. M. Scudder, we hope, will again be added to their number.

Our missionaries to Japan have arrived in that country, are comfortably settled there, have been received with much courtesy, and are industriously preparing for the prosecution of their work. Mr. Verbeck expects soon to give to Christendom an English Japanese Grammar, an inestimable gift, worth all that the entire mission has cost.

While we may hope great things from the auspicious commencement of a work for Christ in a kingdom hitherto hermetically scaled against all foreign influences, especially those of a religious character, yet the Church, in respect to this mission, should not take connsel of mere enthusiasm, but learn to hope and quietly wait for the salvation of the Lord. It has been much to effect an entrance into Japan; but it is only an entrance upon a work of peculiar delicacy and responsibility.

The history of the early Jesuit missions in that country may afford us a wise lesson; yet our mission is for Christ, and not for Anti-Christ.

We seek to rear the Cross, not the Crucifix. We are to engraft the zeal, and devotedness, and martyr courage of Xavier and Loyola on the stock of a purer faith than theirs; and as we read and interpret the Word of God, we may believe that the Gospel shall triumph among the millions of Japan, though long before the day of victory comes, we shall be sleeping in the dust.

Funds.

The Treasurer's Report—a document prepared with that neatness and accuracy so characteristic of all Mr. Hayt's communications—presents in some respects a most gratifying statement. The receipts from all sources for eleven months have amounted to \$30,181.58. To go in three years from \$12,000 to \$30,000, is surely to "make rapid and encouraging progress." Yet the report of the Treasurer presents some facts which ought to be deeply pondered by the Synod.

In the first place, it appears that there is but one Classis in the whole Church in this country, all of whose churches have contributed during the year to this cause. All honor to the Classis of Paramus—all of its fourteen churches are recorded as contributing churches.*

2. One hundred and fifty-two churches have contributed nothing to the treasury of our Board.† This is a melancholy, even a shameful fact, on which further comment is needless. Two hundred and fifty-one

^{*} This Classis has not only given a contribution from every church within its bounds, but the average amount of their contributions is larger than the average amount given by all the two hundred and fifty-one churches which are reported as contributing—being in their case a fraction over \$92 to each church, while the general average of the whole Church is a fraction over \$88.

[†] If these one hundred and fifty-two churches had contributed the average amount reported from all the other churches, it would have added the sum of \$13,528 to the funds of the Board.

3. The entire average of the contributions from the whole Church from all sources is less than sixty cents from each communicant. it must be remembered that very many of our non-communicants are in the habit of contributing to benevolent objects—some of them with great liberality—so that the average from each member must be con-

siderably less than sixty cents.

Your Committee, in view of the very heavy pecuniary responsibilities assumed in earrying on the work of the Board on its present scale, beg to call the serious attention of the Synod to these facts and figures. A great advance has doubtless been made in the contributions to this cause. Something of this must be attributed to the influence exerted by Rev. Dr. Scudder's glowing appeals to the churches; and while we hope that these have done more than awaken a temporary and spasmodic interest in this great work, yet it would not be strange if some ears which drank in with delight the music of his words may be closed to the ordinary calls of pastors and other agents. The expenses of the Board, however, call for still larger contributions, and it is for this Synod to say whether there is a reasonable prospect that the necessary means will be furnished. It will require that every one of the one hundred and fifty-two churches reported as non-contributing should contribute an equal average amount with the two hundred and fifty-one which have contributed, and that these latter shall increase this average, in order to enable the Board to meet its present engagements, and carry out its plans for the coming year without incurring a debt.

The expenditures of the Board may reach the large sum of \$45,000 during the year. We must look steadily at this fact in all its seriousness, and ask, Can this advance be reasonably expected? It will not do to say that the Church can do this. That fact is unquestionable. Will she do it? We hope she will. If her past be prophetic of her future, we may believe that she will. God's providence has manifestly gone before her in all the progress of this work. She has only followed in a path which He has opened in answer to her prayers, and from which she could not shrink, without being recreant to solemn duty. But prayer for great things involves responsibility for the use And the exigencies of our present position cannot of great means. be met without a thorough rousing up of our entire Church to her duty in this work. Pastors must not shrink from their duty, in urging the claims of Christ's cause upon their people more earnestly and faithfully. Consistories must see to it that wise and efficient measures are adopted to bring out all the benevolent activities of their congregations; and every individual member must feel called upon to come up, as never before, to the help of the Lord against the mighty. The Board itself must practice a proper economy in the management of its affairs, and incur no expenditure not clearly demanded by the indications of duty. Only thus can we hope to meet the serious responsibilities which we have assumed, and prosecute with vigor and success the work of evangelizing the heathen on our present scale of effort.

The committee notice with pleasure, that through the liberal donation of James Suydam, Esq., a guarantee fund has been secured for the use of the Board, by which a basis is furnished of security for the necessary drafts for the use of the several missions. The amount of that fund is at present \$6,000, which it is intended shall accumulate

till it reaches the sum of \$10,000.

The Board report to Synod that Rev. Isaac Ferris, D.D., had felt constrained by the pressure of his other engagements to relinquish the office of Corresponding Secretary, the duties of which he had discharged for several years gratuitously, and with signal efficiency and success. Your committee feel, in common with the Board, that the Church is under great obligation to Dr. Ferris for his valuable services at the critical period of the infancy of our separate organization, and trust that those services will be long and gratefully remembered.

The Rev. Philip Peltz has been chosen to fill the post of Corresponding Secretary, and has discharged the duties of the office for several months with fidelity and acceptance. Mr. Peltz, with a delicacy which does him great honor, has seen fit to waive his formal acceptance of this office until an expression of opinion be given by this Synod in the case, although regularly elected by the Board, who had full authority to make such election, and still retains his pastoral charge, while attending, so far as he is able, to the duties of the office. The deliberate judgment of the Board seems to be, that the office requires the undi-

vided time and entire energies of its incumbent.

The enlarged scale on which the operations of the Board are now conducted, the very serious nature of the responsibilities incurred, the necessity that every means be employed to visit the churches, stimulate their zeal, furnish information, and urge them to a higher standard of effort in this cause, and the labor of editing the Sower, and making it a vehicle of the best missionary intelligence, all demand that the undivided time and energies of one man shall be given to the duties of this office, and indicate, in the judgment of the Board, that a true economy and regard to the real interest of the cause require this arrangement. On this subject the Board have come to a unauimous conclusion; and in this your committee, after carefully considering the whole subject, are constrained to concur. The Board will, of course, avail themselves of the labors of the missionary brethren providentially at home, so as to secure the most efficient and economical cooperation in the work of increasing the interest among our churches which is already felt in this work.

Your committee rejoice to notice that feature of the report which

speaks of the remarkable increase of the missionary spirit among the students at New Brunswick. This is one of the most encouraging features of our times, and adds another reason for the hope that we are only on the threshold of a great and glorious work for Christ in the field of missions.

Your committee feel deeply impressed with the idea of the solemnity of the position in which the Church is placed in regard to the whole subject of Foreign Missions. God has seemed, in a remarkable manner, to place the seal of his approbation upon the assumption by us of the duty of attempting a separate missionary organization, and, as a Church of Jesus Christ, doing our share of the work of evangelization. The progress which we have made in three years has been wonderful. Now we have assumed responsibilities from which, three years ago, we should have shrunk back with dismay. Yet it may be that even now these responsibilities are not properly apprehended by the Church. Were they thus apprehended, we should not be obliged to report the melancholy fact that nearly one-third of our churches give absolutely nothing to this cause.

In this state of the case, we have no time to waste in complacent gratulations over what we have done. We need rather a spirit of earnest prayer as to our present duty. We need a higher standard of personal duty and sacrifice. We need especially a larger measure of the grace of giving. The besetting sin of the Dutch Church is avarice. She is very far behind the measure both of her ability or her obligations, in the matter of giving her money to the Lord. She has much wealth yet unconsecrated, many tithes not yet brought into the storehouse. The cause of Foreign Missions needs a portion of this wealth. Forty-two thousand dollars, at least, ought to be placed in the treasury of the Board for this year's operations. With less than this, debt will be unavoidable. Yet we fain would hope that by God's blessing the standard of effort in this and every good cause may be raised among us, and that we may approximate to-

wards our whole duty as a Church to our Master and to the world.

In view of the whole subject, the committee recommend the adop-

tion of the following resolutions:

1. Resolved, That we recognize with devout and humble gratitude the hand of God in the progress of the missionary spirit in our Church during the past year, and feel that we are both obliged and encouraged to go forward as a Church in the prosecution of the work of evangelizing the heathen with increased zeal and fidelity.

2. Resolved, That it is the duty of all our churches to contribute to the funds of the Board of Foreign Missions, even if they are unable to contribute much, and that we believe that no Church of Christ can enjoy true and permanent spiritual prosperity which habitually neglects to obey the Saviour's last command, to "go into all the world and preach the Gospel to every creature."

3. Resolved, That every pastor and Consistory in our Church should be regarded as a special agency for this cause, and should take such measures as may be most advisable to secure regular contributions for

its support.

4. Resolved, That the thanks of the Synod are due to Rev. Dr. Ferris for his valuable labors so freely given to the Board at the critical period of the infancy of its separate organization, and that the action of the Board in the election of Rev. Philip Peltz as his successor in the office of Corresponding Secretary, at a fair compensation, be approved by the Synod.

5. Resolved, That it is desirable to increase the circulation of the Sower largely among our congregations, and that the Board be di-

rected to send a copy to each of the pastors of our churches.

6. Resolved, That the second week in January be recommended to our churches to be observed as a week of united and special prayer for the conversion of the world.

A letter from Thomas C. Doremus, Esq., Chairman of the Committee to raise funds for the Scudder Monument, suggesting that said monument should be placed in Greenwood Cemetery, has been referred to your committee. They would recommend the following action:

Resolved, That the Committee who have charge of the Scudder Monument be directed to carry out the original resolution of Synod.

All which is respectfully submitted on behalf of the committee.

E. P. ROGERS, Chairman.

Resolved, That the Churches of our denomination be not only urged to take a monthly collection for Missions, but that we suggest and recommend to them to take those collections at the morning service of the first Sabbath of each month.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Foreign Missions whose term of service has expired. On counting the ballots, it appeared that the following were elected: Rev. James Eells, William H. Steele, John B. Alliger, John De Witt, N. E. Smith, and Messrs. Sanford Cobb, Jun'r, Alvin B. Preston, and Ralph Wells.

A letter was received from the Rev. Jared W. Scudder, apologizing to the Synod for his absence at the present session, and asking for the more abundant prayers and sympathy of the Churches in behalf of the Missionaries and their work.

DOMESTIC MISSIONS.

A sermon in behalf of Domestic Missions was preached on the evening of the second day of the Session, in the Third Reformed Dutch Church, by Rev. John De Witt, from Luke 12: 49: "I am come to send fire on the earth; and what will I, if it be already kindled?"

The Twenty-eighth Annual Report of the Board of Domestic Mis-

sions was received, read, and referred to the Committee on Domestic Missions.

The Report of the Treasurer of the Board of Domestic Missions was received, and referred to the Committee on Domestic Missions.

A resolution was presented in relation to the expediency of establishing a mission among the North American Indians, which was referred to the Committee on Domestic Missions.

The Committee on Domestic Missions reported, and their report was accepted, adopted, and is as follows:

The Committee on Domestic Missions respectfully present the following report:

The Twenty-eighth Annual Report of the Board of Domestic Missions contains a condensed history of the work committed to this important arm of our ecclesiastical establishment, together with suggestions for its more efficient movement. The following brief summary of the results of the past and previous years, which has been carefully prepared by the Secretary, affords at a glance the actual state of the cause, as administered by the Board:

Leaving these facts to bear their own impressive witness for the faithfulness of the Missionaries, the Missionary Pastors and their co-laborers for the Board and its executive agents, and above all, for the

blessing which the Great Head of the Church has bestowed upon the

work, we pass on to the chief considerations of the report.

The financial condition of the Board claims earnest, prompt, and Scriptural attention. Had the report covered the round period of twelve months, the aggregate receipts would doubtless have exceeded those of 1858-9. That the treasury is out of debt is largely owing to the great liberality of two generous friends of the Board, whose noble aid is duly acknowledged in the Annual Report. A very slight improvement on the fiscal results of the preceding year is apparent in the contributions of the Churches. But the total amount is five thousand dollars less than that of the year ending June 1, 1856, which was the highest sum ever yet reached by the gifts of the churches for this cause. In view of the advancing demands which are pressed upon the Board, they earnestly ask, at the hands of our four hundred churches, a decided increase and prompt remittance of moneys consecrated to the Domestic Missionary field. If our people would follow the example of the devoted men who compose the Executive Committee, and especially of those whose timely help has enabled the Treasurer to report a balance in his hands, we should not need to urge these claims. That spirit of stewardship would not only enable our agents to meet their obligations, but it would even be in the advance, bidding them to follow the hosts whom now they must annually spur to duty. The reasons for asking enlarged means and prompt payment of all contributions into the treasury are self-evident, and they have been so often repeated that we need not urge them here. It is manifest that the Church requires for this, and for all her benevolent institutions, a system of contributions which shall be scriptural in its principle, expansive in its operation, adapted to all of our churches and members, and so far placed under the supervision of the Classes as to secure, as far as practicable, the co-operation of our entire communion. committee believe that giving is, or ought to be, an act of worship to God, and that the measure of our gifts must be determined by the great law of demand and of supply in the Church of Christ. If these principles are once admitted, the beneficence of the Church, springing out of Christian hearts, will rise with the claims made upon her. God is preparing her for a glorious future, by making her willing to bear all the expenses which are necessary to supply the demand of his providence and grace. No other principle can meet the exigencies of the ease. We must have this doctrine taught more earnestly and continually from our pulpits, and in our Sabbath-schools and families. is no new theory, no doubtful experiment, no human expedient that we urge, but a life-principle—a part of the organic existence of the Church, equally essential to the growth of grace in the heart, and to the expansion of the evangelizing forces of the Gospel. Our people, our very children, must be educated to it; and until this doctrine is more thoroughly and generally received, we cannot expect to see the permanent advancement of our great educational and missionary work.

Your committee are also satisfied that some system must be adopted which will secure the regular oversight of the beneficent action of all the churches by the Classes to which they respectively belong. The

Synod, in former years, has sanctioned and recommended the practical adoption of the great scriptural principle of giving "according as the Lord hath prospered" each one, and the column assigned to reports of benevolent contributions is beginning to show some fair results. The committee, therefore, recommend the following resolutions:

Resolved, That it be enjoined upon the pastors and Consistories of the churches to give increased attention to the cultivation of this grace, in which they ought to abound; that all proper efforts should be promptly, systematically, and perseveringly made to raise the actual beneficence of all the churches to the scriptural standard.

Resolved, That the Classes be hereby enjoined to pay particular attention to the previous action of the General Synod on this subject, so as to secure an advancing munificence, and ample reports of the annual contributions to the religious and benevolent institutions of the Church.

Resolved, That the Board of Domestic Missions should receive from every church of our denomination that measure of beneficent contribution to which it is entitled by its vital relations to our position and prospects as a proselyting and witnessing Church of Christ, and by the

new demands which God is pressing daily upon us.

The Board ask of the Synod a certain discretion in the use of those means which are confided to them. Great embarrassment is continually caused by the Classical recommendations of feeble churches within their own bounds, the appropriations to which absorb a large proportion of the funds at the East. It is stated in the report, that of the 76 churches and missions aided, 61 are at the East, and only 15 at the West; and that of the 68 missionaries and missionary pastors, 52 are at the East, and only 16 at the West. Of forty applications made for aid during the month of May, thirty-two are from Eastern churches. Some of the Classes actually ask more from the Board than all their churches place in its treasury. Sometimes, also, moneys are given to the Board conditioned upon their appropriation to feeble churches at Whether these Classical recommendations are confirmed or refused by the Board, they are often equally embarrassed thereby, because in either case the Western field must suffer by the absorption of funds in the East, or by their being withheld from the treasury by disappointed donors, who then apply them directly to their chosen objects.

It is plain that the Board should have a wise, and even a large discretion in this matter, of which they are justly supposed to be best able to judge. And while the Synod recommend to the Board great prudence in the distribution of the funds of the Church, they also affectionately remind the Classes of the absolute necessity of a sympathetic co-operation with the Board, and particularly that they should abstain from making such recommendations as would create needless embarrassment to the fair apportionment of the missionary funds to the destitute fields of the growing West.

It is time for the Churches to awake to the fact that it is far more important to foster the planting and training of new and hopeful churches at important points in our truly missionary regions, than to nurse too

long the weaklings which, but for overmuch care, would long since have gone alone. Moreover, the earnestness and the power of our missionary work must greatly depend, under God, upon the wise appropriation of our limited resources to the spots which will yield the quickest and the largest return. The fact that "72 churches, or nearly one-fifth of our denomination, have become self-sustaining, by aid of this Board, in the last ten years," is one of the most encouraging features of our accomplished work. And while it teaches us that the poor and the weak will bless us for every help, it confirms the principle that no mere inconsiderate recommendation of a Classis should prevent the Board from pursuing a wise, cautious, liberal, progressive plan of operations, or from bestowing just that measure of aid which the relative importance of each separate case demands. If the Board is to discharge its high responsibilities to the credit of the cause, it must be trusted by its constituents with generous allowance for differences of opinion, and especially with great sympathy and carnest co-operation, in view of the whole field, whose wants they must be allowed to understand far better than those whose eyes and hearts are filled with the needs of some favorite locality. But if a Classical recommendation must be regarded as an imperial edict, the mission of your Board is accomplished, and each Classis may rather take into their own hands the entire and direct management of all its domestic missionary funds. The Board is then but an expensive and supernumerary machine. If, on the other hand, the doctrine is correct, which has been often avowed in this Synod, of giving large powers to the Board, and of holding them to the strictest responsibility, it only remains for the Board to act in the wise and prayerful exercise of delegated authority.

The committee recommend the adoption of the following resolutions

on this subject:

1. Resolved, That all the Classes are hereby enjoined to exercise the greatest care and discrimination in recommending Churches to the Board of Domestic Missions.

2. Resolved, That the Board of Domestic Missions is hereby instructed to bestow a larger proportion of the funds which are at their disposal for their work within the bounds of the Particular Synod of Chicago, and that they are expected to use a liberal discretion in promoting the spread and establishment of the Church in the West.

3. Resolved, That the donors to this cause be earnestly requested not to fetter the action of the Board, by any unnecessary restriction

of their gifts to favorite localities or persons.

The committee have carefully considered the following resolution of

the Particular Synod of Chicago, which was referred to us:

"Resolved, That in the judgment of this Particular Synod, the time has come when some executive power, resident in the great field of Western Church extension, is imperatively demanded by the dearest interests of the whole Dutch Church, and by the common cause of Jesus Christ, and we therefore respectfully request General Synod to consider the necessity of appointing a Western Executive Committee

of the Board of Domestic Missions, to enjoy equal powers with the

Executive Committee now existing in the East."

After full consultation with delegates from the said Synod, respecting the reasons for this resolution, we have unanimously concluded that the request ought not to be granted. All the past experience of our own Church, and of other denominations, has shown the impracticability of the proposed scheme. To erect an executive committee, located at the West, with equal powers with that now existing in the East, could only produce constant disturbance and collision.

At the same time, your committee are fully convinced that the state of our Church in the West is such as to demand the establishment of some effective additional agency, to be under the control of the Executive Committee, with the advice of the Classes of the Synod of Chicago. Having freely advised with brethren from the West, and the Corresponding Secretary of the Board, we have determined to propose to the Synod the appointment of an itinerant missionary, or missionary agent, or traveling secretary for the West, to be appointed by the Board of Domestic Missions.

The duties to be assigned to such officer of the Board would be something like these: He should personally examine localities in which church enterprises may be hopefully commenced; give facts as to population, healthfulness, business pursuits, persons interested, &c. He should hold possession of important points, by preaching and securing supplies. He should show the characteristics of our Church, and facilitate measures for procuring a Missionary or a Church organ-It would be a part of his duties to visit feeble churches, to encourage them and their pastors, and to make known to the Board and Church their necessities. He could suggest changes or exchanges of places among missionaries, when the cause can be thus more effectually subserved; or he might advise the discontinuance of hopeless enterprises, and the recall of ineffective men. He might be furnished with diagrams of tasteful and cheap church edifices, and assist churches with advice in the matter of building, the cost and the amount necessary to be sought abroad, in view of the actual wants of the whole field, and the safe probabilities of success in the designated Besides keeping the Board constantly acquainted with items of public interest for the cause, he should also be charged with the collection of funds, and the promotion of a thorough system of Christian beneficence in the field assigned to him.

The probable expense of supporting a fit man in this office would be comparatively small; and even were it much larger than is at present estimated, there can be no doubt that the results of faithful labor

would nobly justify the arrangement.

In the scattered state of our Western Churches, and with the increasing demands of the Eastern field, it is impossible for the Corresponding Secretary to maintain that personal supervision of this, the great missionary department of his work, which is imperiously required. No one man can do it. There is a felt necessity for a competent person at the West, who can traverse the field, occupy posi-

tions, and act as the eye, the ear, and the hand of the Board in all that work. He must be in direct communication with the Executive Committee, subject to their order, and yet clothed with those discretionary powers which may be necessary to insure prompt and proper action. Believing that the duties of such an agent will be wisely adjusted by the Board, and that with an acceptable man to fill the station, this arrangement will meet all the existing wants of the cause, your committee recommend the adoption of the following resolution:

Resolved, That the Board of Domestic Missions be hereby empowered to appoint a suitable person for the purposes above mentioned, and that the Board shall prescribe his duties, assign his title, fix his salary, and make all arrangements necessary to secure the most effect-

ive discharge of the contemplated service.

Mission to the North American Indians.

Respecting the resolution which was referred to the committee, "That the Board of Domestic Missions be requested to inquire into the expediency of establishing a mission among the North American Indians," we would respectfully represent, that if Providence should open a door of usefulness among these sons of the forest, it should be the honor and joy of our Church to enter upon the work; but as this subject belongs of right to the Foreign Missionary department, we recommend that it be referred to the Board of Foreign Missions.

The ensuing resolutions are also submitted to Synod for adoption:

Resolved, That it be recommended to all churches which shall hereafter solicit pecuniary aid for the erection of church edifices and parsonages, and for the purchase of land or other property for church uses, to take all proper legal measures to secure such property to the possession of the Reformed Dutch Church, and especially to provide, in case of the alienation of said churches from our denomination, that the amount so collected from individuals and congregations of the Reformed Dutch Church shall be returned to the Board of Corporation of the Reformed Dutch Church, to be granted by them upon similar terms, with the advice and consent of the Board of Domestic Missions, for the erection of church edifices for needy congregations, under the care of said Missionary Board.

Resolved, That the contributors to such enterprises be recommended

to affix the same terms to their gifts.

In conclusion, your committee rejoice in the rich results and good prospects of the work of Domestic Missions. We express the hopes of the Synod and the Church, that under the careful management of the Executive Committee, and the eminent usefulness of the beloved brother whose first annual report to the Synod so well justifies the expectations which attended his appointment, that the career of the Board will from henceforth be bright with blessings.

Before the glorious Head of the Church let us express our humble gratitude for all the blessings with which he has crowned this year of missions. And while lamenting and repenting of the errors of the

past, let us lay the best offerings of a loving consecration at the feet of Him who loved the Church, and gave himself for it.

By order of the Committee,

WILLIAM J. R. TAYLOR, Chairman.

The Committee on Nominations having reported, Synod proceeded to fill the places of those in the Board of Domestic Missions whose term of service has expired. On counting the ballots, it appeared that the following were elected: Rev. William Reiley, D.D., Alexander M. Mann, D.D., D. McL. Quackenbush, and Messrs. Benjamin C. Miller, John I. Brower, William B. Crosby, Theodore R. De Forest, and Samuel Sloan.

ARTICLE XIX.

WIDOWS' FUND.

The Committee on the Widows' Fund reported, and their report was accepted, adopted, and is as follows:

The Committee on the Widows' Fund beg leave respectfully to

report:

That they find in the "Fund" a balance, on April 30, 1860, of \$17,094.11; and at the same date, a balance of each in the "Income of the Fund," amounting to \$373.54.

Certain facts call for the special attention of Synod:

1. During the year no new subscriptions have been made.

2. Of the annual subscribers, who number, as nearly as your Committee can ascertain, eighty-five, only thirty-five have made payment this year, the majority being willing to risk the forfeit of their interest in the Fund.

3. During the year, six ministers of our Church have withdrawn their subscriptions, amounting to \$1,680. Of this amount withdrawn, \$500 has been taken out of the principal of the Fund, and \$1,180 out of the income.

4. The consequence is, that the annuitants, in their age and widow-hood, have received for six months, sums varying from \$7.87 to \$21, in the place of \$100, the maximum proposed and reached in the year 1853.

Now, all this not only betrays a growing want of confidence in this plan of relief, but seems to presage a rapid withdrawal of its funds.

Your committee see the peril. Its approach has threatened the Widows' Fund for many years. Now its condition seems almost

desperate.

Synod's resolutions of confidence have commended it to the favor of the churches year after year, but have done little good. We do not propose to Synod to repeat this experiment. But your committee propose the following: Resolved, That a committee be appointed, consisting of Elders Jacob B. Jewett, Peter D. Vroom, S. B. Schieffelin, and Rev. I. N. Wyckoff, D.D., and Rev. B. C. Taylor, D.D., to take into consideration the subject of the Widows' Fund, with the view of ascertaining what measures can be adopted to give greater stability and efficiency to the operations of this Fund; and that such committee report at the next meeting of Synod.

In regard to the communication in behalf of Rev. Mr. Harlow, your committee suggest that Synod cannot interfere with the working of that Fund in this brother's case, but can only commend him to the loving care of those who know his need, which, doubtless, will not leave him

to suffer.

All which is respectfully submitted.

D. M'L. QUACKENBUSH, Chairman.

Philadelphia, June 10, 1860.

Resolved, That it be recommended to all the churches represented in this Synod to take up a collection for the Widows' Fund on the third Sabbath in October, or any other convenient Sabbath, and the avails be immediately transmitted to the Treasurer of the Board of Corporation.

ARTICLE XX.

BOARD OF PUBLICATION.

A request was presented from the Corresponding Secretary of the Board of Publication, asking to be excused from preaching the sermon in behalf of the Board of Publication on the evening of the third day of the session.

Resolved, That the request be granted.

The Sixth Annual Report of the Board of Publication was received, read, and referred to the Committee on Publication.

The Report of the Treasurer of the Board of Publication was received and referred to the Committee on Publication.

The Committee on Publication reported, and their report was accepted, adopted, and is as follows:

The Committee, to whom were referred the papers relating to the Board of Publication, beg leave to report:

That an examination of the Report, and the statement of the Corresponding Secretary, enable us to form a correct view of the operations and present position of the Board. As the full report of the Board, of which we have only an abstract, is to be printed and widely

diffused among the churches, your committee will be excused from

lengthy statistical statements.

Whilst the work of the Board of Publication requires us to look at it according to strictly commercial rules, we must not overlook the high and glorious object which it proposes. It is advisable to consider its wants and claims in view of both of these considerations.

The Commercial or Business Aspect of this Board.

The receipts of the Board from collections in seventy-two churches amount to \$1,469.80. It is gratifying, even in view of this small amount, to know that more churches, by thirty, have contributed than ever before in one year. The entire receipts from all sources amount to \$22,810.84. This amount has been obtained from collections in churches, individual douations, sales, and from loans. It is to be deeply regretted that receipts from this last source so largely enter into the amount. Nor are these limited to ordinary business accommodations. The members of the Board constantly furnish money for the operations of the establishment. A corporation ought not to be obliged to resort to such expedients.

Even more deplorable than this is the fact, so honorable to the members of the Board, that they have given their personal notes as a collateral security in doing the work of the Synod. It is clearly manifest that the Board does not possess the credit necessary for it as a business

establishment.

Limited as it thus is, no capacity for the administration of its affairs can enable the Board to carry even its light burden of expenses. That the Board can live in its present condition is a sheer impossibility.

Publishing Department.

During the year, the Board has published about 25,000 copies of Books; besides Tracts, Minutes of Synods, Reports of the various Boards, and Sunday-school Proofs. The whole amounting to 6,287,382

pages

Among the most important of these publications is the new edition of the 12mo size of the Psalm and Hymn Book. The general execution of this work is creditable to our Board. A like improvement is to be hoped for in the 18mo size, which is promised to us in September next.

The committee has examined the copies of books submitted by the Board, and consider them well worthy of the Synod's endorsement. The volume of the Minutes of General Synod furnished us makes us more anxious than ever to see it followed by the second volume of the series. The set of books prepared for the various records and accounts needed by the churches are commended to general adoption and use. Both order and correctness will thus be promoted.

Capital needed by the Board.

There can be no question that the Board of Publication, like every other business establishment, manufacturing and selling goods, needs a capital. In view of the great want of the Board in this respect, we are surprised at two things: First, that the Board should have done so much; secondly, that the members of the Board should have kept up their operations so long by personal labor and sacrifice.

There is something melancholy in the announcement that members of the Board have given their individual notes as collateral security in conducting the work which the Church has appointed. These brethren have long been in the practice of making liberal donations of money, as well as time, and of loaning their funds. But we were hardly prepared to learn that their zeal would have carried them so far. Whilst we admire their course, they only temporarily secure to the Church the benefits of the Board—the Board itself is by no means strengthened. It waits a little longer for the helping hand which should long ago have been extended to it.

The Board presents a nominal balance in its favor of \$10,256.13. Of this sum, \$9,799.55 is represented by store fixtures, stereotype plates and boxes, wood-cuts and electrotypes. Were this nominal amount worth the sum represented, it would be mostly unavailable in the operations of the Board. But the deterioration of the plates by wear, and the want of market for new editions of books printed, constrain us to deduct largely from this truthful exhibit of what the Board

has expended upon its working stock.

The Board states the need of a capital of \$25,000. It must strike every one that some such amount is necessary to the comfortable and successful action of our Board. The unusual interest upon the sum named is less than the collections in the churches and individual donations during the past year, these having amounted to \$2,292.63. This latter sum has been entirely absorbed in the annual expenses of the operations, which amounted to \$2,367.60. The employment of a proper capital would enable the Board to pay its working expenses, whilst giving to the Church a large and varied amount of religious literature. But without it, the first page of a new book cannot be printed. The Church has no right to expect it. A loan or long-extended credit is almost indispensable to issue a new edition of the shortest tract upon our list. It is impossible to do more than adjourn the day of death to the Board, unless furnished with an actual cash capital.

The Claims of the Board upon the Church.

The first is a claim to be put in a proper working condition. As it is unpalatable to the churches to do this by annual collections, and as this mode of support is altogether capricious and unreliable, it is plaim that the only course to pursue is to endow the Board.

The object of this Board is to publish for the Church. The usual mode of exchanges, existing between publishing houses, by which they work off their issues, and give variety to their stock, adding to their

sales and profits, is not open to a Church Board. The excellence of what we paid on its shelves or obtain from its colporteurs must not be marred by anything of this kind. Our brethren in the Board of Publication do enough in making brick for us; we have no right to withhold the straw. In their present position, they imitate ancient Israel in gathering stubble wherever they can find it. They have a claim to the capital needed to carry on their work. This Board is the creature of the Synod—a willing servant to do the Synod's work. Either as parent or master, the Synod is bound to furnish the means requisite.

The Board has a second claim upon the churches—to furnish a market for its publications. Having chosen such works as are agreeable to the doctrines of the Church, it is little enough to ask that the way be opened for the distribution of these books. Thus the Church will receive back what she contributes; and the pious liberality which seeks the good of the Church through this channel will delight in the per-

formance of its work.

In what way the Board is to gain this object, whether by colportage, by local bookstores, or special agents, should be left to its own discretion. What concerns us is to give these publications to our congregations. Whether the Board enlarge its operations or not; indeed, whether the Board is to continue its existence or not, the churches need the excellent publications upon its shelves, or which could be multiplied from its stereotype plates. The productions of our ministry, which the Board has taken in haud to publish, are not properly brought to the families of the Church. To accomplish this, the pastors and Consistories must open the way more fully for the valuable religious publications issued by the Board.

Action proposed for the Synod.

Your committee would suggest the adoption of the following resolutions:

Resolved, That the thanks of the Church, and of this Synod, are eminently due to the members of the Board of Publication for their untiring efforts and their personal sacrifices in sustaining the operations of the Board.

Resolved, That in view of the wants of the Board, and the desirableness of its efficient action, we commend it to the churches, and especially to individuals to whom God has intrusted wealth, that the Board may receive the needed capital for its operations.

Resolved, That we approve the judgment of the Board of Publication, that at least \$25,000 will be needed as a capital for the opera-

tions of the Board.

Respectfully submitted.

PH. PELTZ, Chairman.

A communication was received from the Corresponding Secretary of the Young Men's Christian Association of Philadelphia, inviting the members of the Synod to visit their rooms, and use their library and periodicals, as may suit their convenience: whereupon, it was

An invitation was received for the Synod to visit the Academy of

Natural Sciences, which was accepted, with the thanks of the Synod for the same.

Resolved, That in all cases where a member of any one of our benevolent Boards shall fail to attend the Stated Meetings of such Board for a twelvemonth continuously, such failure shall be deemed a resignation of his office, and the Board shall have liberty to fill his place by a new appointment for the unexpired term.

The Rev. Peter II. Burghardt, Elbert Nevius, John G. Johnson, Nathaniel Conklin, and the Elder John V. A. Merrill, were appointed a Committee of Canvass, to whom the ballots cast for filling vacancies in the several Boards of the Synod, for corresponding delegates, and for a person to preach on the Benevolent Operations of the Church, were committed, who reported the result of the election.

Resolved, That the First Reformed Dutch Church of Buffalo be recommended to the benevolence of our churches, with the earnest hope that the application of said church for aid in securing a suitable edifice may be met by a willing and liberal response.

ARTICLE XXII.

BENEVOLENT AND RELIGIOUS INSTITUTIONS.

The Synod was addressed, on the third day of the session, by the Secretaries of the Board of Foreign Missions, the Board of Education, the Board of Publication, the Board of Domestic Missions, and the Board of Sabbath-School Union, in relation to the interests of those several Boards.

The Synod was addressed on the evening of the third day of the session on the subject of Foreign Missions, by the Rev. Dr. E. Doty, a returned missionary from China; in the course of his remarks he presented a salutation from the Church at Amoy, and also a letter from the Church of Chiobi to the General Synod.

Resolved, That the various Boards of our Church be requested, if practicable, to have their reports printed and ready for distribution at the opening of the meetings of Synod.

The Committee on Nominations having reported double the number of persons from whom to elect an individual to preach a sermon upon the benevolent operations of the Synod, Synod proceeded to the election, when the Rev. D. McL. Quackenbush was chosen *Primarius*, and the Rev. Isaac N. Wyckoff, D.D., Secundus.

Resolved, That the sermon in behalf of the benevolent operations of the Church be preached on the evening of the sixth day of the session. Resolved, That all the pastors and churches in connection with the Synod are hereby earnestly requested to regard its injunction that the last Thursday of February be observed as a day of special prayer for colleges and seminaries of learning, and that the pastors of the various churches preach upon the subject of Education on the Sabbath previous thereto.

ARTICLE XXV.

ACCOUNTS.

The Committee on Accounts reported, and their report was accepted, and is as follows:

The Committee on Accounts respectfully report to the Synod:

That in view of previous appropriations from the funds of the Synod for the mileage of the far Western members, and understanding that these members of the present Synod have come on, in expectation of a similar appropriation at this meeting, the committee would recommend such an appropriation, corresponding to that made last year, viz.:

"	"	Illinois	84	00
			\$276	00

The Classis of Wisconsin is this year omitted in this recommendation, because the present expenses of the delegate from that body are otherwise defrayed.

These sums the committee recommend to be divided between not more than three delegates from each Classis; and if there be less than

three delegates in attendance, then each delegate shall receive but one-

third of the sum thus appropriated.

This amount of mileage, it seems from past records, was so estimated as to bring the Western delegates on their way so far as the bounds of the Classis of Caynga, to put them on an equality with the delegates from the Eastern Churches.

The following bills have been presented:

For services of Sexton	\$12	00
" Stationery	10	06
" Printing Roll of Synod	4	00
" " Ballots	2	50
Amounting in all to	\$28	56

All of which they recommend to be paid.

Respectfully submitted.

JOHN G. HALL, Chairman.

ARTICLE XXVI.

RESUMPTION AND CLOSE.

Resolved, That the Stated Clerk publish 1,300 copies of the Minutes of this Synod, duly authenticated, and that he distribute among the Classes the number of copies directed by them.

Resolved, That the thanks of this Synod be given to the Consistory of this Church, for the use of their church building for the sessions of Synod, and also to the Consistory of the First Reformed Protestant Dutch Church of Philadelphia, for the use of their building for the Sermon on Foreign Missions, and to the Consistory of the Second Church for the use of their house for the Sermon on Domestic Missions

Resolved, That our thanks be given to the families of this city for their hospitality in entertaining the members of this body.

Agreeably to the standing rule of the Synod, the Roll was called at the close of the Session, when it appeared that the Rev. J. R. Van Arsdale, and the Elders Richard Walsh and Henry R. Furbeck, were absent without permission.

The Minutes were read and approved.
